| <b>6. Circuit Court Liabilities</b> |
|-------------------------------------|

As discussed in several prior audit reports, the Circuit Clerk does not prepare a monthly listing of liabilities. The most recent listing of liabilities was prepared as of December 31, 1995, and indicated the reconciled cash balance exceeded the listing by approximately \$3,065. The reconciled bank balance of the fee account was approximately \$25,275 at December 31, 1999.

Monthly listings of liabilities are necessary to ensure the proper disposition of cash balances. The periodic reconciliation of liabilities with the cash balance provides assurance that the records are in balance and that sufficient cash is available for payment of all liabilities. Timely reconciliations are necessary and helpful in the investigation of differences.

**WE RECOMMEND** the Circuit Clerk establish and maintain an accurate monthly listing of liabilities which can be reconciled to the appropriate accounting records.

## **AUDITEE'S RESPONSE**

*We will be implementing this recommendation when preparing the August 2000 bank reconciliation.*

|  |
|--|
| <b>7. Circuit Court Accrued Costs Records and Procedures</b> |
|--|

As similarly discussed in several prior audit reports, formal procedures have not been established to ensure all accrued costs (court costs, incarceration costs, court-ordered restitution, and fines) pertaining to criminal cases are adequately identified and pursued. A listing of accrued costs owed to the court is not maintained by the Circuit Clerk and monitoring procedures related to accrued costs are not adequate. When a case is closed and the costs determined, the Circuit Clerk prepares and sends a cost bill to the defendant. If payment is not received, the Circuit Clerk does not initiate any further collection procedures. In addition, summary records are not maintained of accrued cost balances and the Circuit Clerk does not periodically determine total accrued costs. An estimate of the total accrued costs could not be determined by the Circuit Clerk. By not adequately monitoring accrued costs, these costs could remain uncollected and might eventually result in lost revenue.

- A. Our review of criminal cases with accrued costs and the related billings prepared by the Circuit Clerk and sent to defendants, the state, or other counties revealed some concerns.
- 1) The Circuit Clerk maintains separate fee sheets for cases where amounts are still due. Our scan of these fee sheets identified twelve cases where payments were not being made as required by the court order. Additional follow up efforts appeared necessary, however, for eight of these cases appropriate actions had not been taken by the court to collect these costs from the defendant or bill the state when appropriate. As of March 2000, accrued costs related to these cases totaled approximately \$5,365.
  - 2) Section 221.105, RSMo Cumulative Supp. 1999, allows for the reimbursement of certain costs in criminal cases where the state has been rendered liable. The Sheriff is to certify the number of prisoner incarceration days and the Circuit Clerk is responsible for preparing and submitting cost bills to the state for reimbursement. The revenue generated by these billings is received by the county. Section 33.120, RSMo Cumulative Supp. 1999, requires all such bills to be submitted to the state's Office of Administration within two years of the date of judgment and sentence.

The Circuit Clerk does not submit criminal cost billings to the state for incarceration costs related to defendants where the court retained the option of granting probation to the defendant after 120 days pursuant to Section 559.115, RSMo Cumulative Supp. 1999. However, if the defendant violates

probation and returns to the Department of Corrections for the original sentence period the Circuit Clerk will then bill the state. Although it appears the Circuit Clerk's Office generally ensured that other applicable cases (non-120 day cases) were properly billed, we noted one such case for 1996, involving billable incarceration costs of \$3,526, which was never billed to the state. Since the two year time limit has expired on this case, this represents revenue which has been lost to the county. In addition, after we brought it to the Circuit Clerk's attention, a billing for a similar case with costs totaling \$682 was submitted to the state one day prior to the two year allowable period expiring.

- 3) Criminal cost billings prepared by the Circuit Clerk and sent to defendants, the state, or other counties are not always completed properly. For 10 of 22 cost billings tested, the incorrect number of days of incarceration or the incorrect cost per day were used in the computation. This resulted in the county both over and under billing for some cases with a net over billing of approximately \$1,500. Problems resulted from errors made by both the Circuit Clerk's office and Sheriff's department. For some cases, the Sheriff's department submitted amended certifications to the court; however, amended billings were not prepared. The Circuit Clerk needs to ensure the number of incarceration days is correct and in agreement with the Sheriff's certification, and that the proper billing rate is utilized in the computation. Careful scrutiny of billing information by both the Circuit Clerk and Sheriff would provide the county with greater assurance that it is being reimbursed properly.

To ensure criminal cost reimbursements received by the county are maximized and amounts are correct, all allowable costs should be billed in a timely manner, cost billings should be thoroughly examined for accuracy by the Circuit Clerk, and all methods available to the court to pursue unpaid costs should be exercised regularly and timely.

- B. When an order of probation or a specified court order includes the payment of victim restitution, the Circuit Judge may order that the restitution be paid through the Sheriff's department. While reviewing the restitution case files at the Sheriff's department it was determined that there was approximately \$88,000 in outstanding restitution due as of February 2000. Our review of thirteen of these restitution case files (which account for approximately \$67,000 or 76 percent of the February 2000 outstanding restitution total) revealed that ten defendants were not making payments in accordance with their order of probation or specified court order. Of the ten defendants that were not making payments, two were on probation under the supervision of the court, one was never placed on probation, and seven were under the supervision of a probation and parole officer. Our review of the related case files noted some concerns.

- 1) For the two defendants under court supervision payments were not being made as ordered and appropriate follow-up action was not taken. For one of these cases \$2,216 of restitution and \$476 of court costs were due from 1992. Three payments totaling \$100 were made during 1992. For the other case the defendant was ordered to pay full restitution totaling \$1,305 within sixty days in 1991. No payments have been made. Despite the lack of payment, there is no evidence in either of these case files of further efforts by the Sheriff or Circuit Court to pursue monies due.
- 2) In May 1995 a defendant pled guilty and was ordered to pay fines and court costs of \$634 and restitution of \$3,149 within thirty days. This defendant was not placed on probation. While case records indicate the fines and court costs were paid during 1995, there was no evidence that restitution was paid or appropriate follow-up action taken.
- 3) For defendants placed on supervised probation and required to report to a Department of Corrections probation and parole officer, regular case summary reports are to be filed with the court. These reports indicate whether or not the defendants are adhering to the conditions of probation. In addition, if the defendant violates any of the conditions of probation, a violation report should be filed with the court. Upon signing the order of probation, the defendant is made aware that a violation of probation could result in executing the original sentence.

A review of file documentation pertaining to three of these cases indicated that regular case summary reports and violation reports were on file and included various recommendations made by probation and parole officers, some of which were intended to improve the possibility of collecting more or all of the unpaid restitution or to further penalize the defendant for lack of payment. There was no documentation in these files to document the court's consideration of these recommendations and reasons for not applying them. In addition, there was no documentation that the court actively pursued other options available to collect restitution monies owed. These defendants were discharged from probation during 1993, 1996, and 1998, with significant restitution balances of \$8,532, \$4,145, and \$12,000 still owed.

A review of file documentation pertaining to the other four cases where defendants were on supervised probation indicated no particular concerns regarding the court's actions.

From our review it appeared the court did not always use various options available to collect unpaid monies, including probation and parole officer recommendations, periodic rebillings, show cause orders, and requesting the Circuit Judge to issue warrants. In addition, the Circuit Clerk and Sheriff need to improve communications

regarding the status of restitution cases to ensure that the court can implement appropriate actions in a timely manner. Ineffective monitoring of cases with accrued costs and the failure to utilize available options in a timely manner can result in lost revenues.

To ensure that all applicable monies are received by the Circuit Court and/or Sheriff's department, formal procedures should be established and records of accrued cost balances should be maintained. These records should be periodically reviewed to ensure that accrued costs are identified and followed up on in a timely manner.

**WE RECOMMEND** the Circuit Clerk:

- A.1. Establish adequate procedures to monitor and collect accrued costs.
- 2. Take timely action to ensure any unbilled costs pertaining to past 120 day cases are billed to the state before the two-year time limit expires. In addition, in the future, the Circuit Clerk should ensure all billable criminal costs are billed to the state on a timely basis.
- 3. Work with the Sheriff to ensure the accuracy of cost billings to defendants and other political subdivisions.
- B. Work with the Circuit Judge and Sheriff to ensure that the status of cases with restitution balances are monitored and all appropriate actions are taken to pursue any unpaid amounts due.

**AUDITEE'S RESPONSE**

- A.1. *I have started placing defendants with accrued case costs on the Circuit Judge's show cause docket. If the defendant fails to appear in court a warrant is issued for their arrest with a bond that is set in excess of the accrued case costs to cover the costs of issuing the arrest warrant.*
- 2. *I will immediately bill all applicable costs to the state and will try to recover the costs from the defendant if they should happen to be placed on probation.*
- 3. *I will immediately begin working with the Sheriff to ensure the accuracy of the cost billings. However, if there is an error on a cost billing that is submitted to the state the state will correct the error and send the appropriate reimbursement.*
- B. *A copy of all probation violation reports is submitted to the Circuit Judge, the Prosecuting Attorney, and retained by my office. I will discuss the violation reports with the Circuit Judge to determine his expectations concerning these cases and violation reports in general.*

## **AUDITOR'S COMMENT**

- A.3. Errors were noted in billings to defendants and other political subdivisions, not just billings to the state. If inappropriate information regarding dates of incarceration are submitted to the state, errors may not be detected. The court should not rely on the state to correct its errors.

|--|
| <b>8. Sheriff's Accounting Records, Controls, and Procedures</b> |
|--|

During our review of the Sheriff's office we noted the following areas of concern in the accounting controls and procedures:

- A.1. Accounting and record keeping duties are not properly segregated. All employees in the sheriff's department collect receipts and have access to monies received. The bookkeeper, who has primary responsibilities for collecting receipts, also prepares and makes deposits, prepares checks, maintains the various records, and performs month-end reconciliations. Neither the Sheriff nor anyone else independent of these processes performs periodic comparisons of receipts records to deposits or reviews the month-end reconciliations.
2. The sheriff's department also receives monies from employees and visitors for the purchase of snacks and sodas. The monies received from the sales are not properly controlled or accounted for and are simply placed in cans in the booking area.

To establish accountability and adequately protect monies from loss, theft or misuse, monies should be secured in a location with access limited to the individual responsible for the monies, records should be maintained for all monies received, and independent reviews of the monthly bank reconciliations and comparisons of deposits and accounting records performed.

- B. The Chariton County Sheriff's Department receives personal monies for inmates and operates a commissary to purchase snacks and soda for prisoners. During our review of procedures relating to these monies, we noted the following concerns:
- 1) Although prenumbered receipt slips are issued when prisoner monies are received, the method of payment is not always indicated on the receipt slips and they are not properly controlled and accounted for.
  - 2) Each prisoner has his/her own ledger sheet which records information such as deposits, purchases, and balance. Although these subsidiary ledger sheets are maintained, they are not reconciled to the inmate bank account balance.

Upon our request, a March 9, 2000, listing of individual inmate balances was prepared. The listing revealed a difference of approximately \$38 between the bank balance and the Sheriff's subsidiary records.

- 3) Snack and soda inventories are purchased with county General Revenue Fund monies. However, a periodic comparison of county purchases to total sales (comprised of sales to inmates and sales to employees and visitors as discussed above in A.2.) and monies periodically remitted to the County Treasurer is not performed.

To help ensure that all monies are properly received and accounted for, and to reduce the risk of loss or misuse of funds, receipt slips should indicate the method of payment, they should be properly controlled, and their numerical sequence should be properly accounted for. To also assist in accounting for monies received, a listing of individual inmate balances should be prepared and maintained to explain bank balances. In addition, periodic comparisons of county purchases to sales and transmittals are needed to better account for items sold, evaluate the reasonableness of any profits made, and account for monies transmitted to the County Treasurer.

**WE RECOMMEND** the Sheriff:

- A. Limit the access to monies received, maintain records of all monies received and disbursed, compare the composition of receipts to deposits, and properly review and approve the monthly bank reconciliations.
- B.1. Indicate the method of payment on all receipt slips, properly control receipt slips, and properly account for their numerical sequence.
2. Investigate the reason for the unreconcilable difference between the subsidiary ledger sheets and inmate account and prepare a monthly listing of individual inmate balances to document what comprises the bank balance.
3. Perform periodic comparisons of county purchases to overall sales and transmittals to the County Treasurer.

**AUDITEE'S RESPONSE**

- A. *I will designate a person per shift to take money and issue receipt slips. I will also designate an alternate person to receive money. Although the report states that I do not perform periodic comparisons of records, I do look over records every quarter. I will start to initial each record after I check them.*
- B.1. *We will write on each receipt slip if we received cash, check, or money order, and put the check or money order number on the receipt slip. Receipt slips will be properly accounted*

*for.*

2. *I will investigate the \$38 and ensure a listing of inmate balances is prepared each month.*
3. *I will work with the County Treasurer on this each quarter, rather than yearly as is done at this time.*

*All of the recommendations will be implemented during August 2000.*

This report is intended for the information of the management of Chariton County, Missouri, and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on Prior Audit Findings

## CHARITON COUNTY, MISSOURI FOLLOW-UP ON PRIOR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Chariton County, Missouri, on findings in the Management Advisory Report (MAR) of our prior audit report issued for the two years ended December 31, 1997. The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR.

### 1. County Financial Statements and Commission Minutes

- A. The county's published financial statements did not include activity for the Health Center Fund or the Senate Bill 40 Board Fund.
- B. The County Commission did not approve meeting minutes until they were entered into the official record book and the County Clerk had not typed the minutes into the official record book since September 18, 1995. The unofficial handwritten notes from the meetings were kept by one of the commissioners and did not always include a record of commissioners present or absent, or a record of votes taken.

#### Recommendation:

The County Commission:

- A. Ensure the published financial statements include all county funds as required by state law.
- B. Ensure a complete record of commission meetings is made and approved on a timely basis.

#### Status:

- A. Implemented.
- B. Not implemented. See MAR No. 1.

### 2. County Expenditures

- A. Bids were not always solicited nor was the selection process always documented for various purchases made by the county.
- B. The county did not issue Forms 1099-MISC.
- C. The county's procedures for making repairs and improvements to drainage districts did not comply with state law.

- D. The county provided funding totaling \$11,188 to three local public service organizations without entering into written agreements with those organizations.

Recommendation:

The County Commission:

- A. Solicit bids for all purchases in accordance with state law and maintain adequate documentation of all bids obtained. If bids cannot be obtained and sole source procurement is necessary, the County Commission minutes should reflect the circumstances.
- B. Establish procedures to ensure IRS Forms 1099-MISC are issued as required by the Internal Revenue Code.
- C. Ensure repairs and improvements are made to drainage districts in accordance with state law.
- D. Refrain from providing public funds to local public service organizations unless the funding is provided under written agreements which adequately detail the duties and responsibilities of the parties.

Status:

A&C. Not implemented. See MAR No. 2.

B&D. Implemented.

3. General Fixed Assets

- A. An annual inventory of all general fixed assets and quarterly inspections of all lands and buildings were not being conducted by the County Clerk.
- B. The property records did not contain totals.
- C. County asset items were not numbered, tagged, or otherwise identified as county property.

Recommendation:

The County Clerk:

- A. Perform an annual inventory of all general fixed asset items and quarterly inspections of buildings and land in accordance with Section 51.155, RSMo 1997 Cum. Supp. Records should be maintained to document the inventory and inspections.
- B. Provide control totals in the general fixed asset records and reconcile additions and deletions to fixed asset purchases and dispositions to ensure the accuracy of the fixed asset records.
- C. Tag or otherwise identify each property item as being property of Chariton County.

Status:

- A,B,  
&C. Not implemented. However, legislation passed in 1999 changed responsibilities for county officials concerning fixed asset records. For related comments, see MAR No. 3.

4. Circuit Clerk's Accounting Records, Controls, and Procedures

- A. No formal procedures had been established to ensure all accrued costs are adequately identified and pursued.
- B.1. The Circuit Clerk did not prepare a monthly listing of liabilities.
  - 2. Old, inactive cases dating back twenty years or more had not yet been disbursed.
- C. The Circuit Clerk did not follow up on outstanding checks.

Recommendation:

The Circuit Clerk:

- A. Establish adequate procedures to follow up and collect costs that accrue to the court.
- B.1. Establish and maintain an accurate monthly listing of liabilities which can be reconciled to the appropriate accounting records. An attempt should be made to investigate the unidentified monies and any monies remaining unidentified should be disbursed in accordance with state statute.
  - 2. Along with the Circuit Judge, review the older cases and determine the appropriate disposition of inactive cases.
- C. Attempt to resolve the old outstanding checks and establish routine procedures to investigate checks outstanding for a considerable time.

Status:

- A. Partially implemented. The Circuit Clerk follows up on civil cases. However, proper follow-up is not performed for criminal cases. See MAR No. 7.
- B.1. Not implemented. See MAR No. 6.
- B.2.
- &C. Implemented.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

CHARITON COUNTY, MISSOURI  
HISTORY, ORGANIZATION,  
AND STATISTICAL INFORMATION

Organized in 1820, the county of Chariton was named after the Chariton River or possibly after John Charvette, a fur trader who drowned in what is now the Chariton River. Chariton County is a township-organized, third-class county and is part of the Ninth Judicial Circuit. The county seat is Keytesville.

Chariton County's government is composed of a three-member county commission and separate elected officials performing various tasks. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials.

Principal functions of these other officials relate to judicial courts, law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records of importance to the county's citizens.

Counties typically spend a large portion of their receipts to support general county operations and to build and maintain roads and bridges. The following chart shows from where Chariton County received its money in 1999 and 1998 to support the county General Revenue and Special Road and Bridge Funds:

| SOURCE                    | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| Property taxes            | \$ 264,529   | 14         | 263,363   | 11         |
| Sales taxes               | 216,255      | 11         | 269,800   | 11         |
| Federal and state aid     | 1,154,496    | 61         | 1,672,293 | 67         |
| Fees, interest, and other | 267,386      | 14         | 291,916   | 11         |
| Total                     | \$ 1,902,666 | 100        | 2,497,372 | 100        |

The following chart shows how Chariton County spent monies in 1999 and 1998 from the General Revenue and Special Road and Bridge Funds:

| USE                       | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| General county government | \$ 805,229   | 39         | 712,280   | 28         |
| Public safety             | 531,873      | 25         | 517,875   | 20         |
| Highways and roads        | 751,223      | 36         | 1,310,296 | 52         |
| Total                     | \$ 2,088,325 | 100        | 2,540,451 | 100        |

In addition, Chariton County has a Law Enforcement Sales Tax Fund, with sales tax and interest receipts of \$258,110 and \$243,097 and disbursements of \$156,166 and \$140,231, for the years ended December 31, 1999 and 1998, respectively. This fund is being used to make interest and principal payments related to the jail building lease-purchase agreement.

The county maintains approximately 225 county bridges and the townships maintain approximately 800 miles of county roads.

The county's population was 11,084 in 1970 and 9,202 in 1990. The following chart shows the county's change in assessed valuation since 1970:

|                        |    | Year Ended December 31, |      |       |        |        |
|------------------------|----|-------------------------|------|-------|--------|--------|
|                        |    | 1999                    | 1998 | 1985* | 1980** | 1970** |
|                        |    | (in millions)           |      |       |        |        |
| Real estate            | \$ | 44.8                    | 41.5 | 46.2  | 28.4   | 22.3   |
| Personal property      |    | 22.8                    | 21.9 | 10.9  | 11.2   | 6.7    |
| Railroad and utilities |    | 30.7                    | 31.3 | 31.8  | 24.5   | 20.1   |
| Total                  | \$ | 98.3                    | 94.7 | 88.9  | 64.1   | 49.1   |

\* First year of statewide reassessment.

\*\* Prior to 1985, separate assessments were made for merchants' and manufacturers' property. These amounts are included in real estate.

Chariton County's property tax rates per \$100 of assessed valuations were as follows:

|                           |    | Year Ended December 31, |      |
|---------------------------|----|-------------------------|------|
|                           |    | 1999                    | 1998 |
| General Revenue Fund      | \$ | .30                     | .28  |
| Health Center Fund        |    | .10                     | .10  |
| Senate Bill 40 Board Fund |    | .05                     | .05  |

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and payable by December 31. Taxes paid after December 31 are subject to penalties. The county and townships bill and collect property taxes for themselves and most local governments. Taxes collected were distributed as follows:

|                              |    | Year Ended February 28(29), |                  |
|------------------------------|----|-----------------------------|------------------|
|                              |    | 2000                        | 1999             |
| State of Missouri            | \$ | 29,713                      | 28,164           |
| General Revenue Fund         |    | 310,634                     | 283,798          |
| Special Road and Bridge Fund |    | 696,968                     | 658,710          |
| Assessment Fund              |    | 51,670                      | 45,038           |
| Health Center Fund           |    | 97,154                      | 92,882           |
| Senate Bill 40 Board Fund    |    | 49,198                      | 47,031           |
| School districts             |    | 3,573,364                   | 3,361,822        |

MONTGOMERY COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-90  
September 14, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

September 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Montgomery, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of Montgomery County included additional areas of county operations, as well as the elected county officials. Some of the current recommendations are similar to prior recommendations that were not implemented by county officials. The following concerns were noted as part of the audit:

- During the two years ended December 31, 1999, the General Revenue Fund's cash balances were maintained at significantly low levels. Additionally, based on the county's budget for the year ended December 31, 2000, the ending cash balance of the General Revenue Fund is projected to be only \$5,300. While receipts increased significantly in 1998, disbursements have steadily risen each year. The county has not been able to set aside any of the increased receipts, but has used those additional funds. The audit report suggested that the County Commission consider various alternatives of increasing receipts or decreasing disbursements to improve the financial condition and maintain an adequate cash reserve.
- Calculation errors were made in the apportionments of the 1997, 1998, and 1999 railroad and utility taxes. Erroneous information used in 1997 was carried forward, causing the 1998 and 1999 errors.
- The County does not have a procedure in place to track federal awards for preparation of the schedule of federal awards. The information presented by the County Clerk for some of the programs did not agree with the county's expenditure records. Without a timely and accurate schedule, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.

As in the prior audit report, the audit also included recommendations to improve records and procedures for fixed assets. Also, included in the audit are recommendations to improve the accounting controls and procedures for the Circuit Clerk, Associate Circuit/Probate Division, Prosecuting Attorney, and Sheriff.

**Copies of the audit are available upon request.**

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Montgomery County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Montgomery County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Montgomery County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Montgomery County.

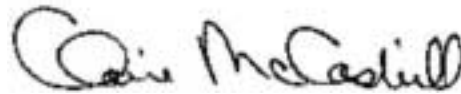

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Montgomery County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended

December 31, 1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated June 14, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the management of Montgomery County, Missouri, and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" being more prominent than the last name "McCaskill".

Claire McCaskill  
State Auditor

June 14, 2000 (fieldwork completion date)

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Montgomery County, Missouri

We have audited the special-purpose financial statements of various funds of Montgomery County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated June 14, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

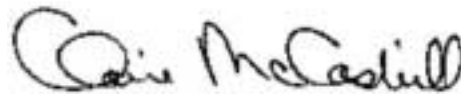

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Montgomery County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance which are described in the accompanying Management Advisory Report.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Montgomery County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not

necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting which are described in the accompanying Management Advisory Report.

This report is intended for the information of the management of Montgomery County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

The accompanying Notes to the Financial Statements are an integral part of this statement.

## Notes to the Financial Statements

MONTGOMERY COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Montgomery County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, or the Health Center Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>                      | <u>Years Ended December 31,</u> |
|----------------------------------|---------------------------------|
| Law Enforcement Block Grant Fund | 1999                            |
| POST Commission Fund             | 1999 and 1998                   |
| Children's Trust Fund            | 1998                            |
| Law Library Fund                 | 1998                            |
| Circuit Clerk Interest Fund      | 1998                            |
| Associate Circuit Interest Fund  | 1998                            |

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>                         | <u>Years Ended December 31,</u> |
|-------------------------------------|---------------------------------|
| Emergency Preparedness Fund         | 1999                            |
| Sheriff's Operation Fund            | 1999                            |
| Prosecuting Attorney Bad Check Fund | 1998                            |
| Local Emergency Planning Fund       | 1998                            |
| Law Enforcement Block Grant Fund    | 1998                            |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

The county's published financial statements for the years ended December 31, 1999 and 1998, included all funds presented in the accompanying financial statements.

2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depositary accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The financial statements do not include the cash balances of the County Collector, who collects and distributes property taxes as an agent for various local governments. However, for the purpose of these risk disclosures, the County Collector's cash balances are included since collateral securities to cover amounts not covered by federal depositary insurance are pledged to the county rather than to specific county officials.

Of the county's bank balance at December 31, 1999, \$1,121,219 was covered by federal depositary insurance or by collateral securities held by the county's custodial bank in the county's name and \$3,563,991 was covered by collateral pledged by one bank and held by a correspondent bank but not in the county's name.

Of the county's bank balance at December 31, 1998, \$1,017,747 was covered by federal depositary insurance or by collateral securities held by the county's custodial bank in the county's name and \$2,689,258 was covered by collateral pledged by one bank and held by a correspondent bank but not in the county's name.

The Health Center's deposits at December 31, 1999 were entirely covered by federal depositary insurance.

Of the Health Center's bank balance at December 31, 1998, \$155,679 was covered by federal depositary insurance and \$2,211 was covered by collateral pledged by one bank and held by a correspondent bank but not in the Health Center Board's name.

N/A - Not applicable

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

MONTGOMERY COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Montgomery County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Amounts for the Donation of Federal Surplus Personal Property Program (CFDA number 39.003) represent the estimated fair market value of property at the time of receipt.

Of the pass-through amounts for the Immunization Grants program (CFDA number 93.268), \$16,111 and \$9,629, represent the original acquisition cost of other vaccines purchased by the Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), \$192 and \$250 represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$959 and \$875 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants, the Preventive Health and Health Services Block Grant, and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

2. Subrecipients

The county provided no federal awards to subrecipients during the years ended December 31, 1999 and 1998.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Montgomery County, Missouri

Compliance

We have audited the compliance of Montgomery County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the years ended December 31, 1999 and 1998. The county's major federal program is identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal program is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

In our opinion, Montgomery County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the years ended December 31, 1999 and 1998. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance with

OMB Circular A-133 and which is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

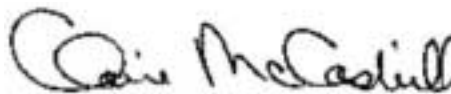

#### Internal Control Over Compliance

The management of Montgomery County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted a certain matter involving the internal control over compliance and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the county's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. The reportable condition is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we do not believe that the reportable condition described above is a material weakness.

This report is intended for the information of the management of Montgomery County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, appearing to read "Claire McCaskill".

Claire McCaskill  
State Auditor

## Section II - Financial Statement Findings

This section includes no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

## Section III - Federal Award Findings and Questioned Costs

This section includes the audit finding that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

|  |
|--|
| <b>99-1.                                      Schedule of Expenditures of Federal Awards</b> |
|--|

Federal Grantor: U.S. Department of Transportation

Pass-Through Grantor: State Highway and Transportation Commission

Federal CFDA Number: 20.205

Program Title: Highway Planning and Construction

Pass-Through Entity

Identifying Number: BRO 070(10)

Award Year: 1999

Questioned Costs: Not applicable

Section .310(b) of Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, requires the auditee to prepare a schedule of expenditures of federal awards (SEFA) for the period covered by the auditee's financial statements. The county is required to submit the SEFA to the State Auditor's Office as part of the annual budget.

The County does not have a procedure in place to track federal awards for preparation of the SEFA. The county did not prepare and submit a SEFA to the State Auditor's Office for the year ended December 31, 1998. The county prepared a SEFA for the year ended December 31, 1999; however, the schedule included only six of the twelve federal programs in which the county participated during the year. In addition, the information presented by the County Clerk for some of the programs did not agree with the county's expenditure records.

Without a timely and accurate SEFA, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.

**WE RECOMMEND** the County Clerk prepare a complete and accurate schedule of expenditures of federal awards and submit the schedule to the State Auditor's Office as a part of the annual budget.

**AUDITEE'S RESPONSE AND PLAN FOR CORRECTIVE ACTION**

*The County Commission and the County Clerk responded as follows:*

*We concur with this recommendation. The County Clerk will request information regarding federal funds from all county officials by letter during preparation of the county budgets and SEFA schedule. This recommendation will be implemented when the next SEFA schedule is prepared in January 2001.*

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

MONTGOMERY COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

MONTGOMERY COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Findings

MONTGOMERY COUNTY, MISSOURI  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S FINDINGS

We have audited the special-purpose financial statements of various funds of Montgomery County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated June 14, 2000. We also have audited the compliance of Montgomery County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the years ended December 31, 1999 and 1998, and have issued our report thereon dated June 14, 2000.

We also have reviewed the operations of elected officials with funds other than those presented in the special-purpose financial statements. As applicable, the objectives of this review were to:

1. Determine the internal controls established over the transactions of the various county officials.
2. Review and evaluate certain other management practices for efficiency and effectiveness.
3. Review certain management practices and financial information for compliance with applicable constitutional, statutory, or contractual provisions.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed accounting and bank records and other pertinent documents and interviewed various personnel of the county officials.

As part of our review, we assessed the controls of the various county officials to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Because the Montgomery County Developmental Disabilities Assistance Board is audited and separately reported on by other independent auditors, the related fund is not presented in the special-purpose financial statements. However, we reviewed that audit report and the substantiating working papers for the years ended December 31, 1998 and 1997.

Our review was limited to the specific matters described in the preceding paragraphs and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our findings arising from our review of the elected county officials and the county board referred to above. In addition, this report includes findings other than those, if any, reported in the accompanying Schedule of Findings and Questioned

Costs. These findings resulted from our audit of the special-purpose financial statements of Montgomery County but do not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*.

|           |                                   |
|-----------|-----------------------------------|
| <b>1.</b> | <b>County Financial Condition</b> |
|-----------|-----------------------------------|

Our prior report for the two years ended December 31, 1997, indicated that Montgomery County's General Revenue Fund was experiencing declining cash balances and increasing disbursements. Similarly, during the two years ended December 31, 1999, the General Revenue Fund's cash balances were also maintained at significantly low levels, and increases in receipts were consumed by corresponding increases in disbursements. The following chart shows General Revenue Fund receipts, disbursements, interfund loan transactions, and cash balances for the three years ended December 31, 1999.

|  |    | Year Ended December 31, |                  |              |
|--|----|-------------------------|------------------|--------------|
|  |    | 1999                    | 1998             | 1997         |
| Cash Balance, January 1                | \$ | 76,704                  | 6,911            | 147,698      |
| Receipts                               |    | 1,704,121               | 1,632,378        | 1,142,104    |
| Loans from Capital Improvement fund    |    | 0                       | 105,000          | 65,000       |
| Disbursements                          |    | (1,683,015)             | (1,567,585)      | (1,347,891)  |
| Repayments to Capital Improvement Fund |    | <u>(70,000)</u>         | <u>(100,000)</u> | <u>0</u>     |
| Cash Balance, December 31              | \$ | <u>27,810</u>           | <u>76,704</u>    | <u>6,911</u> |

Based on the county's budget for the year ended December 31, 2000, the ending cash balance of the General Revenue Fund is projected to be only \$5,300. The low cash balances have led to periodic cash flow problems and interfund borrowing. In addition, in 1998 the Commission temporarily laid off some employees paid by the General Revenue Fund; however, these employees were subsequently rehired or replaced. The County Commission indicated that the new jail, which became operational and revenue producing in the spring of 1998, has succeeded in producing a positive cash flow to supplement the General Revenue Fund. As evidenced by the preceding table, while receipts increased significantly in 1998, disbursements have steadily risen each year. The county has not been able to set aside any of the increased receipts, but has used those additional funds. The County Commission has not made any significant long term reductions in discretionary disbursements or increases in other receipts during the two years ended December 31, 1999 as recommended in our prior report.

The County Commission should review discretionary disbursements to ensure efficient use of resources available to the county and to determine if long term reductions in discretionary

disbursements are possible. In addition, the County Commission should attempt to maximize receipts from all sources.

**WE AGAIN RECOMMEND** the County Commission consider various alternatives of increasing receipts and/or reducing disbursements to ensure that the General Revenue Fund's financial condition improves and is able to maintain an adequate operating cash reserve.

### **AUDITEE'S RESPONSE**

*We agree with the recommendation. We do continually scrutinize the budgets and operations of the county. We will continue to pursue other receipt sources and methods of controlling and reducing discretionary disbursements as much as possible. We also feel a new sales tax issue, possibly restricted for law enforcement, will need to be considered for presentation to the voters in order to provide additional resources and free up other general revenue money to establish and maintain an adequate operating cash reserve.*

## **2. Apportionment of Railroad and Utility Taxes**

During our review, we noted calculation errors in the apportionments of the 1997, 1998, and 1999 railroad and utility taxes. The county began using new software in 1997 to make these calculations. Erroneous information used that year was carried forward, also causing the 1998 and 1999 errors. These errors resulted in incorrect payments to the various school districts. The following table indicates the total amounts over or (under) paid to the various school districts for 1997, 1998, and 1999 tax collections:

| <u>School District</u>    | <u>Over (Under) Paid</u> |
|---------------------------|--------------------------|
| Community R-VI            | \$ 1,449                 |
| Gasconade Co. R-I         | 26,666                   |
| Troy R-III                | 243                      |
| Wellsville Middletown R-I | 26,775                   |
| Montgomery County R-II    | (55,133)                 |

**WE RECOMMEND** the County Clerk consult with the various school districts and the Missouri Department of Elementary and Secondary Education for guidance on how to correct these past errors.

### **AUDITEE'S RESPONSE**

*I agree with this recommendation. I have already contacted each of the school districts to notify them of the errors and am in the process of working out arrangements for repayments. At this point, I cannot determine when this issue will be fully resolved.*

The County Commission or its designee is responsible for maintaining a complete detailed record of county property. Currently, the County Clerk maintains a computerized inventory listing of fixed assets held by county officials. Our review of the fixed asset records and control procedures noted the following concerns:

- A. The computerized listing is provided to each officeholder, who is then responsible for conducting the physical inventory in his/her office. The County Clerk indicated that he or his staff perform procedures to verify the accuracy of the physical inventories to the fixed asset records. However, the last physical inventory was completed December 1997.
- B. Additions and deletions of fixed assets are not recorded in the property control records as they occur. The fixed assets purchased during the two years ended December 31, 1999 were not included on the fixed asset records. In addition, fixed asset purchases per the expenditure records are not reconciled to additions per the inventory records.
- C. Fixed assets are not numbered, tagged, or otherwise identified as county property immediately upon receipt. Properly tagged items help improve accountability and assure the county that all county property is identified as belonging to the county.

Adequate general fixed asset records are necessary to secure better internal control over county property, meet statutory requirements, and provide a basis for determining proper insurance coverage required on county property. Physical inventories of county property are necessary to ensure the fixed asset records are accurate, identify any unrecorded additions and deletions, detect theft of assets, and identify obsolete assets.

Effective August 28, 1999, Section 49.093, RSMo Cumulative Supp. 1999, provides the county officer of each county department shall annually inspect and inventory county property used by that department with an individual original value of \$250 or more and any property with an aggregate original value of \$1,000 or more. After the first inventory is taken, an explanation of material changes shall be attached to subsequent inventories. All remaining property not inventoried by a particular department shall be inventoried by the county clerk. The reports required by this section shall be signed by the county clerk.

Similar conditions were noted in the prior report.

**WE RECOMMEND** the County Commission establish a written policy related to the handling and accounting for general fixed assets. In addition to providing guidance on accounting and record keeping, the policy could include necessary definitions, address important dates, establish standardized forms and reports to be used, discuss procedures for the handling of asset disposition, and any other concerns associated with county property. In addition all general fixed assets should be tagged or identified as county-owned property.

## **AUDITEE'S RESPONSE**

*We agree with this recommendation and will establish a written policy regarding fixed assets within two months. We also will require an inventory to be performed in October 2000, and during that inventory process we will attempt to identify and tag all applicable county fixed assets.*

|   |
|---|
| <b>4. Circuit Clerk's Controls and Procedures</b> |
|---|

The Circuit Clerk is responsible for assessing, collecting, and distributing monies in connection with circuit court proceedings. Receipts totaled approximately \$92,000 and \$94,000 during the years ended December 31, 1999 and 1998, respectively. Our review of the Circuit Clerk's records and procedures noted the following concerns:

- A. Receipts are not deposited on a timely basis. During the two months reviewed, receipts were deposited approximately six times per month. To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, deposits should be made daily or when accumulated receipts exceed \$100.
- B. The Circuit Clerk and Associate Circuit/Probate Division offices are participating in a pilot project for the state's BANNER court financial and case management computer system. The Circuit Clerk's financial data went on-line with BANNER in January 1998.

Formal bank reconciliations for the fee account are not prepared on a timely basis. As of June 2000, bank reconciliations have not been prepared since June 1999. The Circuit Clerk indicated that bank reconciliations for the new BANNER account are to be prepared by the Office of the State Courts Administrator (OSCA) and sent to the county. In addition, she stated that she contacted OSCA numerous times and the reconciliations could not be prepared due to problems with the BANNER system that occurred during a system upgrade in December 1999. The Circuit Clerk has not maintained any manual records to compensate for the BANNER system problems and has not attempted to perform any manual reconciliations between the bank information and system transactions processed by her office.

Timely preparation of bank reconciliations is necessary to ensure accounting records and bank records are in agreement, allow for the timely correction of errors, and provide the basis for a monthly comparison of cash balances to open items listings.

### **WE RECOMMEND** the Circuit Clerk:

- A. Deposit receipts daily or when accumulated receipts exceed \$100.
- B. Ensure formal bank reconciliations are prepared on a monthly basis. Any differences should be investigated and resolved in a timely manner.

### **AUDITEE'S RESPONSE**

- A. *I agree that the deposits were not always timely, but I was told by OSCA because of the problems with BANNER to not deposit some evenings until BANNER deposits and actual deposits agreed. Most of these problems have been corrected and we are now again making the regular deposits as of about August 14, 2000.*
- B. *The statement that manual records should have been done to compensate for OSCA not completing the bank reconciliations was not possible. I was informed to not do manual records by OSCA and that the problems with BANNER were being corrected and then bank reconciliations would be completed.*

|   |
|---|
| <b>5. Associate Circuit /Probate Division's Controls and Procedures</b> |
|---|

The Associate Circuit/Probate Division processed receipts for civil cases, criminal cases, traffic tickets, bonds, and probate cases. Receipts totaled approximately \$350,000 and \$355,000 for the years ended December 31, 1999 and 1998, respectively. We noted the following concerns regarding Associate Circuit/Probate Division operations:

- A. Receipts are not deposited timely. During the months reviewed we noted deposits were made approximately five times per month. In addition, bond monies received from the Sheriff's Office are held until charges are filed by the Prosecuting Attorney. To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, deposits should be made intact daily or when the accumulated receipts exceed \$100.
- B. Accounting duties are not adequately segregated. Two individuals are primarily responsible for receiving, disbursing, and depositing monies, preparing bank reconciliations, and maintaining the accounting records. There were no documented reviews of the accounting records performed by the Associate Circuit/Probate Division Judge.

Proper segregation of duties helps ensure that all transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by having one clerk prepare the daily cash reconciliations and deposit the monies and having the other clerk vouch the daily closeout and prepare the bank reconciliation. If proper segregation of duties cannot be achieved, at a minimum, periodic independent reviews of the records should be performed and documented.

**WE RECOMMEND** the Associate Circuit/Probate Division:

- A. Ensure that deposits are made intact daily or when accumulated receipts exceed \$100.
- B. Segregate accounting duties to the extent possible or ensure periodic independent reviews are performed and documented.

## **AUDITEE'S RESPONSE**

*The Associate Circuit Judge responded as follows:*

- A. *I do not agree with this recommendation. We will not deposit daily because we need to have cash available (from daily receipts) to make change on large docket days, especially our large traffic dockets which occur two times per month. We believe that retaining these receipts for these large docket days is a better alternative than maintaining a large change fund throughout the month. Regarding the bonds, we will consider contacting the Office of State Courts Administrator to determine if bonds can now be entered in the Banner System prior to when charges are filed and a case is established so that the monies can be deposited and tied to the court's accounting records.*
- B. *We will consider alternatives to perform independent reviews of daily deposit closeouts and monthly bank reconciliations. I will try to review the daily deposit closeouts on a test basis to ensure receipts are being deposited. We will begin implementing these procedures by the end of September 2000.*

|   |
|---|
| <b>6. Prosecuting Attorney's Accounting Controls and Procedures</b> |
|---|

The Prosecuting Attorney's office receives monies for bad check restitution payments. During 1998 and 1999 there were four different individuals that served as the county's prosecuting attorney. The current prosecuting attorney was appointed to the office in October 1999. We reviewed the accounting controls and procedures of the office and noted the following concerns.

- A. Receipts are not always deposited timely and intact. For example, as of April 12, 2000, the Prosecuting Attorney had \$890 of receipts on hand and had not made a deposit since February 18, 2000. In addition, we noted that receipts were not always deposited in the order in which they were received. Also, money orders and cashier's checks for administrative fees are not restrictively endorsed immediately upon receipt.

To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, deposits should be made intact daily or when accumulated receipts exceed \$100. In addition, applicable checks and money orders should be restrictively endorsed when received.

- B. The Prosecuting Attorney requires restitution to be made in the form of either money order or cashier's check made payable to the merchant. On April 12, 2000, the Prosecuting Attorney was holding over \$5,000 in checks and money orders, some of which had been in the Prosecuting Attorney's possession for over four months. In addition, the Prosecuting Attorney does not obtain documentation from the merchant when the restitution checks are turned over.

To reduce the risk of loss, theft or misuse of funds, the Prosecuting Attorney should turn over restitution checks to the merchants on a timely basis and receive documentation from the merchant when the checks are turned over.

- C. An adequate system to account for all bad check complaints received by the Prosecuting Attorney's office, as well as subsequent disposition of these complaints, has not been established. The bad check complaints are not assigned sequential control numbers nor are they recorded on an initial log or listing as they are received.

To ensure all bad checks turned over to the Prosecuting Attorney are properly handled, a sequential number should be assigned to each bad check complaint received and a log should be maintained listing each complaint and its disposition. The log should contain information such as the complaint number, the merchant's name, the issuer of the check, the amount of the bad check fee, and the disposition of the bad check, including date restitution was received and disbursed to the merchant, the date and criminal case in which charges were filed, or other disposition.

- D. The Prosecuting Attorney has not established a formal policy specifying when unpaid bad check complaints should be filed as a court case. During our review of bad check files, we noted that collection procedures and efforts are not always made timely and there is no clear policy of follow-up collection efforts to be taken or timing of the efforts.

The Prosecuting Attorney should establish written procedures for collection of unpaid restitution and fees. Such procedures should consist of generating periodic reports of complaints with balances due and following up on those for which payments are not being made. In addition, information regarding complaints with delinquent payments and significant balances due should be regularly provided to the Prosecuting Attorney for review and assessment of follow-up collection efforts or other court action which may be necessary.

**WE RECOMMEND** the Prosecuting Attorney:

- A. Deposit all monies intact daily or when accumulated receipts exceed \$100. Also, restrictively endorse all money orders and cashier checks immediately upon receipt.
- B. Remit restitution received to victims more timely and obtain documentation from the vendor when the checks are turned over to them.
- C. Assign sequential control numbers to bad check complaints and maintain a log to adequately account for bad check complaints as well as the ultimate disposition.
- D. Maintain a complete and accurate listing of delinquent bad check restitution and fees. In addition, written procedures should be established and implemented for pursuing the collection of such complaints, including when to file as court cases.

### **AUDITEE'S RESPONSE**

- A. *I agree with this recommendation. We now endorse checks immediately upon receipt. We are also now trying to make deposits at least once a week.*
- B. *I agree with this recommendation. Staff responsibilities have been reassigned and we are now trying to distribute restitution to the vendors once a week. We will begin obtaining signatures on photocopies of money orders remitted to vendors who pick up restitution in person. The vendor remittance letter sent when restitution is mailed out to vendors will be modified to include a return receipt. We will try to have these procedures implemented by the end of November 2000.*
- C. *I agree with this recommendation. We will begin assigning a sequential number to each complaint form. This number will then be recorded on the complaint log. The complaint log will be modified and used to track the status and ultimate disposition of each complaint. We will begin assigning the sequential complaint numbers and tracking complaint dispositions by the end of November 2000.*
- D. *I agree with this recommendation. We now try to review unpaid bad check complaints once a week to determine if charges need to be filed, but we are not always able to do this weekly due to workload constraints. We will develop a method of tracking unpaid restitution and fees, possibly by using the control log. Also, written procedures for processing bad check complaints will be developed as recommended. We will try to have these recommendations implemented by the end of November 2000.*

|   |
|---|
| <b>7. Sheriff's Controls and Procedures</b> |
|---|

The Sheriff maintains individual cash accounts containing personal funds held for each inmate placed in the Montgomery County jail by the U.S. Immigration and Naturalization Service (INS) because many of these inmates are not U.S. citizens and are not able to cash refund checks upon their release or deportation. The Sheriff also maintains an Inmate Account for the deposit of personal funds received from non-INS inmates. These funds are held in trust for the inmates and may be used by the inmates during commissary sales. Finally, the Sheriff maintains a Fee Account for the receipt of monies from bonds, gun permits, garnishments, and fees from court cases.

In addition, full time employees of the Sheriff's Department process commissary and other financial transactions through the Reserve Deputy Association's Reserve Account and maintain all financial information of the Reserve Account. As a result, our review included the Sheriff's controls and procedures related to the Reserve Account. During our review of these accounts, we noted the following concerns:

- A. Receipt slips are not issued for prisoner monies received and deposited into the Inmate Account or held in cash for INS inmates. Pre-numbered receipt slips would

help establish the monies for which the Sheriff's Department is accountable when money is submitted by, or on behalf of, inmates. This is especially critical given that a lot of activity, related to INS prisoners, is handled solely in cash.

To adequately account for all monies received, prenumbered receipt slips should be issued for all monies received and the numerical sequence should be accounted for properly.

- B. Monies received from prisoners are not always deposited into the Inmate Account on a timely basis or intact and a reconciliation between receipts and deposits is not performed. In addition, transfers from the Inmate Account and INS cash accounts after commissary sales to the Reserve Account are also not made intact. Money orders received from INS prisoners are sometimes cashed from other receipts, and monies on hand are sometimes used for commissary sale transfers or for cash refunds to non-INS inmates.

To properly safeguard cash receipts and reduce the risk of loss, theft, or misuse of funds, all non-INS monies received should be deposited intact daily or when accumulated receipts exceed \$100. Transfers from the Inmate Account and INS cash funds should be made by check and cash, respectively and should not be commingled with other transactions. Also, refunds to non-INS prisoners should only be made by check.

- C. Disbursements made to inmates are authorized by the inmate's signature on their individual ledger sheet. We noted several instances where inmate signatures were not obtained for distributions made to them from their accounts.
- D. An open-items list of individual prisoner balances is not periodically prepared. Additionally, an open-items list or the control ledger total is not reconciled to the bank balance and cash on hand. An open-items list should be prepared and reconciled to the bank and cash balances to ensure the individual inmate balances agree to the control ledger total and to ensure the proper disposition of cash balances. The periodic reconciliation of liabilities with the bank and cash balances provides assurance that the records are in balance and that sufficient money is available for payment of all liabilities.
- E. Accounting duties are not adequately segregated. Two individuals are primarily responsible for receiving, disbursing, and depositing monies, preparing bank reconciliations, and maintaining the accounting records. One clerk is stationed in the Sheriff's main office and handles activity in the Fee Account and the other clerk is stationed in the jail and handles activity in the Inmate Account and Reserve Account.

Proper segregation of duties helps ensure that all transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving and depositing receipts from recording and reconciling receipts. If proper segregation of duties cannot be achieved, at a

minimum, periodic independent reviews of the records should be performed and documented. These reviews could be achieved by having the clerks periodically review each other's records and prepare each other's bank reconciliations.

**WE RECOMMEND** the Sheriff:

- A. Issue prenumbered receipt slips for all prisoner monies received and account for the numerical sequence.
- B. Make deposits intact daily or when accumulated receipts exceed \$100 and ensure that amounts spent at the commissary by inmates are transferred intact (by check from the Inmate Account for regular inmates and by cash from INS envelopes for INS inmates) into the Reserve Account. In addition, a reconciliation between receipts and deposits (in total and by composition) should be performed. Receipts should not be used for cashing INS money orders, transferring commissary sales, or refunding inmate cash balances. Any refunds to non-INS inmates should be made by check.
- C. Obtain inmate signatures on the individual ledger pages for all distributions.
- D. Prepare a monthly open-items list and reconcile the list to the control ledger total and to cash on hand and in the bank.
- E. Adequately segregate accounting duties to the extent possible or ensure periodic independent reviews are performed and documented.

**AUDITEE'S RESPONSE**

- A. *I agree. We are now issuing prenumbered receipt slips for inmate monies and are accounting for the numerical sequence.*
- B. *I agree. We are now depositing receipts intact and deposits are now being made two or three times per week. Commissary transfers are now being made intact and a reconciliation between receipts and deposits is performed at the time of deposit. All refunds to non-INS inmates are now being made by check.*
- C. *I agree. We do try to do this and will continue to do so.*
- D. *I agree. We have now begun preparing periodic open items lists and we reconcile those lists to the control ledger balance and the cash on hand and in the bank.*
- E. *I agree. We can try to alter procedures to provide for independent reviews of each clerk's records. We will try to implement these procedures by the end of October 2000.*

This report is intended for the information of the management of Montgomery County, Missouri, and other applicable government officials. However, this report is a matter of public record and its

distribution is not limited.

## Follow-Up on Prior Audit Findings

## MONTGOMERY COUNTY, MISSOURI FOLLOW-UP ON PRIOR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Montgomery County, Missouri, on findings in the Management Advisory Report (MAR) of our prior audit report issued for the two years ended December 31, 1997. The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR. Although the remaining unimplemented recommendation has not been repeated, the county should consider implementing this recommendation.

### 1. County Financial Condition

The county's General Revenue Fund cash balance decreased significantly in 1997. While receipts stayed about the same, disbursements increased significantly in 1997. The following were also noted regarding the General Revenue Fund's financial condition:

- 1) The General Revenue Fund borrowed monies from the Capital Improvement Fund during 1997 and 1998. The repayment of these loans was not properly budgeted.
- 2) The county did not adequately estimate board bill and miscellaneous fees receipts in the 1998 budget.
- 3) Commissions received from the jail telephone were credited to the Law Enforcement Training Fund and the DARE Fund rather than the General Revenue Fund.
- 4) The new planning and zoning operation incurred disbursements well in excess of receipts.

#### Recommendation:

The County Commission continue to consider the various alternatives of increasing receipts and/or reducing disbursements.

#### Status:

Partially implemented. It appears that the financial condition of the General Revenue Fund has stabilized since the prior audit; however, the cash balance is still very low. No loans were made to the General Revenue Fund in 1999. Board bill budgeted receipts were more closely estimated in the 1999 budget, and planning and zoning receipts and disbursements were approximately \$15,000 and \$23,000, respectively in the year ended December 31, 1999. See MAR No. 1.

2. Budgetary Practices

- A. Formal budgets were not prepared and filed with the State Auditor's Office for a number of county funds for the years ended December 31, 1997 and 1996.
- B. Expenditures in excess of approved budgeted expenditures were made from several funds.

Recommendation:

- A. Ensure that budgets are prepared or obtained for all county funds in accordance with state law.
- B. Not authorize warrants in excess of budgeted expenditures. Extenuating circumstances should be fully documented and, if necessary, the budgets properly amended following the same process by which the annual budget is approved, including holding public hearings and filing the amended budget with the State Auditor's Office.

Status:

- A. Implemented. In 1999, all but two funds were budgeted. The budget package prepared for 2000 includes a budget for all applicable funds.
- B. Not implemented. However, fewer funds were overspent by smaller amounts. Although not repeated in our current MAR, our recommendation remains as stated above.

3. General Fixed Asset Records and Procedures

General fixed asset records were not maintained on a current basis and annual physical inventories were not conducted.

Recommendation:

The County Clerk ensure the general fixed asset records are maintained on a current basis. In addition, an annual physical inventory of all county-owned property should be conducted and reconciled to the general fixed asset records.

Status:

Not implemented. See MAR No. 4.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

MONTGOMERY COUNTY, MISSOURI  
HISTORY, ORGANIZATION,  
AND STATISTICAL INFORMATION

Organized in 1818, the county of Montgomery was named after Richard Montgomery, a Revolutionary War General. Montgomery County is a county-organized, third-class county and is part of the 12th Judicial Circuit. The county seat is Montgomery City.

Montgomery County's government is composed of a three-member county commission and separate elected officials performing various tasks. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials.

Principal functions of these other officials relate to judicial courts, law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records of importance to the county's citizens.

Counties typically spend a large portion of their receipts to support general county operations and to build and maintain roads and bridges. The following chart shows from where Montgomery County received its money in 1999 and 1998 to support the county General Revenue and Special Road and Bridge Funds:

| SOURCE                    | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| Property taxes            | \$ 872,947   | 29         | 768,682   | 27         |
| Sales taxes               | 554,718      | 18         | 551,271   | 20         |
| Federal and state aid     | 1,281,499    | 43         | 970,208   | 35         |
| Fees, interest, and other | 310,599      | 10         | 518,716   | 18         |
| Total                     | \$ 3,019,763 | 100        | 2,808,877 | 100        |

The following chart shows how Montgomery County spent monies in 1999 and 1998 from the General Revenue and Special Road and Bridge Funds:

| USE                       | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| General county government | \$ 629,262   | 21         | 628,876   | 23         |
| Public safety             | 1,123,753    | 37         | 1,038,709 | 38         |
| Highways and roads        | 1,269,885    | 42         | 1,052,985 | 39         |
| Total                     | \$ 3,022,900 | 100        | 2,720,570 | 100        |

In addition, significant sales tax receipts and principal and interest payments are accounted for

in the Capital Improvement Fund. Receipts of the Capital Improvement Fund were \$396,201 and \$388,542 and disbursements were \$381,943 and \$228,411 for the years ended December 31, 1999 and 1998, respectively.

The county maintains approximately 100 county bridges and 520 miles of county roads.

The county's population was 11,097 in 1970 and 11,355 in 1990. The following chart shows the county's change in assessed valuation since 1970:

|                        | Year Ended December 31, |       |       |        |        |
|------------------------|-------------------------|-------|-------|--------|--------|
|                        | 1999                    | 1998  | 1985* | 1980** | 1970** |
|                        | (in millions)           |       |       |        |        |
| Real estate            | \$ 71.7                 | 69.5  | 49.2  | 27.2   | 16.5   |
| Personal property      | 25.9                    | 22.7  | 9.5   | 7.4    | 4.9    |
| Railroad and utilities | 31.0                    | 30.5  | 25.7  | 15.2   | 9.8    |
| Total                  | \$ 128.6                | 122.7 | 84.4  | 49.8   | 31.2   |

\* First year of statewide reassessment.

\*\* Prior to 1985, separate assessments were made for merchants' and manufacturers' property. These amounts are included in real estate.

Montgomery County's property tax rates per \$100 of assessed valuations were as follows:

|                               | Year Ended December 31, |      |
|-------------------------------|-------------------------|------|
|                               | 1999                    | 1998 |
| General Revenue Fund          | \$ .23                  | .23  |
| Special Road and Bridge Fund* | .58                     | .56  |
| Health Center Fund            | .15                     | .15  |
| Senate Bill 40 Board Fund     | .10                     | .10  |

\* The county retains all tax proceeds from areas not within road districts. The county has two special road districts that receive four-fifths of the tax collections from property within these districts, and the Special Road and Bridge Fund retains one-fifth. The road districts also have an additional levy approved by the voters.

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and payable by December 31. Taxes paid after December 31 are subject to penalties. The county bills and collects property taxes for itself and most other local governments. Taxes collected were distributed as follows:

|                                   | Year Ended February 28, |                  |
|-----------------------------------|-------------------------|------------------|
|                                   | 2000                    | 1999             |
| State of Missouri                 | \$ 38,533               | 37,065           |
| General Revenue Fund              | 294,359                 | 278,365          |
| Road funds                        | 713,869                 | 662,649          |
| Assessment Fund                   | 67,032                  | 64,509           |
| Health Center Fund                | 189,725                 | 181,795          |
| Senate Bill 40 Board Fund         | 126,606                 | 121,757          |
| School districts                  | 4,290,007               | 3,756,621        |
| Ambulance districts               | 324,181                 | 311,174          |
| Fire protection districts         | 93,011                  | 86,233           |
| Tri-County Levee district         | 141,101                 | 141,239          |
| Surtax                            | 124,237                 | 122,098          |
| TIF District                      | 11,909                  | 10,886           |
| Cities                            | 91,307                  | 85,255           |
| County Clerk                      | 2,121                   | 2,022            |
| County Employees' Retirement Fund | 38,222                  | 39,802           |
| Commissions and fees:             |                         |                  |
| General Revenue Fund              | 100,682                 | 97,096           |
| Total                             | <u>\$ 6,646,902</u>     | <u>5,998,566</u> |

Percentages of current taxes collected were as follows:

|                        | Year Ended February 28, |      |
|------------------------|-------------------------|------|
|                        | 2000                    | 1999 |
| Real estate            | 92 %                    | 92 % |
| Personal property      | 89                      | 91   |
| Railroad and utilities | 100                     | 100  |

Montgomery County also has the following sales taxes; rates are per \$1 of retail sales:

|                      | Rate     | Expiration Date | Required Property Tax Reduction |
|----------------------|----------|-----------------|---------------------------------|

\* Includes one part-time employee.

\*\* Includes two part-time employees.

\*\*\* Includes four part-time employees.

\*\*\*\* Includes three part-time employees.

\*\*\*\*\* Includes nine part-time employees.

\*\*\*\*\* Includes six part-time employees.

In addition, the county pays a proportionate share of the salaries of other circuit court-appointed employees. Montgomery County's share of the 12th Judicial Circuit's expenses is 20.84 percent.

The county entered into a revised lease agreement with a not-for-profit corporation on June 1, 1998. The terms of the agreement allowed the corporation to refund outstanding 1994 series bonds totaling \$3,155,000 and outstanding 1997 series bonds totaling \$190,000 by issuing new bonds totaling \$3,680,000. The original bonds were used to construct a new jail and renovate the courthouse. The lease payments made by the county to the corporation are used by the corporation to make principal and interest payments on the outstanding bonds. The bonds are scheduled to be paid off in 2015. The remaining principal and interest due on the bonds at December 31, 1999, was \$3,550,000 and \$1,613,153, respectively.

CHRISTIAN COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-89  
September 12, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

September 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Christian, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of Christian County was a financial and compliance audit of various county operating funds. The following concerns were noted as part of the audit:

- The county does not have adequate procedures to ensure budgets are prepared for all county funds. Budgets were not prepared for various county funds for the years ended December 31, 1999 and 1998 resulting in a significant omission to the county's financial statements. Receipts which were not budgeted totaled \$1.59 million and \$1.25 million, while disbursements which were not budgeted totaled \$1.54 million and \$1.98 million in 1999 and 1998, respectively.
- The county receives funding from the Missouri Department of Transportation (MODOT) for highway planning and construction. During the year ended December 31, 1998, approximately \$355,000 was expended directly by the county under this program. One reimbursement claim for \$111,147 was submitted to MODOT in June 1998, however, reimbursement was not received by the county.

The county does not have follow-up procedures in place to ensure requested funds are received by the county, and no other attempts were made to follow up on this reimbursement request.

- The county does not have specific procedures in place to track federal assistance for preparation of the schedule of expenditures of federal awards (SEFA). The county's schedule contained numerous errors and omissions. The county reported federal revenues but did not report any federal expenditures on their schedule including \$355,394 of the Highway and Planning and Construction program expenditures.

(over)

YELLOW SHEET

For the federal financial schedule to adequately reflect the county's federal financial assistance expenditures, it is necessary that all federal financial expenditures be properly reported.

- The county did not publish a financial statement for the year ended December 31, 1999. This is a significant violation of state law, as the county financial statement is intended to inform the public of the county's financial activity on an annual basis.
- The Sheriff's Department purchased a truck (\$15,500) and a lie detector (\$8,815) with federal forfeiture proceeds without soliciting bids or proposals or retaining documentation to support the solicitation of bids.

The audit also includes some other matters upon which the county should consider and take appropriate corrective action.

**Copies of the audit are available upon request.**

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Christian County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Christian County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Christian County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Christian County.

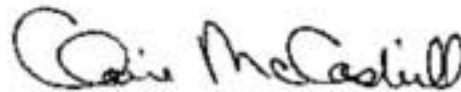

As more fully described in Note 1 to the financial statements, the county's financial statements do not include statements of receipts, disbursements, and changes in cash – budget and actual for various funds totaling \$1,590,036 and \$1,255,759 in receipts, and \$1,546,773 and \$1,938,287 in disbursements for the years ended December 31, 1999 and 1998, respectively.

Statements of receipts, disbursements, and changes in cash – budget and actual are required by the comprehensive basis of accounting discussed in Note 1.

In our opinion, except for the omission of the information discussed in the preceding paragraph, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Christian County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31, 1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated May 4, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

Claire McCaskill  
State Auditor

May 4, 2000 (fieldwork completion date)

**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Christian County, Missouri

We have audited the special-purpose financial statements of various funds of Christian County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 4, 2000. That report expressed a qualified opinion on the special-purpose financial statements. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Christian County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance that are required to be reported under *Government Auditing Standards* and which are described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 99-1 and 99-2. We also noted certain immaterial instances of noncompliance, which we have reported to the management of the county in the accompanying Letter on Other Matters.

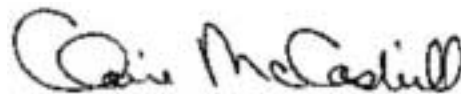

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Christian County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on

the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. However, we noted a certain matter involving the internal control over financial reporting and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the county's ability to record, process, summarize, and report financial data consistent with the assertions of management in the special-purpose financial statements. The reportable condition is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we consider the reportable condition described above, finding number 99-1 to be a material weakness. We also noted other matters involving the internal control over financial reporting, which we have reported to the management of the county in the accompanying Letter on Other Matters.

This report is intended for the information of the management of Christian County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Notes to the Financial Statements

CHRISTIAN COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Christian County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, or the Health Center Board, or the Senate Bill 40 Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>                                 | <u>Years Ended December 31,</u> |
|---|---------------------------------|
| Direct Sales Tax Distribution Fund          | 1999 and 1998                   |
| Direct CART Distribution Fund               | 1999 and 1998                   |
| Local Emergency Planning<br>Commission Fund | 1998                            |
| Local Use Tax Fund                          | 1998                            |
| Record Retention Fund                       | 1999 and 1998                   |
| Sheriff Civil Fee Fund                      | 1999 and 1998                   |
| Criminal Abatement #2 Fund                  | 1999                            |
| Associate Circuit Division I Interest Fund  | 1999 and 1998                   |
| Associate Circuit Division II Interest Fund | 1999 and 1998                   |
| Circuit Clerk Interest Fund                 | 1999 and 1998                   |
| Law Library Fund                            | 1999 and 1998                   |
| Probate Division Interest Fund              | 1999 and 1998                   |

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>                                     | <u>Years Ended December 31,</u> |
|---|---------------------------------|
| Law Enforcement Training Fund                   | 1998                            |
| Prosecuting Attorney Training Fund              | 1999 and 1998                   |
| Criminal Abatement #1 Fund                      | 1999 and 1998                   |
| Prosecuting Attorney Administrative<br>Fee Fund | 1999 and 1998                   |
| Local emergency Planning<br>Commission Fund     | 1999 and 1998                   |
| Senate Bill 40 Board Fund                       | 1999                            |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

Although Section 50.740, RSMo 1994, requires a balanced budget, a deficit balance was budgeted in the Senate Bill 40 Board Fund for the years ended December 31, 1999 and 1998.

#### D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

The county did not publish a financial statement for the year ended December 31, 1999. In addition, the county's published financial statement for the year ended

December 31, 1998 did not include the Sales Tax Fund, Local Use Tax Fund, Sheriff Civil Fee Fund, Health Center Fund, Senate Bill 40 Board Fund, Associate Circuit Division I Interest Fund, Associate Circuit Division II Interest Fund, Circuit Clerk Interest Fund, Law Library Fund, and Probate Division Interest Fund.

2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The county's deposits at December 31, 1999 and 1998, were entirely covered by federal depository insurance or by collateral securities held by the county's custodial bank in the county's name.

The Health Center's deposits at December 31, 1999 and 1998, were entirely covered by federal depository insurance.

The deposits of the Senate Bill 40 Board at December 31, 1999 and 1998, were entirely covered by federal depository insurance or by collateral securities held by the custodial bank in the name of the Senate Bill 40 Board. However, because of significantly higher bank balances at certain times during the year, uninsured and uncollateralized balances existed at those times although not at year-end.

To protect the safety of county deposits, Section 110.020, RSMo 1994, requires depositories to pledge collateral securities to secure county deposits not insured by the Federal Deposit Insurance Corporation.

N/A - Not applicable

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

CHRISTIAN COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Christian County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

The direct program amounts for Immunization Grants (CFDA number 93.268) represent the original acquisition cost of varicella (chicken pox) vaccine provided to the Health Center through the Centers for Disease Control of the U.S. Department of Health and Human Services. Of the pass-through amounts for that program, \$48,285 and \$35,799 represent the original acquisition cost of other vaccines purchased by the

Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), \$575 and \$930 represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$2,874 and \$3,254 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

2. Subrecipients

The county provided no federal awards to subrecipients during the years ended December 31, 1999 and 1998.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Christian County, Missouri

Compliance

We have audited the compliance of Christian County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. The county's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

In our opinion, Christian County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the years

ended December 31, 1999 and 1998. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 99-3 through 99-4.

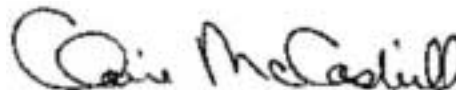

#### Internal Control Over Compliance

The management of Christian County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted certain matters involving the internal control over compliance and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the county's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. Reportable conditions are described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 99-3 through 99-5.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe that none of the reportable conditions described above are material weaknesses.

This report is intended for the information of the management of Christian County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

Claire McCaskill  
State Auditor

May 4, 2000 (fieldwork completion date)

Schedule

CHRISTIAN COUNTY, MISSOURI  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
(INCLUDING MANAGEMENT'S PLAN FOR CORRECTIVE ACTION)  
YEARS ENDED DECEMBER 31, 1999 AND 1998

**Section I - Summary of Auditor's Results**

Financial Statements

Type of auditor's report issued: Qualified

Internal control over financial reporting:

Material weakness identified? X yes        no

Reportable condition identified that is  
not considered to be a material weakness?        yes X none reported

Noncompliance material to the financial statements  
noted? X yes        no

Federal Awards

Internal control over major programs:

Material weakness identified?        yes X no

Reportable condition identified that is  
not considered to be a material weakness? X yes        none reported

Type of auditor's report issued on compliance for  
major programs: Unqualified

Any audit findings disclosed that are required to be  
reported in accordance with Section .510(a) of OMB  
Circular A-133? X yes        no

Identification of major programs:

| <u>CFDA or<br/>Other Identifying<br/>Number</u> | <u>Program Title</u>   |
|---|--|
| 10.557  | Special Supplemental Nutrition Program for Women, Infants, and<br>Children |

The county did not publish a financial statement for the year ended December 31, 1999. In addition, the county's published financial statement for the year ended December 31, 1998 did not include several county funds. This is a significant violation of state law which is intended to inform the public of the county's financial activity on an annual basis.

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts, disbursements, and beginning and ending balances for each fund.

**WE RECOMMEND** the County Commission ensure complete financial statements are prepared and published annually.

### **AUDITEE'S RESPONSE AND CORRECTIVE ACTION PLAN**

*The 1999 Financial Statement will be published August 30, 2000. We will continue to request the financial information for these funds controlled by other offices and boards.*

### **Section III - Federal Award Findings and Questioned Costs**

This section includes the audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

Section .310(b) of Circular A-133, *Audits of State and Local Government, and Nonprofit Organizations*, requires the auditee to prepare a schedule of expenditures of federal awards (SEFA) for the period covered by the auditee's financial statements. The county is required to submit the schedule of expenditures of federal awards to the State Auditor's Office as a part of the annual budget.

The county does not have specific procedures in place to track federal assistance for preparation of the SEFA. During the years ended December 31, 1999 and 1998, the county's SEFA contained numerous errors and omission. The county reported federal revenues but did not report any federal expenditures on their SEFA schedule including \$355,394 of Highway and Planning and Construction program expenditures for 1998. Also, expenditures from the Schools and Roads-Grants to States program of \$81,046 and \$69,175 for 1999 and 1998 respectively, were not included.

For the federal financial schedules to adequately reflect the county's federal financial assistance expenditures, it is necessary that all federal financial expenditures be properly reported. Without an accurate SEFA, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.

**WE RECOMMEND** the County Clerk prepare a complete and accurate schedule of expenditures of federal awards and submit the schedule to the State Auditor's office as part of the annual budget.

#### **AUDITEE'S RESPONSE AND CORRECTIVE ACTION PLAN**

*We agree and will attempt to ensure all programs are reported in the next years SEFA.*

**99-4.****Federal Sharing Program**

|                       |  |
|-----------------------|--|
| Federal Grantor:      | U.S. Department of Justice                         |
| Pass-Through Grantor: | Not applicable                                     |
| Federal CFDA Number:  | 16.unknown   |
| Program Title:        | Equitable Sharing of Seized and Forfeited Property |
| Pass-Through Entity   |  |
| Identifying Number:   | Not applicable                                     |
| Award Year:           | 1999 and 1998                                      |
| Questioned Costs:     | \$24,315   |

Federal funds received from the Equitable Sharing of Seized and Forfeited Property are deposited to the Criminal Abatement #1 Fund to be used for law enforcement purposes. The Sheriff's Department purchased a truck (\$15,500) and lie detector (\$8,815) without soliciting bids or proposals or retaining documentation to support the solicitation of bids. The Sheriff's Department indicated that the lie detector was purchased from a sole source provider; however, this was not documented. OMB Circular A-102, Common Rule, requires local governments to follow applicable procurement laws and Section 50.660, RSMo Supp. 1999, requires the advertisement of bids for purchases over \$4,500. The county should advertise bids for purchases in accordance with state law and retain documentation of these bids and justification for bid awards. If bids cannot be obtained or sole source procurement is necessary, the county should retain documentation of these circumstances.

**WE RECOMMEND** the County Commission and Sheriff work with applicable federal grantor agencies to resolve the questioned costs. In the future, bids should be solicited for applicable purchases.

**AUDITEE'S RESPONSE AND CORRECTIVE ACTION PLAN**

*We will continue to request that the Sheriff's Department ensure bids are taken in the future.*

**99-5.****Federal Bridge Program**

|                       |   |
|-----------------------|---|
| Federal Grantor:      | U.S. Department of Transportation           |
| Pass-Through Grantor: | State Highway and Transportation Commission |
| Federal CFDA Number:  | 20.205                                      |
| Program Title:        | Highway Planning and Construction           |
| Pass-Through Entity   |   |
| Identifying Number:   | BRO-022-5                                   |
| Award Year:           | 1998  |
| Questioned Costs:     | Not applicable                              |

The county receives funding from the Missouri Department of Transportation (MODOT) for highway planning and construction. During the year ended December 31, 1998, \$355,394 was expended directly by the county under this program. We noted one reimbursement claim in the amount of \$111,147 that was submitted to MODOT in June 1998, however, reimbursement was not received by the county.

The county does not have follow-up procedures in place to ensure requested funds are received by the county, and no other attempts were made to follow up on this reimbursement request. The failure to follow up on claims submitted on a timely basis results in possible unreimbursed costs or potential lost revenues to the county.

**WE RECOMMEND** the County Commission and County Clerk establish records and procedures to adequately monitor program expenditures and reimbursements. In addition, the county should pursue collection of the reimbursement request with the Missouri Department of Transportation.

**AUDITEE'S RESPONSE AND CORRECTIVE ACTION PLAN**

*We agree and will establish records to track expenditures and reimbursement requests. The county has already contacted MODOT and has received the remaining amounts owed.*

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

CHRISTIAN COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Christian County, Missouri, on the applicable findings in our prior audit report issued for the two years ended December 31, 1997.

1A. County Sales Tax

The county had not adequately reduced total county property tax levies to meet the sales tax reduction requirements, including reductions for excess property taxes collected in prior years.

Recommendation:

The County Commission:

Reduce total county property tax levies adequately to meet the sales tax reduction requirements, including reductions for excess property taxes collected in prior years.

Status:

Implemented. The county was successful in changing their sales tax (removing the restrictive use of the sales tax) and has significantly lowered or eliminated their General and Special Road and Bridge Fund property tax levies.

5. Budgets and Published Financial Statements

B. Budgets were not prepared for some county funds.

C. Actual expenditures exceeded budgeted amounts in several county funds.

Recommendation:

The County Commission:

B. Ensure budgets are prepared or obtained for all county funds as required by state law.

C. Keep expenditures within budgetary limits.

Status:

B. Not implemented. See finding number 99-1.

- C. Partially implemented. Although the county has made some improvement in this area, actual expenditures exceeded budgeted amounts for several funds. See the Letter On Other Matters.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

CHRISTIAN COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

This section represents the Summary Schedule of Prior Audit Findings, which was prepared by the county's management.

4. Federal Financial Assistance

|                       |  |
|-----------------------|--|

| Federal CFDA Number:  | Not applicable                                     |
| Program Title:        | Equitable Sharing of Seized and Forfeited Property |
| Pass-Through Entity   |  |
| Identifying Number:   | Not applicable                                     |
| Award Year:           | 1997 and 1996                                      |
| Questioned Costs:     | \$10,772   |

- D. There was no documentation to indicate bids were advertised or solicited for applicable purchases.

Recommendation:

- D. The County Commission and Sheriff work with applicable federal grantor agencies to resolve the questioned costs. In the future, bids should be solicited for applicable purchases.

Status:

- D. Not implemented. See finding number 99-4.

## SECTION ON OTHER MATTERS

## CHRISTIAN COUNTY, MISSOURI LETTER ON OTHER MATTERS

We have audited the special-purpose financial statements of various funds of Christian County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 4, 2000. We also have audited the compliance of Christian County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 4, 2000.

We did not review the operations of elected officials with funds other than those presented in the special-purpose financial statements. The operations of such officials will be reviewed and reported on during the state auditor's next scheduled audit of the county.

This Letter on Other Matters presents matters other than the findings, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These matters resulted from our audit of the special-purpose financial statements of Christian County but do not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*. Nevertheless, the county should consider these matters and take appropriate corrective action.

### 1. Expenditures

The county did not solicit or advertise for bids for some purchases or ensure all efforts to obtain bids were adequately documented. The county does not have procedures to adequately monitor distributions of CART and sales tax monies to special road districts and cities. A Christmas dinner was held each year for county employees at a total cost to the county of approximately \$1,300 annually.

### 2. Written Agreements

The county shares the operation and maintenance cost of the recycling center with the City of Ozark based on a verbal agreement. The county incurred approximately \$9,000 in expenditures for the recycling center during the years ended December 31, 1999 and 1998.

### 3. County Budgets

Actual expenditure amounts exceeded approved budgeted amounts in some county funds for the years ended December 31, 1999 and 1998.

### 4. Payroll Procedures

Payroll duties are not adequately segregated or reviewed by a supervisor. An employee left employment from the county with cafeteria plan reimbursements exceeding payroll withholdings of approximately \$800. The county has not pursued reimbursement from the

former employee. In addition, time sheets prepared by the assistant prosecuting attorneys are not filed with the county clerks office.

5. Commission Meetings

The county did not maintain minutes for closed meetings. In addition, the regular meeting minutes did not always disclose the reason for entering into closed session.

6. General Fixed Assets

Fixed asset records are not properly maintained. Various fixed asset purchases were not recorded on the fixed asset listing.

7. Senate Bill 40 Board

Budgets prepared by the Senate Bill 40 Board were incomplete and not filed with the State Auditor's Office. The budgets included only estimated expenditures and provided no estimated revenues or beginning available resources, resulting in deficit budgeting as noted on Exhibit R. The budgets also did not include the two previous years' actual receipts and expenditures. In addition, the Senate Bill 40 Board approved expenditures in excess of approved budget amounts during the year ended December 31, 1999.

The amount of collateral securities pledged by the board's depository bank was insufficient to cover the boards deposits. The board makes loans to not-for-profit (NFP) organizations, including \$67,363 in December 1999 to a local NFP to assist in the purchase of land for disabled housing units. Minutes of the September 1998 and July 1999 board meetings could not be located.

8. Circuit Clerk Interest Fund

The Circuit Clerk's Interest Fund balance has increased significantly and has a balance of \$59,382 at December 31, 1999. The Circuit Clerk has indicated a significant portion of this balance will be allocated to specific cases being held in trust; however, no determination has been made.

This Letter on Other Matters is intended for the information of the management of Christian County, Missouri, and other applicable government officials. However, this letter is a matter of public record and its distribution is not limited.

WAYNE COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-88  
September 8, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

September 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Wayne, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of Wayne County included additional areas of county operations, as well as the elected county officials. The following concerns were noted as part of the audit:

- The County Commission reduced tax levies for the Special Road and Bridge Fund to provide part of the property tax reduction required by the sales tax ballot passed by Wayne County voters. Prior reports noted Special Road and Bridge property taxes had been reduced a total of \$408,000 from 1991 through 1997 without the county crediting any general sales tax monies to the Special Road and Bridge Fund to replace lost property taxes. During the two years ended December 31, 1999, the county reduced the Special Road and Bridge property tax rate even further which resulted in an additional \$202,000 reduction in property tax revenue without replacement. As a result, more than \$610,000 is due to the Special Road and Bridge Fund from the General Fund at December 31, 1999.

A related audit finding noted the County Commission has been distributing payments in lieu of tax of approximately \$80,000 yearly from the U.S. Department of Interior to the Special Road and Bridge Fund and General Revenue Fund equally for several years. These monies could be used for any government purpose. Given the weak financial condition of the General Revenue Fund, it is questionable why the County Commission elected to distribute any of these monies to the Special Road and Bridge Fund.

(over)

YELLOW SHEET

In its response to these findings, the County Commission indicated that it was unaware that the federal payments were unrestricted monies and that this oversight resulted in the Special Road and Bridge Fund being credited with one half of these monies for at least eighteen years. The County Commission further responded that it intended to use the amounts mistakenly credited to the Special Road Bridge Fund to offset the amount owed by the General Revenue Fund. The audit emphasized that if the County Commission believes it is justified to go back 18 years to correct these problems, it should also consider other improper distributions which occurred during those years. Further, the County Commission now needs to establish and document decisions regarding interfund liabilities and begin operating those funds in a manner which ensures the financial integrity of each fund in the future.

- As noted in the prior audit report, the county has not sufficiently reduced its property tax revenues by 50 percent of sales tax revenues as provided in the ballot issue passed by the Wayne County voters. During the two years ended December 31, 1999, reductions were made, however, to further bring the county into compliance with the sales tax proposal, the County Commission should reduce the 2000 property tax revenues by an additional \$96,290 for the excess property taxes collected in prior years.

The County Commission acted contrary to legal advice when it granted a mid-term raise to the Associate Commissioners. The Prosecuting Attorney concluded that such “a mid-term salary increase for Associate Commissioners would be unconstitutional and is therefore prohibited”. The County Commission said they would abide by the results of a pending lawsuit in another county.

With the exception of road and bridge employees, the County Commission has not established written personnel policies regarding vacation and sick leave, compensatory time, and overtime. Records of leave, overtime worked and compensatory time balances are not centrally maintained. Currently each officeholder is responsible for individual office policies.

Also included in the audit are recommendations to improve county budgetary procedures, depository agreements and some expenditure policies. Contractual procedures of the Senate Bill 40 Board also need improvement. In addition, the audit recommended the County Clerk maintain an account book with the County Collector to provide more controls and help verify annual settlements.

**Copies of the audit are available upon request.**

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Wayne County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Wayne County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Wayne County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Wayne County.

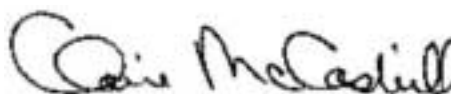

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Wayne County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated May 11, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the management of Wayne County, Missouri, and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Wayne County, Missouri

We have audited the special-purpose financial statements of various funds of Wayne County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 11, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Wayne County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance that is required to be reported under *Government Auditing Standards* and which is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1. We also noted certain immaterial instances of noncompliance which are described in the accompanying Management Advisory Report.

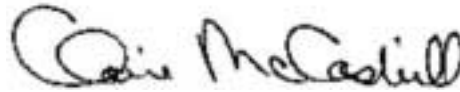

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Wayne County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not

necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting which are described in the accompanying Management Advisory Report.

This report is intended for the information of the management of Wayne County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

## Notes to the Financial Statements

WAYNE COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Wayne County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, the Health Center Board, or the Senate Bill 40 Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>                        | <u>Years Ended December 31,</u> |
|------------------------------------|---------------------------------|
| Special Law Enforcement Fund       | 1998                            |
| Special Prosecuting Attorney Fund  | 1998                            |
| Victims of Domestic Violence Fund  | 1998                            |
| Recorder's User Fees Fund          | 1998                            |
| Law Library Fund                   | 1998                            |
| Associate Division's Interest Fund | 1998                            |
| Sheriff's Donations Fund           | 1998                            |
| Landfill Trust Fund                | 1998                            |
| Sheriff's Civil Fund               | 1998                            |
| Circuit Clerk's Interest Fund      | 1998                            |
| Elevator Grant Fund                | 1998                            |
| Recorder's Grant Fund              | 1999 and 1998                   |

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>                       | <u>Years Ended December 31,</u> |
|-----------------------------------|---------------------------------|
| General Revenue Fund              | 1998                            |
| Assessment Fund                   | 1998                            |
| Debt Service Fund                 | 1999                            |
| Special Law Enforcement Fund      | 1999                            |
| Special Prosecuting Attorney Fund | 1999                            |
| Sheriff's Donations Fund          | 1999                            |
| Health Center Fund                | 1998                            |
| Senate Bill 40 Board Fund         | 1999                            |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

#### D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

The county's published financial statements for the years ended December 31, 1999 and 1998, included all funds presented in the accompanying financial statements.

## 2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S.

Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The county's, Health Center Board's, and Senate Bill 40 Board's deposits at December 31, 1999 and 1998, were entirely covered by federal depository insurance or by collateral securities held by the county's, Health Center Board's and Senate Bill 40 Board's custodial banks in the county's, Health Center Board's and Senate Bill 40 Board's name.

### 3. Property Taxes

Through December 31, 1999, Wayne County collected \$96,290 in excess property taxes. Section 67.505, RSMo 1994, requires the county to reduce property taxes for a percentage of sales taxes collected. Wayne County voters enacted a 1/2 cent sales tax with a provision to reduce property taxes by 50 percent of sales taxes collected. Tax levies were not reduced sufficiently for actual sales tax collections.

Also, during 1999 and 1998 and in previous years, the Road and Bridge tax levies were reduced to provide part of the required property tax collection reduction for the general revenue sales tax. However, all of the sales tax revenue was credited to the General Revenue Fund. Revenues of the Special Road and Bridge Fund are required by Section 137.555, RSMo Cum. Supp. 1999, to be used only for improving and maintaining county roads and bridges. As a result, the General Revenue Fund owes the Special Road and Bridge Fund approximately \$610,000 as of December 31, 1999.

N/A - Not applicable

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

WAYNE COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Wayne County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

The direct program amounts for Immunization grants (CFDA 93.268) represent the original acquisition cost of varicella (chicken pox) vaccine provided to the Health Center through the Centers for Disease Control of the U.S. Department of Health and Human Services. Of the pass-through amounts for that program, \$11,438 and \$7,906

represent the original acquisition cost of other vaccines purchased by the Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), \$132 and \$205 represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$660 and \$719 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants, the Preventive Health and Health Services Block Grant, and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

2. Subrecipients

The county provided no federal awards to subrecipients during the years ended December 31, 1999 and 1998.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Wayne County, Missouri

Compliance

We have audited the compliance of Wayne County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. The county's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

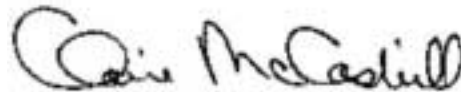

In our opinion, Wayne County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998.

#### Internal Control Over Compliance

The management of Wayne County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information of the management of Wayne County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

May 11, 2000 (fieldwork completion date)

Schedule

WAYNE COUNTY, MISSOURI  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
(INCLUDING MANAGEMENT'S PLAN FOR CORRECTIVE ACTION)  
YEARS ENDED DECEMBER 31, 1999 AND 1998

**Section I - Summary of Auditor's Results**

Type of auditor's report issued: Unqualified

Internal control over financial reporting:

Material weaknesses identified?        yes   x   no

Reportable conditions identified that are  
not considered to be material weaknesses?        yes   x   none reported

Noncompliance material to the financial statements  
noted?   x   yes        no

Federal Awards

Internal control over major programs:

Material weaknesses identified?        yes   x   no

Reportable conditions identified that are  
not considered to be material weaknesses?        yes   x   none reported

Type of auditor's report issued on compliance for  
major programs: Unqualified

Any audit findings disclosed that are required to be  
reported in accordance with Section .510(a) of OMB  
Circular A-133?        yes   x   no

Identification of major programs:

| <u>CFDA or<br/>Other Identifying<br/>Number</u> | <u>Program Title</u>                                     |
|---|--|
| 20.205  | Off-System Bridge Replacement and Rehabilitation Program |
| 10.665  | Schools and Roads - Grants to States                     |

Dollar threshold used to distinguish between Type A  
and Type B programs: \$300,000

Auditee qualified as a low-risk auditee?        yes   x   no

## Section II - Financial Statement Findings

This section includes the audit finding that *Government Auditing Standards* requires to be reported for an audit of financial statements.

|              |   |
|--------------|---|
| <b>99-1.</b> | <b>County Sales Tax and Financial Condition</b> |
|--------------|---|

- A. In years past, the county has not sufficiently reduced its property tax revenues by 50 percent of sales tax revenues as provided in the ballot issue passed by the Wayne County voters under the provisions of Section 67.505, RSMo.

As indicated by the following calculations, the net excess property tax revenues collected as of December 31, 1999 and 1998 have decreased since our prior audit.

|  |    | Tax Year Ended December 31, |            |
|--|----|-----------------------------|------------|
|  |    | 1999                        | 1998       |
| ACTUAL SALES TAX REVENUES  | \$ | 362,699                     | 336,850    |
| Required percentage of revenue reduction   | X  | 50%                         | 50%        |
| Required property tax revenue reduction  |    | 181,350                     | 168,425    |
| Assessed Valuation   |    | 86,772,875                  | 80,864,259 |
| General Revenue Fund and Special Road and Bridge Fund tax levy reduction (per \$100 of assessed valuation) | X  | 0.25                        | 0.29       |
| Actual property tax revenue reduction  |    | 216,932                     | 234,506    |
| EXCESS PROPERTY TAX REVENUES COLLECTED   |    | (35,583)                    | (66,081)   |
| Excess property tax revenue collections from prior years   |    | 131,873                     | 197,954    |
| NET EXCESS   | \$ | 96,290                      | 131,873    |

To further bring the county into compliance with the sales tax proposal passed by the Wayne County voters, the County Commission should reduce the 2000 property tax revenues by an additional \$96,290 for the excess property taxes collected in prior

years. Based on the county's prior assessed valuations, this would require an additional reduction of approximately eleven cents to the 2000 tax levies to cover the prior years differences.

- B. As noted above, the County Commission reduced the tax levies for the Special Road and Bridge Fund to provide part of the required property tax collection reduction. In 1999 and 1998, the Special Road and Bridge Fund tax levies were reduced by twelve cents each year, but all general sales tax revenue was credited to the General Revenue Fund. Revenues of the Special Road and Bridge Fund are required by Section 137.555, RSMo Cum. Supp. 1999, to be used only for improving and maintaining county roads and bridges. As a result, it does not appear proper to reduce property taxes restricted for use in the Special Road and Bridge Fund to account for sales tax revenues deposited to the General Revenue Fund.

Our three prior reports noted Special Road and Bridge property taxes had been reduced a total of \$408,000 from 1991 through 1997 without the county depositing any general sales tax monies in the Special Road and Bridge Fund to replace lost property taxes. During the two years ended December 31, 1999, the county reduced the Special Road and Bridge property tax rate even further which resulted in an additional \$202,000 reduction in property tax revenue without replacement. As a result, more than \$610,000 is due to the Special Road and Bridge Fund from the General Fund at December 31, 1999.

The county's budget for fiscal year 2000 still does not include any transfers of general sales tax monies to the Road and Bridge Fund despite these past concerns.

- C.1. As similarly noted in prior audit reports, the financial condition of the county's General Revenue Fund remains weak.

Wayne County's General Revenue Fund is experiencing a declining cash balance. The following shows receipts, disbursements, and ending cash balances for the three years ended December 31, 1999:

|                                 |    |                        |
|---------------------------------|----|------------------------|
| Cash balance, January 1, 1997   | \$ | 126,423                |
| Receipts                        |    | 933,574                |
| Disbursements                   |    | <u>961,632</u>         |
| Cash balance, December 31, 1997 |    | 98,365                 |
| Receipts                        |    | 939,692                |
| Disbursements                   |    | <u>1,035,604</u>       |
| Cash balance, December 31, 1998 |    | 2,453                  |
| Receipts                        |    | 994,617                |
| Disbursements                   |    | <u>1,028,585</u>       |
| Cash balance, December 31, 1999 | \$ | <u><u>(31,515)</u></u> |

Given the county needs to reduce 2000 property tax rates by \$96,290 to comply with the sales tax proposal passed by the voters, the General Revenue Fund owes the Special Road and Bridge Fund over \$610,000 for lost property tax revenue from the last several years, and various other concerns resulting from legal non-compliance, the County Commission will be faced with some very tough decisions to stabilize the financial condition of the General Revenue Fund.

The county voters approved a one-half cent general sales tax in 1985 and an additional one-half cent sales tax for road and bridge purposes in 1993, however, the voters rejected a sales tax for law enforcement purposes in 2000.

Despite our past comments regarding the General Revenue Fund's poor financial condition the county continues to struggle financially and has had to resort to violating state laws to balance its General Revenue Fund budget. The county's 2000 budget reflects the beginning cash balance plus estimated receipts to equal estimated disbursements. As a result, the County Commission has taken no additional action to improve the county's financial condition.

2. The County Commission has been distributing payments in lieu of tax of approximately \$80,000 yearly from the U.S. Department of Interior to the Special Road and Bridge Fund and General Revenue Fund equally for several years. These payments are unrestricted revenue per 31 US Code Sections 6901-6907. Given the financial condition of the General Revenue Fund it is questionable why the County Commission would elect to distribute unrestricted monies to the Special Road and Bridge Fund.

Conditions similar to A., B., and C.1. were also noted in our prior report and have existed since 1988.

**WE AGAIN RECOMMEND** the County Commission:

- A. Ensure appropriate reductions are made to the property tax levies to reflect excess property taxes collected in prior years when setting the 2000 property tax levies.
- B&C. Develop a financial plan to improve the financial condition of the General Revenue Fund and repay \$610,581 to the Special Road and Bridge Fund. In addition, any future reductions of Special Road and Bridge property tax revenues as a result of rollbacks required by sales tax collections should be offset by transfers from the General Revenue Fund.

**AUDITEE'S RESPONSE**

*We are aware of and have tried to solve these financial problems and intend to continue these efforts in the future. We also intend to continue property tax reductions to reduce the excess property tax*

*collection amount. Upon reviewing the past transfers of unrestricted revenues from General Revenue to the Special Road and Bridge Fund, we have determined that since 1982 a total of \$651,085 of unrestricted revenues were transferred from the General Revenue Fund to the Special Road and Bridge Fund. These transfers of one half of the yearly payments from the U.S. Department of Interior to the Special Road and Bridge Fund were made due to a misunderstanding and an oversight of how U.S. Department of Interior revenues were required to be distributed. These revenues were believed to be restricted revenues that were required to be distributed evenly between the General Revenue Fund and the Special Road and Bridge Fund. With the Auditors finding that these revenues are unrestricted revenues, we believe that this oversight of \$651,085 transferred from the General Revenue Fund to the Special Road and Bridge Fund should be applied to the \$610,581 that is owed the Special Road and Bridge Fund for lost property tax revenues.*

### **AUDITOR'S COMMENT**

As noted in this and previous audits, the diversion of monies from the Special Road and Bridge Fund to the General Revenue Fund over the past several years was done in violation of state law. Conversely, the payments in lieu of tax from the federal government were unrestricted revenues and the county had the authority to credit some of these monies to the Special Road and Bridge Fund. Previous audits also noted that the county had not properly distributed flood control monies received from the federal government. Although the 1999 distribution was made correctly, past practices resulted in over \$153,000 being distributed to the General Revenue Fund. The majority of this money should have been distributed to schools and roads. If the County Commission believes it is justified to go back 18 years to resolve interfund liabilities, it should also consider resolving other amounts improperly distributed to the General Revenue Fund at the expense of schools and roads. Regardless, it is important for the County Commission to clearly establish and document what liabilities, if any, currently exist, and how to resolve them, and then operate county funds in a manner that ensures the financial integrity of each of these funds in the future.

### **Section III - Federal Award Findings and Questioned Costs**

This section includes no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

WAYNE COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Wayne County, Missouri, on the applicable findings in our prior audit report issued for the two years ended December 31, 1997.

1.     Financial Condition

The financial condition of the General Revenue Fund remained weak.

Recommendation:

The County Commission consider the various alternatives of increasing receipts and/or reducing disbursements. In addition, the County Commission needs to review discretionary disbursements and evaluate management practices to more efficiently use the resources available to the county.

Status:

Not implemented. See MAR No. 99-1.

4.     County Sales Tax

- A.     The county had not sufficiently reduced its property tax revenues by 50 percent of sales tax revenues as provided in a ballot issue passed by the voters of the county.
- B.     The County Commission reduced tax levies for the Special Road and Bridge Fund to provide part of the required property tax collection reduction. However, a like amount of sales tax revenue was not deposited into the Special Road and Bridge Fund. Therefore, more than \$408,000 was due from the General Revenue Fund to the Special Road and Bridge Fund at December 31, 1997.
- C.     The county did not include the effective period of the capital improvement sales tax on the ballot as required by state law.

Recommendation:

The County Commission:

- A.     Ensure appropriate reductions are made to the property tax levies to reflect excess property taxes collected in prior years when setting the 1998 property tax levies.

- B. Authorize the County Treasurer to transfer \$408,933 from the General Revenue Fund to the Special Road and Bridge Fund. Any future reductions of Special Road and Bridge property tax revenues as a result of rollbacks required by sales tax collections should be offset by transferring a like amount of sales tax revenue from the General Revenue Fund to the Special Road and Bridge Fund.
- C. Review this situation with the Prosecuting Attorney and take appropriate action to ensure the capital improvement sales tax measure complies with state law.

Status:

A&B. Not implemented. See MAR No. 99-1.

- C. This matter was the subject of litigation which was eventually appealed to the Supreme Court of Missouri. In April 2000, the court handed down its opinion which concluded:

"The trial court correctly determined that sec. 67.700 authorized a tax for capital improvements of an indefinite duration and that any complaint regarding the ballot language was waived by failure to timely assert the claim. The trial court did not err in dismissing plaintiffs' petition. The judgment of the trial court is affirmed."

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

WAYNE COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Findings

WAYNE COUNTY, MISSOURI  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S FINDINGS

We have audited the special-purpose financial statements of various funds of Wayne County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 11, 2000. We also have audited the compliance of Wayne County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 11, 2000.

We also have reviewed the operations of elected officials with funds other than those presented in the special-purpose financial statements. As applicable, the objectives of this review were to:

1. Determine the internal controls established over the transactions of the various county officials.
2. Review and evaluate certain other management practices for efficiency and effectiveness.
3. Review certain management practices and financial information for compliance with applicable constitutional, statutory, or contractual provisions.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed accounting and bank records and other pertinent documents and interviewed various personnel of the county officials.

As part of our review, we assessed the controls of the various county officials to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Our review was limited to the specific matters described in the preceding paragraphs and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our findings arising from our review of the elected county officials referred to above. In addition, this report includes findings other than those, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These findings resulted from our audit of the special-purpose financial statements of Wayne County but do not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*.

**1.****Expenditures**

- A. We noted several expenditures which do not appear to be a prudent and necessary use of county funds. These include:

- 1) A \$500 payment was made from the Special Law Enforcement Fund (SLEF) to award a scholarship to a local high school student. The SLEF was established for law enforcement purposes and this does not appear to be a prudent use of this fund. In addition, Art. VI Sec. 23 of the Missouri Constitution prohibits the granting of public money.
- 2) Payments of \$200 and \$2,400 were disbursed from the SLEF for flight lessons and airplane rental, respectively, for the flight training of a Missouri State Highway Patrolman. Payments for the training of a Missouri State Highway Patrolman do not appear to be a necessary use of county funds.

The expenditures noted above do not appear to be necessary costs of operating the county and constitute a questionable use of public funds.

- B. In February 1999, the County Commission voted to give the Associate Commissioners a mid-term raise totaling \$4,752 per year that was retroactively effective to January 1, 1999.

Previously, in January 1999, the County Clerk received a written opinion from the Prosecuting Attorney that concluded that such "a mid-term salary increase for Associate Commissioners would be unconstitutional and is therefore prohibited". The Prosecuting Attorney further noted in his opinion letter that the Wayne County Salary Commission was authorized to enable a pay increase at its 1997 meeting but did not.

As a result, the County Commission acted contrary to legal advice when it granted the mid-term raise to the associate commissioners. The County Commission needs to discuss this issue with the Prosecuting Attorney to properly resolve this situation.

- C. The county unnecessarily incurred interest expenses for warrants protested by the county. The county issues warrants to pay expenditures of the General Revenue Fund. The county's bank treats the warrants as negotiable instruments and charges 7 percent interest until the county redeems the warrants. The county did not always redeem these warrants in a timely manner. In total, the county spent \$1,047 and \$1,710 for interest expense during the years ending December 31, 1998 and 1999, respectively. Interest expenses should be avoided when sufficient funds are available to cover warrants.

Conditions A.1 and C were noted in our prior report.

**WE RECOMMEND** the County Commission:

- A. Ensure all expenditures made with county monies are prudent and necessary.
- B. Review the appropriateness of the mid-term raise with the Prosecuting Attorney.
- C. And the County Treasurer discontinue the practice of protesting warrants when a sufficient cash balance exists.

**AUDITEE'S RESPONSE**

*The County Commission responded:*

*A&C. We have implemented these recommendations.*

- B. We believe a similar issue is currently being litigated in another county. We intend to abide by the ruling in this case.*

*The Treasurer responded:*

- C. The county cannot discontinue protesting warrants because the county does not always have sufficient funds. At this time warrants are being paid on a timely basis when funds are available.*

|                               |
|-------------------------------|
| <b>2. Budgetary Practices</b> |
|-------------------------------|

Actual disbursements exceeded the originally budgeted amounts in various funds as follows:

| Fund                         | Year Ended December 31, |       |
|------------------------------|-------------------------|-------|
|                              | 1999                    | 1998  |
| General Revenue              | \$ N/A                  | 5,146 |
| Assessment                   | N/A                     | 1,340 |
| Debt Service                 | 307                     | N/A   |
| Special Law Enforcement      | 7,940                   | N/A   |
| Special Prosecuting Attorney | 496                     | N/A   |
| Sheriff's Donation           | 6,853                   | N/A   |
| Health Center                | N/A                     | 7,660 |
| Senate Bill 40 Board         | 2,944                   | N/A   |

It was ruled in State ex rel. v. Cribb, 364 Mo. 1122, 273 S.W.2d 246 (1954) that strict compliance with the county budget law is required by county officials. If there are valid reasons which necessitate excess disbursements, budget amendments should be made following the same process by which the annual budget is approved, including holding public

hearings and filing the amended budget with the State Auditor's Office. In addition, Section 50.622, RSMo Cum. Supp. 1997, provides that counties may amend the annual budget during any year in which the county receives additional funds which could not be estimated when the budget was adopted and that the county shall follow the same procedures required for adoption of the annual budget to amend its budgets.

A similar condition was noted in our prior report.

**WE AGAIN RECOMMEND** the County Commission, the Health Center Board and the Senate Bill 40 Board not authorize warrants in excess of budgeted disbursements. Extenuating circumstances should be fully documented and, if necessary, the budgets properly amended following the same process by which the annual budget is approved, including holding public hearings and filing the amended budget with the State Auditor's Office.

### **AUDITEE'S RESPONSE**

*The County Commission responded:*

*We would like to point out that we did correctly amend the General Revenue and Assessment Funds in 1999. The overspending in the other funds was due to unanticipated revenue becoming available. Our failure to amend the budgets in these funds was an oversight. We will fully comply with this recommendation in the future.*

*The Health Center Administrator responded:*

*The Wayne County Health Center Board President and Health Center Administrator will implement the correct procedure in amending the budget as of August 2000, when we next see that we are going to overspend our budgeted disbursements.*

*The Senate Bill 40 Board President responded:*

*We agree and will implement in the next budget year.*

### **3.**

### **Depository Agreements**

The county has monies on deposit in two local banks, but does not have current written depository agreements with these banks. Section 110.130, RSMo Cum. Supp. 1999, requires the County Commission to enter into new agreements with banks selected as depositories during the May term of 1997, and every fourth year thereafter.

Written depositary contracts should be prepared so that both the bank and the county can understand and comply with the requirements of the agreement. The contracts may include costs of bank services and safe deposit boxes, interest charges for borrowed funds, provisions for protesting warrants, and interest to be paid on investments. The contracts should include requirements to ensure adequate collateral securities are pledged by the bank to secure all county monies.

This condition was also noted in our prior report.

**WE AGAIN RECOMMEND** the County Commission enter into written agreements with depositary banks in compliance with state law.

### **AUDITEE'S RESPONSE**

*We have implemented this recommendation.*

|   |
|---|
| <b>4. Personnel Policies and Procedures</b> |
|---|

Our review of the county's personnel policies and records revealed the following:

- A. Except for road and bridge employees, the county commission has not established written personnel policies regarding vacation and sick leave, compensatory time, and overtime. Currently each officeholder is responsible for individual office policies. We noted the county paid a former sheriff's employee for accumulated vacation leave totaling \$678. The Sheriff does have a written leave policy but the policy does not specify how leave is to be paid upon termination/resignation.

Complete and detailed written policies are necessary to provide guidance to county employees and provide a basis for proper compensation. In addition, such policies should be uniformly applied to ensure each employee is treated equitably.

- B. Records of leave, overtime worked, and compensatory time balances are not centrally maintained except for road and bridge employees. Some leave records are maintained by individual officeholders; however, some of these records do not always adequately account for employees' accumulated leave balances. For example, the Sheriff's office did not keep adequate records of overtime accumulated. As a result, the County Commission recently settled a dispute with two former sheriff's deputies regarding overtime. The U.S. Department of Labor ordered the county to pay overtime to the officers in the amount of \$5,044 and \$3,257. As the County Commission had no record of overtime balances, they paid the disputed amount to avoid legal costs.

Centralized records help ensure that the employees' vacation leave and overtime records are accurate, aid in determining final pay for employees leaving county

employment, and better document compliance with the Fair Labor Standards Act (FLSA).

**WE RECOMMEND** the County Commission:

- A. Establish written personnel policies regarding vacation and sick leave, compensatory time, and overtime.
- B. Require the County Clerk to maintain centralized leave and compensatory records for county employees.

**AUDITEE'S RESPONSE**

*We have implemented these recommendations.*

|                                       |
|---------------------------------------|
| <b>5. County Clerk's Account Book</b> |
|---------------------------------------|

The County Clerk does not maintain an account book with the County Collector. As a result, the County Collector's annual settlements cannot be adequately reviewed and errors could go undetected. An account book would summarize all taxes charged to the County Collector, monthly collections, delinquent credits, abatements and additions, and protested amounts by tax book. These figures could then be verified by the County Clerk from aggregate abstracts, tax books, court orders, monthly collection reports, and totals of all charges and credits. These verifications are the County Clerk's means of ensuring the amount of taxes charged to the County Collector and reported credits are complete and accurate.

Section 51.150.2, RSMo 1994, requires the County Clerk to maintain accounts with all persons chargeable with monies payable into the county treasury. A properly maintained account book would enable the County Clerk and County Commission to verify the County Collector's annual settlements.

This condition was also noted in our prior report.

**WE AGAIN RECOMMEND** the County Clerk maintain an account book with the County Collector and use this information to verify the County Collector's annual settlements.

## **AUDITEE'S RESPONSE**

*I intend to implement this recommendation before the end of the year.*

**6.**

### **Senate Bill 40 Board**

The Senate Bill 40 Board receives approximately \$60,000 in property taxes annually. Section 205.970 RSMo 1994 allows the board to contract with Not for Profit (NFP) corporations to provide services to county residents. Our review of the Board's records noted the following concerns:

- A. The Senate Bill 40 Board disbursed approximately \$35,000 and \$43,000 during the years ended December 31, 1999 and 1998, respectively, to the Services for Extended Employment, Inc. (S.E.E.), a NFP corporation. The contract with S.E.E. requires the Senate Bill 40 Board to "supply monetary assistance as is necessary at such time as S.E.E. makes application therefore".

The contract between the Senate Bill 40 Board and S.E.E. does not provide adequate assurance on how monies are being spent. Additionally, the contract does not guarantee the provision of any specified services to residents of Wayne County or the number of clients to be served in exchange for funding provided by the Senate Bill 40 Board.

- B.1. In 1999, the Senate Bill 40 Board also paid \$15,000 to Cape Arrowhead, another NFP, to aid in providing services to southern Wayne County residents. The Senate Bill 40 Board has not entered into a written contract with this NFP regarding the usage of these monies, nor did the Senate Bill 40 Board review financial records to determine how these monies were used.
2. Three Senate Bill 40 Board members also served on Cape Arrowhead's Board of Directors at the time it received funding. This situation results in a potential conflict of interest.

The potential for misuse, misappropriation and abuse of funds is increased when the Senate Bill 40 Board does not require written contracts to accompany distribution of funds to NFP corporations. In addition, to provide maximum assurance the Senate Bill 40 Board is acting independently and in the best interest of the county, no administrative or financial ties should exist between members of the board and its funding recipients.

The Senate Bill 40 Board should enter into contracts with entities providing services. These contracts should be specific and clearly establish the responsibilities and duties of each party.

**WE RECOMMEND** the Senate Bill 40 Board:

A&

B.1. Enter into written contracts which specify the amounts to be paid, the services to be provided, and the time period covered by the contracts.

B.2. Not have administrative or financial ties with its funding recipients.

**AUDITEE'S RESPONSE**

*The Senate Bill 40 Board President responded:*

A. *We agree and will implement with the next contract.*

B.1. *We agree. We have requested and received a list of expenditures from the Cape Arrowhead Board regarding the \$15,000. In the future, the Senate Bill 40 Board will sign a contract for services as outlined in the recommendation.*

B.2. *We agree. The Senate Bill 40 Board does not currently have any financial or administrative ties with either not-for-profit board.*

This report is intended for the information of the management of Wayne County, Missouri, and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on Prior Audit Findings

## WAYNE COUNTY, MISSOURI FOLLOW-UP ON PRIOR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Wayne County, Missouri, on findings in the Management Advisory Report (MAR) of our prior audit report issued for the two years ended December 31, 1997. Finding numbers 1 and 4 are omitted since the related follow-up appears in an earlier section of this report. The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR. Although the remaining unimplemented recommendations have not been repeated, the county should consider implementing these recommendations.

### 2. Budgetary Practices

- A. Budgets were not prepared for various funds for the two years ended December 31, 1997.
- B. Disbursements were approved in excess of budgeted amounts.

#### Recommendation:

The County Commission:

- A. Ensure budgets are prepared or obtained for all county funds in accordance with state law.
- B. And Senate Bill 40 Board not authorize warrants in excess of budgeted disbursements. Extenuating circumstances should be fully documented and, if necessary, the budgets properly amended following the same process by which the annual budget is approved, including holding public hearings and filing the amended budget with the State Auditor's Office.

#### Status:

- A. Implemented.
- B. Not implemented. See MAR No. 2.

### 3. County Expenditures

- A. The former County Clerk was paid \$2,400 more than the annual salary authorized by the county salary commission for the year ended December 31, 1997.
- B. The county unnecessarily incurred interest expenses totaling \$3,855 for warrants protested by the county for the year ended December 31, 1997.

- C. The Prosecuting Attorney claimed reimbursement for mileage for several trips between Piedmont and Greenville each month of the audit period. The Prosecuting Attorney's private law office and principal residence are located in Piedmont, while the courthouse where he conducts his regular duties as Prosecuting Attorney is located in Greenville.
- D. The county did not ensure all efforts to obtain bids were adequately documented.
- E. Fuel used and on hand was not reconciled to fuel purchases for the Road and Bridge Department.
- F. The Special Law Enforcement Fund (SLEF) was used to award scholarships to high school students.

Recommendation:

The County Commission:

- A. Obtain a legal opinion from the Prosecuting Attorney to determine whether any money is due back to the General Revenue Fund and ensure all county officials are compensated in accordance with the decisions of the county salary commission.
- B. And the County Treasurer discontinue the practice of protesting warrants when a sufficient cash balance exists.
- C. Determine the propriety of paying the Prosecuting Attorney for commuting mileage between Piedmont and the county courthouse in Greenville. If the county continues to pay commuting mileage, it should be reported as a fringe benefit on the Prosecuting Attorney's W-2 form.
- D. Retain documentation of bids and justification for bid awards. If bids cannot be obtained or sole source procurement is necessary, the County Clerk should retain documentation of these circumstances.
- E. Ensure fuel used and on hand is reconciled to fuel purchases and maintain adequate documentation of these reconciliations.

The Prosecuting Attorney:

- F. Ensure expenditures from the SLEF are for law enforcement purposes only.

Status:

A. Not implemented. In our prior report the County Commission responded that it would request an opinion from the Prosecuting Attorney, however, no opinion was obtained. Although not repeated in the current MAR, our recommendation remains as stated above.

B&F. Not implemented. See MAR No. 1.

C. While not implemented, in our prior report the County Commission responded that the Prosecuting Attorney performs official business at both locations. The Prosecuting Attorney was reimbursed approximately \$1,600 per year during the two years ended December 31, 1999, for mileage between Piedmont and Greenville.

D. Partially implemented. Most disbursements were bid if applicable. Although not repeated in the current MAR, our recommendation remains as stated above.

5. Distributions

A. The County Commission did not properly distribute flood control monies.

B. The County Clerk did not properly apportion 1996 railroad and utility tax collections to the various school districts.

C. The Tax Sale Overplus Fund at December 31, 1997 included interest and tax sales monies of \$10,918 that had been held by the County Treasurer for more than seven years.

Recommendation:

A. The County Commission review the distribution of flood control monies and ensure compliance with state law.

B. The County Commission consult with the school districts and the Missouri Department of Elementary and Secondary Education for guidance on how to correct the past errors.

C. The County Treasurer disburse \$10,918 from the Tax Sale Overplus Fund to the school districts and ensure distributions from the Tax Sale Overplus Fund are made on a timely basis.

Status:

- A. Implemented in 1999. In 1998, the flood control monies totaling \$11,332 were distributed seventy percent to General Revenue, twenty percent to various schools, and ten percent to the Road and Bridge Fund.
- B. Implemented. The County Clerk indicated the Missouri Department of Elementary and Secondary Education (DESE) was contacted by phone and DESE recommended deducting the overpayment from future Railroad and Utility taxes. The County Clerk has been following this recommendation, however, based on the amount deducted thus far, it will take another thirty two years before the error is fully corrected.
- C. Implemented.

6. Published Financial Statements and Depositary Contracts

- A. The county's annual published financial statements did not include the financial activity of some county funds.
- B. The county had monies on deposit in two local banks, but did not have current written depositary agreements with these banks.

Recommendation:

The County Commission:

- A. Ensure financial information for all county funds is reported in the annual published financial statements in accordance with state law.
- B. Enter into written agreements with depositary banks in compliance with state law.

Status:

- A. Implemented.
- B. Not implemented. See MAR No. 3.

7. County Clerk's Account Book

The County Clerk did not maintain an account book with the County Collector.

Recommendation:

The County Clerk maintain an account book with the County Collector and use this information to verify the County Collector's annual settlements.

Status:

Not implemented. See MAR No. 5.

8. County Collector's Procedures

- A. The County Collector did not deposit receipts intact.
- B. The County Collector made changes to the property tax records. Also, the County Commission did not approve any additions to the tax books.
- C. Penalties for the collection of delinquent and back taxes were not calculated correctly.
- D. Surtax collections were not distributed properly.

Recommendation:

The County Collector:

- A.1. Deposit all monies received intact daily, discontinue the practice of cashing checks, and reconcile the composition of receipts to the composition of deposit slips.
  - 2. Establish a change fund at a set amount and maintain it on an imprest basis.
  - 3. Make all disbursements by check.
- B. Work with the County Commission and County Clerk to revise the addition process so that the County Collector does not have the capability to make changes to the tax books without other controls in place.
- C. Assess penalties on delinquent and back tax collections based on all sums collected.
- D. Adjust the 1998 surtax distributions to reflect amounts incorrectly distributed in prior years. In addition, future distributions of surtax collections should take into consideration the current year's assessed valuation for subclass 3 commercial property of each political subdivision as required by state law.

Status:

Implemented.

9. Sheriff's Controls and Records

- A. Accounting duties were not adequately segregated.
- B. Receipt slips were not always issued immediately upon receiving monies.
- C. Monies received were not always deposited intact.
- D. Bank reconciliations were not prepared on a timely basis.
- E. The bank account had \$982 in outstanding checks that were more than one year old.
- F. Sheriff's Department personnel serving as guards received a per diem and also received a mileage fee from the state in addition to their regular compensation.

Recommendation:

The Sheriff:

- A. Provide for adequate segregation of duties and the performance of independent reconciliations and reviews of accounting records.
- B. Issue receipt slips for all monies immediately upon receipt and reconcile receipt slips to deposit slips on a daily basis.
- C.1. Deposit receipts intact and reconcile the composition of receipts to the composition of deposits.
  - 2. Establish a change fund at a set amount and maintain it on an imprest basis.
- D. Prepare bank reconciliations on a monthly basis.
- E. Attempt to locate the payees of the old outstanding checks and reissue checks if possible. Request a court order to disburse the monies for the closed case and disburse the monies accordingly. Any remaining unclaimed amounts should be disbursed in accordance with state law.
- F. And County Commission review this situation. Sheriff's Department personnel who serve as guards should be paid their normal salary for the amount of time spent, and all payments should be included on W-2 forms.

Status:

A&E. Not implemented. Although not repeated in our current MAR, our recommendations remain as stated above.

B,C,  
&F. Implemented.

10. Health Center

A. The health center approved disbursements of \$20,208 in excess of the budgeted amount for the year ended December 31, 1996.

B. The budget for the for the year ending December 31, 1997 contained several errors.

Recommendation:

The Health Center Board of Trustees:

A. Not authorize warrants in excess of budgeted disbursements. Extenuating circumstances should be fully documented and, if necessary, the budgets properly amended following the same process by which the annual budget is approved, including holding public hearings and filing the amended budget with the State Auditor's Office.

B. Ensure the budgets accurately reflect the actual beginning cash balances, and estimated receipts, disbursements, and ending cash balance.

Status:

A. Not implemented. See MAR No. 2.

B. Implemented.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

# WAYNE COUNTY, MISSOURI HISTORY, ORGANIZATION, AND STATISTICAL INFORMATION

Organized in 1818, the county of Wayne was named after Anthony Wayne, a general of the Revolutionary War. Wayne County is a county-organized, third-class county and is part of the Forty-Second Judicial Circuit. The county seat is Greenville.

Wayne County's government is composed of a three-member county commission and separate elected officials performing various tasks. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials.

Principal functions of these other officials relate to judicial courts, law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records of importance to the county's citizens.

Counties typically spend a large portion of their receipts to support general county operations and to build and maintain roads and bridges. The following chart shows from where Wayne County received its money in 1999 and 1998 to support the county General Revenue and Special Road and Bridge Funds:

| SOURCE                    | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| Property taxes            | \$ 273,150   | 11         | 309,207   | 15         |
| Sales taxes               | 752,959      | 30         | 707,735   | 34         |

| Total                     | \$ 2,491,061 | 100        | 2,072,711 | 100        |

The following chart shows how Wayne County spent monies in 1999 and 1998 from the General Revenue and Special Road and Bridge Funds:

| USE                       | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| General county government | \$ 621,784   | 25         | 631,750   | 29         |
| Public safety             | 406,801      | 17         | 403,854   | 18         |
| Highways and roads        | 1,421,716    | 58         | 1,177,298 | 53         |
| Total                     | \$ 2,450,301 | 100        | 2,212,902 | 100        |

The county maintains approximately 80 county bridges and 762 miles of county roads.

The county's population was 8,546 in 1970 and 11,543 in 1990. The following chart shows the county's change in assessed valuation since 1970:

|                        |    | Year Ended December 31, |      |       |        |        |
|------------------------|----|-------------------------|------|-------|--------|--------|
|                        |    | 1999                    | 1998 | 1985* | 1980** | 1970** |
|                        |    | (in millions)           |      |       |        |        |
| Real estate            | \$ | 52.3                    | 48.5 | 29.2  | 10.5   | 5.9    |
| Personal property      |    | 23.1                    | 20.8 | 9.0   | 5.0    | 2.2    |
| Railroad and utilities |    | 11.4                    | 11.6 | 9.3   | 6.4    | 4.6    |
| Total                  | \$ | 86.8                    | 80.9 | 47.5  | 21.9   | 12.7   |

\* First year of statewide reassessment.

\*\* Prior to 1985, separate assessments were made for merchants' and manufacturers' property. These amounts are included in real estate.

Wayne County's property tax rates per \$100 of assessed valuations were as follows:

|                              |    | Year Ended December 31, |      |
|------------------------------|----|-------------------------|------|
|                              |    | 1999                    | 1998 |
| General Revenue Fund         | \$ | .17                     | .13  |
| Special Road and Bridge Fund |    | .11                     | .11  |
| Health Center Fund           |    | .10                     | .10  |
| Senate Bill 40 Board Fund    |    | .08                     | .08  |

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and payable by December 31. Taxes paid after December 31 are subject to penalties. The county bills and collects property taxes for itself and most other local governments. Taxes collected were distributed as follows:

|                                   | Year Ended February 28, |                  |
|-----------------------------------|-------------------------|------------------|

LINCOLN COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-87  
September 7, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

September 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Lincoln, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

---

This audit of Lincoln County was a financial and compliance audit of various county operating funds. The following concerns were noted as part of the audit:

- As discussed in our prior report, on November 5, 1996, the county passed a ten year Road and Bridge Capital Improvement sales tax of one-half of one percent for the purpose of rehabilitating existing roads and bridges, replacement of bridges, and maintenance of existing gravel roads which became effective in April 1997. Per records obtained from the Missouri Department of Revenue, the county imposed this sales tax under state statute; however, the county also had another one-fourth of one percent Law Enforcement Capital Improvement sales tax levy imposed under this same statute. With the additional Road and Bridge Capital Improvement sales tax, the county is levying three-fourths of one percent which is apparently above the statutory maximum allowed by state law. The county indicated they had reviewed this with their attorney in November 1998, and he indicated that these were handled correctly. However, Attorney General's Opinion, No. 97-99, states that total capital improvement sales tax rates cannot exceed one-half of one percent.
- The county contracts with the State Highway and Transportation Commission for bridge replacement and rehabilitation under the Off-System Bridge Replacement and Rehabilitation Program. The county procured bridge replacement engineering services without documentation of consideration of other firms. The procurement of services should comply with state statutes which provide that when obtaining engineering services for any capital improvement project, at least three highly qualified firms should be considered.

The audit also includes some other matters upon which the county should consider and take appropriate corrective action.

**Copies of the audit are available upon request.**

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Lincoln County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Lincoln County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

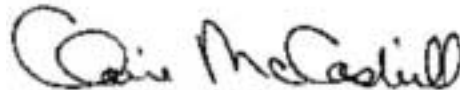

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Lincoln County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Lincoln County.

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Lincoln County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated April 28, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Lincoln County, Missouri

We have audited the special-purpose financial statements of various funds of Lincoln County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated April 28, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

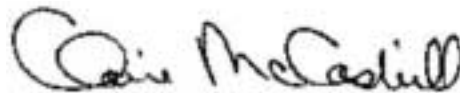

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Lincoln County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance that is required to be reported under *Government Auditing Standards* and which is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1. We also noted certain immaterial instances of noncompliance, which we have reported to the management of the county in the accompanying Letter on Other Matters.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Lincoln County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not

necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting which we have reported to the management of the county in the accompanying Letter on Other Matters.

This report is intended for the information of the management of Lincoln County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

The accompanying Notes to the Financial Statements are an integral part of this statement.

## Notes to the Financial Statements

LINCOLN COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Lincoln County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed by warrant or in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>                      | <u>Years Ended December 31,</u> |
|----------------------------------|---------------------------------|
| Law Library Fund                 | 1998                            |
| Federal Drug Forfeiture Fund     | 1999 and 1998                   |
| Industrial Development Authority |                                 |
| Speculative Building Fund        | 1999 and 1998                   |
| Flood Buyout Fund                | 1998                            |

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>                              | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Law Enforcement Training Fund            | 1999 and 1998                   |
| Prosecuting Attorney Training Fund       | 1999                            |
| Jail Debt Service Fund                   | 1998                            |
| Walker Road Community District Fund      | 1998                            |
| Sheriff's Civil Fees Fund                | 1998                            |
| Prosecuting Attorney Bad Check Fees Fund | 1999 and 1998                   |
| Recorder's User Fee Fund                 | 1998                            |
| Circuit Clerk Interest Fund              | 1998                            |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

Deficit budget balances are presented for the following funds:

| <u>Fund</u>                  | <u>Years Ended December 31,</u> |
|------------------------------|---------------------------------|
| General Revenue Fund         | 1999 and 1998                   |
| Special Road and Bridge Fund | 1998                            |

However, the budgets of those funds also included other resources available to finance current or future year disbursements. Generally, other available net resources represented current year property taxes not received before December 31. Such resources were sufficient to offset the deficit budget balances presented.

D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statement for the year ended December 31, 1999, did not include the Law Library Fund.

2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than

depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The county's deposits at December 31, 1999 and 1998, were entirely covered by federal depository insurance or by collateral securities held by the county's custodial bank in the county's name.

However, because of significantly higher bank balances at certain times during the year, uninsured and uncollateralized balances existed at those times although not at year-end.

To protect the safety of county deposits, Section 110.020, RSMo 1994, requires depositories to pledge collateral securities to secure county deposits not insured by the Federal Deposit Insurance Corporation.

### 3. Capital Improvement Sales Taxes

Since 1997, the county has imposed capital improvement sales taxes of one-half of one percent for the purpose of rehabilitating existing roads and bridges, replacement of bridges, and maintenance of existing gravel roads; and one-fourth of one percent for the purpose of building a jail facility. Attorney General's Opinion 97-99, 1999, to Neel has interpreted that in accordance with Section 67.700, RSMo, the total levy for capital improvement sales taxes cannot exceed one-half percent. The combined rates for both of the capital improvement sales taxes results in amounts being collected apparently in excess of those authorized by law. The ultimate outcome of this situation cannot be determined.

N/A - Not applicable

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

LINCOLN COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Lincoln County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Amounts for Food Distribution (CFDA number 10.550) represent the dollar value assigned to commodities based on prices provided by the State Department of Social Services.

Of the pass-through amounts for Immunization Grants (CFDA number 93.268), \$36,600 and \$27,785 represent the original acquisition cost of other vaccines purchased by the Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), \$436 and \$722 represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$2,179 and \$2,526 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

2. Subrecipients

The county provided no federal awards to subrecipients during the years ended December 31, 1999 and 1998.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Lincoln County, Missouri

Compliance

We have audited the compliance of Lincoln County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. The county's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

In our opinion, Lincoln County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance

with OMB Circular A-133 and which is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-2.

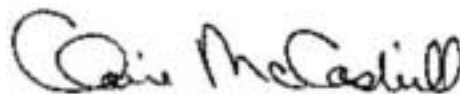

#### Internal Control Over Compliance

The management of Lincoln County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted a certain matter involving the internal control over compliance and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the county's ability to administer a major federal program in accordance with applicable requirements of laws, regulations, contracts, and grants. The reportable condition is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-2.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions, and accordingly, would not necessarily disclose all reportable conditions that are considered to be material weaknesses. However, we do not believe that the reportable condition described above is a material weakness.

This report is intended for the information of the management of Lincoln County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, appearing to read "Claire McCaskill".

## Section II - Financial Statement Findings

This section includes the audit finding that *Government Auditing Standards* requires to be reported for an audit of financial statements.

|  |
|--|
| <b>99-1. Capital Improvement Sales Tax</b> |
|--|

As discussed in our prior report, on November 5, 1996, the county passed a ten year Road and Bridge Capital Improvement sales tax of one-half of one percent for the purpose of rehabilitating existing roads and bridges, replacement of bridges, and maintenance of existing gravel roads which became effective in April 1997.

Per records obtained from the Missouri Department of Revenue (DOR), the county imposed this sales tax under Section 67.700, RSMo 1994; however, the county also had another one-fourth of one percent Law Enforcement Capital Improvement sales tax levy imposed under this law. With the additional Road and Bridge Capital Improvement sales tax, the county is levying three-fourths of one percent which is apparently above the statutory maximum allowed by Section 67.700, RSMo. The County Commission previously indicated they believed these sales taxes were acceptable because they were voted and approved by the citizens, and approved by the DOR. Additionally, the county's legal counsel in November 1998, indicated that he believed both of the separate taxes were legal and valid because the statute does not prohibit separate elections for separate taxes; the only prohibition in the statute is the limitation to three separate percentages of the sales tax that can be submitted to the voters. However, Attorney General's Opinion No. 97-99, 1999 to Neel states that total capital improvement sales tax rates cannot exceed one-half of one percent.

The county needs to review the various capital improvement sales taxes being imposed to determine which are valid. The county may need to eliminate one of these taxes and reallocate the sales tax monies being collected.

**WE RECOMMEND** the County Commission review the overall capital improvement sales taxes being levied in conjunction with Attorney General Opinion No. 97-99, 1999 to Neel and ensure they are in accordance with applicable state statutes.

### **AUDITEE'S RESPONSE**

*The County Commission feels their sales taxes are in compliance with state law. Both taxes have been approved by the voters and the Department of Revenue. In addition, the Commissioners indicated that they had reviewed this with their attorney and he agreed that these were handled correctly.*

### Section III - Federal Award Findings and Questioned Costs

This section includes the audit finding that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

|              |  |
|--------------|--|
| <b>99-2.</b> | <b>Highway Planning and Construction</b> |
|--------------|--|

|                       |                                       |
|-----------------------|---------------------------------------|
| Federal Grantor:      | U.S. Department of Transportation     |
| Pass-Through Grantor: | Highway and Transportation Commission |
| Federal CFDA Number:  | 20.205                                |
| Program Title:        | Highway Planning and Construction     |
| Pass-Through Entity   |                                       |
| Identifying Number:   | BRO-057 (6)(8)                        |
| Award Year:           | 1999 and 1998                         |
| Questioned Costs:     | \$49,112                              |

The county contracts with the State Highway and Transportation Commission for bridge replacement and rehabilitation under the Off-System Bridge Replacement and Rehabilitation Program. These projects are 80 percent federally funded.

During our previous review, we noted the county procured bridge replacement engineering services during the previous audit period without documentation of consideration of other firms. As a result, we have questioned costs of \$49,112 which is the federal share of engineering costs paid during 1999 and 1998 under these prior contracts.

Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, in Part I of the Compliance Supplement, requires that states, and government subrecipients of states, use the same policies and procedures used for procurement on non-federal funds. As a result, the procurement of services should comply with Sections 8.289 and 8.291, RSMo 1994, which provide that when obtaining engineering services for any capital improvement project, at least three highly qualified firms should be considered. The firms should be evaluated based on specific criteria including experience and technical competence, capacity and capability of the firm to perform the work in question, past record of performance, and the firm's proximity to and familiarity with the area in which the project is located.

**WE RECOMMEND** the County Commission obtain information as required by law when contracting for professional services.

#### **AUDITEE'S RESPONSE AND PLAN FOR CORRECTIVE ACTION**

*The County Commission indicated they did consider various firms for these projects, and will ensure this is documented in the future. In addition, the Commission indicated they have adopted a policy regarding procurement of engineers to ensure future compliance.*

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

LINCOLN COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Lincoln County, Missouri, on the applicable findings in our prior audit report issued for the two years ended December 31, 1997.

|           |                                      |
|-----------|--------------------------------------|
| <b>8.</b> | <b>Capital Improvement Sales Tax</b> |
|-----------|--------------------------------------|

The county passed a Road and Bridge Capital Improvement sales tax of one-half of one percent which became effective April 1997. In addition, the county had another one-fourth of one percent Law Enforcement Capital Improvement sales tax levy imposed. Therefore, the county had levied three-fourths of one percent which apparently exceeded the statutory maximum allowed by state law.

Recommendation:

The County Commission review the overall capital improvement sales taxes being levied and ensure they are in accordance with applicable state statutes.

Status:

Not implemented. See finding number 99-1.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

LINCOLN COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

This section represents the Summary Schedule of Prior Audit Findings, which was prepared by the county's management.

| Pass-Through Entity   |   |
| Identifying Number:   | 95CFWX2124  |

Award Year: 1997 and 1996  
Questioned Costs: N/A

Federal Grantor: Federal Emergency Management Agency  
Pass-Through Grantor: Department of Public Safety  
Federal CFDA Number: 83.548  
Program Title: Hazard Mitigation Assistance  
Pass-Through Entity  
Identifying Number: 995-DR-MO  
Award Year: 1997 and 1996  
Questioned Costs: N/A

- A.1. The county did not properly monitor disbursements of the Community Development Grant or the Hazard Mitigation Assistance.
- 2. The county did not have written contracts for all payments made to the Boonslick Regional Planning Commission (BRPC), which administered the Community Development Grant and the Hazard Mitigation Assistance.
- 3. The county had not established cash management procedures to ensure minimum time elapses between its receipt of federal program monies and the disbursement of monies for the Community Development Grant and the Hazard Mitigation Assistance.
- B. The county did not have documentation regarding the consideration of at least three engineering firms for bridge projects. This resulted in questioned costs totaling \$27,323.
- D. The county's Schedule of Federal Financial Assistance contained numerous errors and omissions.

Recommendation:

- A.1. Establish procedures to ensure all invoices are reviewed for reasonableness and propriety.
- 2. Document all contract changes in writing. The County Commission should review the payments made to the BRPC and determine if any reimbursements should be sought.
- 3. Establish procedures to minimize the time elapsed between the receipt of federal monies and disbursement of such funds.
- B. Obtain the required statutory information for professional services. The County Commission should contact state and federal grantor agencies to resolve the questioned costs.

- D. Ensure all federal financial expenditure amounts are properly recorded on the Schedule of Federal Financial Assistance.

Status:

- A.1-3. Not implemented. Since these programs have now ended, this recommendation will not be repeated in our current report.
- B. Partially implemented. While there was no selection of engineering services during the two years ended December 31, 1999, the County Commission adopted a policy in January 1999, which provides that at least three firms must be considered. See finding number 99-2.
- D. Partially implemented. The county has made significant improvement in preparation of this schedule; however, it still contained errors and omissions.

## SECTION ON OTHER MATTERS

## LINCOLN COUNTY, MISSOURI LETTER ON OTHER MATTERS

We have audited the special-purpose financial statements of various funds of Lincoln County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated April 28, 2000. We also have audited the compliance of Lincoln County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998, and have issued our report thereon dated April 28, 2000.

We did not review the operations of elected officials with funds other than those presented in the special-purpose financial statements. The operations of such officials will be reviewed and reported on during the state auditor's next scheduled audit of the county.

This Letter on Other Matters presents matters other than the findings, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These matters resulted from our audits of the special-purpose financial statements of Lincoln County and of its compliance with the types of compliance requirements applicable to each of its major federal programs but do not meet the criteria for inclusion in the written reports on compliance and on internal control over financial reporting or compliance that are required for audits performed in accordance with *Government Auditing Standards* and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Nevertheless, the county should consider these matters and take appropriate corrective action.

### 1. Schedule of Federal Financial Assistance

The county's schedule of expenditures of federal awards (SEFA) contained various errors and omissions for the years ended December 31, 1999 and 1998. The SEFA should be accurately prepared to ensure all federal awards are properly reported.

### 2. Collateral Securities

The amount of collateral securities pledged by the county's depository banks at January 25, 2000 and January 27, 1999 were insufficient to cover monies in the custody of the County Treasurer.

### 3. Sheriff's Procedures

Reimbursement claims for the Community Policing (COPS) grant are not submitted timely. Currently, requests are made on a quarterly basis. In addition, the Sheriff's department does not monitor the reimbursement process.

This Letter on Other Matters is intended for the information of the management of Lincoln County, Missouri, and other applicable government officials. However, this letter is a matter of public record and its distribution is not limited.

ELEVENTH JUDICIAL CIRCUIT  
CITY OF FORISTELL, MISSOURI  
MUNICIPAL DIVISION

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-86  
August 31, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

August 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**During our audit of the Eleventh Judicial Circuit, City of Foristell, Missouri, Municipal Division, we identified the following problems.**

---

Monthly listings of open items (liabilities) are prepared for the bond account, however, the listings do not reconcile with the cash balance. As of February 29, 2000, the open items listing exceeded the cash balance by approximately \$280. The difference noted should be investigated and any shortages reimbursed.

Monthly open items listings should be prepared and reconciled to the bank account to ensure proper accountability over open cases and ensure monies held in trust by the court are sufficient to meet liabilities.

Monies collected are not deposited on a timely basis. Deposits for fine and cost receipts and bond receipts are generally made one or twice a week and average approximately \$4,000 and \$800, respectively. To adequately safeguard receipts and reduce the risk of loss or misuse of funds, deposits should be made intact daily or when accumulated receipts exceed \$100.

The municipal division accepts cash, checks, and money orders for fines and court costs. Although receipt slips indicate the method of payment received, there is no reconciliation of the composition of receipt slips to the composition of deposits by an individual independent of the receiving process.

Voided receipt slips are not retained. To account for the numerical sequence of all receipt slips, voided receipt slips should be retained.

## STATE AUDITOR'S REPORT

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

Presiding Judge  
and  
Municipal Judge  
Eleventh Judicial Circuit  
City of Foristell Municipal Division

We have audited certain operations of the city of Foristell Municipal Division of the Eleventh Judicial Circuit. The scope of this audit included, but was not necessarily limited to the two years ended February 29, 2000. The objectives of this audit were to:

1. Determine the internal controls established over the financial transactions of the municipal division.
2. Review and evaluate certain other management practices for efficiency and effectiveness.
3. Review certain management practices and financial information for compliance with applicable legal provisions.
4. Follow up on action taken by the municipal division on the applicable finding in our prior audit report on the municipal divisions of the Eleventh Judicial Circuit.

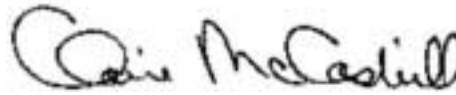

Our audit was conducted in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed accounting and bank records and other pertinent documents and interviewed various personnel of the municipal division.

As part of our audit, we assessed the controls of the municipal division to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Our audit was limited to the specific matters described above and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the municipal division's management and was not subjected to the procedures applied in the audit of the division.

The accompanying Management Advisory Report presents our findings arising from our audit of the city of Foristell Municipal Division of the Eleventh Judicial Circuit.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

June 28, 2000 (fieldwork completion date)

MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S FINDINGS

ELEVENTH JUDICIAL CIRCUIT  
CITY OF FORISTELL, MISSOURI  
MUNICIPAL DIVISION  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S FINDINGS

|           |                           |
|-----------|---------------------------|
| <b>1.</b> | <b>Receipt Procedures</b> |
|-----------|---------------------------|

- A. Monies collected are not deposited on a timely basis. Deposits for fine and cost receipts and bond receipts are generally made once or twice a week and average approximately \$4,000 and \$800, respectively. To adequately safeguard receipts and reduce the risk of loss or misuse of funds, deposits should be made intact daily or when accumulated receipts exceed \$100.
- B. Voided receipt slips are not retained. To account for the numerical sequence of all receipt slips, voided receipt slips should be retained.
- C. The municipal division accepts cash, checks, and money orders for fines and court costs. Although receipt slips indicate the method of payment received, there is no reconciliation of the composition of receipt slips to the composition of deposits by an individual independent of the receiving process.

**WE RECOMMEND** the City of Foristell Municipal Division:

- A. Deposit receipts intact daily or when accumulated receipts exceed \$100.
- B. Retain all voided receipt slips.
- C. Establish a documented review of the reconciliation of the composition of receipt slips to the composition of deposits by an independent person.

**AUDITEE'S RESPONSE**

*The Municipal Judge, the Court Clerk, the City Administrator and the City Treasurer indicated:*

*A&B. These recommendations have been implemented.*

*C. This recommendation will be implemented immediately.*

|           |                   |
|-----------|-------------------|
| <b>2.</b> | <b>Open Items</b> |
|-----------|-------------------|

Monthly listings of open items (liabilities) are prepared for the bond account, however, the listings do not reconcile with the cash balance. As of February 29, 2000, the open items listing exceeded the cash balance by approximately \$280.

Monthly open items listings should be prepared and reconciled to the bank account to ensure proper accountability over open cases and ensure monies held in trust by the court are sufficient to meet liabilities.

**WE RECOMMEND** the City of Foristell Municipal Division reconcile the monthly listing of open items to the balance in the bond account. In addition, the difference noted above should be investigated and any shortages reimbursed.

**AUDITEE'S RESPONSE**

*The Municipal Judge, the Court Clerk, the City Administrator and the City Treasurer indicated:*

*This recommendation has been implemented. The difference has been investigated and the shortage will be reimbursed by the city at the end of October 2000.*

This report is intended for the information of the management of the city of Foristell Municipal Division of the Eleventh Judicial Circuit and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## FOLLOW-UP ON PRIOR AUDIT FINDING

ELEVENTH JUDICIAL CIRCUIT  
CITY OF FORISTELL, MISSOURI  
MUNICIPAL DIVISION  
FOLLOW-UP ON PRIOR AUDIT FINDING

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by the city of Foristell Municipal Division on the applicable finding in the Management Advisory Report (MAR) of our prior audit report issued for the two years ended 1994 and 1993 on the municipal divisions of the Eleventh Judicial Circuit.

The prior recommendations which have not been implemented are repeated in the current MAR.

City of Foristell Municipal Division

- A.1. Checks and money orders were not restrictively endorsed until the deposits were prepared.
- 2. Receipt slips were not obtained from the City Administrator for court monies transmitted to the city.
- 3. Receipt slips issued for the receipt of bond monies were not prenumbered.
- B.1. Neither the police department nor the court maintained adequate records to account for summonses issued and their ultimate disposition.
- 2. Tickets issued were not recorded on a log and ticket books were not assigned in numerical sequence. In addition, the ultimate disposition of some tickets could not be determined.
- 3. The court clerk did not forward required records of convictions on traffic offenses to the Missouri State Highway Patrol (MSHP).
- 4. The police department and the court clerk were unable to locate three tickets.
- C.1. The \$2 Law Enforcement Training (LET) fee was collected on nonmoving traffic violations.
- 2. The Crime Victims' Compensation (CVC) and LET fees were collected on moving traffic violations, but were not collected on non-traffic violations.
- D. The Municipal Judge did not sign the docket after dispositions were recorded.

**WE RECOMMEND** the City of Foristell Municipal Division:

- A.1. Restrictively endorse all checks and money orders immediately upon receipt.

2. Request a receipt slip from the city for amounts transmitted.
  3. Issue prenumbered receipt slips for all bond monies received and account for the numerical sequence.
- B.1.  
& 2. Work with the police department to ensure records are maintained to account for the numerical sequence and ultimate disposition of all summonses and tickets assigned and issued.
3. Forward records of convictions on traffic offenses to the MSHP as required by state law.
  4. Retain all tickets and summonses in accordance with the supreme court rule.
- C. Assess, collect, and remit the CVC and the LET fees in accordance with state law.
- D. Require the judge's signature on the court dockets.

Status:

A.1,  
A.3,B,  
C&D. Implemented.

- A2. Monies are no longer transmitted to the city, they are deposited into a court account and disbursed to the city monthly by check.

HISTORY, ORGANIZATION, AND  
STATISTICAL INFORMATION

ELEVENTH JUDICIAL CIRCUIT  
CITY OF FORISTELL, MISSOURI  
MUNICIPAL DIVISION  
HISTORY, ORGANIZATION, AND  
STATISTICAL INFORMATION

Organization

The city of Foristell Municipal Division is one of nine municipal divisions within the Eleventh Judicial Circuit, which consists of St. Charles County. The Honorable Ellsworth Curdiffe serves as Presiding Judge.

The municipal division is governed by Chapter 479, RSMo 1994 and RSMo Cumulative Supp. 1999, and by Supreme Court Rule No. 37. Supreme Court Rule No. 37.49 provides that each municipal division may establish a violation bureau (VB) in which fines and costs are collected at times other than during court and transmitted to the city treasury.

Operating Costs

The operating costs and court salaries of the municipal division are paid by the municipality.

Municipal Division Organization, Personnel, and Financial and Caseload Information

Organization

The Court Clerk is responsible for recording transactions as well as handling collections and disbursements. Fines and court costs are deposited by the Court Clerk or City Treasurer to the court's fines and costs bank account and then disbursed monthly. The police department and the Court Clerk collect bond monies. The police department transmits bond monies at least once a week to the Court Clerk. Bond monies are deposited in a separate court bank account pending disposition. Municipal court is held twice a month. A VB has been established to receive payments of fines and court costs at times other than during court.

Personnel

|                 |                  |
|-----------------|------------------|
| Municipal Judge | Joseph Porzenski |
| Court Clerk     | Cindy Holland*   |

\*Sandy Gordinier served as Court Clerk until January 2000. Tonya Bailey served as Court Clerk from January 2000 to February 2000.

REVIEW OF THE  
DEPARTMENT OF CORRECTIONS

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-85  
August 31, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

August 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**The following problems were discovered as a result of an audit conducted by our office of selected operations of the Central Office of the Department of Corrections.**

---

- According to Department of Corrections policy, all receipts are to be immediately transmitted to the Department of Revenue. However, we noted that as of December 1999 Missouri Vocational Enterprises was holding undeposited receipts totaling over \$1,593,600, including over \$11,500 in cash. Some of the undeposited receipts had been held at Missouri Vocational Enterprises for more than five months. We also noted other instances in which Missouri Vocational Enterprises held selected receipts for several months prior to transmittal to the Department of Revenue for deposit.
- At June 30, 1999, Missouri Vocational Enterprises operated 28 enterprises at 11 of the correctional institutions. Some of those industries show substantial losses while others continually show a net profit. A contributing factor to the inequities in the profits and losses of certain entities is an inadequate charge structure. Part of the reason for the inadequacy of the charge structure is not all of the factories are using a cost accounting system that provides or assembles sufficient data to implement an adequate costing system for all manufactured items. Only eight factories are currently using a system that provides an adequate costing system. In reports for the previous eighteen years, similar deficiencies have been noted in the cost accounting system.
- The Board of Probation and Parole operates a continuum of community supervision programs. One of those programs is the Electronic Monitoring Program. The Electronic Monitoring Program is a program designed to allow certain offenders, as assigned by the Department of Corrections, Board of Probation and Parole, or the courts, to live and work in the community. Offenders in the Electronic Monitoring Program are supervised by Probation and Parole Officers in the area where they live. The offenders are required to pay a portion of their gross earnings to cover the costs of the program. The payments are made to the Department of Corrections Central Office, and according to department procedure are to be deposited by transmittal to the Department of Revenue promptly.

(over)

YELLOW SHEET

These receipts were not always transmitted to the Department of Revenue on a timely basis. During late November 1999, we noted that the Department of Corrections was holding undeposited receipts totaling over \$179,500. These receipts consisted of over 3,300 money orders from offenders that had accumulated since July 1999. After we brought the problem to the department's attention, these payments were promptly deposited.

- The department has a contract with a medical services provider, Correctional Medical Services, to provide all types of medical services, excluding mental health and psychiatric care, to all inmates housed in state institutions except for those inmates assigned to residential treatment facilities, the community release centers, and the electronic monitoring program. The department has contracted with the same provider since December 1992.

The contract between the department and the medical contractor allows the department to issue a notice of deficiency to the medical contractor if the contractor's performance is unacceptable.

To help ensure the integrity and adequacy of the medical services provided to the inmates, the department should establish procedures or criteria which document when and under what circumstances a formal notice of deficiency should be issued to the medical contractor. While these procedures need not identify every possible problem that could result in a deficiency, they should set general parameters that provide general guidelines as to when and under what circumstances a deficiency should be considered.

- The department allowed a backlog of approximately 2,400 second appeals by inmates regarding grievances, to develop and did not clear them within the time frames required by department policy.
- The department retained over \$19,000 in the Inmate Canteen Fund that should be turned over to the State Treasurer as unclaimed property.

## STATE AUDITOR'S REPORT

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

Honorable Mel Carnahan, Governor  
and  
Dr. Dora Schriro, Director  
Department of Corrections

We have conducted a review of selected operations of the Department of Corrections, excluding correctional facilities which are reported on separately. The scope of our review included, but was not necessarily limited to, the years ended June 30, 1999 and 1998. The objectives of this review were to:

1. Review certain management practices and financial information for compliance with applicable statutes, regulations and departmental policy.
2. Review the efficiency and the effectiveness of certain management practices and operations.
3. Review compliance with the medical services contract between the Department of Corrections and Correctional Medical Systems.
4. Determine the extent to which certain prior audit recommendations have been implemented.

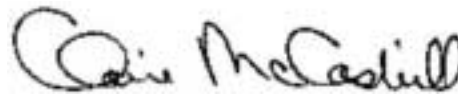

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed the department's revenues, expenditures, policies, rules, regulations, contracts, statutes, and other pertinent procedures and documents and interviewed department officials and personnel.

As part of our review, we assessed the department's management controls to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on these controls. With respect to management controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Our review was limited to the specific matters described above and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the department's management and was not subjected to the procedures applied in the review of the Department of Corrections.

The accompanying Management Advisory Report presents our findings and recommendations arising from our review of the Department of Corrections.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Current Recommendations

REVIEW OF THE  
DEPARTMENT OF CORRECTIONS  
SUMMARY OF FINDINGS

1. Missouri Vocational Enterprises Accounting Controls and Procedures (pages 7-9)

Receipts totaling over \$1,593,600 were not transmitted to the Department of Revenue (DOR) for deposit on a timely basis. The Missouri Vocational Enterprises cost accounting systems are inadequate.

2. Electronic Monitoring Program Receipts (pages 9-10)

Program payments totaling over \$179,500 received at the department's Central Office were not transmitted to the DOR for deposit on a timely basis.

3. Inmate Canteen Fund (pages 10-11)

The department has retained monies that should be turned over to the State Treasurer as unclaimed property.

4. Medical Contract (pages 11-12)

Procedures concerning formal notice of deficiencies are in need of improvement.

5. Inmate Grievances (pages 12-13)

The department allowed a backlog of approximately 2,400 second appeals to develop and did not clear them within the time frames required by department policy. In addition, the department provides inmates a rulebook that gives misleading information on grievance procedures.

6. Compensatory Leave Balance (page 14-15)

The department needs to continue to monitor and prevent excessive accrual of compensatory leave balances for correctional officers.

7. State-Owned Vehicles (pages 15-16)

The department's vehicle logs are not always accurate or complete, making it difficult to ensure the vehicles are used as intended or to determine the propriety of fuel or repair costs.

8. Disaster Recovery Plan (pages 16-17)

The department has not developed a formal disaster recovery plan.

REVIEW OF THE  
DEPARTMENT OF CORRECTIONS  
MANAGEMENT ADVISORY REPORT-  
STATE AUDITOR'S CURRENT RECOMMENDATIONS

|  |
|--|
| <b>1. Missouri Vocational Enterprises Accounting Controls and Procedures</b> |
|--|

The Working Capital Revolving Fund of the Missouri Vocational Enterprises (MVE), operating under the auspices of the Department of Corrections (DOC), was established by the General Assembly in July 1955 to fund the operations of correctional industries. The statutes provide that accounting records shall be maintained in a manner to report the net profits and losses of the fund. The MVE employs approximately 1,300 inmates who provide a variety of products and services for sale to state agencies, city and county governments, political subdivisions, state employees, and not-for-profit organizations.

During our review of MVE operations, we noted the following areas of concern:

- A. According to DOC policy, all receipts are to be immediately transmitted to the Department of Revenue (DOR). However, MVE receipts were not always transmitted to the DOR for deposit on a timely basis. We noted that, as of December 1999, MVE was holding undeposited receipts totaling over \$1,593,600, including over \$11,500 in cash. Some of the undeposited receipts had been held at MVE for more than five months. We also noted other instances in which MVE held selected receipts for several months prior to transmittal to the DOR for deposit.

MVE personnel indicated they had problems with the state's new SAM II accounting system, delaying payment processing, and they sometimes held receipts for several months if they were unsure how to process the receipt in question. MVE personnel indicated that once questions regarding processing were resolved, collections were transmitted promptly to the DOR.

The untimely transmittal of deposits results in lost interest revenues to the state and exposes the monies to unnecessary risk of loss or misuse. To adequately safeguard receipts and to reduce the risk of loss or misuse of funds, transmittals to the DOR should be made on a timely basis.

- B. At June 30, 1999, MVE operated twenty-eight enterprises at eleven of the correctional institutions. In prior reports of the Department of Corrections and the MVE's Working Capital Revolving Fund, we have indicated a wide range of net profit and loss percentages. This trend continued in fiscal year 1999, with net operating profit as a percentage of sales and other income ranging from approximately 1 to 86 percent for certain segments, while other segments operated at a net loss of 1 to 22 percent.

Some industries show substantial losses while others continually show a net profit. For example, the clothing factory at the Jefferson City Correctional Center (JCCC) lost \$99,358 while the clothing factory at the Farmington Correctional Center (FCC) had a profit of \$577,358 during the year ended June 30, 1999. The Laundry segment at the FCC lost over \$51,500 while the laundry segment at the Moberly Correctional Center (MCC) had a profit of over \$264,900 during the year ended June 30, 1999.

A contributing factor to the inequities in the profits and losses of certain entities is an inadequate charge structure. Part of the reason for the inadequacy of the charge structure is not all of the factories are using a cost accounting system that provides or assembles sufficient data to implement an adequate costing system for all manufactured items. Only eight factories are currently using a system that provides an adequate costing system. All of the other factories are using a different accounting system or are unable to implement an adequate costing system. The deficiencies noted in this system were:

1. The system does not provide sufficient controls to obtain job cost information for direct labor and all overhead costs.
2. The system does not provide for analysis of cost variance, and consequently, there is no means of monitoring and identifying inefficiencies in the manufacturing process.
3. Because of items 1 and 2 above, the system does not allocate labor and overhead to work-in-process and finished goods inventories to properly match inventory-related costs to the appropriate period revenues.

As a result of the deficiencies in the cost accounting system, management does not have accurate or complete data with which to evaluate the true profitability of a given product or enterprise.

In our reports for the previous eighteen years, similar deficiencies have been noted in the cost accounting system. Recently, we have noted that some of the factories have been placed on a system that enables them to properly allocate the costs, but a majority are still not using this improved cost accounting system.

The MVE and DOC should continue efforts to improve its cost accounting system as rapidly as possible by converting each enterprise segment to this system. Efforts should also continue to improve the efficiency of the various less profitable enterprise segments.

**WE RECOMMEND:**

- A. The MVE transmit all receipts to the DOR on a timely basis.

- B. The MVE and DOC proceed on a timely basis to implement a cost accounting system to better accumulate costs by major products or the enterprise segments. The system should include sufficient controls to provide accurate job cost information from all factories and actual accumulated costs for raw materials, direct labor, and overhead. Further, the system should provide for a detailed analysis of cost variances.

### **AUDITEE'S RESPONSE**

- A. *The Department concurs with the findings. MVE was behind in its entry of receipts at the time of the audit. MVE's entry of receipts is now timely.*
- B. *The Department concurs with the findings. MVE and DOC are proceeding as planned with programming to provide an interface between the J. D. Edwards computerized business system and the SAM II accounting system to deliver a cost accounting system for all enterprise segments. MVE has contracted with a vendor to develop the interface necessary to fully integrate the business systems by March 2001.*

|  |
|--|
| <b>2. Electronic Monitoring Program Receipts</b> |
|--|

The Board of Probation and Parole operates a continuum of community supervision programs. One of those programs is the Electronic Monitoring Program (EMP). The EMP is a program designed to allow certain offenders, as assigned by the Department of Corrections, Board of Probation and Parole, or the courts to live and work in the community. Offenders in the EMP are supervised by Probation and Parole Officers in the area where they live. The offenders are required to pay a portion of their gross earnings to cover the costs of the program. The payments are made to the department's Central Office, and according to DOC procedure D 3-3.3 are to be deposited by transmittal to the DOR promptly.

These receipts were not always transmitted to the DOR on a timely basis. During late November 1999, we noted that the DOC was holding undeposited receipts totaling over \$179,500. These receipts consisted of over 3,300 money orders from offenders that had accumulated since July 1999.

After we brought this problem to the department's attention, these payments were promptly deposited.

**WE RECOMMEND** the DOC ensure all receipts are transmitted to the DOR on a timely basis.

### **AUDITEE'S RESPONSE**

*The Department concurs with this recommendation. An Electronic Monitoring Program (EMP) Accounts Receivable system maintains accounts for each offender assigned to the EMP. During*

*fiscal year 1999, a new offender information system was implemented and all offenders were assigned new inmate numbers. Consequently, each offender's balance and number in the Accounts Receivable system had to be re-verified and re-entered prior to FY00, a manual process that took longer than anticipated. The backlog is now resolved.*

**3.**

### **Inmate Canteen Fund**

The department's Inmate Finance Office (IFO) provides financial and bookkeeping services for the Inmate Canteen Fund (ICF), the Inmate Account Fund (IAF) and the Coupon Fund. The ICF accounts for the operation of the inmate canteens at the various institutions, while the IAF accounts for monies received by inmates from prison jobs or from sources outside the institutions.

The Coupon Fund is a group of accounts within the ICF that were used in recent years to record the sales of \$5 coupon books which were sold to the inmates for use on weekends and holidays when the regular canteens were not operating. Previously, most inmate purchases were handled through the coupon process. When a coupon book was sold to an inmate, the \$5 cost of the book was deducted from his or her account balance in the IAF and was held in the Coupon Fund to cover the liability to the inmate for the outstanding coupons. When inmates spent or redeemed coupons, the Coupon Fund reimbursed the canteen for the value of the redeemed coupons. The DOC modernized the Coupon Fund system and closed out the "old Coupon Fund" and gave the inmates a limited period of time to redeem the old coupons.

After the old Coupon Fund was discontinued, the fund and accumulated interest totaled over \$19,000 as the result of some old coupons not being redeemed. The \$19,000 remains in the custody of the DOC, but they are unable to identify the inmates who never spent their old coupons. The department has considered several methods to dispose of the money, some of which included departmental direct expenditures. However, this money does not belong to the DOC and its use by the department does not appear appropriate or authorized by statute. Instead, it appears the money should be disposed of in accordance with the state's lost and unclaimed property laws under Chapter 447, RSMo Cumulative Supp. 1999.

**WE RECOMMEND** the DOC dispose of the outstanding coupon monies in compliance with applicable statutory provisions.

### **AUDITEE'S RESPONSE**

*The Department concurs with the auditor's recommendation.*

*Please note DOC sought State Auditor guidance at the time of the last audit. When it was not provided, the Department raised this issue again in conversation with the State Auditor during this visit. The funds will be dispersed by September 1, 2000, as per guidance recently provided.*

## **AUDITOR'S COMMENT**

The DOC has been unable to provide any written record of ever making such a request for guidance.

|                            |
|----------------------------|
| <b>4. Medical Contract</b> |
|----------------------------|

The department has a contract with a medical services provider, Correctional Medical Services, to provide all types of medical services, excluding mental health and psychiatric care, to all inmates housed in state institutions except for those inmates assigned to residential treatment facilities, the community release centers, and the electronic monitoring program. The department has contracted with the same provider since December 1992.

The contract between the department and the medical contractor allows the department to issue a notice of deficiency to the medical contractor if the contractor's performance is unacceptable. The department has a mechanism to evaluate the contractor's performance, however, it has not established any procedures or criteria which document when and under what circumstances a formal notice of deficiency should be issued to the medical contractor.

To help ensure the integrity and adequacy of the medical services provided to the inmates, the department should establish procedures or criteria which document when and under what circumstances a formal notice of deficiency should be issued to the medical contractor. While these procedures need not identify every possible problem that could result in a deficiency, they should set general parameters that provide guidelines as to when and under what circumstances a deficiency should be considered.

A similar condition was also noted in our prior report.

**WE AGAIN RECOMMEND** the DOC establish procedures or criteria that document when and under what circumstances a formal notice of deficiency should be issued to the medical contractor.

## **AUDITEE'S RESPONSE**

*The Department concurs with this finding. Written procedures are not currently in place to address issuance of formal notices of deficiency, rather the Department uses the language provided in the medical contract as guidance in the issuance of notices.*

*The Department is currently revising its medical contract compliance monitoring Standard Operating Procedure to include the circumstances under which a notice of deficiency will be issued. As per our current practice, the procedure will specify a notice of deficiency will be issued when there is evidence of substantial and/or repeated performance failure in the following areas:*

- *To provide an appropriate community standard of care to any one or a group of offenders;*
- *To provide care in a timely manner resulting in adverse patient outcomes;*
- *To provide accurate documentation of care, resulting in adverse patient outcomes or a substantial misrepresentation of contractor performance;*
- *To comply with DOC policies, state statutes or federal law; and*
- *To maintain minimum staffing levels as prescribed by the contract.*

## **5.**

## **Inmate Grievances**

Inmate grievance procedures provide inmates with the opportunity to present complaints about various issues, including the medical care provided by the department's medical contractor. The grievance process includes four separate stages starting with an informal resolution request (stage one) that calls for a response within 30 days. If unsatisfied, an inmate can file a formal grievance (stage two) and should receive a response from the institution superintendent or his designee within 30 days. If the inmate continues to be unsatisfied with the response, a grievance appeal (stage three) can be submitted to the applicable division director who has 30 days to respond. If the inmate continues unsatisfied from this (stage three) grievance appeal, the complaint can be pursued in a court or in a grievance second appeal (stage four) to the Department Director. These procedures are authorized under provisions of the Prison Litigation Reform Act 42USC Section 1997E (a).

Prior to the Department Director receiving the (stage four) second appeal, a Citizen's Advisory Committee must review the appeal and make a recommendation to the Department Director. Under policy, the Department Director's response is to be returned to the inmate within 90 days from the filing of the second appeal. Our review of the grievance procedures resulted in the following concerns:

- A. The department does not respond to the (stage four) second appeals within 90 days as required by its policy. During July 1999, we reviewed sixty grievances and noted seventeen involved second appeals. None of the Department Director's responses to the second appeals were provided within the 90 days allowed. Of the responses provided, all were made six months to a year after the date the second appeal was filed. At the time of our review, twelve were more than a year old and remained open.

Such significant delays are a concern because the grievance appeal form used by the department incorrectly indicates the inmate may not seek relief in Federal Court until the Department Director responds to the (stage four) second appeal. As a result of the failure to respond promptly to the second appeals, inmates are unable to resolve their grievances and in some instances could possibly suffer harm. Such delays prevent the inmate from receiving problem resolution and could potentially result in a greater risk of state liability.

- B. During July 1999, the back log consisted of approximately 2,400 second appeals which were not yet processed. Some of these appeals have been delayed for over a year. When the inmates are admitted to the system and processed they receive an inmate rulebook that incorrectly states that all four stages of the department's grievance procedures must be completed prior to filing a lawsuit. This is misleading because court procedures may begin after an unsatisfactory (stage three) grievance appeal has been received.

To ensure the inmates are not misled by the above inaccuracies on the grievance procedures, the department should correct the form and rulebook errors.

During our March 2000 follow-up review of the second grievance back log, the DOC indicated there were less than 50 second appeals still pending.

**WE RECOMMEND** the DOC:

- A. Ensure it complies with its formal grievance procedures and that inmate grievances are responded to in a timely manner.
- B. Ensure second appeals are handled promptly and provide accurate rules information to the inmates about the grievance procedures.

**AUDITEE'S RESPONSE**

- A. *The Department concurs in part with Finding A.*

*Inmates are not required to exhaust Second Appeals (Step 4) prior to filing with the court and DOC is not required to reply to Step 4 appeals within 90 days. IS8-2.1 Inmate Grievance process, effective January 15, 1992, established the inmates' right, after the first appeal (Step 3) is completed, to proceed in court or to continue with the grievance procedure by filing a second appeal (Step 4); see IS8-2.1. III. M. That section also expresses the Department's desire to respond promptly, however, failure to reply within the suggested time line does violate the policy.*

*The Offender Grievance Appeal form (MO 931-3778 (4-00)) has been revised.*

- B. *The Department concurs with the recommendation.*

*Second appeals (Step 4) had been backlogged due to the significant increase in the offender population without a commensurate increase in FTE authorization. To offset staffing shortfalls and to successfully eliminate the second appeals backlog (Step 4), institutional grievance officers have been temporarily reassigned at various times since 1999 to central office.*

*The Inmate Rulebook is under revision and should be completed by July 2001.*

**6.****Compensatory Leave Balance**

We reviewed the compensatory leave balances of the DOC and found these balances to be excessive for some employees. Compensatory leave is normally earned at the rate of one and one half hours per hour of overtime worked, or one hour for each hour worked when working extra during weeks with holidays. Such overtime is worked to cover for other employees who are sick, taking annual leave, or other days off. The leave can later be used as time off with pay or is paid in full to those who terminate employment with the department.

A supplemental payroll for over \$2.6 million was processed in March 1999 to pay down the accumulated compensatory leave balances. However, the accumulated leave liability at June 30, 1999, had again reached approximately \$1.4 million.

Correctional officers are especially susceptible to accumulating compensatory leave due to working holidays, filling in for other correctional officers or vacant positions, and to provide adequate security coverage. The department's policy states, "Any employee who reaches a balance of 40 hours of compensatory time must be transferred from that job assignment and/or placed on a compensatory time reduction schedule. These employees must be returned to their job assignments when compensatory time has been appropriately reduced."

Because of the department's inability to strictly comply with its policy and avoid incurring the build up of additional employee compensatory leave balances, the department is increasing its liability to provide monetary compensation to these employees upon termination.

A similar condition was noted in our previous report.

**WE RECOMMEND** the DOC continue efforts to manage or control compensatory leave balances and prevent excessive accrual of compensatory leave.

**AUDITEE'S RESPONSE**

*The Department concurs with the recommendation.*

*We will continue to make every effort to manage and control compensatory leave balances within existing resources. It is important to note however, that funds to pay down compensatory time balances in Fiscal Years 1996 through 1999 were not appropriated in Fiscal Years 2000 and 2001. Accordingly, DOC policy D2-8.4 – Compensatory Time is being revised (new language is in bold).*

*Any employee who reaches a balance of 40 hours of compensatory time must be transferred from that job assignment and /or placed on a compensatory time reduction schedule. These employees must be returned to their job assignments when*

*compensatory time has been appropriately reduced. The Department Director may waive this requirement.*

**7.**

### **State-Owned Vehicles**

The DOC has a large fleet of motor vehicles consisting of passenger cars, vans, buses, trucks, and trailers. As of June 30, 1999, the department's fleet consisted of approximately 800 such vehicles. Our review of the department's state-owned vehicles noted the following concerns:

- A.1. The department maintains monthly vehicle travel logs for pool vehicles. A review of 25 pool vehicles indicated that the DOC does not maintain accurate and complete monthly vehicle travel logs.

We reviewed the vehicle logs submitted and noted that 22 of 25 vehicles tested did not indicate the purpose of the trip. In addition, the logs contained gaps in the ending mileage of the previously recorded trip and the beginning mileage of the following trip. Without proper documentation of the purpose and destination of trips, it is not possible to determine if state-owned vehicles are used only for official business.

2. The department does not require monthly vehicle travel logs to be maintained on state vehicles assigned to employees. Without proper documentation of the purpose and destination of trips, it is not possible to monitor usage of state-owned vehicles.

Complete, detailed vehicle travel logs documenting all dates traveled, destinations, and mileage are necessary to ensure state-owned vehicles are only used for authorized purposes and to adequately track vehicle costs. In addition, these vehicle travel logs can be used to distinguish between personal commuting and business mileage. Without this documentation, it is not possible to properly monitor the business or personal use of the state-owned vehicles.

- B. A monthly vehicle operation log is maintained for all DOC vehicles for the purpose of accumulating and tracking vehicle operating costs. These logs are submitted to the department's Fiscal Management Section. We noted that these monthly vehicle operation logs are not accurate and complete since maintenance or repair costs are rarely reported, and in some cases nothing was recorded on these logs.

Without proper documentation of the maintenance and repair costs, it is not possible to determine the propriety of fuel and/or repair billings, or identify the need to replace the vehicle due to excessive maintenance costs.

Similar conditions were also noted in our prior reports.

**WE AGAIN RECOMMEND** the DOC:

- A. Require that complete vehicle travel logs be kept on all assigned and pool vehicles. The department should monitor these logs to determine the reasonableness of mileage incurred, and ensure that use is for authorized purposes.
- B. Ensure comprehensive vehicle operation logs are completed for all state-owned vehicles. Vehicle mileage logs should be monitored for propriety and reasonableness of miles traveled and costs of operation.

**AUDITEE'S RESPONSE**

- A. *The Department has designated an employee as Vehicle Fleet Coordinator. Effective August 2000, the Vehicle Fleet Coordinator will receive on a monthly basis the vehicle travel log for all vehicles. These logs will be monitored for completeness including the destination and purpose of the trip. Mileage will be monitored for appropriate and reasonable use of the vehicles.*
- B. *Effective August 2000, the Vehicle Fleet Coordinator will receive the monthly vehicle operation log for all vehicles. These logs will be monitored for appropriate costs and for documentation of vehicle maintenance.*

*The Vehicle Fleet Coordinator is also responsible for managing the preventive and scheduled maintenance of the vehicles in the Department's Central Office pool.*

|                                  |
|----------------------------------|
| <b>8. Disaster Recovery Plan</b> |
|----------------------------------|

The department's Central Office Information Systems (IS) Section uses large mainframe computer systems for various departmentwide applications and for the inmate banking system. We reviewed certain operating practices and procedures in the computer areas and noted the DOC has not developed a written formal disaster recovery plan for use in the event that a fire or some other disaster were to destroy or incapacitate the department's computer system. The department relies heavily on its data processing system and reports, and any significant interruption in the data processing system's operations could cause serious problems throughout the state's correctional system.

A formal disaster recovery plan would specify recovery actions required to reestablish critical IS operations. Once a disaster recovery plan has been developed and approved, it should be periodically tested and reviewed.

A similar condition was noted in our prior report.

**WE AGAIN RECOMMEND** the DOC develop a formal written disaster recovery plan. Once developed, the plan should be periodically tested and reviewed.

**AUDITEE'S RESPONSE**

*The Department concurs in part with the auditor's recommendation. The DOC has not completed a single disaster recovery plan, however, the DOC does have written emergency procedures for staff in the event of an emergency including key vendor and State Data Center contacts necessary to expedite equipment replacement. We also have in place and occasionally test formal processes and programs necessary to restore our central computing environment including application programs and data files. DOC does not have a formal plan to restore the data center environment and the network connectivity and will take steps necessary to comply.*

*Development of a single disaster recovery plan is contingent on availability of appropriate resources. If resources are available at the start of FY 2002, the plan will be completed by January 2002.*

This report is intended for the information of the management of the Department of Corrections and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-up on State Auditor's Prior Recommendations

REVIEW OF THE  
DEPARTMENT OF CORRECTIONS  
FOLLOW-UP ON STATE AUDITOR'S PRIOR RECOMMENDATIONS

This section reports follow-up action taken by the Department of Corrections (DOC) on recommendations made in the Management Advisory Report (MAR) for our prior report issued for the three years ended June 30, 1992, and for the prior reports of the Department of Corrections, Medical Services Contract for the three years ended November 30, 1995, and Missouri Vocational Enterprises - Working Capital Revolving Fund for the three years ended June 30, 1995. The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR. Although the remaining unimplemented recommendations have not been repeated, the department should consider implementing these recommendations.

DEPARTMENT OF CORRECTIONS  
THREE YEARS ENDED JUNE 30, 1992

1. Telephone Fund

The DOC established a Telephone Fund within the Inmate Canteen Fund (ICF) for the deposit of monthly commission income from coinless pay telephones used by inmates at various institutions operated by the DOC. The department deposited to the General Revenue Fund-State (GRF-S) over \$1,777,000 of these commissions but retained over \$473,000 in commissions for use within the ICF for certain personal service costs and other expenditures.

Recommendation:

The DOC discontinue the retention and expenditure of telephone commissions. Further, the department should reimburse the GRF-S for the monies previously withheld from the telephone commissions.

Status:

Partially implemented. The DOC discontinued the retention and expenditure of telephone commissions. The department did not reimburse the GRF-S for the monies previously withheld from the telephone commissions. Although not repeated in the current report, our recommendation remains as stated above.

2. Disbursements

A. The department completed a false receiving report and other documents which indicated the DOC received 1,040 laboratory coats from the Missouri Vocational Enterprises (MVE) Clothing Factory. As a result of issuing the false receiving report, the department was able to process the \$21,320 invoice for payment from

the General Revenue Fund-State appropriations which otherwise would have lapsed.

- B. The DOC and the Board of Probation and Parole (BPP) made other purchases from the MVE costing over \$225,300 that were stored in the DOC Central Warehouse and many were noted to still be in storage.
- C. Central Missouri Correctional Center (CMCC) had several new unused equipment items still stored in the original packaging. The unused items included six lawnmowers, five weed eaters, and two garden tillers.
- D. The DOC incurred obligations in excess of its operating appropriations for the fiscal years 1990, 1991 and 1992 and paid these expenses from following years appropriations.

Recommendation:

The DOC:

- A. Prepare receiving reports and other documentation only for items actually received.
- B. Discontinue the practice of stockpiling goods and supplies at year end for future use.
- C. Limit equipment purchases to only those items needed in the department's current operations.
- D. Discontinue the practice of using funds appropriated for one fiscal year to pay the costs associated with other fiscal years.

Status:

- A&B. Implemented. No similar instances of supplies stockpiling was noted during our current audit. However, the department has experienced an extensive facilities expansion program over several years. Because of the long lead time often required to purchase new facility equipment and supplies, and put them in place, the department has used a funding program called the inmate growth pool allowing various advance initiatives to respond to the significant growth in inmate population.
- C. The status of this recommendation will be reviewed as a part of a future audit of the CMCC.
- D. Implemented. No similar instances were noted during our current audit.

3. Electronic Data Processing Equipment Purchases

The DOC had several items of electronic data processing (EDP) equipment stored at the central office warehouse. Some of the items were stored for over two years. The DOC did not prepare or maintain a written action plan which provided a record of planned changes or improvements in the usage of the various items of stored EDP equipment.

- A. The DOC received ten new printers during June 1990 that were not installed until July 1992, over two years later.
- B. Twelve personal computers were purchased in May 1992 and ten of the twelve were still in the original packaging at the department's central warehouse in September 1992.
- C. The DOC purchased thirty display stations in December 1991. In June 1992, five of the thirty display stations were still stored in the original packaging at the department's central warehouse.

Recommendation:

The DOC properly plan EDP purchases to avoid unnecessary investments in equipment which remains unused for long periods of time.

Status:

Implemented. No such instances were noted during our current review.

4. Cost Allocations Between the DOC and the MVE

The DOC and MVE were separate entities and each was separately funded. The DOC was funded by appropriations from the General Revenue Fund-State while the MVE was funded by appropriations from the Working Capital Revolving Fund (WCRF).

- A. Salaries and benefits of a number of employees of the Department of Corrections-Fiscal Management Unit were paid by the WCRF. The department was unable to provide any documentation to support its allocation of these costs to the WCRF. These workers performed duties related to both the DOC and the MVE.
- B. The MVE rented office space from the DOC. The DOC Construction/Fire and Safety Unit and DOC Internal Audit Section occupied nearly 21.7 percent of this office space, however, the DOC did not pay any of the lease cost.
- C. The department purchased an extensive computerized accounting software system that had many applications for both the DOC and MVE. The entire cost of the software along with related employee training costs were to be paid by the MVE.

Recommendation:

The DOC maintain documentation to support the allocation of costs between the GRF-S and the MVE WCRF. In addition, we recommend the DOC:

- A. Allocate the personal service costs between the DOC and the WCRF based on the actual work performed for each facility.
- B. Allocate lease costs to the GRF-S and the WCRF based on the actual cost of the space used by the DOC and the MVE.
- C. Allocate the costs of the accounting software between the DOC and MVE based on actual or expected usage.

Status:

- A. Not implemented. The DOC charges the costs of three employees to the WCRF and has no documented basis for the charges. Although not repeated in the current report, our recommendation remains as stated above.
- B. Implemented. MVE moved into their own separate headquarters and does not share space with the DOC.
- C. Not implemented. The DOC never reimbursed the MVE for its share of the costs. However, the accounting software is no longer shared between the DOC and the MVE.

5. Electronic Data Processing Procedures

- A. The department did not use off-premises storage for its programs and backup data.
- B. The department's EDP System had security features which would allow supervisory review of unsuccessful attempts to log onto the system and to monitor computer operational logs for possible problems. However, the department indicated it did not use or keep these security records.
- C. The DOC had not developed a written formal disaster recovery plan for use in the event a fire or other major disaster were to disable the department's EDP equipment.

Recommendation:

The DOC:

- A. Establish off-premises storage for computer programs and backup data.

- B. Maintain, monitor, and investigate as necessary security records of unsuccessful log-on attempts and computer operations logs.
- C. Develop a formal written disaster recovery plan. Once developed, the plan should be periodically tested and reviewed.

Status:

A&B. Implemented.

C. Not implemented. See MAR No. 8.

6. Transfer of EDP Equipment

Because of centralization and other related changes in the operation of the department's computer processing systems, two computers and software became available and ownership of this equipment was transferred to the MVE.

- A. The transfer of these computers did not appear to have been necessary or reasonable. The DOC Information Systems (IS) Unit would continue to use the computer transferred to the MVE.
- B. The transfer of the computer system to the MVE Data Entry (DE) segment was unjustified at the time of the transfer. The previous system that was in use was still viable and would not have needed replacement for a minimum of three or four years.
- C. The transfer costs of the computer systems was determined by using current costs of new equipment less the cost of planned upgrading. The transfer costs were excessive based on the market rates for the two used computer systems.
- D. The DOC did not appear to have the authority to obtain or retain the value from such a transfer in the form of a credit against future purchases.

Recommendation:

The DOC:

- A. Retain ownership of the MVE IS computer and allocate the costs between the DOC and MVE based on relative usage. The MVE should be reimbursed for the cost of this computer system and upgrades.
- B. Reconsider the transfer of the DE computer system and reimburse the MVE for all costs incurred in the transaction. If the department has no current need for this

system, it should be disposed of in accordance with state surplus property provisions.

- C. In the future establish reasonable pricing for any equipment that is transferred between the two entities.
- D. Deposit any funds received and retained from the computer system transactions to the General Revenue Fund-State as required by state law.

Status:

- A-D. The status of these recommendations were not determined during the current audit.

7. Fixed Assets

- A. Not all fixed assets of the DOC were recorded in the fixed asset records systems.
  - 1) Land, buildings, and capital improvements purchased by the DOC using General Revenue Fund-State, General Revenue Fund-Federal, Third State Building and Third State Building Trust Fund monies were not recorded in the departmentwide system.
  - 2) Items purchased from the ICF for inmates' recreational or religious benefit were not recorded by the department.
- B. The department failed to conduct adequate inventories of the fixed assets at several operating units.
  - 1) The DOC had not conducted physical inventory counts of fixed assets at the central office for nearly five years.
  - 2) The Board of Probation and Parole (BPP) had not conducted an inventory of the BPP fixed assets for approximately ten years.
  - 3) The DOC Central Office did not conduct periodic test counts at the correctional institutions to ensure the accuracy of the fixed asset counts and records.
  - 4) Periodic inventory counts of the ICF fixed assets were conducted by the same personnel who maintained the ICF fixed asset records.
- C. The dispositions of fixed assets were not always properly authorized or recorded.
- D. Fixed asset balances were not adequately reconciled from period to period.

- E. Duplicate fixed asset systems were maintained. The EDP Information Systems Unit maintained a duplicate record of the department's computer equipment, in addition to the departmentwide system used to account for the same equipment. The BPP also maintained a separate fixed asset record.
- F. The departmentwide property additions were not periodically reconciled to property purchases according to the state's expenditure reports.

Recommendation:

The DOC:

- A. Record all fixed assets on the departmentwide or ICF systems, as applicable.
- B. Conduct regular periodic inventories of all fixed assets ensuring that count personnel are independent of the related record keeping functions. In addition, the DOC Central Office should conduct periodic test counts of the inventories located at the institutions.
- C. Require written supervisory approval and timely notification for all fixed asset dispositions.
- D. Ensure that fixed asset records are properly maintained, that canteen fund financial statements accurately reflect those fixed assets, and that balances are properly reconciled from period to period.
- E. Discontinue the maintenance of duplicate fixed asset records and ensure the departmentwide records are accurately maintained for all classes of assets.
- F. Perform periodic reconciliations between the departmentwide property additions and purchases recorded on the state's expenditure reports.

Status:

- A,D,  
&F. Not implemented. However, the DOC is in the process of changing fixed asset records procedures to correspond to the new SAM II accounting system.
- B. Partially implemented. Regular periodic inventories of all fixed assets are performed. These inventories are not performed by personnel independent of the related record keeping functions. Although not repeated in the current report, our recommendation remains as stated above.
- C. Implemented.

- E. Partially implemented. Duplicate fixed asset records are no longer maintained by the BPP. The IS unit continues to maintain a duplicate record of the department's computer equipment. Although not repeated in the current report, our recommendation remains as stated above.

8. Drug Inventories

There had been no complete physical inventory count of the central pharmacy. In addition, periodic test counts of non-controlled substances were not performed.

Recommendation:

That if the department maintains any drug inventory that the department establish adequate perpetual inventory records. Further, periodic inventory counts should be performed and the count results should be reconciled to the perpetual inventory records. Any significant differences should be investigated and reported to management for appropriate corrective action.

Status:

The department no longer maintains drug inventories.

9. Probation and Parole Personnel Time and Attendance

The accrual and usage of compensatory time for the Board of Probation and Parole (BPP) employees working in district offices was not documented and the actual hours worked each day was not reported on the time and attendance report.

Recommendation:

The DOC and BPP take steps to ensure that all BPP employees report the actual hours worked.

Status:

We made no visits to BPP district offices during our current review.

10. Personnel Policy

- A. Twelve employees had accepted additional employment outside of the department without requesting permission in writing from their respective division supervisor prior to accepting the additional employment as required by department policy.
- B. Several individual DOC employees were noted to have accumulated excessive compensatory leave balances.

Recommendation:

The DOC:

- A. Enforce its outside employment policy.
- B. Continue attempts to reduce the current accumulated compensatory leave balances and establish policies and procedures, where possible, to monitor and prevent excessive accrual of compensatory leave.

Status:

- A. The status of this recommendation was not determined during the current audit.
- B. Not implemented. See MAR No. 6.

11. State-Owned Vehicles

- A.1. The DOC did not maintain accurate and complete monthly vehicle travel logs for pool vehicles.
- A.2. The department did not require monthly vehicle travel logs to be maintained on assigned vehicles.
- B. DOC central office employees used personal vehicles for DOC business and had mileage claims even though pool vehicles were available.
- C. A monthly vehicle operation log was maintained for all DOC vehicles. Maintenance or repair costs were rarely reported on these vehicle operation logs.
- D.1. Vehicle usage travel logs at five institutions frequently were not completed as required by DOC policy.
- D.2. The superintendent and assistant superintendent at Western Missouri Correctional Center (WMCC) were not submitting monthly reports of DOC vehicle use to the DOC central office as required.

Recommendation:

- A. The DOC require that complete vehicle logs be kept on all assigned and pool vehicles. The department should monitor these logs to determine the reasonableness of mileage incurred, and ensure that use is for official business purposes.
- B. The DOC monitor and enforce the departmental policy requiring employees to use state vehicles for DOC business, whenever possible. The department needs to

monitor its usage of the vehicles assigned to central office to determine whether all vehicles are needed.

- C. The DOC maintain complete operation logs on all vehicles that indicates miles driven, gasoline purchased, maintenance and repair work performed, and applicable costs. The information from the logs should be summarized in a form that will provide management with accurate, up-to-date vehicle cost information.
- D. The DOC and applicable institution:
  - 1. Ensure that vehicle travel logs are completed for all state vehicles.
  - 2. Ensure that personal use of state vehicles is appropriately reported to the DOC central office personnel unit as required by DOC policy.

Status:

A&C. Not implemented. See MAR No. 7.

B. Implemented.

D. The status of this recommendation will be reviewed as a part of future audits of the applicable institutions.

12. Inmate Canteen Coupon Fund

- A. More coupons were redeemed each year of the audit period than were sold to the inmates.
- B. Moberly Correctional Center (MCC) issued unauthorized free coupons to inmates as incentives and prize awards for participation in certain institutional sponsored recreational programs.
- C. The DOC Treasurer's Office did not maintain perpetual inventory records for the coupon books issued to the various institutional canteens for sale to the inmates, and did not reconcile coupon book sales to the coupon redemptions.

Recommendation:

The DOC investigate the excess coupon redemptions to determine the cause(s), take the necessary steps to correct the problem, and establish adequate internal control procedures to ensure all coupon sales are appropriately recorded and accounted for properly. In addition, the DOC should determine how it will fund any excess liability for outstanding, unredeemed coupons in the event this becomes necessary.

Status:

A&C. Not applicable. The department no longer issues canteen coupon books to inmates in the institutions thus eliminating the applicability of these recommendations.

B. The status of this recommendation will be reviewed as a part of a future audit of the MCC.

13. Inmate Finance Office

A. The Inmate Finance Office (IFO) did not cancel or deface the vendors' invoices after payment.

B. The IFO had accumulated excess unused inmate bus fare reimbursements obtained from the General Revenue-State (GRF-S) totaling \$5,200.

Recommendation:

The DOC IFO:

A. Cancel or deface vendor invoices after payment.

B. Return to the GRF-S all excess bus fare reimbursements currently on hand. In the future, such excess funds should be refunded to the GRF-S on a regular, periodic basis.

Status:

A. Implemented.

B. Implemented. The IFO issued a refund to the GRF-S for \$5,000 on June 27, 2000.

14. Underground Storage Tanks

The DOC's Central Office (CO) had taken no action to ensure that the department's underground storage tanks had been registered with the Department of Natural Resources or were in compliance with the various possible stages of leak detection monitoring required.

Recommendation:

The DOC CO review the status of all the department's fuel storage tanks and ensure compliance with registration and tank leakage detection regulations and procedures.

Status:

Implemented.

15. Departmental Rent Income

The DOC did not monitor the amount received from employees who occupied departmental housing to ensure that all the revenues were collected by the various institutions and forwarded to the DOC Central Office.

Recommendation:

The DOC monitor the monthly payments from departmental rentals to ensure it is appropriately received.

Status:

Implemented.

16. Food Inventories

- A. The food service storekeepers who had custody of food inventory at some of the institutions performed the monthly physical counts of food inventories without assistance from a nonfood service employee who would have provided an independent inventory verification.
- B. Not all institutions investigated or documented the reasons for differences between the perpetual food inventory records and the actual physical counts.
- C. Kitchen personnel at the WMCC did not sign kitchen requisitions to indicate they had received the food supplies requisitioned and delivered by the storekeeper who had custody of the food inventories.
- D. The CMCC kitchen requisitions were prepared by kitchen personnel and were appropriately signed by the food service manager. However, when supplies were not sufficient and additional food items were needed, no additional requisitions were prepared. After each meal, the cooks prepared a new requisition form which indicated the total amount of food actually used for the meal.
- E. Five correctional institutions visited were noted to have excess food stocks on hand.

Recommendation:

The DOC and the applicable institutions:

- A. Segregate the duties of inventory taking from the custody of food inventories. An employee who is not assigned to the Food Service Section should observe the inventory and perform test counts.
- B. Document and investigate as appropriate all significant discrepancies between the physical inventory counts and the perpetual inventory records.
- C. Ensure kitchen requisition food requests are signed by the food service manager and kitchen personnel to indicate all appropriate food items that have been delivered from the food storeroom and received by the kitchen.
- D. Require that all food items removed from storage be supported by an authorized requisition and discontinue the preparation of duplicative summary requisitions.
- E. Order food items based on expected usage to reduce excessive food inventories. The institutions should transfer appropriate excessive stock of food items to the DOC central warehouse for redistributions.

Status:

- A-E. The status of these recommendations will be reviewed as a part of future audits of the applicable institutions.

17. Gasoline Inventories and Procedures

- A.1. The Jefferson City Correctional Center (JCCC) did not always require the submission of daily gasoline reports, allowed incomplete monthly gasoline reports which did not document the pump meter readings, and failed to reconcile and investigate the differences between the daily reports and the monthly summaries.
- A.2. The MCC did not compare the gasoline pumps' cumulative meter readings to the energy consumption report or the monthly vehicle logs.
- A.3. The WMCC did not record the cumulative pump meter readings until June 1992 and employees failed to log or record the fuel pumped into institutional vehicles. Unexplained variances between month end inventories and fuel usage logs as high as 400 gallons in one month were noted.
- B. The JCCC did not measure the amount of gasoline in the tanks before and after vendors' deliveries and had no assurance it received all the gasoline purchased and paid for.

Recommendation:

The DOC and the:

- A.1. JCCC ensure a daily gasoline report is prepared and turned in to the business office each day and that the fuel consumption reports document the pump meter readings and estimated usage from inventory levels. The JCCC business office should also perform a monthly reconciliation between the daily summary sheets and the fuel consumption report and investigate any unresolved differences.
- 2. MCC determine the number of gallons dispensed each month from cumulative meter readings on the pumps. The MCC should compare this usage amount to the monthly energy consumption report and usage recorded on the monthly vehicle logs.
- 3.a. WMCC determine the number of gallons dispensed each month from cumulative meter readings on the pumps and compare this usage amount to the usage recorded on the monthly inventory summaries and usage recorded on the fuel usage logs.
- b. WMCC should ensure that all gasoline usage is recorded in the individual vehicle logs or equipment operating records.
- c. WMCC management should investigate and resolve all significant unexplained differences noted during the reconciliations performed by the business office.
- B. JCCC measure the gasoline in the tanks both before and after each delivery.

Status:

- A-B. The status of these recommendations will be reviewed as a part of future audits of the applicable institutions.

18. Canteen Procedures

- A. Inadequate segregation of duties over inmate canteen inventories was noted at four institutions.
- B. Inadequate segregation of duties over inmate canteen inventories was noted at the MCC.
- C. Four institutions priced numerous canteen products in excess of the maximum markup allowed.
- D. JCCC and MCC did not maintain a property record of all items with a value greater than \$100 or that were at high risk of misappropriation.

Recommendation:

The DOC and the applicable institutions:

- A. Establish the necessary segregation of duties over the canteen's purchases and physical inventories.
- B. Segregate the functions of ordering and receiving goods purchased from the Inmate Canteen Fund as required by DOC policy.
- C. Review the pricing structure of canteen resalable inventories and adjust the selling prices to comply with DOC policy.
- D. Maintain the required property records for the canteen equipment and periodically perform a physical count to ensure that the records properly reflect current property on hand. Management should investigate any discrepancies found.

Status:

- A-D. The status of these recommendations will be reviewed as a part of future audits of the applicable institutions.

19. Inmate Canteen Expenses

The department paid civilian employees' salaries and related fringe benefits from the GRF-S. The Inmate Canteen Fund did not reimburse the GRF-S for these payroll and fringe benefit costs.

Recommendation:

The DOC take steps to place the canteen operations on a self-sustaining basis. Until this is totally accomplished, the department should reimburse the GRF-S for any expenses incurred from the monies available in the ICF.

Status:

Not implemented. Although not repeated in the current report, our recommendation remains as stated above.

SPECIAL REVIEW OF THE  
DEPARTMENT OF CORRECTIONS  
MEDICAL SERVICES CONTRACT  
THREE YEARS ENDED NOVEMBER 30, 1995

1. Medical Financial Arrangements

- A. State employees who worked for the DOC in providing medical care to the inmates prior to the activation of the medical care contract were given the option to retain their status as state employees even though required to work for the medical contractor. The contractor was to provide reimbursement of all salary expenses. However, the department incurred but had not been reimbursed fringe benefit costs of approximately \$1,075,000 through December 31, 1995.
- B. The department paid for a total of \$3,254 of medical related equipment which cost less than \$500 and should have been paid by the medical contractor.

Recommendation:

The department:

- A. Closely review the provision of this medical services contract and pursue, where necessary, reimbursement of \$1,075,000 from the medical contractor on behalf of the state. In addition, the department should require the medical contractor to reimburse the state for the amount of fringe benefits incurred on behalf of medical related employees who continue to work for the department after December 31, 1995.
- B. Request reimbursement from the medical contractor for medical related equipment paid for by the department which cost less than \$500. In addition, the department should ensure that in the future the contract terms are followed.

Status:

- A. Not implemented. The department did not obtain reimbursement from the medical contractor, but did revise subsequent contract provisions to exclude fringe benefits from salary reimbursement requirements. Although not repeated in the current report, our recommendation remains as stated above.
- B. Partially implemented. The department did not request reimbursement of the \$3,254. Subsequent purchases of medical equipment costing less than \$500 were paid for by the medical contractor. Although not repeated in the current report, our recommendation remains as stated above.

2. Medical Contract

- A. An annual independent peer review of services provided under the contract was not obtained on an annual basis as required. Only one peer review had been performed since the contract service date. In addition, the contract did not indicate any objectives which must be achieved during the peer reviews and the department was unable to provide any written objectives.
- B. The department did not review the time records of the medical contractor's employees to determine compliance with the contract terms which required the medical contractor to meet a minimum level of staffing at each correctional facility.
- C. Supporting documentation for completed monitoring forms was not always retained. In addition, the department did not have procedures in place which document when and how often the monitoring questionnaires should be completed at each correctional facility.
- D. The department had not established any procedures which documented when and under what circumstances a formal notice of deficiency should be issued to the medical contractor. Since the contract service date, the department had issued only one formal notice of deficiency to the medical contractor, which was not issued on a timely basis. The medical contractor had developed a corrective action plan in response to deficiencies identified by the monitoring forms, but the department did not always receive and/or approve the action plan.
- E. The department continued to pay vendors for medical services provided to some inmates after the contract service start date of December 1, 1992.

Recommendation:

The department:

- A. Implement procedures to ensure the contract terms are followed in relation to the peer review requirements. In addition, the department should ensure individuals who perform the peer review are independent of both the department and the medical contractor and have a clear understanding of the objectives of the peer review.
- B. Ensure the medical contractor meets its contract terms regarding the minimum level of staffing at each correctional facility.
- C. Ensure all monitoring documentation is retained. Furthermore, the department should implement procedures which document when and how often the monitoring questionnaires should be completed at each correctional facility.

- D. Establish procedures which document when and under what circumstances a formal notice of deficiency should be issued to the medical contractor. In addition, the department should ensure formal notice of deficiencies are issued on a timely basis, and corrective action plans as completed by the medical contractor are received and approved.
- E. Determine if the medical costs directly paid to vendors by the department after December 1, 1992, should have been paid for by the department or the medical contractor. In addition, if it is determined the medical contractor should pay for all medical costs incurred after December 1, 1992, the department should request reimbursement from the medical contractor for the medical costs paid directly to vendors by the department after December 1, 1992.

Status:

- A. Not implemented. The department believed this type of review was unnecessary and changed the new contract to eliminate the requirement. Although not repeated in the current report, our recommendation remains as stated above.
- B. Implemented. The department has developed procedures to monitor the level of staffing to ensure the minimum staffing requirements are met by the medical contractor.
- C. Implemented. The department now conducts annual compliance audits at each facility in place of using the monitoring questionnaire. These compliance audits appear to provide adequate supporting documentation.
- D. Not implemented. See MAR No. 4.
- E. Not implemented. The department believed it was not appropriate to require the contractor to cover the costs of continuing care for pre-existing conditions, and the vendor would not have accepted the liability for those pre-existing conditions. Although not repeated in the current report, our recommendation remains as stated above.

DEPARTMENT OF CORRECTIONS  
MISSOURI VOCATIONAL ENTERPRISES  
WORKING CAPITAL REVOLVING FUND  
THREE YEARS ENDED JUNE 30, 1995

1. Industries' Costing Systems

The cost accounting system used within the Missouri Vocational Enterprises (MVE) did not provide or assemble sufficient data to implement an adequate costing system for all manufactured items. The deficiencies noted in the system were:

- A. The system did not provide sufficient controls to obtain job cost information for direct labor and all overhead costs.
- B. The system did not provide for analysis of cost variance and, consequently, there was no means of monitoring and identifying inefficiencies in the manufacturing process.
- C. Because of A. and B. above, the system did not allocate labor and overhead to work-in-process and finished goods inventories to properly match inventory-related costs to the appropriate period revenues.

Recommendation:

The DOC and MVE proceed on a timely basis to implement a cost accounting system to better accumulate costs by major products of the enterprise segments. The system should include sufficient controls to provide accurate job cost information from all factories and actual accumulated costs for raw materials, direct labor, and overhead. Further, the system should provide for a detailed analysis of cost variances.

Status:

Partially implemented. The department and MVE did implement a cost accounting system for some enterprise segments. This cost accounting system has not been implemented for all enterprise segments. See MAR No. 1.

2. Receipt Procedures

- A. Some receipts were not recorded on the mail log and the log was not reconciled to revenue transmittals.
- B. Receipts were not transmitted to the Department of Revenue (DOR) for deposit intact and on a timely basis.
- C. Several instances were noted where MVE personnel indicated checks were received but were returned to the customer uncashed.
- D.1. The DOC internal audit section did not reconcile the receipts recorded on the mail log with the receipts recorded on the validated revenue transmittals on a timely basis.
- D.2. The DOC internal audit section reconciliations noted receipts recorded on the DOC mail log totaling \$13,979 which were apparently not transmitted to the DOR for deposit.

- D.3. The DOC internal audit section reconciliations noted \$727 in receipts due the Working Capital Revolving Fund (WCRF) which were mistakenly credited to the General Revenue-State in June 1994.
- E. We noted seven receipt entries totaling \$2,911 recorded on the MVE general ledger in July 1994 which were apparently not transmitted to the DOR for deposit.

Recommendation:

- A. The DOC record all receipts on the mail log as the mail is opened and this log should be reconciled to transmittals.
- B&C. The MVE transmit all receipts to the DOR, intact and on a timely basis.
- D.1. The DOC internal audit section reconcile the receipts recorded on the mail log with the receipts recorded on the validated revenue transmittals more timely, such as quarterly.
- D.2. The DOC and the MVE take immediate action to determine the proper resolution of the \$13,979 in receipts which were apparently not transmitted to the DOR for deposit.
- D.3. The MVE implement procedures to ensure all monies due the MVE are properly credited to the WCRF.
- E. The DOC and the MVE take immediate action to determine the proper resolution of the \$2,911 in receipts which were apparently not transmitted to the DOR for deposit.

Status:

- A,C,  
D.1. Implemented.
- B. Not implemented. See MAR No. 1.
- D.2,  
3&E. The status of these recommendations were not determined during the current audit. The department indicated they were unable to locate related records because of the passage of time. No similar instances were noted during our current review.

3. Accounts Receivable Procedures

- A. No statements of delinquent accounts were sent out by the MVE between November 1, 1993 and October 31, 1994. In addition, since October 31, 1994,

statements of delinquent accounts were only sent out in April 1995, and in May 1995.

- B. A significant dollar amount of accounts receivable were erroneously recorded on the June 30, 1995, and 1994, detailed subsidiary accounts receivable listing. These errors caused significant apparent over statements of accounts receivable.
- C. The MVE did not always maintain adequate documentation when merchandise was returned from its customers.

Recommendation:

The MVE:

- A. Implement and maintain procedures to ensure statement of delinquent accounts are sent out on a more frequent basis, such as monthly. In addition, the MVE needs to implement procedures to aggressively pursue the collection of amounts owed to them from its customers on a timely basis.
- B. Implement and maintain procedures to reconcile receipt and sales information with accounts receivable records. Any differences should be investigated and resolved properly.
- C. Implement procedures to ensure that adequate documentation is retained for all merchandise returned by the customer to the MVE for credit.

Status:

A&C. Implemented.

- B. Not implemented. MVE has not implemented procedures to reconcile receipt and sales information with subsidiary accounts receivable records. Although not repeated in the current report, our recommendation remains as stated above.

4. Inventory Records and Procedures

- A. Perpetual inventory records were not kept by the MVE for several months in fiscal year 1995.
- B. The MVE raw material inventory additions were not reconciled to either the raw material inventory purchases per the Statewide Accounting of Missouri (SAM) expenditure reports or the department's internal expenditure reports.
- C. MVE accounting personnel used negative unit prices, and in other cases negative quantities were used to determine the value of inventory on hand. In addition,

material quantity differences between the perpetual inventory records and the physical inventory counts were not always investigated.

Recommendation:

The MVE:

- A. Continuously maintain the perpetual inventory records for all inventory items.
- B. Implement and maintain procedures to ensure the raw material inventory purchases recorded on the raw material inventory addition reports agree with similar information recorded on the various expenditure reports.
- C. Determine the propriety of negative unit prices and negative quantity amounts as recorded on the perpetual inventory records. In addition, the MVE should ensure significant differences between the perpetual inventory records and the physical counts are investigated for propriety on a timely basis.

Status:

- A. Implemented.
- B. Not implemented. MVE did not reconcile inventory addition reports and state expenditure reports. Although not repeated in the current report, our recommendation remains as stated above.
- C. Implemented. No similar instances were noted during our current audit.

5. Bidding Concerns

Some instances were noted where bids received did not appear to be competitive.

Recommendation:

The MVE implement procedures to ensure state law is followed in regards to purchases made by the MCC.

Status:

Implemented.

6. Contract with Private Entity for Employment of Inmates

- A. The MVE did not enter into a written agreement regarding changes in the compensation for services provided under the contract.

- B. The estimated fixed costs determined by the MVE did not include utility costs and a charge for the rental of the space used in production.
- C. The amount billed by the MVE to the private company did not include certain payroll taxes paid by the department on behalf of the inmate workers.

Recommendation:

The MVE ensure all agreements and subsequent amendments with the private company are in writing. In addition, the MVE should revise its billing structure to ensure the amount of reimbursement received from the private company is at least equal to all costs incurred to provide this service.

Status:

MVE did not have any agreements with private companies during the current audit period.

7. Factories Review

- A. Factory managers were unable to analyze long-term trends in the production process.

Quality control records did not document the number, causes, or cost of quality control failures.

Studies had not been performed to determine the optimum batch sizes and production flows.

Records were not maintained of the quantity of scrap and rework.

Factory managers and supervisors did not appear to have a clear understanding of their role in regard to safety procedures.

- B. Overhead charged to each factory was not allocated on a reasonable basis.

Recommendation:

The MVE:

- A. Develop historical production records. These historical production records should then be used to analyze long-term trends in the production process. In addition, these production records should be used to develop production goals and quotas.

Maintain quality control records for the factories which document the number, causes, and cost of quality control failures.

Consider performing studies to determine the optimum batch sizes and production flows for factories.

Require factories to maintain documentation of the quantity of scrap and rework.

Enforce the departmental safety policies.

- B. Ensure overhead charged to each factory is allocated on a reasonable basis.

Status:

A&B. Not implemented. See related MAR No. 1.

8. General Fixed Asset Records and Procedures

- A. The MVE fixed asset additions were not reconciled to either the fixed asset purchases per the SAM expenditure reports or the department's internal expenditure reports.
- B. The MVE did not perform a physical inventory of fixed assets between April 1992 and March 1995.
- C. The MVE general fixed asset records were not maintained on a current basis and the following types of deficiencies were noted:
  - 1) Fixed assets observed were not recorded on the general fixed asset records.
  - 2) Fixed assets recorded on the general fixed asset records could not be located.
  - 3) Fixed assets were not tagged, even though the general fixed asset records indicated the fixed assets were tagged.
  - 4) The tag numbers recorded on the general fixed asset records did not agree to the actual tag number attached to the fixed assets.
  - 5) The physical location of the fixed assets recorded on the general fixed asset records did not agree to the actual physical location of the fixed assets.
- D. The MVE did not monitor or keep track of fixed assets which were disposed through state surplus property.

Recommendation:

The MVE:

- A. Perform and maintain periodic reconciliations between the fixed asset additions reports and the various expenditure reports.
- B. Conduct, on at least an annual basis, a physical inventory of fixed assets. The MVE should also ensure that the individual who performs the physical inventory verification is independent of the custody and record keeping responsibilities.
- C. Ensure the general fixed asset records are maintained on a current basis with the following information for each item:
  - 1) Identification number;
  - 2) Description of the item to include name, make, model, and serial number where appropriate;
  - 3) Physical location in sufficient detail to readily locate the item;
  - 4) Date of acquisition;
  - 5) Acquisition cost; and
  - 6) Date and method of disposition.
- D. Routinely monitor fixed assets disposed through state surplus property to ensure proper credit is received for all fixed assets sold.

Status:

A&D. Not implemented. Although not repeated in the current report, our recommendation remains as stated above.

B&C. Implemented.

## STATISTICAL SECTION

## History, Organization, and Statistical Information

## DEPARTMENT OF CORRECTIONS HISTORY, ORGANIZATION, AND STATISTICAL INFORMATION

The Missouri Division of Corrections and the Board of Probation and Parole were transferred to the Department of Social Services on July 1, 1974, following passage of the Omnibus State Reorganization Act of 1974. Effective September 28, 1981, the Missouri Department of Corrections and Human Resources was established as a cabinet-level department of state government as a result of legislation approved by the Eighty-First General Assembly and signed by the Governor.

Governor Mel Carnahan appointed Dr. Dora Schriro, Director of the Department of Corrections (DOC) on January 14, 1993. Prior to Dr. Schriro's appointment, Dick D. Moore had served as Director of the department since April 10, 1986.

With the revision made to Chapter 217, which became effective August 28, 1989, the Department of Corrections and Human Resources was renamed to the Department of Corrections. The department has the responsibility of supervising and managing all correctional institutions and probation and parole services. The department is composed of the Office of the Director and four divisions: Adult Institutions, Human Services, Offender Rehabilitative Services and the Board of Probation and Parole. The department employed approximately 10,000 employees as of January 2000. The functions of the divisions are:

The Office of the Director is responsible for shaping legislation and formulating policy and procedures to guide and implement public safety objectives and goals.

The Office of the Director oversees the management of the four divisions as well as the following specialized areas: General Counsel; Budget and Planning; Research and Evaluation; Information Technology; Public Information; General Services and Fiscal Management; Legislative Liaison; Constituent Services, Inspector General, Restorative Justice/Victim Services, Caring Communities, and Multicultural Concerns.

The Division of Human Services provides coordinated services to the department by supervising the following activities: Employee Development and Training; Employee Health, Wellness and Safety; Human Resource Management; Religious/Spiritual Programming; and Volunteer Services.

The Division of Adult Institutions (DAI) is responsible for the management of the state's correctional centers and the care, custody and control of incarcerated offenders. The division houses incarcerated inmates securely and humanely while providing programs and treatment that effectively manages the offender's risk to re-offend.

The Division of Offender Rehabilitative Services is responsible for the following programs: medical services, mental health services, educational and vocational training programs, the Missouri Sexual Offender Treatment Program, and the substance abuse treatment centers at Farmington, Potosi (Mineral Area), Boonville, St. Joseph and Fulton, Missouri. This

division is also responsible for the supervision and operation of the Missouri Vocational Enterprises.

The Division of Probation and Parole assesses and supervises criminal offenders assigned to the division by the Circuit Courts of Missouri and under the terms of the Interstate Compact. Affiliated with the Division of Probation and Parole is the State Probation and Parole Board. The Parole Board determines the eligibility and conditions for the release of inmates confined in the Division of Adult Institutions and oversees the supervision of probationers as directed by the courts. As of June 30, 1999, there were 1,803 staff serving in the Division of Probation and Parole, making it the second largest division in the Department. The Probation and Parole Board is comprised of seven full-time members appointed by the Governor, subject to the advice and consent of the Senate. Board members also investigate and report to the Governor on all applications for pardons, commutations of sentence, reprieves or restorations of citizenship.

### DIVISION OF ADULT INSTITUTIONS

The nineteen correctional institutions located throughout the state are:

The Algoa Correctional Center (ACC) is a medium security institution constructed in 1932. The institution is located eight miles east of Jefferson City on a bluff overlooking the Missouri River.

The Boonville Correctional Center (BCC) was opened in July 1983 through a transfer from the Department of Social Services, Division of Youth Services. The facility is a medium security institution for the first time offenders between the ages of 17 and 25.

The Central Missouri Correctional Center (CMCC) is a minimum to medium security institution. Originally constructed in 1938 as a satellite to the Missouri State Penitentiary, CMCC became an independent institution within the Department of Corrections on July 1, 1974. The institution is located ten miles northwest of Jefferson City in Cole County along the Missouri River.

The Chillicothe Correctional Center (CCC), which opened in October 1981, was transferred from the Department of Social Services, Division of Youth Services. The CCC is a minimum to medium security institution housing only female offenders.

The Crossroads Correctional Center (CRCC), is a maximum security facility, which opened in February 1997 in Clinton-DeKalb Counties. CRCC is the first facility in Missouri to be equipped with a lethal perimeter fence.

The Farmington Correctional Center (FCC) opened in December 1986 and was transferred from the Department of Mental Health. It is located on the grounds of the

Farmington State Hospital in the city of Farmington, Missouri. The facility is a medium security institution.

The Fulton Reception and Diagnostic Center (FRDC), located in Fulton, Missouri was opened in 1987 and serves as a reception and diagnostic center, which accepts offenders from the central and eastern areas of the state. After processing, offenders are assigned to an appropriate security level facility.

The Jefferson City Correctional Center (JCCC) is a maximum security institution located in Jefferson City and was formerly known as the Missouri State Penitentiary. The penitentiary was authorized by the legislature in 1832 and opened in 1836. It is located on a multi-level 47-acre site overlooking the Missouri River.

The Moberly Correctional Center (MCC) is a medium security institution, which began operation in January 1963. The institution is located five miles south of Moberly in Randolph County.

The Missouri Eastern Correctional Center (MECC) is a medium security institution opened in August 1981. The institution is located near Pacific in St. Louis County.

The Maryville Treatment Center (MTC) opened in 1996. It is a minimum security institution located 45 miles north of St. Joseph, Missouri, in Buchanan County on a site that was formerly a Catholic convent.

The Northeast Correction Center (NECC) is a medium security facility located at Bowling Green in Pike County. The facility began operations in 1998. NECC also is the site of the department's male juvenile unit for housing offenders under 17 years of age.

The Ozark Correctional Center (OCC) is a minimum security institution established in 1961 on a site originally constructed as an Air Force radar base. The institution is located 25 miles southeast of Springfield in Webster County. The OCC also supervises Camp Hawthorn, a minimum security, and work-release camp at the Lake of the Ozarks.

The Potosi Correctional Center (PCC) at Potosi, Missouri, is a maximum security institution opened in January 1989. This facility is the first lease-purchase facility in the history of the state. The private sector built the facility in accordance with strict specification and provides a lease-purchase arrangement for use of the facility by the state.

The South Central Correctional Center (SCCC) is a maximum security facility scheduled for opening in June 2000. It is located 35 miles south of Rolla in Texas County.

The Tipton Correctional Center (TCC) is a minimum security institution. TCC was placed under the administration of the Missouri Department of Corrections in 1960 and served as the state prison for women. The facility was converted into the state correctional pre-release center for men in 1976. TCC currently houses 1,088 male offenders.

The Western Reception Diagnostic and Correctional Center (WRDCC) is a reception and diagnostic center located in St. Joseph, Missouri that accepts offenders from the western areas of the state. WRDCC was constructed on property transferred from the Department of Mental Health.

The Women's Eastern Reception Diagnostic and Correctional Center (WERDCC) is located in Vandalia, Missouri, in Audrain County. WERDCC houses minimum through maximum security female offenders. The facility opened in 1998.

The Western Missouri Correctional Center (WMCC) is a medium to minimum security institution opened in January 1989. It is located near Cameron, Missouri in DeKalb County.

#### BOARD OF PROBATION AND PAROLE

The Board of Probation and Parole consists of seven full-time members appointed by the Governor, with the advice and consent of the Senate. Terms of members are for six years on a staggered basis. The chairman is appointed by the Governor and is the chief administrative officer of the board in charge of the board's operations, funds and expenditures.

As of June 30, 2000, members of the Board of Probation and Parole were:

|                   |          |                                      |
|-------------------|----------|--------------------------------------|
| Dennis Agniel     | Chairman | <u>Term Expires</u><br>December 2005 |
| Jan Carter        | Member   | August 2002                          |
| Fannie Gaw        | Member   | April 2006                           |
| Richard Lee       | Member   | April 2003                           |
| Jim Mitchell      | Member   | August 2000                          |
| Cranston Mitchell | Member   | April 2002                           |
| Darrel Ashlock    | Member   | April 2004                           |

#### DIVISION OF OFFENDER REHABILITATIVE SERVICES

The Division of Offender Rehabilitative Services was originally organized pursuant to Executive Order as the Division of Classification and Treatment in May 1985. Upon appointment of the Division Director, staff from the Division of Adult Institutions and the Office of the Director was assigned to oversee health services, the Missouri Sex Offender Program and Education Services throughout the department. This marked the beginning of centralized management of these specialized areas of service. The Division of Classification and Treatment also included the

Diagnostic and Reception Center operation at the Missouri State Penitentiary as well as the Central Transfer Authority, Recreation and Planning, and Research and Evaluation. Each of these six areas was under the authority of a section head.

The division was responsible for the evaluation and classification of all offenders for assignment to an appropriate facility based upon the department's classification system. The division was also responsible for internal transfer of inmates between institutions and for the development and implementation of professional sex offender treatment, healthcare, educational and recreational programs within the department's facilities.

The division reorganized in 1987 into five administrative sections: Missouri Sexual Offender Program (MoSOP), departmental hospital, healthcare services, inmate education and psychological services. In February 1987, the department opened the doors to its first facility designed especially for reception, diagnostic and classification functions at Fulton. Since opening, the Fulton Reception and Diagnostic Center (FRDC) has processed approximately 137,422 incoming offenders. Until 1990, FRDC served both male and female offenders. In 1986-1987, the division established cooperative agreements with the Department of Mental Health (DMH). This led to the opening of inpatient mental health units for offenders at the Biggs Corrections Treatment Unit, in the Fulton State Hospital, and the Corrections Treatment Unit operated in the Farmington Correctional Center by staff from the Farmington State Hospital. These programs remain in place today having served hundreds of acutely and chronically mentally ill offenders. The DOC/DMH partnership expanded to include a 200-bed (step down) Social Rehabilitation Unit at the Farmington Correctional Center in 1988 and a 46-bed Special Needs Unit for high custody chronically mentally ill and/or mentally challenged offenders at the Potosi Correctional Center.

By 1989, the division consisted of the Fulton Reception and Diagnostic Center and four administrative sections: MoSOP; inmate education; psychological services and healthcare services. The designated "hospital" at the Jefferson City Correctional Center was reorganized as the division began establishing 24-hour infirmaries for the more seriously ill inmates at multiple facilities.

It was during this time that the division established contracts with community hospitals throughout the state. In 1990-1991, the division upgraded the management of healthcare services by establishing utilization review procedure and hiring licensed healthcare professionals at all management levels. Due to chronic staff vacancies, sharp increases in population and spiraling healthcare costs, the division contracted all medical care to a private company. The division continues to self-operate mental health services (MoSOP, psychology, and psychiatry).

In 1993, the division became known as the Division of Offender Rehabilitative Services and was responsible for education, vocational programs, mental health, substance abuse and medical services. In 1999, the mental health and substance abuse sections were administratively consolidated under a single Assistant Director.

In 1990, Missouri Correctional Enterprises was transferred from the Division of Administration to the Division of Offender Rehabilitative Service and Academic Education and Vocational Education were transferred to the Division of Adult Institutions. In 1995, the libraries remained under the

Division of Adult Institutions, however Academic Education returned to the Division of Offender Rehabilitative Services and Vocational Education and Vocational Enterprises were consolidated under one section.

|   | Design<br>Capacity* | Inmate Population |        |        |        |        |
|---|---------------------|-------------------|--------|--------|--------|--------|

**CLAIRE C. McCASKILL**  
Missouri State Auditor

To the Honorable Mayor  
And  
Board of Aldermen  
City of Novinger  
Novinger, Missouri 63559

The State Auditor was petitioned under Section 29.230, RSMo, to audit the city of Novinger, Missouri. Our audit of the city included, but was not limited to, the year ended June 30, 2000. The objectives of this audit were to:

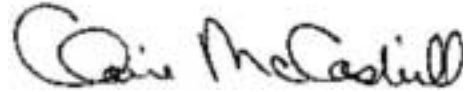

1. Perform procedures we deemed necessary to evaluate the petitioners' concerns.
2. Review compliance with certain constitutional provisions, statutes, ordinances, and attorney general's opinions as we deemed necessary or appropriate in the circumstances.
3. Review certain management practices which we believe could be improved.

Our audit was made in accordance with generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. We also reviewed board minutes, city policies and ordinances, and various city financial records.

Our audit was limited to the specific matters described above and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention which would have been included in the audit of the city.

The accompanying History and Organization is presented for informational purposes. This information was obtained from the city and was not subjected to the auditing procedures applied in the audit of the city.

The accompanying Management Advisory Report presents our findings and recommendations arising from our audit of the city of Novinger, Missouri.

A handwritten signature in black ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" and last name "McCaskill" clearly distinguishable.

Claire McCaskill  
State Auditor

July 10, 2000 (fieldwork completion date)

## HISTORY AND ORGANIZATION

# CITY OF NOVINGER, MISSOURI HISTORY AND ORGANIZATION

The city of Novinger is located in Adair County. The city was incorporated in 1904 and is currently a fourth-class city. The population of the city in 1990 was 542.

The city government consists of a mayor and a four-member board of aldermen. The four board members are elected for two-year terms. The mayor is elected for two years, presides over the board of aldermen, and votes only in case of a tie. The Mayor, Board of Aldermen, and other principal officials at June 30, 2000, were:

| <u>Elected Officials</u>             | <u>Term Expires</u> | <u>Compensation for the Year Ended June 30, 2000</u> | <u>Amount Of Bond</u> |
|--------------------------------------|---------------------|--|-----------------------|
| Connie Denton, Mayor                 | April 2001          | \$ 60  | \$                    |
| Floyd Ellsworth, Alderman            | April 2001          | 60   |                       |
| Teresa West, Alderwoman (1)          | April 2002          | 15   |                       |
| BeLinda King-Jones, Alderwoman(2)    | April 2001          | 0  |                       |
| Robert Howe, Alderman                | April 2001          | 60   |                       |

| <u>Other Principal Officials</u>     |                     |  |                       |
| Donald E. Daniels, City Clerk (3)    |                     | 1,680  |                       |
| Irene Brownell, City Treasurer       |                     | 1,275  | 5,000                 |
| Charles Middleton, City Marshal      |                     | 24,000   |                       |
| Wallace W. Trosen, City Attorney (4) |                     | 1,188  |                       |

- (1) Elected in April 2000 to replace Shelli Wyble.
- (2) Appointed June 29, 2000, to fill a position vacated after the April 2000 election. David Childers was in office until April 2000.
- (3) Resigned effective June 30, 2000.
- (4) Payments are made by the city to the law firm of Trosen & Williams, P.C. when legal services are rendered and billed to the city.

In addition to the officials above, the city has two full-time employees.

The Associate Circuit Judge of Adair County serves as the municipal judge. All city court cases and the related fines and court costs are handled by the Associate Circuit Division.

Assessed valuation and tax rate information for the tax year 1999 are as follows:

ASSESSED VALUATION

|                        |                    |
|------------------------|--------------------|
| Real estate            | \$ 805,209         |
| Personal property      | 540,022            |
| Railroad and utilities | <u>302,774</u>     |
| Total                  | <u>\$1,648,005</u> |

TAX RATE PER \$100 ASSESSED VALUATION

|                           |               |
|---------------------------|---------------|
| General Revenue           | \$ .43        |
| General Revenue-temporary | <u>.35</u>    |
| Total                     | <u>\$ .78</u> |

The General Revenue-temporary levy is an additional voter-approved levy which expired in April 2000, at which time the voters extended the levy for an additional four years.

The city registered \$246,700 of combined waterworks and sewerage system refunding and improvement revenue bonds with the GMAC Commerce Mortgage Corporation on May 17, 1977. The city makes annual principal and interest payments of \$15,419 until the bonds are paid off on January 1, 2012. At June 30, 2000, the principal balance was \$118,423 and the city had a total of \$26,349 in certificates of deposit for repair and replacement and bond reserve.

A summary of the financial activity of the city of Novinger for the year ended June 30, 2000, is presented on the next page.

## MANAGEMENT ADVISORY REPORT

CITY OF NOVINGER, MISSOURI  
SUMMARY OF FINDINGS

1. Financial Condition (pages 11-12)

The City of Novinger is in poor financial condition. The city may owe \$53,231 to the federal government for non-compliance with a grant agreement, and the city needs to deposit \$44,633 into certificates of deposit which was received from an estate and inappropriately spent for city operating purposes. In addition, the city has incurred negative cash balances in the Water Fund.

2. Community Oriented Policing Services (COPS) Grant (page 12)

The city received a COPS grant award for hiring additional police officers, but instead, the city used the grant monies to pay the salary of the City Marshal. The city may have to pay back the entire amount received from this grant (\$53,231).

3. Garrison Estate Donations to City (pages 13-14)

In 1992 and 1994, the city received \$44,633 in donations from an estate which should have been deposited in certificates of deposit with the interest earnings used for the city's Christmas light project. The \$44,633 was instead spent for city operations.

4. Water, Sewer, and Trash Services (pages 14-16)

The city does not reconcile gallons of water pumped to gallons of water billed to customers, maintain adequate records of water meter deposits held, nor perform reconciliations of total billings, payments received, and delinquent amounts. The city is not depositing the required amount of monies into the Replacement and Extension Fund and has not prepared documentation of the costs of maintaining the water and sewer system to support the various rate increases. The city collects an administrative fee for trash service but has not documented the administrative costs of providing the service.

5. Expenditures (pages 17-19)

A formal bidding policy has not been adopted, several invoices or supporting documentation were not retained, invoices are not always initialed or dated to indicate receipt of goods or services, and invoices are not canceled to prevent duplicate payment. Fuel usage is not reconciled to fuel purchased. Written contracts have not been obtained for various services. Time sheets and leave records are not maintained for city employees.

6. Budgets and Financial Reporting (pages 19-22)

The city's budgets do not include some information required by state law and the city approved expenditures in excess of the budgeted amounts for various funds. The city has not published semi-annual financial statements, submitted annual financial reports to the State Auditor's Office, nor obtained annual audits of its combined waterworks and sewage system.

7. Ordinances and Board Minutes (pages 22-23)

The city has passed very few ordinances since 1984. The city has not passed ordinances describing the duties and compensation of elected officials, appointed officials, and other city employees. The board minutes are not signed by the Mayor or member of the board but only signed by the City Clerk, and some board minutes have not been retained.

8. Accounting Controls and Procedures (pages 23-27)

Improvement is needed in controls over cash receipts. The Mayor and City Clerk both sign checks but are not bonded. The board's monthly financial reports do not include some bills to be paid and do not include some financial resources of the city. Blank checks were signed in advance by the former Mayor, some checks did not have the required dual signatures, and some voided checks were not properly defaced. The city does not maintain a general ledger and does not properly reconcile its bank accounts.

9. Property Tax Procedures (pages 27-28)

The city has not held hearings for the proposed property tax levies. The City Collector prepares the tax books, while state law requires the City Clerk to prepare the tax books. The City Collector does not prepare annual reports of property tax charges, collections, and delinquent amounts, and the city does not adequately pursue the collection of delinquent taxes.

10. Banking Depositary Agreement and Proposals (pages 28-29)

The city does not have a written banking agreement with its depositary bank and has not solicited banking proposals on a periodic basis.

11. Access to City Records (pages 29-30)

The city does not have a formal policy regarding public access to city records. Some city records are maintained at residences of some city officials, the records located at city hall are not always filed in an orderly manner, and some records could not be located.

12. City Property (pages 30-31)

Records to account for city-owned property are not maintained, bids were not solicited for the sale of a city patrol car, and usage and maintenance logs are not maintained for the city vehicles or equipment.

13. City Traffic Tickets (pages 31-32)

Traffic tickets are not issued in numerical sequence and records are not maintained for the issuance and disposition of each ticket.

CITY OF NOVINGER, MISSOURI  
MANAGEMENT ADVISORY REPORT

|           |                            |
|-----------|----------------------------|
| <b>1.</b> | <b>Financial Condition</b> |
|-----------|----------------------------|

The City of Novinger is in poor financial condition. The city may have to refund \$53,231 to the U.S. Department of Justice of federal grant proceeds because the city did not use this money in accordance with the grant agreement (See Management Advisory Report (MAR) No. 2). In addition, the city received \$44,633 in donations from an estate which should have been set aside in certificates of deposit and the interest earnings to be used for the city's Christmas light project. Instead, the city has spent this money for city operations and the city needs to deposit this money in certificates of deposit to comply with the provisions of the estate (See MAR No. 3). The city has a combined balance of only \$8,745 in operating funds at June 30, 2000. In addition, the bank balance of the Water Fund was overdrawn on several different occasions during the last two fiscal years, and the city needs to deposit additional funds in the Replacement and Extension Fund to comply with the city's bond covenants (See MAR No. 4).

The Board of Aldermen does not adequately monitor the financial condition of the city. Monthly financial reports provided to the board do not include sufficient detail of the city's expenditures. The board does not periodically compare actual revenues and expenditures to budgeted amounts, and the city has overspent its budgets during the years ended June 30, 2000 and 1999. In addition, the city does not maintain adequate accounting records. General ledgers are not maintained for each fund, and bank reconciliations are not adequately prepared (See MAR's No. 6 and 8).

The Board of Aldermen needs to establish a plan to make the repayments of unallowable federal grant proceeds and to set aside the required amounts for the Christmas light project, and prepare a budget which reflects this plan. The board needs to review the financial activity of the Water Fund and set rates to adequately fund operations and set aside the required amount of money in the Replacement and Extension Fund. In addition, the board needs to ensure an effective system of accounting and administrative controls are in place, including an effective financial reporting system and procedures to monitor budgeted and actual activity. The recommendations contained in the remaining MAR's, if implemented, will help establish these controls and procedures.

**WE RECOMMEND** the Board of Aldermen review the current financial situation of the city and make plans to pay the amounts owed to the federal government, set aside the required amounts for the Christmas light project, and deposit sufficient monies in the Replacement and Extension Fund.

**AUDITEE'S RESPONSE**

*We concur that the funds listed appear to have been mishandled. We would like to cover the shortage on the Replacement and Extension Fund within one year. Replacing the Garrison*

*monies would take some time to do, but would be manageable if done over a four to five year span. The COPS grant funds will have to be negotiated after the Department of Justice has completed their investigation.*

|   |
|---|
| <b>2. Community Oriented Policing Services (COPS) Grant</b> |
|---|

The city has a City Marshal who has been employed for several years to provide police protection for the city. The city applied for and in April 1997 received a Community Oriented Policing Services (COPS) grant through the U.S. Department of Justice (DOJ) for one additional full-time police officer and one additional part-time police officer. The grant award was \$78,903 for the three year period ending March 31, 2000. In addition, the city is required to provide matching funds of \$26,301. The city received the first payment from the DOJ in July 1997. The city opened a separate bank account for the deposit and disbursement of the federal grant monies.

Since the approval of the grant, it appears the city has not hired any additional police officers, but instead, uses the grant monies, along with matching city funds, to pay the salary of the City Marshal. This is contradictory to the conditions of the grant award which stipulates that the grant funds must be used to hire one or more new, additional career law enforcement officers, beyond the number of officers that would be hired or employed by the grantee in the absence of the grant.

In addition, the quarterly financial status reports prepared by the city are not accurate. While the expenditures for each quarter appear to be accurately reported, the cumulative grant expenditures were not reported accurately or were not reported at all.

Since the inception of the grant, the city received \$53,231 in federal COPS grant proceeds. Because the city failed to hire additional police officers, the city could be required to pay back the entire amount received from the COPS grant. The board should contact the DOJ to determine what actions should be taken to resolve this issue and determine if the grant proceeds should be paid back to the DOJ.

**WE RECOMMEND** the Board of Aldermen contact the U. S. Department of Justice and resolve this matter.

**AUDITEE'S RESPONSE**

*We concur that the city is not probably in compliance with the terms of the grant. The Mayor has been in contact with the Department of Justice and we will follow through with their recommendations upon completion of their investigation.*

**3.****Garrison Estate Donations to City**

The city received \$35,000 in October 1992 and \$9,633 in January 1994 from the Associate Circuit Court-Probate Division of Adair County in donations from the estate of Oneita Garrison. The stipulation of the donation was that the city use the money in accordance with the terms of her last will and testament. This document directed the city board of aldermen to invest the sum received in a certificate of deposit in a bank of its choice, with the income from the investment to be used for the Christmas tree lighting project commenced by the city a few years before. According to discussions with city officials, the donated monies were not used for the lighting project nor put in a certificate of deposit.

City records indicate that \$17,500 of the initial proceeds was put into a special savings account in October 1992. The monies were then transferred into the General Fund in March 1993 and, according to the City Clerk, spent for the purchase of a used motor grader (with a trade-in of the city's old grader) and for the purchase of and labor for installing a new metal building next to the city's water building. These expenditures totaled \$16,235, and the remaining \$1,265 was not identified to specific expenditures. The remaining \$17,500 from the initial proceeds was put into another savings account and various transfers were made from this account in 1993 and 1994 to the General Fund and Water Fund for operating expenses. City records noted that \$13,500 was transferred to the Water Fund and used for water tower repair (\$10,000) and other operating expenses. Transfers to the General Fund totaled \$4,000. In addition, the \$9,633 received in January 1994 was also placed in the General Fund and spent for general operating purposes for the city.

The board minutes during this period of time did not include any references to the receipt of the donations, how the monies were going to be spent, the deposit of monies into the savings accounts, or the actual use of the monies. It appears the city did not use the donations in accordance with the provisions of the last will and testament. At June 30, 2000, the city has \$1,456 remaining in the savings account related to the donated monies, which includes interest earned on the donations and \$418 which was already in the savings account prior to October 1992. In addition, the city has a certificate of deposit which was opened in 1985 for \$1,000 (with a current balance of \$2,613) which appears to be an additional donation from Oneita Garrison. The city has no records of the purpose of this donation and it appears there has been no activity in this account other than accumulated interest earnings.

The current city officials should review this situation with legal counsel and with the former city officials who were in office during the time of the donations. Based on available documentation, it appears the city will need to transfer \$31,133 from the General Fund and \$13,500 from the Water Fund into certificates of deposit in accordance with the provisions of the Garrison estate, and the income from the certificates of deposit should be used on the city's Christmas light project. In addition, the city should review

the \$1,000 donation received in 1985 and determine the appropriate disposition of this money.

**WE RECOMMEND** the Board of Aldermen review this matter with applicable former city officials and with legal counsel, and make arrangements to transfer monies into certificates of deposit to adhere to the provisions of the Garrison estate.

#### **AUDITEE'S RESPONSE**

*We concur that the monies were not used as designated in Mrs. Garrison's will. We will consult the City Attorney as to any legal actions that may ensue due to misuse of the funds. We agree that the monies should be replaced and used for their intended purpose as quickly as possible, and to start setting aside funds within the next six months.*

|  |
|--|
| <b>4. Water, Sewer, and Trash Services</b> |
|--|

- A. The city purchases its water supply from a public water supply district. The city does not compare or reconcile gallons of water purchased to gallons of water pumped from the city's water tower. In addition, the city does not reconcile gallons of water pumped to gallons of water billed to customers.

To help detect any significant water loss on a timely basis and to help ensure all water usage is properly billed, the city should reconcile gallons of water pumped to gallons of water billed to customers on a monthly basis and compare these amounts to gallons of water purchased. Significant differences should be investigated.

- B. The city does not maintain adequate records of water meter deposits held in the Water Fund. A sheet with names and deposit amounts was located, and this sheet has lines through names, apparently to indicate refunds of deposits were made; however, it appears the list has not been updated in several years and the total amount of deposits from city residents cannot readily be determined.

To ensure the city is properly holding water deposits from city customers, an accurate list of water deposits held by the city should be prepared, which includes the deposit amount and date received from each customer and the dates and amounts of all deposit refunds.

- C. The city does not perform monthly reconciliations of total billings, payments received, and amounts remaining unpaid for water and sewer services.

Monthly reconciliations are necessary to ensure that all accounting records balance, transactions have been properly recorded, and any errors or discrepancies are detected on a timely basis. Complete documentation of the reconciliation

should be retained to support conclusions and any corrections made and to facilitate independent review.

- D. The city's combined waterworks and sewage system bond covenant requires that amounts be set aside into a Bond Reserve Fund and a Replacement and Extension Fund with the aggregate amount totaling \$16,000 into each fund. The city has certificates of deposit held especially for these funds; however, at June 30, 2000, the city only had \$7,917 for the Replacement and Extension Fund, and the city has not been making any deposits to this fund during the current fiscal year. The certificates of deposit for the Bond Reserve Fund totaled \$18,432 at June 30, 2000, exceeding the amount required of \$16,000. It appears the excess amount in the Bond Reserve Fund could be transferred to the Replacement and Extension Fund.

To ensure the city has complied with the bond covenant restrictions, the city should deposit additional monies into the Replacement and Extension Fund until the amount has reached the required amount of deposit.

- E. The Water Fund operating account has incurred overdraft charges since July 1998, and as stated above, the city has not properly funded the Replacement and Extension Fund. Although the city has increased its water and sewer rates five times beginning in August 1990, it appears the rates may not be adequately covering the current operating costs. The most recent increase was mainly due to the city having to connect its water system to the public water supply district. The city has not retained documentation to support the costs associated with maintaining the water and sewer system and the various rate increases.

The city should perform a detailed review of its combined waterworks and sewer system, including depreciation and debt service costs, and set rates to cover the total costs of operation. In addition, the city should more closely monitor the Water Fund bank account to ensure that checks written do not exceed the cash balance and to avoid bank service charges.

- F. The city charges its residents a monthly fee of \$5.50 for trash pick-up. These fees are included along with the water and sewer charges in the monthly utility bills. The city retains an administrative fee of \$.25 per customer in the General Fund and disburses the remainder of \$5.25 per customer to the disposal company. The city receives total administrative fees of approximately \$600 per year. The city has not documented the administrative costs of providing trash collection services.

The administrative costs of providing trash collection services should be calculated and documented. The user fee charged to city residents should be set at a level sufficient to cover the cost of the service.

**WE RECOMMEND** the Board of Aldermen:

- A. Reconcile gallons of water pumped to gallons of water billed to customers on a monthly basis and compare these amounts to gallons of water purchased. Any significant differences should be documented and investigated.
- B. Prepare accurate records of water meter deposits held by the city.
- C. Perform monthly reconciliations of the amounts billed to amounts collected and delinquent accounts. The board should periodically review related records to ensure amounts recorded on the records are accurate.
- D. Deposit amounts into the Replacement and Extension Fund to reach the amount required by the bond covenant.
- E. Review water and sewer rates periodically to ensure revenues are sufficient to cover all costs of providing service and document the costs of operation of providing the service and necessary increases in rates. In addition, the board should review the Water Fund bank balance on a regular basis and not incur bank overdraft service charges.
- F. Review the city's cost of administering the trash pick-up service and document the amount of administration costs associated with the service.

**AUDITEE'S RESPONSE**

*A&C. We concur. These were implemented as of July 1, 2000.*

*B. We concur. The current list of users and amounts of their deposits shall be brought up to date to the best of our abilities. Those monies will be designated so that proper tracking of refunds can be maintained.*

*D. We concur. We will attempt to transfer amounts monthly to the Replacement and Extension Fund to bring it into compliance within one year. We will attempt to start this process in August, 2000.*

*E. We concur. Both water and sewer rates should be reviewed at least every six months. We started this process by reviewing both rates in June, 2000.*

*F. We concur. We will compute the figures to document the current rate and administrative costs.*

- A. The city does not have a formal bidding policy. Formal quotes or bid proposals are not solicited by the city on expenditures and some items are considered sole source purchases. During fiscal years 1999 and 2000, the city spent \$13,352 for insurance coverage, \$3,604 for sewer chemicals, and \$5,333 for gas and diesel fuel from the same vendors without soliciting bids or price quotes from other vendors. Also, during fiscal year 1999, the city paid over \$6,100 for plumbing materials from the same company (10 different invoices), and paid \$1,614 for replacing a water valve at the water tower without obtaining bids.

Formal bidding procedures for major purchases provide a framework for economical management of city resources and help ensure the city receives fair value by contracting with the lowest and best bidders. Competitive bidding also helps ensure all parties are given equal opportunity to participate in the city's business. Bids can be handled by telephone quotation, by written quotation, by sealed bids, or by advertised sealed bids. Various approaches are appropriate, based on the dollar amount and type of purchase. Whichever approach is used, complete documentation should be maintained of all bids received and reasons noted why the winning bid was selected.

- B. Original invoices or other supporting documentation was not retained for several expenditures. To ensure that city expenditures are proper, adequate supporting documentation should be approved and retained for all city expenditures.
- C. Invoices and other supporting documentation are not always initialed or dated by a city employee to indicate receipt and acceptance of the goods or services. In addition, the invoices are not canceled upon payment.

To ensure that goods and services have been properly received by the city, all invoices and other supporting documentation should be properly initialed or signed by a city employee upon receipt. To ensure against duplicate payment of bills, invoices should be marked paid when a check has been issued by the city.

- D. The city purchases gasoline and diesel fuel in bulk and stores the fuel in city-owned tanks. During fiscal years 1999 and 2000, the city spent approximately \$2,600 on fuel per year. Our review noted the following concerns regarding fuel expenditures:
- 1) The diesel tank is not metered and diesel fuel usage is not recorded. While a log is maintained to record the amount of gasoline pumped from the city's metered tank, the log is not reconciled on a monthly or periodic basis to the gallons purchased.

To ensure that fuel expenditures are reasonable and that fuel is properly accounted for, all city fuel tanks should be metered and logs should be maintained for all fuel usage. The usage recorded on the fuel logs should be reconciled to fuel purchased on a periodic basis and significant differences should be investigated.

- 2) The city allocates the cost of gasoline to the various city funds based on an estimated percentage of the amounts used for the police car and amounts used by water and sewer vehicles. These percentages apparently are estimates based on usage data from several years ago, and the city had no documentation to support these estimates. Gasoline expenditures should be allocated to the various city funds based on actual usage or estimated usage based on historical data.

- E. The city has not entered into formal written contracts for various services obtained and provided. These services include legal services obtained and providing the use of city-owned property for agricultural purposes.

Section 432.070, RSMo 1994, requires contracts of political subdivisions be in writing. The city should enter into written contracts for services rendered or obtained. A written contract, signed by the parties involved, should specify the services to be rendered and the manner and amount of compensation to be paid. Written contracts are necessary to ensure all parties are aware of their duties and responsibilities and to provide protections to both parties.

- F. Time sheets and records of leave earned and taken are not maintained for the two city employees.

To ensure payroll expenditures are proper, time sheets showing hours worked and leave records showing amounts earned, taken, and balances should be maintained and properly approved by a supervisor.

**WE RECOMMEND** the Board of Aldermen:

- A. Establish formal bidding policies and procedures, including documentation requirements regarding the bids or quotes received and justification for the bid selected.
- B. Ensure that invoices or other supporting documentation are maintained to support all city expenditures.
- C. Require all invoices be initialed or signed by a city employee to indicate acceptance of the goods or services, and all invoices be canceled when paid.

- D.1. Obtain a meter for the diesel fuel tank and record all fuel usage on usage logs. Fuel usage should be reconciled to fuel purchases and significant differences should be investigated.
- 2. Allocate gasoline costs to the various city funds based on actual usage or on estimated usage which is based on historical information.
- E. Require all contracts to be in writing as required by state law.
- F. Require timesheets and leave records be prepared for all city employees which are reviewed and approved by a supervisor.

### **AUDITEE'S RESPONSE**

- A. *We concur. We are reviewing an ordinance to put policies in place within the next two months.*
- B,C,  
&D.1. *We concur. These will be implemented immediately.*
- D.2. *We concur. We believe gasoline costs should be allocated based on actual usage. This will be implemented immediately.*
- E. *We concur. We will consult with the City Attorney to see that proper contracts are written and signed for both situations. This should be done within the next two months.*
- F. *We concur. Steps have been taken to correct this problem starting with the July 16, 2000, pay cycle.*

|           |  |
|-----------|--|
| <b>6.</b> | <b>Budgets and Financial Reporting</b> |
|-----------|--|

- A. During our review of the city's budgets and related procedures, we noted the following concerns:
  - 1) The city's annual budgets do not contain a budget message and a comparative statement of estimated or actual receipts and expenditures for the two preceding years, as required by state law.  
  
Section 67.010, RSMo 1994, provides that the city's budget shall present a complete financial plan for the ensuing budget year, including a budget message and a comparative statement of receipts and disbursements for the two previous years.
  - 2) The City Clerk prepares the annual budgets; however, city ordinances provide that the Mayor shall serve as the budget officer and prepare the

annual budget. In addition, the budget for the year beginning July 1, 1999, was not approved by the board until the meeting in August 1999. Section 67.030, RSMo 1994, requires the budgets to be approved prior to the beginning of the fiscal year.

The budgets should be prepared in accordance with the city ordinances and be approved by the board prior to the beginning of the fiscal year.

- 3) The city approved expenditures in excess of the budgeted amounts for various funds as follows:

Year Ended June 30, 2000

| <u>Fund</u> | <u>Budgeted<br/>Amount</u> | <u>Actual<br/>Expenditures</u> | <u>Actual<br/>over Budget</u> |
|-------------|----------------------------|--------------------------------|-------------------------------|
| General     | \$46,455                   | 48,149                         | 1,694                         |
| Sewer       | 23,077                     | 27,833                         | 4,756                         |

Year Ended June 30, 1999

| <u>Fund</u>     | <u>Budgeted<br/>Amount</u> | <u>Actual<br/>Expenditures</u> | <u>Actual<br/>over Budget</u> |
|-----------------|----------------------------|--------------------------------|-------------------------------|
| General         | \$42,010                   | 44,681                         | 2,671                         |
| Water and Sewer | 83,052                     | 96,430                         | 13,378                        |
| Street          | 18,060                     | 21,679                         | 3,619                         |

The Board of Aldermen does not periodically compare budgeted amounts to actual expenditures. Periodic comparisons of budget and actual data are necessary to ensure the city is operating within the budgetary constraints. If budget amendments are necessary, Section 67.040, RSMo 1994, allows the board to amend the budgets by formal resolution.

- B. The city has not published semi-annual financial statements as required by state law. Section 79.160, RSMo 1994, and Section 13.400 of the city code require the Board of Aldermen to prepare and publish semi-annual financial statements. In addition, Section 79.165, RSMo 1994, states the city treasurer cannot legally disburse funds until the financial statement is published.
- C. The city has not submitted annual financial reports to the State Auditor's Office for the years ended June 30, 1999 and 1998, as required by state law. The last financial report submitted was for the year ended June 30, 1997. The city has in the past hired an accountant/bookkeeper from a nearby city to prepare financial reports for the city and to prepare the annual reports to the State Auditor's Office. However, the city has not used the services of this person for over two years and has not prepared the required annual financial reports.

Section 105.145, RSMo 1994, requires political subdivisions to file an annual report of the financial transactions of the political subdivision with the State Auditor's Office.

- D. The city has not obtained annual audits of its combined waterworks and sewage system as required by state law and the bond covenants. Section 250.150, RSMo 1994, requires the city to obtain annual audits, and the cost of the audits is to be paid from the revenues received from the system.

Besides being required by state law, regular audits of the water and sewer system (and other city funds) would better enable the city to:

1. Ascertain the stewardship of the public officials who handle and are responsible for the financial resources of the city.
2. Determine the propriety and accuracy of its financial transactions.
3. Ensure the revenues of the sewer system are adequate to meet the expenses of providing this service.

**WE RECOMMEND** the Board of Aldermen:

- A.1. Ensure the budgets include a budget message and comparisons of the prior two years' revenues and expenditures, as required by state law.
2. Require the Mayor to prepare the budgets as required by city ordinance or amend the ordinance. In addition, the budgets should be prepared and approved prior to the beginning of the fiscal year as required by state law.
3. Periodically compare budget and actual expenditures and keep expenditures within the budgetary limits. If budget amendments are necessary, formal resolutions should be adopted as required by state law.
- B. Publish semi-annual financial statements as required by state law and city ordinance.
- C. Submit annual financial reports to the State Auditor's Office as required by state law.
- D. Obtain annual audits of the combined waterworks and sewage system as required by state law and the bond covenants.

## **AUDITEE'S RESPONSE**

A.1.

&2. *We concur. These procedures were included in the budget for the year ending June 30, 2001.*

A.3. *We concur. This will be done on a monthly basis as soon as we put a new accounting system into place.*

B&C. *We concur. These will be implemented as soon as figures are ready to prepare the reports as of June 30, 2000.*

D. *We concur. This will be done starting with the year ending June 30, 2001.*

|  |
|--|
| <b>7. Ordinances and Board Minutes</b> |
|--|

A. The city's ordinances were codified in 1984. Although many board decisions and policies are documented in the minutes, it appears the board has rarely adopted ordinances since the ordinances were codified. The city could only locate two ordinances adopted since 1984. The board has not adopted ordinances regarding such items as election procedures, personnel policies and procedures, bidding policies and procedures, tax rates, and all utility-related policies and procedures including water, sewer, and trash rates. These items should be set forth in ordinances to give the taxpayers information on how the city is to be governed.

B. The city has not adopted ordinances to establish the compensation and duties of its elected officials including the Mayor, Board of Aldermen, and City Collector, and appointed officials and employees including the City Clerk, City Marshal, and City Treasurer. Section 79.270, RSMo 1994, requires the compensation of officials and employees to be set by ordinance, and the salary of an official shall not be changed during the term of election or appointment.

Compensation rates set by ordinance, in addition to meeting statutory requirements, document the approved amounts to be paid and eliminate potential misunderstandings on the amount each city official and employee is to receive, and is necessary to ensure the compensation of an official is not changed during the term of office. Ordinance hearings provide for public input and information concerning the compensation paid. In addition, documentation of duties and job descriptions would clarify the duties and responsibilities of each official and employee and prevent misunderstandings.

C. The board minutes are signed only by the City Clerk and are not signed by the Mayor or a member of the Board of Aldermen. The board minutes should be signed by the Mayor or member of the Board of Aldermen to provide an

independent attestation that the minutes are a correct record of the matters discussed and actions taken during the board's meetings.

- D. Some board minutes have not been retained. Numerous monthly minutes of board meetings were not included in the current minute notebook, which dates back to 1989. Minutes of the monthly Board of Aldermen meetings are permanent records of the proceedings of the board meetings and should be properly retained for future reference.

**WE RECOMMEND** the Board of Aldermen:

- A. Pass ordinances for all significant decision, policies, and procedures that are intended to govern the city and its citizens. All ordinances should be maintained in an orderly manner.
- B. Establish by ordinance the duties and compensation of all city officials and employees.
- C. Require the Mayor or a member of the board to sign the board minutes in addition to the City Clerk's signature.
- D. Ensure all board minutes are retained.

**AUDITEE'S RESPONSE**

*A&C. We concur. These will be implemented immediately.*

*B. We concur. Some ordinances are in place but need to be updated. This will be an ongoing project for quite some time.*

*D. We concur.*

|  |
|--|
| <b>8. Accounting Controls and Procedures</b> |
|--|

- A. Our review noted the following concerns regarding controls over receipts:

- 1) Pre-numbered receipt slips are not issued by the city for the receipt of monies and receipt slips were not issued for some monies received. Unnumbered receipt slips are used by the city and are numbered consecutively as written. Receipt numbers are not always used sequentially and no one keeps track of the numerical sequence. Some receipt books were only partially used, numerous receipt slips issued were not numbered, and some receipt numbers were used more than once. In addition, the former Mayor issued many receipt slips during a period of

time, and it appears some duplicate receipt slips were issued by both the City Collector and the former Mayor.

To adequately account for all receipts, pre-numbered receipt slips should be issued in numerical order for all receipts and the numerical sequence should be accounted for properly.

- 2) The method of payment received (i.e. cash, check, money order) is not always recorded on the receipt slips issued nor on the daily receipts ledger maintained by the City Collector. To ensure all receipts have been recorded properly and deposited intact, the method of payment received should be recorded on each receipt slip or on the daily receipts ledger. The composition of receipt slips issued should be reconciled to the composition of bank deposits.
  - 3) Receipts are not always deposited intact on a timely basis. While monies are generally deposited about three times a week, some monies were held and not deposited for up to two weeks later. To adequately safeguard receipts and reduce the risk of loss or misuse of funds, all receipts should be deposited intact daily or when accumulated receipts exceed \$100.
- B. The City Clerk prepares checks and the City Clerk and Mayor both co-sign the checks. It appears check preparation and signing duties should be performed by the City Treasurer. Section 79.300, RSMo 1994, requires the City Treasurer to disburse the monies from the city treasury upon properly authorized warrants approved by the board of aldermen, signed by the Mayor, and attested to by the City Clerk.
- C. Checks issued by the city require two signatures, the Mayor and the City Clerk; however, these people are not bonded by the city. Failure to adequately bond city employees that handle monies exposes the city to the risk of loss.
- D. The City Clerk prepares monthly financial reports for board approval, which includes total disbursements made during the most recently completed month. The report also lists individual bills to be paid, but only those bills incurred from the beginning of the month up to the time of the board meeting (normally the second Thursday of the month). The bills or invoices that are paid subsequent to the board meeting until the end of the month are not reviewed or approved individually, but are included in the total disbursements on the next month's report.

Good business practices require all disbursements to be closely scrutinized by the board and properly authorized. Failure to properly review and approve all individual disbursements, including invoices and other supporting documentation, increases the possibility of inappropriate disbursements occurring.

E. The monthly financial reports prepared by the City Clerk do not include the activity of the city's savings account and certificates of deposit. At June 30, 2000, the city had \$1,456 in a savings account and \$2,613 in a certificate of deposit for the Garrison Fund and \$26,349 in certificates of deposit for the Combined Waterworks and Sewer Fund. To properly account for all city financial resources, the monthly reports of financial information presented to the Board of Aldermen each month should contain the financial activity of all city funds and bank accounts.

F. Our review of the controls over checks noted the following:

- 1) The City Clerk indicated that prior to April 1999, the former Mayor occasionally signed blank checks prior to preparation of the checks by the City Clerk. Upon the election of the current Mayor in April 1999, this practice of pre-signing checks was apparently ceased. The bank sometimes processed checks with only the signature of the City Clerk although dual signatures are required.

Good business practices dictate that blank checks should not be pre-signed but signed only after a proper review has been made of the required expenditure. All checks drawn on the city treasury should have the dual signatures as required by city policy.

- 2) Some voided checks were not properly marked as being void or properly defaced but were only stapled back to the check stub. Voided checks should be marked as void or properly defaced.

G. The City Clerk prepares a disbursement ledger for each fund detailing the information about each check written, and the City Clerk prepares a monthly financial report for the Board of Aldermen. However, neither the City Clerk or City Treasurer maintains a general ledger that shows monthly or periodic fund balances.

To ensure all receipts, disbursements, and fund balances are properly and accurately recorded, the city should maintain a general ledger for each fund.

H. Bank reconciliations are not prepared. There are no book or ledger balances to which the bank balances can be compared (as noted in Part G. above). The city has two outstanding checks from 1998 totaling \$187 that are still outstanding and no follow up action has been taken regarding these checks. Because reconciliations are not prepared, city officials were not aware that these checks were outstanding.

Bank reconciliations are necessary to ensure that the bank accounts properly reconcile with the accounting records and to detect errors on a timely basis.

**WE RECOMMEND** the Board of Aldermen:

- A.1. Require pre-numbered receipt slips be issued for all monies received, and the numerical sequence be accounted for properly.
- 2. Ensure the method of payment is recorded on the receipt slips or daily ledger and the composition of receipt slips issued is reconciled to bank deposits.
- 3. Ensure all receipts are deposited intact daily or when accumulated receipts exceed \$100.
- B. Require the City Treasurer to disburse monies from the city treasury in accordance with state law.
- C. Ensure all employees with access to city assets are appropriately bonded.
- D. Ensure each individual disbursement is listed on the monthly report for approval and review all invoices or supporting documentation.
- E. Require the monthly financial report presented to the board to include all funds and bank accounts held by the city.
- F.1. Ensure that blank checks are not pre-signed and include dual signatures as required by city policy.
- 2. Ensure all voided checks are properly defaced and retained.
- G. Ensure a general ledger is maintained for all city funds which includes all receipts, disbursements, and fund balances.
- H. Ensure monthly bank reconciliations are prepared for all bank accounts and documentation of the reconciliations is retained. The old outstanding checks should be investigated and resolved.

**AUDITEE'S RESPONSE**

A.1,B,  
E,&  
F.1. *We concur. These have already been implemented.*

A.2,3,  
C,D,  
F.2,  
&H. *We concur. These will be implemented immediately.*

- G. *We concur. We would like to computerize the accounting functions of the city and would like to put this in place within two months.*

|                                   |
|-----------------------------------|
| <b>9. Property Tax Procedures</b> |
|-----------------------------------|

- A. The Board of Aldermen has not held public hearings on the city's proposed tax rates. The board minutes for 1999 did not contain information concerning setting the tax levy or the holding of any public hearing. The minutes for 1998 indicate that the tax levy was set at a certain amount but did not indicate whether any public hearing was held before the levy was set.

Section 67.110, RSMo 1994, requires each governing body to hold at least one public hearing prior to approval of the proposed tax rates at which citizens may be heard. This section also provides guidance on what information is to be included at the public hearing.

- B. The City Collector prepares the city's property tax books and receives \$150 in compensation for these duties. Section 94.290, RSMo 1994, and Section 16.050 of the city code require the City Clerk to extend the city's tax books and charge the City Collector with the amount of the tax books.

To ensure compliance with state law and to ensure proper control over property tax charges and collections, the City Clerk should prepare the property tax books or review and verify the tax books, and charge the City Collector with the total property taxes to be collected.

- C. The City Collector does not prepare annual reports to the Board of Aldermen of charges, collections, and amounts uncollected as required by state law. Also, the City Collector is not preparing a list of delinquent taxes to present to the Board of Aldermen in April of the subsequent year as required by state law.

Section 79.310, RSMo 1994, requires the City Collector to prepare annual reports to the Board of Aldermen of collections and amounts uncollected. Section 94.320, RSMo 1994, requires the City Collector to prepare lists of delinquent taxpayers and amounts to be collected and present the list in April of each year to the Board of Aldermen.

- D. The city does not adequately pursue collection of delinquent property taxes. The city has delinquent tax bills totaling \$1,565 as of June 20, 2000, which have not been pursued or collected.

To help ensure prompt collection of property taxes, the city should establish formal procedures regarding the collection of delinquent property tax bills. Consideration should be given on sending delinquent tax notices or turning

delinquent tax bills over to the County Collector for advertisement and sale of the real estate as provided under Chapter 140, RSMo 1994.

**WE RECOMMEND** the Board of Aldermen:

- A. Hold public hearings on setting the annual tax levy as required by state law and record this information in the board minutes.
- B. Require the City Clerk to prepare the tax books as required by state law and city ordinance, or ensure the City Clerk reviews the tax books and charges the City Collector with the total taxes to be collected.
- C. Require the City Collector to file an annual report of the charges, collections, and amounts uncollected for property taxes as required by state law. The City Collector should also file a delinquent list of all amounts unpaid with the board in April of each year as required by state law.
- D. Ensure formal collection procedures related to delinquent property tax bills are established and that delinquent accounts are pursued on a timely basis.

**AUDITEE'S RESPONSE**

*A&C. We concur. These will be implemented immediately.*

*B. We concur. We will determine the feasibility of having city property taxes collected by the Adair County Collector. We would like to put this in place for the collection of 2001 taxes.*

*D. We concur. We will follow up on the collection of back taxes upon completion of the listing to be prepared by the City Collector.*

|   |
|---|
| <b>10. Banking Depositary Agreement and Proposals</b> |
|---|

The city does not have a written agreement with its current depositary bank as authorized by Section 95.355, RSMo 1994. A written depositary contract helps both the bank and the city understand and comply with the requirements of any banking arrangement. In addition, the city has not periodically solicited proposals from various banking institutions for the deposit of city monies. Section 16.010 of the city code provides for a review of the depositary banks on a periodic basis. The city currently pays for service charges (such as check printing, stop payments, and returned checks) which are not normally incurred by governmental entities, so it appears the city may save on banking costs if banking proposals were solicited.

The contract's provisions should include, but not be limited to, collateral security requirements; any bank fees for check printing, checking account services, and safe

deposit boxes; interest charges on any borrowed funds; and interest rates for invested funds. A periodic evaluation of proposals from various banking institutions would provide the board with current opportunities for making sound banking decisions.

**WE RECOMMEND** the Board of Aldermen enter into a written agreement with its depositary bank. In addition, the Board of Aldermen should consider soliciting proposals from various banking institutions on a periodic basis.

### **AUDITEE'S RESPONSE**

*We concur. We will seek bids on all banking services for fiscal year 2001/2002. In addition, bids will be solicited for all certificates of deposit when they come due.*

|                                   |
|-----------------------------------|
| <b>11. Access to City Records</b> |
|-----------------------------------|

- A. The city does not have a formal policy regarding public access to city records. A formal policy regarding access to and obtaining copies of city records would establish guidelines for the city to make the records available to the public. This policy should establish a person to contact and an address to mail requests for access to records and should establish a cost for providing copies of public records.

Section 610.023, RSMo Cumulative Supp. 1999, lists requirements for making city records available to the public, and Section 610.026, RSMo Cumulative Supp. 1999, allows the city to charge fees for copying public records, but the fees shall not exceed the city's actual cost of document search and duplication.

- B. Some city officials do not have regular working hours at the city hall and perform city work at their home. Some city records are maintained at the residences of these city officials and are not kept at city hall. In addition, it appears that city records located at city hall are not always filed in an orderly manner, and city officials were not able to readily locate certain records at our request.

In April 1999, the Mayor requested in writing for the City Clerk to furnish certain city records for her review. City Ordinance 13.510 and Section 79.350, RSMo 1994, allows the Mayor and Board of Aldermen to inspect city records as often as deemed necessary. However, the City Clerk did not respond to the Mayor's request.

City records should be properly maintained where access is available for proper review of the records by the Mayor and Board of Aldermen or by the public if applicable requests are made.

**WE RECOMMEND** the Board of Aldermen:

- A. Establish written policies and procedures regarding public access to city records.
- B. Ensure all city records are maintained at city hall in a manner in which they can be readily located, and that requests to review records are complied with in accordance with city ordinance and state law.

**AUDITEE'S RESPONSE**

- A. *We concur. We will attempt to pass an ordinance within two months.*
- B. *We concur. This will be a lengthy process but will try to have all records within easy access within the next six months.*

|                          |
|--------------------------|
| <b>12. City Property</b> |
|--------------------------|

- A. The city has not established records to account for city-owned property. Property records are necessary to ensure better internal controls over assets and provide a basis for determining insurance coverage.

The city should establish detailed property records. All property items (including land) should be recorded at historical cost or estimated historical cost, if historical cost is not available. The records should be maintained on a perpetual basis, accounting for fixed asset acquisitions and dispositions as they occur. In addition, all items should be identified as city property with a tag or similar device.

- B. The city sold a patrol car in September 1998 without advertising the sale of the car or soliciting bids. The car was sold to the son of the City Marshal for \$600.

City officials indicated the city put a "For Sale" sign on the car for a period of time; however, the city determined the initial asking price was too high after two automobile dealers looked at the car. The board minutes included a motion to sell the old car for \$600, but the minutes did not indicate that the car was sold to the City Marshal's son, and there is no other documentation of how the initial asking price or final sale price were determined and why bids were not solicited.

To ensure the city receives the fair value for the sale of city-owned property and that city residents have proper opportunity to bid on the property, bids should be solicited for all sales of major city property and documentation should be retained of all decisions made.

- C. The city has one pickup truck, which is driven by the water/sewer and street employees, and one police car, which is driven by the City Marshal. In addition

to vehicles, the city also owns equipment including a backhoe. Daily usage and maintenance logs are not maintained for the city vehicles or equipment.

Logs should be maintained indicating the employee using the vehicle or equipment, the purpose and destination of the trip, the beginning and ending odometer readings, and the operation and maintenance costs. The logs should be reviewed by the board to help ensure there is no inappropriate personal use of the city's vehicles or equipment, verify the propriety of fuel and/or repair billings, and identify the need to replace the vehicle or equipment due to excessive maintenance costs.

**WE RECOMMEND** the Board of Aldermen:

- A. Ensure complete and detailed property records are established that account for all property items of the city. These records should be updated for any property additions or dispositions as they occur, and all items should be tagged or otherwise identified as city property. In addition, physical inventories of all city-owned property should be performed periodically to ensure that all assets are accounted for properly.
- B. Advertise the sale of city-owned property and document all bids received and decisions made.
- C. Require daily usage and maintenance logs be maintained for the city vehicles and equipment, and perform a periodic review of the logs.

**AUDITEE'S RESPONSE**

A. *We concur. Some property listings have been compiled but others are needed to bring the listing up-to-date. This will take a few months to complete. We will attempt to implement a tagging procedure within the next six months.*

B&C. *We concur. These will be implemented immediately.*

|                                 |
|---------------------------------|
| <b>13. City Traffic Tickets</b> |
|---------------------------------|

The City Marshal issues traffic tickets which are sent through the City Attorney to the Associate Circuit Division at the Adair County courthouse. The Associate Circuit Division remits monthly to the city the fines and police training fees collected along with a computer printout of the disposition of the tickets. Our review noted the City Marshal does not issue traffic tickets in numerical sequence. In addition, the city does not maintain a log or other record to account for each ticket issued and the ultimate disposition.

To ensure all tickets have been accounted for properly, a log noting the ticket number, date issued, offense, defendant's name, and disposition of the ticket should be maintained.

**WE RECOMMEND** the Board of Aldermen require the City Marshal to issue traffic tickets in numerical sequence and maintain a log of each ticket issued and its ultimate disposition.

**AUDITEE'S RESPONSE**

*We concur. This will be implemented immediately.*

This report is intended for the information of the city's management and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

VILLAGE OF MIRAMIGUOA PARK, MISSOURI

YEAR ENDED AUGUST 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-83  
August 30, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

August 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**Some problems were discovered as a result of an audit conducted by our office in response to the request of petitioners from the Village of Miramiguo Park, Missouri.**

-----  
The village bills each resident annually for the various village assessments. These assessments were originally started prior to the incorporation of the village, when it was a private subdivision. As many as seven different assessments may be included on the billing depending on whether the resident is a homeowner who lives in the village full-time, a homeowner who lives in the village part-time, a lot owner only, or a resident that does not have a paved roadway leading to his/her lot. The monies collected from these assessments are used to repay a 1995 road loan, make road and water system repairs and perform upkeep, pay for trash hauling and grass cutting, pay village operating expenses, and provide for a contingency.

The fees charged to residents for water, trash, and grass were established without a public vote, generate greater revenues than the annual expenditures incurred by the operations they were meant to fund and are not accounted for separately from other operating assessments. The village has no statutory authority to assess the road and surtax assessments.

In November 1995, prior to the incorporation of the village in 1997, the private subdivision of Miramiguo Park entered into a loan agreement for the paving of the roads. The subdivision borrowed \$38,232 at an interest rate of eight percent to pay for the service. Annual payments were made each November with the principal of the note originally due by December 1, 2000. In April 2000, the loan was extended to December 1, 2001. The subdivision/village has made \$25,127 in principal payments as of November 1999. The note does not contain any provisions for the village to cancel the agreement due to lack of appropriations or any other reasons. Without this type of option, the village appears to have inherited a long term debt arrangement.

This agreement appears to violate the intent of the Missouri Constitution on legal indebtedness absent a vote of the village residents.

The village's budgets were not properly prepared and formally approved as required by state law. Semi-annual financial statements were not published or posted prior to 2000, and the annual financial reports submitted to the State Auditor's office were not accurate. Some meetings of the board were not open to the public and board minutes are not signed by either the Village Clerk or Village Chairman.

(over)

YELLOW SHEET

The village does not have a formal bidding policy. Based on discussions with village officials, it appears bids are generally solicited for purchases of goods or services; however, documentation of these bids is not adequate.

Formal bidding procedures for major purchases provide a framework for economical management of village resources and help ensure the village receives fair value by contracting with the lowest and best bidders. Competitive bidding also helps ensure all parties are given an equal opportunity to participate in the village's business. Complete documentation should be maintained of all bids received and reasons noted why the bid was selected.

Supporting documentation was not maintained for all disbursements made by the village. Various payments for grass cutting, postage, room rental, and other miscellaneous repairs had no invoice or other documentation to support the payments. In addition, other invoices were not adequately detailed to support the work performed.

The Village Clerk also serves as the Treasurer and Collector for the village resulting in duties which are not adequately segregated.

## STATE AUDITOR'S REPORT

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

To the Honorable Chairman  
and  
Board of Trustees  
Village of Miramiguoa Park  
Sullivan, Missouri 63080

The State Auditor was petitioned under Section 29.230, RSMo, to audit the village of Miramiguoa Park, Missouri. Our audit of the village included, but was not limited to, the year ended August 31, 1999. The objectives of this audit were to:

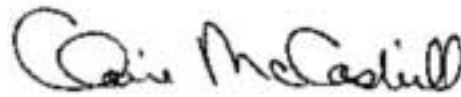

1. Perform procedures we deemed necessary to evaluate the petitioners' concerns.
2. Review compliance with certain constitutional provisions, statutes, ordinances, and attorney general's opinions as we deemed necessary or appropriate in the circumstances.
3. Review certain management practices which we believe could be improved.

Our audit was made in accordance with generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. We also reviewed board minutes, village policies and ordinances, and various village financial records.

Our audit was limited to the specific matter described above and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention which would have been included in this report.

The accompanying History and Organization is presented for informational purposes. This information was obtained from the village and was not subjected to the auditing procedures applied in the audit of the village.

The accompanying Management Advisory Report presents our findings and recommendations arising from our audit of the village of Miramiguo Park, Missouri.

A handwritten signature in black ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

May 12, 2000 (fieldwork completion date)

## HISTORY AND ORGANIZATION

## VILLAGE OF MIRAMIGUOA PARK, MISSOURI HISTORY AND ORGANIZATION

The village of Miramiguo Park was incorporated in 1997 and is located in Franklin County. The village currently consists of 62 homes, 48 are occupied by full-time residents and 14 are occupied by part-time residents. There are 67 other lots that have been purchased but not developed.

The village government consists of a five-member board of trustees. The board is elected for two-year terms. The chairman is appointed by the board from the members. The board members and chairman serve without compensation. The members of the village board of trustees and the village attorney at August 31, 1999, were:

| <u>Elected Officials</u>     | <u>Term Expires</u> |
|------------------------------|---------------------|
| C. Roy Whinery, Chairman     | April 2001          |
| Robert L. Breuer, Trustee    | April 2001          |
| Ethel Voelker, Trustee       | April 2000(1)       |
| Leonard G. Sagehorn, Trustee | April 2000(1)       |
| Thomas Armistead, Trustee    | April 2000(2)       |

Appointed Official  
Robert L. Davis, Attorney

- (1) Re-elected in April 2000. New term expires April 2002.
- (2) John D. Misemer was appointed to replace Mr. Armistead in March 2000. Mr. Misemer was re-elected in April 2000. His new term will expire April 2002.

Robert Breuer was appointed and served as Village Clerk and Treasurer for the year ended August 31, 1999. He received no compensation during the year. In November 1999, Ethel Voelker was appointed to replace Robert Breuer.

All trustees are insured against "public officials errors or omissions" in the amount of \$500,000 for each occurrence, subject to a \$500 deductible.

The village does not have a property tax levy. Assessed valuation information for 1999 is as follows:

### ASSESSED VALUATION

|                   |                          |
|-------------------|--------------------------|
| Real estate       | \$ 494,291               |
| Personal property | <u>103,575</u>           |
| Total             | <u><u>\$ 597,866</u></u> |

Instead, the village bills each home owner and/or lot owner various assessments as noted below:

| <u>Assessment (home owner)</u>       | <u>Purpose</u>                                  | <u>Amount Charged Annually</u>   |
|--------------------------------------|---|--|
| Special Blacktop                     | Repayment of road loan                          | \$40   |
| Roads                                | Repair and upkeep                               | \$0.40 per foot of improved road frontage (50' max)<br>\$0.20 per foot of unimproved road frontage |
| Water and Trash                      | Water improvements and upkeep and trash hauling | \$120 each (\$75 each for part-time resident)  |
| Surtax                               | Operating expenses and/or contingency           | \$10   |
|                                      |   |  |
| <u>Assessment (vacant lot owner)</u> | <u>Purpose</u>                                  | <u>Amount Charged</u>  |
| Special Blacktop *                   | Repayment of road loan                          | \$20   |
| Roads                                | Repair and upkeep                               | \$0.20 per foot of road frontage   |
| Surtax                               | Operating expenses and/or contingency           | \$10   |

\* A special blacktop assessment is not charged when all roads surrounding the lot are gravel.

In addition, lot owners can have their grass mowed up to three times a year for an additional charge based on the size of their lot and the number of times it is mowed.

A summary of the financial activity of the village of Miramigoua Park for the year ended August 31, 1999, is presented below:

RECEIPTS

|                |               |
|----------------|---------------|
| Assessments    | \$ 24,426     |
| Interest       | 786           |
| Total Receipts | <u>25,212</u> |

DISBURSEMENTS

|   |               |
|---|---------------|
| Repayment of road loan                            | 8,500         |
| Road repairs and upkeep                           | 4,700         |
| Trash/tire disposal                               | 3,460         |
| Grass cutting                                     | 1,525         |

## MANAGEMENT ADVISORY REPORT

VILLAGE OF MIRAMIGUOA PARK, MISSOURI  
SUMMARY OF FINDINGS

1. Village Assessments (pages 10-11)

The fees charged to residents for water, trash, and grass were established without a public vote, generate greater revenues than the annual expenditures incurred by the operations they were meant to fund, and are not accounted for separately from other operating assessments. The village has no statutory authority to assess the road and surtax assessments.

2. Long Term Debt (pages 11-12)

Upon incorporation, the village appears to have inherited a long term debt arrangement which is prohibited by the Missouri Constitution.

3. Village Ordinances (page 12)

Village ordinances do not include various policies and are not always kept current.

4. Budgets, Financial Reports, Meetings, and Minutes (pages 13-15)

The village's budgets were not properly prepared and formally approved as required by state law. Semi-annual financial statements were not published or posted prior to 2000, and the annual financial reports submitted to the State Auditor's office were not accurate. Some meetings of the board were not open to the public and board minutes are not signed by either the Village Clerk or Village Chairman.

5. Accounting Controls and Procedures (page 15)

The Village Clerk also serves as the Treasurer and Collector for the village resulting in duties which are not adequately segregated.

6. Expenditures (pages 16-17)

The village does not have a formal bidding policy. Adequate documentation was not always maintained to fully support some expenditures. The village does not have a formal written agreement with the Village Attorney. Board minutes do not identify the disbursements approved by the board at its regular meetings.

VILLAGE OF MIRAMIGUOA PARK, MISSOURI  
MANAGEMENT ADVISORY

|           |                            |
|-----------|----------------------------|
| <b>1.</b> | <b>Village Assessments</b> |
|-----------|----------------------------|

The village bills each resident annually for the various village assessments. These assessments were originally started prior to the incorporation of the village, when it was a private subdivision. As many as seven different assessments may be included on the billing depending on whether the resident is a homeowner who lives in the village fulltime, a homeowner who lives in the village part-time, a lot owner only, or a resident that does not have a paved roadway leading to his/her lot. The monies collected from these assessments are used to repay a 1995 road loan, make road and water system repairs and perform upkeep, pay for trash hauling and grass cutting, pay village operating expenses, and provide for a contingency. We noted the following concerns during our review of the various assessments:

- A. Because the village has not adopted ordinances clearly defining each assessment, see MAR No. 3, it is unclear as to whether the water, trash, and grass assessments are a tax or a user fee. In addition, revenues generated by the water, trash, and grass assessments far exceed the village's annual expenses related to the assessments and are not accounted for separately from assessments for general operations.

The Missouri Supreme Court, in its decision in *Beatty v. Metropolitan St. Louis Sewer District*, 867 S.W. 2d 217 (Mo. banc 1993) applied a five-pronged analysis to determine whether a governmental charge was a tax, thus requiring a public vote, or user fee which could be revised without a vote. This court case also indicated that if the analysis did not clearly indicate the charge is a user fee, the issue should be put to a vote.

Because this matter has been a concern of some citizens, the village should request that its attorney review these fees to determine whether they are or can be structured as user fees, or whether they should be put to a public vote. If this matter is not resolved by clear legal authority or an election, the village might need to consider ending these municipal services and require the village's residents to contract privately.

The village should separately account for these different activities. A General Fund should be used to account for the general activities of the village and other operations should be accounted for separately to ensure that charges do not exceed the costs of providing the services.

- B. The village has no statutory authority to assess the road and surtax assessments. Expenses these revenues are to cover would normally be supported by a village property tax. Section 80.460, RSMo, authorizes the village to levy a property tax

for general municipal purposes not to exceed fifty cents on one hundred dollars of assessed valuation. Upon voter approval, an additional levy up to thirty cents may be assessed for a period not to exceed four years at any one time. In addition, the village is not receiving state road monies as authorized in Article IV, Section 30, of the Missouri Constitution. The village also has not passed an ordinance to collect franchise taxes from various utilities operating in the city. Such additional revenues could help the village provide services to its residents.

**WE RECOMMEND** the Board of Trustees request the Village Attorney to review the present assessments and determine whether they are or can be structured as a user fee, or if they should be put to public vote. Also, the board should ensure all assessments comply with state law, do not generate excessive revenues, and should account for operations other than general activities separately. The Board should also discontinue the assessment of the road and surtax assessments and consider levying village property taxes as allowed by Section 80.460, RSMo. The Board should investigate obtaining state road monies and utility franchise taxes.

### **AUDITEE'S RESPONSE**

*The village board has already requested the village attorney to review the assessments. We will consider getting voter approval and passing ordinances to establish the water, trash, and grass cutting assessments as user fees and maintain separate accountings for these monies. We have appointed a citizens committee to review the water rates. We are investigating other possible sources of revenues and taxes to finance the operations of the village. We expect to implement the recommendations during the village's fiscal year ending August 31, 2001.*

|                          |
|--------------------------|
| <b>2. Long Term Debt</b> |
|--------------------------|

In November 1995, prior to the incorporation of the village in 1997, the private subdivision of Miramiguoa Park entered into a loan agreement for the paving of the roads. The subdivision borrowed \$38,232 at an interest rate of eight percent to pay for the service. Annual payments were made each November with the principal of the note originally due by December 1, 2000. In April 2000, the loan was extended to December 1, 2001. The subdivision/village has made \$25,127 in principal payments as of November 1999. The note does not contain any provisions for the village to cancel the agreement due to lack of appropriations or any other reasons. Without this type of option, the village appears to have inherited a long term debt arrangement.

This agreement appears to violate the intent of the Missouri Constitution on legal indebtedness absent a vote of the village residents. Article VI, Section 26(a) of the Missouri Constitution states no village shall become indebted in an amount exceeding in any year the income and revenue provided for such a year. Article VI, Section 26(c) of the Missouri Constitution allows villages to incur debt by bond issue, but only after approval of two-thirds of the qualified electors voting thereon.

Prior to incorporation, the board should have addressed this issue and made arrangements to pay off or restructure the note.

**WE RECOMMEND** the Board of Trustees comply with the Missouri Constitution and obtain voter approval before incurring any debt or ensure debt agreements have annual renewal clauses.

### **AUDITEE'S RESPONSE**

*We were not aware that we had violated the intent of the Missouri Constitution regarding our loan for road improvements. We have arrangements for a loan to replace our water storage tank which does have the annual renewal clause. We will talk to our bank in the next month and try to find a workable solution regarding the loan for road improvements.*

|                              |
|------------------------------|
| <b>3. Village Ordinances</b> |
|------------------------------|

The village has not adopted ordinances to address the billing, collection, or assessing of delinquent penalties for the various village assessments noted in MAR No.1 or the \$10 fee that is charged by the village for a copy of the village ordinance book. In addition, Village Ordinance, Section 110.040 appears to be outdated. This ordinance provides for monthly meetings of the Board of Trustees on the third Tuesday of every month; however, it appears the Board of Trustees is currently meeting every other month.

Since the ordinances represent the legislation passed by the Board of Trustees to govern the village and its residents, it is important that the village's ordinances be maintained in a complete, well-organized, and up-to-date manner. An index of all ordinances passed and repealed by the city could help keep track of additions and changes made to the village ordinances.

**WE RECOMMEND** the Board of Trustees update the village's ordinances and ensure a complete set of ordinances is maintained. In addition, the board should pass ordinances to address the charges for the various assessments and for the ordinance book.

### **AUDITEE'S RESPONSE**

*All ordinances are currently being reviewed. We plan to comply with this recommendation within the next two months.*

**4.****Budgets, Financial Reports, Meetings, and Minutes**

A. Our review of the village's budgets noted the following concerns:

- 1) The village did not formally approve the budgets for the years ending August 31, 2000, 1999, and 1998, respectively. There was no indication in the minutes that the budgets prepared by the Village Treasurer were accepted or approved by the Board of Trustees. Section 67.080, RSMo, provides that no disbursement of public monies shall be made unless it is authorized in the budget.
- 2) The village's budgets do not include actual receipts and disbursements for the two previous years. In addition, the budgets do not include actual and estimated cash and resources available at the beginning and end of the year or a budget message.

Section 67.010, RSMo, sets specific guidelines for the format, of the annual operating budget. A complete budget for each fund should be prepared, and include the beginning available resources and reasonable estimates of the ending available resources. The budget should also include a budget message and comparisons of actual receipts and disbursements for the two preceding fiscal years.

- 3) Actual disbursements exceeded budgeted disbursements in 1999 by \$2,292. Section 67.040, RSMo, indicates a political subdivision shall not increase the total amount authorized for disbursement from any fund, unless the governing body adopts a resolution documenting the reasons making the increase necessary and approves or adopts a resolution or ordinance to authorize the disbursements.

A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific cost and revenue expectations for each area of the village operations and provide a means to effectively monitor actual costs and revenues. It will also assist in informing the public about the village's operations and current finances.

B. Semiannual financial statements were not published or posted in 1999, 1998, or 1997, as required by law. A semiannual financial statement was published for the period ending February 16, 2000. Section 80.210, RSMo, provides that the board of trustees is to prepare a correct statement of all monies received and expended on behalf of the village for the preceding six months and publish the financial statement in a local newspaper or post the statement in six public places within the village.

- C. The annual financial reports submitted by the village to the State Auditor's office as required by Section 105.145, RSMo, do not accurately reflect the balances and financial activity of the village. Receipts and disbursements listed by type were not complete and the cash balance noted for the village's checking account did not agree to the Village Treasurer's records. In addition, the 1999 report was not prepared based on the village's fiscal year as it was submitted for the twelve month period ending June 30, 1999.

The board should ensure the annual financial reports required pursuant to Section 105.145, RSMo, accurately reflect the financial activity and balances of the village and are prepared based on the village's fiscal year ending August 31.

- D. During the year ended August 31, 1999, the board had regular monthly meetings. In addition, when the board deemed it necessary a "special" meeting would be held to discuss additional village business. The regular monthly meetings were public and all village residents were properly informed; however, the "special" meetings were for board members only. All board meetings should be open to the public unless specifically closed as allowed by statute. In addition, Section 610.020, RSMo, requires notices (including tentative agendas) to be posted in a prominent place which is easily accessible to the public, to be given at least twenty-four hours in advance, or if not feasible, reasons are to be documented in the board minutes.
- E. Board minutes are not signed by either the Village Clerk or the Chairman. The board minutes should be signed by the Village Clerk and Chairman upon approval to provide an independent attestation that the minutes are a correct record of the matters discussed and actions taken during the board meetings.

**WE RECOMMEND** the Board of Trustees:

- A. Prepare complete and accurate annual budget documents that contain all information required by state law and/or necessary to provide a complete financial plan for the village. Any increases in disbursements should be approved by ordinance.
- B. Continue to ensure semiannual financial statements are published or posted in accordance with state law.
- C. Ensure the annual financial reports prepared and submitted to the State Auditor's office pursuant to Section 105.145, RSMo, accurately reflect the financial activity and balances of the village and are prepared based on the village's fiscal year.
- D. Ensure all board meetings are open to the public, unless closed as allowed by statute, and ensure notices are posted in accordance with state law.
- E. Ensure all board minutes are properly signed, to attest to the accuracy.

### **AUDITEE'S RESPONSE**

- A. *A complete budget will be prepared for the year starting September 1, 2000.*
- B. *We will continue to post semiannual financial statements.*
- C. *We will file an annual report with the State Auditor's Office for the year ending August 31, 2000.*
- D. *We have already implemented this recommendation.*
- E. *We will ensure minutes are signed beginning at the next board meeting.*

|  |
|--|
| <b>5. Accounting Controls and Procedures</b> |
|--|

The Board of Trustees has not appointed separate individuals to serve as Village Collector or Village Treasurer. Presently, the Village Clerk also serves as both the Village Collector and the Village Treasurer. She collects receipts, maintains the village's financial records, makes bank deposits, co-signs checks, reconciles the bank account, and handles billings.

Attorney General's Opinion No. 24, 1955 to Dodds, concluded that in a fourth-class city the holding of the positions of City Clerk, City Treasurer, and City Collector, or any two of these three offices, by the same person at the same time would be incompatible. The statutes pertaining to villages are similar to those cited in this opinion, therefore, the opinion's conclusion appears applicable to villages also.

Holding all three of these offices does not allow the segregation of duties necessary for a proper evaluation and review of financial transactions. The current procedures jeopardize the system of independent checks and balances intended by state law.

**WE RECOMMEND** the Board of Trustees consider appointing separate individuals to the positions of Village Clerk, Village Collector, and Village Treasurer. If this is not possible, at a minimum, procedures for an adequate independent review of the record keeping functions should be established.

### **AUDITEE'S RESPONSE**

*We will begin performing monthly independent reviews of the village clerk's records this month.*

**6.****Expenditures**

- A. The village does not have a formal bidding policy. Based on discussions with village officials, it appears bids are generally solicited for purchases of goods or services; however, documentation of these bids is not adequate. The following expenditures were incurred from September 1, 1998, to March 15, 2000, for which bid documentation was not adequate:

| <u>Item</u>   | <u>Cost</u> |
|---------------|-------------|
| Trash hauling | \$5,282     |
| Road repair   | 4,700       |
| Insurance     | 1,192       |
| Grass cutting | 1,050       |

Formal bidding procedures for major purchases provide a framework for economical management of village resources and help ensure the village receives fair value by contracting with the lowest and best bidders. Competitive bidding also helps ensure all parties are given an equal opportunity to participate in the village's business. Complete documentation should be maintained of all bids received and reasons noted why the bid was selected.

Bids can be handled by telephone quotation, by written quotation, or advertised sealed bid. Various approaches are appropriate, based on dollar amount and type of purchase. Whichever approach is used, complete documentation should be maintained of all bids received and reasons noted why the bid was selected.

- B. Supporting documentation was not maintained for all disbursements made by the village. Various payments for grass cutting, postage, room rental, and other miscellaneous repairs had no invoice or other documentation to support the payments. In addition, other invoices were not adequately detailed to support the work performed.

All disbursements should be supported by paid receipts and/or complete vendor-provided invoices to ensure the obligation was actually incurred and the disbursement represents an appropriate use of public funds. The village should require detailed invoices for all services which include the number of hours worked by day, the work performed, and the hourly rate charged.

- C. The village has not entered into a written contract with their attorney. Currently, the attorney is paid 15 percent of all delinquent assessments he collects. In addition, in October 1999 he was paid a \$500 retainer and bills \$135 per hour for other work performed for the village.

Section 432.070, RSMo, requires contracts of political subdivisions be in writing. The village should enter into written contracts for services rendered or obtained.

A written contract, signed by the parties involved, should specify the services to be rendered and the manner and amount of compensation to be paid. Written contracts are necessary to ensure all parties are aware of their duties and responsibilities and to provide protection to both parties.

- D. The board of trustees does not document its approval of bills. According to village officials, the board has given verbal approval to the Village Clerk to pay routine bills such as utility and trash hauling bills. The board has not documented its standing approval of these routine bills. The board also has no documentation of approving other non-routine bills including grass cutting and road repair. The board should include a list of approved bills in the board's minutes. By signing the minutes, the board would also document its approval of the list of bills for payment.

**WE RECOMMEND** the Board of Trustees:

- A. Establish a formal bidding policy regarding the procurement of goods and services. Such a policy should require that competitive bids are solicited through advertising for any purchases over an established amount and that bids be solicited for any purchases over a lesser amount. In addition, documentation of the bidding process should be maintained in all cases.
- B. Ensure all disbursements are supported by paid receipts and/or vendor-provided invoices which contain an adequate description of the goods or services received.
- C. Ensure formal written contracts are entered into for any services obtained by the village.
- D. Document its review and approval of bills by signing, or designating a board member to sign, the official copy of the minutes which includes the list of bills maintained by the Village Clerk.

**AUDITEE'S RESPONSE**

- A. *We will establish a bid policy within the next three months.*
- B. *We have already implemented this recommendation.*
- C. *We will obtain written contracts for all services starting now.*
- D. *We will begin documenting this review at the next board meeting.*

This report is intended for the information of the management of the village of Miramiguoa Park and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

GENTRY COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-82  
August 29, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

August 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Gentry, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of Gentry County included additional areas of county operations, as well as the elected county officials. The following concerns were noted as part of the audit:

- The county does not have procedures in place to track federal financial assistance for the preparation of the Schedule of expenditures of federal awards. The county's schedule contained numerous errors and omissions. Without an accurate schedule of expenditures of federal awards, federal financial activity may not be audited and reported in accordance with federal requirements which could result in future reductions of federal funds.
- During 1999, the county completed a federal bridge project and obtained additional funding (called soft-match credits) from the Missouri Department of Transportation for part of the county's 20 percent share of project costs. The county had not established procedures to ensure the Missouri Department of Transportation's bridge project credit records were in agreement with the county's records and as a result failed to detect a \$19,875 error in unused credits. To ensure all federal bridge project credits are accounted for properly, the county should periodically reconcile its records to the Missouri Department of Transportation's records and investigate any discrepancies.
- The audit noted two instances in which the county may not have complied with the Fair Labor Standards Act. The county is required under the Fair Labor Standards Act to account for and pay overtime or allow compensatory time off for any hours worked over the Act's limit for all non-exempt employees.

(over)

YELLOW SHEET

- County employees participating in the county's cafeteria plan have the option to participate in the medical reimbursement program to cover certain medical expenses not covered by their insurance. One employee was reimbursed \$1,500 from the Medical Reimbursement Fund; however, his monthly contributions pledged were not withheld from his paychecks during the year ending February 28, 2000. The county had no procedures in place to reconcile plan contributions pledged to receipts of the fund.

Also included in the audit are recommendations to improve the county's budgetary procedures, general fixed asset records, and vehicle and mileage records. The audit also suggested improvements be made to the Tri-County Health Center's records and procedures and that various bond coverage be reviewed. Several of these issues have been noted in prior audits.

**Copies of the audit are available upon request.**

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Gentry County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Gentry County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Gentry County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Gentry County.

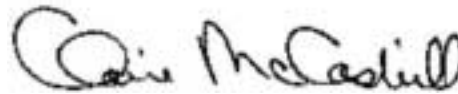

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Gentry County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated May 18, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the management of Gentry County, Missouri, and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

Claire McCaskill  
State Auditor

May 18, 2000 (fieldwork completion date)

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Gentry County, Missouri

We have audited the special-purpose financial statements of various funds of Gentry County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 18, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

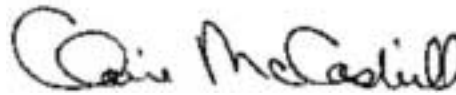

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Gentry County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance which are described in the accompanying Management Advisory Report.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Gentry County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material

weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting which are described in the accompanying Management Advisory Report.

This report is intended for the information of the management of Gentry County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" and last name "McCaskill" clearly distinguishable.

Claire McCaskill  
State Auditor

The accompanying Notes to the Financial Statements are an integral part of this statement.

## Notes to the Financial Statements

GENTRY COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Gentry County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, the Tri-County Health Center Board, or the Emergency Dispatch Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>                              | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Children's Trust Fund                    | 1998                            |
| Prosecuting Attorney Tax Collection Fund | 1998                            |
| POST Commission Fund                     | 1998                            |
| Circuit Clerk Interest Fund              | 1998                            |
| Recorder User Fee Fund                   | 1999 and 1998                   |
| Local Law Enforcement Block Grant Fund   | 1999                            |
| Emergency Fund                           | 1999                            |
| Community Development Block Grant Fund   | 1999 and 1998                   |
| Associate Circuit Division Interest Fund | 1999 and 1998                   |
| Law Library Fund                         | 1999 and 1998                   |

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>                        | <u>Years Ended December 31,</u> |
|------------------------------------|---------------------------------|
| General Revenue Fund               | 1998                            |
| Assessment Fund                    | 1998                            |
| Law Enforcement Training Fund      | 1998                            |
| Prosecuting Attorney Training Fund | 1999                            |
| Circuit Clerk Interest Fund        | 1999                            |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statements did not include the following funds:

| <u>Fund</u>                              | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Children's Trust Fund                    | 1998                            |
| Prosecuting Attorney Tax Collection Fund | 1998                            |
| POST Commission Fund                     | 1998                            |
| Circuit Clerk Interest Fund              | 1999 and 1998                   |
| Tri-County Health Center Fund            | 1998                            |
| Emergency Dispatch Fund                  | 1999 and 1998                   |
| Recorder User Fee Fund                   | 1999 and 1998                   |
| Local Law Enforcement Block Grant Fund   | 1999                            |
| Emergency Fund                           | 1999                            |
| Community Development Block Grant Fund   | 1999 and 1998                   |
| Associate Circuit Division Interest Fund | 1999 and 1998                   |
| Law Library Fund                         | 1998                            |

2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The county's and Emergency Dispatch Board's deposits at December 31, 1999 and 1998, were entirely covered by federal depository insurance or by collateral securities held by the custodial banks in the county's and Emergency Dispatch Board's names.

Of the Tri-County Health Center Board's bank balance at December 31, 1999, \$100,000 was covered by federal depository insurance and \$151,169 was uninsured and uncollateralized. Of the Tri-County Health Center Board's bank balance at December 31, 1998, \$100,000 was covered by federal depository insurance and \$181,628 was uninsured and uncollateralized.

Furthermore, because of significantly higher bank balances at certain times during the year, the amounts of uninsured and uncollateralized balances for the Health Center Board were substantially higher at those times than such amounts at year-end.

To protect the safety of county deposits, Section 110.020, RSMo 1994, requires depositaries to pledge collateral securities to secure county deposits not insured by the Federal Deposit Insurance Corporation.

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

GENTRY COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Gentry County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Amounts for Donation of Federal Surplus Personal Property (CFDA number 39.003) represent the estimated fair market value of property at the time of receipt.

The direct program amounts for Immunization Grants (CFDA number 93.268) represent the original acquisition cost of varicella (chicken pox) vaccine provided to the Health Center through the Centers for Disease Control of the U.S. Department of Health and Human Services. Of the pass-through amounts for that program, \$26,389 and \$24,229 represent the original acquisition cost of other vaccines purchased by the Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), \$314 and \$629 represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$1,571 and \$2,203 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants, the Preventive Health and Health Services Block Grant, and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

2. Subrecipients

The county provided no federal awards to subrecipients during the years ended December 31, 1999 and 1998.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Gentry County, Missouri

Compliance

We have audited the compliance of Gentry County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the years ended December 31, 1999 and 1998. The county's major federal program is identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal program is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

In our opinion, Gentry County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the years ended December 31, 1999 and 1998. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance with

OMB Circular A-133 and which is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

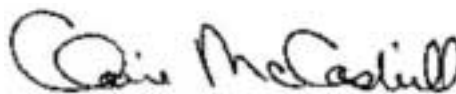

### Internal Control Over Compliance

The management of Gentry County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted a certain matter involving the internal control over compliance and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the county's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. The reportable condition is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we do not believe that the reportable condition described above is a material weakness.

This report is intended for the information of the management of Gentry County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

Claire McCaskill  
State Auditor

| Questioned Costs:     | Not applicable                              |

Section .310(b) of Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, requires the auditee to prepare a schedule of expenditures of federal awards (SEFA) for the period covered by the auditee's financial statements. The county is required to submit the schedule of expenditures of federal awards to the State Auditor's Office as a part of the annual budget.

The county does not have procedures in place to track federal financial assistance for the preparation of the SEFA. The county's SEFA contained numerous errors and omissions. For example, some 1998 expenditures from the community policing grant were recorded on the 1999 schedule, and some federal bridge project expenditures were omitted from the schedule. In addition, several non-federal grants were erroneously recorded on the schedules.

Without an accurate SEFA, federal financial activity may not be audited and reported in accordance with federal requirements which could result in future reductions of federal funds.

**WE RECOMMEND** the County Clerk prepare complete and accurate schedules of expenditures of federal awards.

## **AUDITEE'S RESPONSE AND PLAN FOR CORRECTIVE ACTION**

*We will do our best to prepare a complete and accurate schedule for the year ending December 31, 2000, and for subsequent years.*

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

GENTRY COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior audit report issued for the three years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

GENTRY COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

Our prior audit report issued for the three years ended December 31, 1997, included no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Findings

GENTRY COUNTY, MISSOURI  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S FINDINGS

We have audited the special-purpose financial statements of various funds of Gentry County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 18, 2000. We also have audited the compliance of Gentry County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 18, 2000.

We also have reviewed the operations of elected officials with funds other than those presented in the special-purpose financial statements. As applicable, the objectives of this review were to:

1. Determine the internal controls established over the transactions of the various county officials.
2. Review and evaluate certain other management practices for efficiency and effectiveness.
3. Review certain management practices and financial information for compliance with applicable constitutional, statutory, or contractual provisions.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed accounting and bank records and other pertinent documents and interviewed various personnel of the county officials.

As part of our review, we assessed the controls of the various county officials to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Our review was limited to the specific matters described in the preceding paragraphs and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our finding arising from our review of the elected county officials referred to above. In addition, this report includes findings other than those, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These findings resulted from our audit of the special-purpose financial statements of Gentry County and of its compliance with the types of compliance requirements applicable to its major federal program, but do not meet the criteria for inclusion in the written reports on compliance and on internal control over financial reporting or compliance that are required for audits performed in accordance with

|  |
|--|
| <b>1. Federal Bridge Project Credits</b> |
|--|

During 1999, the county completed a federal bridge project in conjunction with the Missouri Department of Transportation (MoDOT). The county obtained additional funding (called soft-match credits) for part of the county's 20 percent share of project costs. The MoDOT reimbursed the county for the \$47,491 of soft-match credits that were used for the project. However, the MoDOT's records indicated \$67,366 of soft-match credits had been paid and applied to the project. As a result, the MoDOT's records indicated that the county's balance of unused credits for future federal bridge projects was \$19,875 less than the actual balance. The error was not detected by the county, because the county has not established procedures to ensure the MoDOT's bridge project credit records are in agreement with the county's records. When we brought the error to the attention of the county, the county contacted the MoDOT which agreed to reinstate the credits.

To ensure all federal bridge project credits are accounted for properly, the county should periodically reconcile its records to the MoDOT's records and investigate any discrepancies.

**WE RECOMMEND** the County Commission periodically reconcile the county's bridge project credit records to the MoDOT's records and investigate any discrepancies.

**AUDITEE'S RESPONSE**

*This will be implemented immediately.*

|  |
|--|
| <b>2. Budgetary Practices and Published Financial Statements</b> |
|--|

- A. Formal budgets were not prepared or obtained for various county funds for the years ended December 31, 1999 and 1998.

Chapter 50, RSMo 1994, requires preparation of annual budgets for all county funds to present a complete financial plan for the ensuing year. By preparing or obtaining budgets for all county funds, the County Commission would be more able to effectively evaluate all county financial resources.

Similar conditions were noted in our two prior reports.

- B. The annual published financial statements of the county did not include the financial activity of some county funds as required. Section 50.800, RSMo 1994, provides that the financial statements are required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for all county funds. For the

published financial statements to adequately inform the citizens of the county's financial activities, all monies received and disbursed by the county should be included.

- C. The County Treasurer has not established a fund for the deposit of the Sheriff's civil fees pursuant to the provisions of Section 57.280.3, RSMo Cumulative Supp. 1999. These fees are to be held in a fund established by the County Treasurer and may be expended at the discretion of the Sheriff for the furtherance of the Sheriff's duties. Monies in the fund are to be used only for the procurement of services and equipment to support the operation of the Sheriff's office and any funds in excess of fifty thousand dollars in a calendar year, other than regular budget allocations or land sale proceeds, shall be placed in the county general revenue fund.

**WE RECOMMEND:**

- A. The County Commission ensure budgets are prepared or obtained for all county funds.
- B. The County Commission ensure financial information for all county funds is properly reported in the annual published financial statements.
- C. The County Treasurer establish a Sheriff's Civil Fees fund as required by state law, and work with the Sheriff's department to ensure that the proper fees are placed in this fund. In addition, the County Commission should require the Sheriff to submit an annual budget outlining his plans for this fund.

**AUDITEE'S RESPONSE**

*A&B. These will be implemented with the preparation of the budgets for the year ending December 31, 2001, and the published financial statements for the year ending December 31, 2000. Most funds have already been budgeted for the year ending December 31, 2000; however, it appears we will not be able to obtain budgets for the Associate Circuit Division Interest Fund.*

*C. This has already been implemented.*

|   |
|---|
| <b>3. Salary Payments, Personnel Policies, and Fringe Benefit Records</b> |
|---|

- A. The county salary commission met on November 14, 1995, and approved the following:

“Salaries shall be adjusted each year on the official's date of incumbency for any change in the last applicable decennial census or any change in the last completed assessment that would affect the maximum allowable compensation for that office.”

In 1998, the county's assessed valuation increased to \$55.3 million, which increased the statutory base rate for the County Assessor's salary. The county has apparently not considered this increase in the base rate when computing the annual salary of the County Assessor, whose date of incumbency is September 1.

The county should review this matter with the Prosecuting Attorney to ensure the County Assessor's compensation complies with the provisions of state law and the salary commission meeting.

- B. The timesheets prepared by the Sheriff's department jailer indicate that he normally worked more than eight hours per day and more than forty hours per week. It appears the jailer was not paid for extra hours worked or given compensatory time off. In addition, another Sheriff's department employee was paid only \$500 in October 1999, while his time sheet indicated he worked 171 hours.

The county is required under the Fair Labor Standards Act (FLSA) to account for and pay overtime or allow compensatory time off at the premium rate for any hours worked over the FLSA limit each month for all non-exempt employees. The county is also required under the FLSA to pay employees at least the minimum wage of \$5.15 per hour. The above noted instances may represent violations of the FLSA and the county should review these matters and, if necessary, consult with the U.S. Department of Labor.

Concerns regarding compliance with FLSA requirements were also noted in our prior report.

- C. County employees participating in the county's cafeteria plan have the option to participate in the medical reimbursement program to cover certain medical expenses not covered by their insurance. Contributions are determined by the employees prior to the beginning of the plan year, and are withheld from their monthly paychecks and deposited in the Medical Reimbursement Fund. Employees submit medical payment documentation to the County Clerk and receive reimbursement from the Medical Reimbursement Fund, up to the amount the employee pledged for the plan year ending February 28.

One employee was reimbursed \$1,500 from the Medical Reimbursement Fund; however, his monthly contributions pledged were not withheld from his paychecks during the year ending February 28, 2000. The county had no procedures in place to reconcile plan contributions pledged to receipts of the fund. The error was not detected by the County Clerk until after the plan year end when it was determined the Medical Reimbursement Fund balance was negative. The county is correcting the error by deducting the contributions from the employee's paychecks during the plan year ending February 28, 2001.

To help ensure medical reimbursement plan contribution errors will be detected and corrected on a timely basis, the County Clerk should reconcile contributions pledged to the receipts of the Medical Reimbursement Fund on a monthly basis.

**WE RECOMMEND:**

- A. The County Commission consult with the Prosecuting Attorney regarding the County Assessor's salary and ensure the salary is set in accordance with state law and the salary commission decisions.
- B. The County Commission review county payroll policies and ensure the county appropriately considers any policy changes needed along with FLSA requirements when handling employee payrolls. This policy review should include obtaining appropriate legal opinions and, if necessary, consultation with the U.S. Department of Labor.
- C. The County Clerk reconcile medical reimbursement plan contributions pledged to the receipts of the Medical Reimbursement Fund on a monthly basis.

**AUDITEE'S RESPONSE**

- A. *We have already discussed this matter with the Prosecuting Attorney and have requested his opinion. We hope to have this matter resolved by the end of this year.*
- B. *We have already met with the Sheriff and Prosecuting Attorney to address these matters and hope to have this resolved by the end of this year.*
- C. *This has already been implemented.*

|  |
|--|
| <b>4. Mileage, Fuel, and Vehicle Records</b> |
|--|

- A. Mileage reimbursement requests submitted by the Sheriff's deputies do not always include detailed information about the purpose of the trip and the destination, as required by Section 57.430, RSMo Cumulative Supp. 1999. To ensure mileage reimbursement requests are reasonable and represent valid expenditures, the County Commission should require the requests to be adequately detailed, including the purpose and destination of each trip.
- B. A vehicle usage log is not maintained for the Sheriff's county vehicle, and logs maintained for the eight Road and Bridge Department vehicles only indicate total miles driven during the month and total fuel and oil used during the month. Without adequate vehicle usage logs, the county cannot effectively determine that county-owned vehicles are used only for county business nor the reasonableness of the expenditures for fuel and maintenance. The logs should identify the vehicle operator,

dates of use, purpose of the trip, destination, miles driven, and the fuel and maintenance expenses incurred.

- C. The county maintains gasoline and diesel fuel in bulk tanks for use in county vehicles and equipment. Records are maintained to document the amount of fuel pumped into each vehicle and piece of equipment. A Road and Bridge Department employee indicated that he compared fuel usage to miles driven for each vehicle, but documentation of the comparisons was not retained and reviewed by the County Commission. The County Commission should periodically review the comparisons to analyze the effectiveness and cost efficiency of county owned vehicles and ensure the reconciliations are properly retained.

Conditions similar to parts A and B were noted in our prior report.

**WE RECOMMEND** the County Commission:

- A. Require the Sheriff's deputies to record detailed information as to actual mileage, destinations traveled, and purpose of official county business on mileage reimbursement requests.
- B. Require the Sheriff and Road and Bridge Department to maintain usage logs on all county vehicles which identify the vehicle operator, dates of use, miles driven, destination and purpose of trips, and the fuel and maintenance expenses incurred.
- C. Periodically review comparisons of fuel usage to miles driven for each county vehicle and ensure documentation of the comparisons is properly retained.

**AUDITEE'S RESPONSE**

- A. *We have purchased more vehicles for the Sheriff's department, so there will be few mileage reimbursement requests submitted in the future. We will discuss this matter with the Sheriff and attempt to implement this recommendation immediately.*
- B. *The Sheriff's department has already implemented this recommendation. We will discuss this matter with the Road and Bridge Foreman and implement this recommendation immediately.*
- C. *This will be implemented immediately.*

**5.****General Fixed Asset Records and Procedures**

The County Commission or its designee is responsible for maintaining a complete detailed record of county property. A review of the county's general fixed asset records and procedures determined that additions and deletions of general fixed assets are recorded annually and additions are not reconciled to general fixed asset purchases. In addition, property tags are placed upon fixed asset purchases annually instead of immediately, and annual inventories are not performed.

Property tags should be placed upon general fixed asset items immediately upon receipt, and additions and deletions of general fixed asset items should be recorded as they occur and reconciled to purchases annually, to help improve accountability for general fixed assets, to help ensure that assets are not lost or stolen, and to ensure the general fixed asset records are complete and accurate. Complete and accurate general fixed asset records are necessary to secure better internal control over county property, meet statutory requirements, and provide a basis for determining proper insurance coverage required on county property. Physical inventories of county property are necessary to ensure the fixed asset records are accurate, identify any unrecorded additions and deletions, detect theft of assets, and identify obsolete assets.

Effective August 28, 1999, Section 49.093, RSMo Cumulative Supp. 1999, provides the county officer of each county department shall annually inspect and inventory county property used by that department with an individual original value of \$250 or more and any property with an aggregate original value of \$1,000 or more. After the first inventory is taken, an explanation of material changes shall be attached to subsequent inventories. All remaining property not inventoried by a particular department shall be inventoried by the county clerk. The reports required by this section shall be signed by the county clerk.

**WE RECOMMEND** the County Commission establish a written policy related to the handling and accounting for general fixed assets. In addition to providing guidance on accounting and record keeping, the policy could include necessary definitions, address important dates, establish standardized forms and reports to be used, discuss procedures for the handling of asset disposition, and any other concerns associated with county property. In addition, all general fixed asset purchases and dispositions should be recorded as they occur and purchased items should be tagged or identified as county-owned property upon receipt.

**AUDITEE'S RESPONSE**

*We will attempt to implement this recommendation by January 1, 2001.*

**6.****Township Collectors' Bonds**

The County Clerk calculates the level of bond coverage required for each township collector for each term of office. The County Clerk calculated the required amounts for tax year 1999 based on one-half of December 1998 collections, instead of one-half of tax year 1998 collections as required by state law. Our review noted that the various township collectors' bonds were insufficient by amounts ranging from approximately \$2,000 to \$101,000. In addition, one township collector was allowed to give bond equal to the amount provided during the previous term (\$193,000) which was \$48,547 less than the amount calculated by the County Clerk.

Section 65.460, RSMo 1994, requires a township collector to give bond in a sum for any month equal to the average total monthly collection for the same month during the preceding four years, but not to exceed one-half the largest amount collected during any one year preceding his/her election or appointment, including school taxes. This section also requires the County Commission to examine the bonds of township collectors annually for adequate coverage.

Similar conditions were noted in our two prior reports.

**WE AGAIN RECOMMEND** the County Commission require all township collectors to file bonds in amounts necessary for compliance with state law.

**AUDITEE'S RESPONSE**

*We have recalculated the bond amounts and have notified the township collectors and the bonding companies. We will not turn over the 2000 tax books to the collectors until the proper amount of bonds are obtained.*

**7.****Tri-County Health Center Board**

- A. Accounting and bookkeeping duties are not adequately segregated. A clerk and a bookkeeper share responsibility for receipting and depositing monies and maintaining accounting records, and the bookkeeper prepares bank reconciliations. The clerk's work is reviewed by the bookkeeper. The Health Center Administrator does not review the bank reconciliations and does not document her review of the bookkeeper's work.

Proper segregation of duties helps ensure that all transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving and depositing receipts from recording and reconciling receipts. If proper segregation of duties cannot be achieved, at a

minimum, periodic supervisory reviews of the records should be performed and documented.

- B. Health Center employees are required to complete time sheets; however, supervisory approval is not documented on the time sheets. In addition, supervisory approval of expense reimbursement claim forms is not always documented.

Employee time sheets and expense reimbursement claim forms should include documentation of supervisory approval to ensure all salary payments are based upon hours actually worked, and all expenses claimed for reimbursement are proper and reasonable.

- C. Expense reimbursement claim forms do not always indicate the destination of each trip. Also, since the health center covers a three-county area, employees are domiciled in several different locations; however, the employee's official domicile is not always documented to identify the employee's point of departure.

To ensure expense reimbursement requests are reasonable and represent valid expenditures, the Health Center Board should require the requests to be adequately detailed, including the departure point and destination of each trip.

- D. The health center's agreement with the depository bank does not include a provision for pledging collateral securities, and as a result, collateral securities were not pledged by the Health Center Board's depository bank for deposits in excess of the Federal Deposit Insurance Corporation (FDIC) coverage. At December 31, 1999 and 1998, the board's bank balance exceeded FDIC coverage by \$151,169 and \$181,628, respectively.

Section 110.020, RSMo 1994, requires the value of securities pledged shall at all times be not less than 100 percent of the actual amount on deposit less the amount insured by the FDIC. Inadequate collateral securities leave board funds unsecured and subject to loss in the event of bank failure.

- E. The administrator and all three members of the Health Center Board are authorized to sign checks; however, these individuals are not bonded. In addition, employees responsible for receiving and depositing monies, are not bonded. Adequate bonding is necessary to reduce the risk of loss if funds are mishandled. Failure to properly bond all persons with access to assets exposes the Health Center Board to unnecessary risks.

**WE RECOMMEND** the Tri-County Health Center Board:

- A. Adequately segregate accounting and bookkeeping duties to the extent possible or ensure periodic supervisory reviews are performed and documented.

- B. Require documentation of supervisory approval on all time sheets and expense reimbursement claim forms.
- C. Require Health Center employees to document departure points and destinations on expense reimbursement claim forms.
- D. Ensure the bank depository agreement includes a provision to ensure adequate collateral securities are pledged for all deposits in excess of FDIC coverage.
- E. Obtain adequate bond coverage for all persons with access to negotiable assets.

**AUDITEE'S RESPONSE**

*The Health Center Administrator provided the following responses:*

*A-C*

*&E. These recommendations have already been implemented.*

*D. This will be implemented by the middle of September 2000.*

|  |
|--|
| <b>8. Emergency Dispatch Board Bonding</b> |
|--|

All officers of the Emergency Dispatch Board are authorized to sign checks; however, only the board treasurer is bonded. In addition, the coordinator, who handles petty cash and is authorized to sign checks, is not bonded. Adequate bonding is necessary to reduce the risk of loss if funds are mishandled. Failure to properly bond all persons with access to assets exposes the Emergency Dispatch Board to unnecessary risks.

**WE RECOMMEND** the Emergency Dispatch Board obtain adequate bond coverage for all persons with access to negotiable assets.

**AUDITEE'S RESPONSE**

*The Emergency Dispatch Coordinator provided the following response:*

*All positions with check-signing authority are now bonded for \$10,000. The board also passed a resolution to restrict the ability to make transfers between bank accounts and withdraw funds.*

This report is intended for the information of the management of Gentry County, Missouri, and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on Prior Audit Findings

## GENTRY COUNTY, MISSOURI FOLLOW-UP ON PRIOR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Gentry County, Missouri, on findings in the Management Advisory Report (MAR) of our prior audit report issued for the three years ended December 31, 1997. The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR. Although the remaining unimplemented recommendations have not been repeated, the county should consider implementing these recommendations.

### 1. County Expenditures

- A. Bids were not always solicited nor was bid documentation always retained for various purchases made by the county.
- B. Receipt of goods or services was not always documented on applicable invoices.
- C. Invoices were not always canceled after payment.
- D.1. Mileage reimbursement requests were not always sufficiently detailed.
- 2. Vehicle usage logs were not maintained for county-owned vehicles.
- E. The county did not enter into written agreements for dispatching services, prisoner boarding services, and meal preparation for county prisoners.
- F. The county did not issue IRS Forms 1099-MISC as required.
- G. The county reimbursed excessive meal reimbursement requests, and supporting documentation was not provided for some hotel costs and other expenses.
- H. The County Clerk held Community Development Block Grant (CDBG) funds outside the county treasury.

### Recommendation:

#### The County Commission:

- A. Solicit bids for all purchases in accordance with state law and maintain adequate documentation of all bids obtained. If bids cannot be obtained and sole source procurement is necessary, the County Commission minutes should reflect the circumstances.
- B. Ensure all invoices contain an indication of receipt of goods or services.

- C. Ensure all invoices are canceled when goods or services have been paid to prevent reuse or repayment of the invoice.
- D.1. Require the Sheriff's deputies to record detailed information as to actual mileage, destinations traveled, and purpose of official county business on mileage reimbursement requests.
- 2. Maintain usage logs on all county vehicles which would identify the employee the vehicle is assigned to, the dates used, miles driven, destination, and purpose of the trips.
- E. Ensure all agreements entered into by the county are in writing and that the County Commission approves all contracts.
- F. Ensure IRS Forms 1099-MISC are issued as required by the Internal Revenue Code.
- G. Ensure adequate documentation is provided for all hotel costs and other expenses. In addition, the commission should continue to enforce its new policy limiting meal expense amounts that will be reimbursed.
- H. Discontinue the practice of maintaining monies outside the county treasury.

Status:

- A. Partially implemented. Although bids were solicited for most applicable purchases reviewed for the current audit period, our review noted five purchases totaling \$47,378 which were not bid. Although not repeated in the current report, our recommendation remains as stated above.
- B. Not implemented. Although not repeated in the current report, our recommendation remains as stated above.

C,  
E-H. Implemented.

D.1.  
& 2. Not implemented. See MAR No 4.

2. Budgetary Practices and Published Financial Statements

- A. Budgets were not prepared or obtained for various county funds.
- B. Disbursements exceeded the approved budget amounts for various county funds.

- C. The General Revenue Fund ending cash balances shown in the county budget document and published financial statements were overstated each year.

Recommendation:

The County Commission:

- A. Ensure that budgets are prepared or obtained for all county funds in accordance with state law.
- B. Refrain from incurring disbursements in excess of budgeted amounts. If additional funds are received which could not be estimated when the budget was adopted, the budget should be amended by following the procedures required by law.
- C. Ensure the ending cash balances of the General Revenue Fund are correctly stated on the budget documents and the published financial statements.

Status:

- A. Not implemented. See MAR No. 2.
- B. Not implemented. Disbursements exceeded amounts budgeted for two funds totaling \$778 in 1999 and three funds totaling \$10,902 in 1998. Although not repeated in the current report, our recommendation remains as stated above.
- C. Implemented.

3. Officials' Salaries

- A. The 1995 Salary Commission minutes did not indicate the amount to be to each official and the Sheriff was underpaid by \$1,700 in 1997.
- B. The county did not have documentation to show the basis used to increase officials' salaries mid-year during 1997, and no legal opinion was obtained to support the actions.
- C. The 1997 Salary Commission minutes did not record the salary to be paid to each official.

Recommendation:

The County Commission consult with the Prosecuting Attorney regarding correcting the erroneous salary payments. In addition, the Salary Commission minutes should include the calculations of salary computations for each official. Future Salary Commission meeting records should always document the calculations and legal opinions for actions taken.

Status:

Implemented. However, the salary of the County Assessor may have been miscalculated. See MAR No. 3.

4. Personnel Policies and Procedures

- A. Time sheets were not prepared by some employees.
- B. Time sheets were not always signed by the employee or the employee's supervisor.
- C. Compensatory time records for Road and Bridge employees were inadequate.
- D. Sheriff's dispatchers were not paid overtime rates when they worked more hours than apparently allowed by the Fair Labor Standards Act (FLSA).

Recommendation:

The County Commission:

- A. Require detailed time sheets from all employees.
- B. Ensure all time sheets have been signed by both the employee and the employee's supervisor.
- C. Ensure adequate leave records are maintained by the County Clerk.
- D. Review county payroll policies and ensure the county appropriately considers any policy changes needed along with FLSA requirements when handling employee payrolls. This policy review should include obtaining appropriate legal opinions and, if necessary, consultation with the U.S. Department of Labor.

Status:

- A-C. Implemented.
- D. Not implemented. See MAR No 3.

5. General Fixed Assets

- A. Annual inventories of general fixed assets were not performed.
- B. Property tags were not placed upon general fixed asset items immediately upon receipt

- C. Additions and deletions of general fixed assets were not recorded in the property records as they occurred, and general fixed asset records were not reconciled to general fixed asset purchases and deletions.

Recommendation:

The County Clerk:

- A. Perform and document annual inventories of general fixed assets in accordance with state law.
- B. Affix property control tags on all fixed assets immediately upon receipt.
- C. Maintain accurate general fixed asset records on a current basis and periodically reconcile these records to general fixed asset purchases and deletions.

Status:

A-C. Not implemented. See MAR No 5.

6. County Treasurer/Ex-Officio Collector's Controls and Procedures

- A. The Ex-Officio Collector (EOC) did not charge interest on late surtax payments received after January 1.
- B. The EOC did not require the bank to pledge adequate collateral for her collector's fund bank account.
- C. The EOC did not correctly apportion railroad and utility tax collections to the various school districts.

Recommendation:

The Treasurer/EOC:

- A. Charge and collect interest and penalties on all delinquent taxes in accordance with state law.
- B. Ensure all funds are covered by a collateral security agreement and that the depository bank pledges adequate securities at all times in accordance with state law.
- C. Consult with the various school districts and the Missouri Department of Elementary and Secondary Education for guidance on how to correct the past errors.

Status:

A-C. Implemented.

7. Township Collectors' Bonds

Various township collectors bonds were insufficient by amounts ranging from \$6,000 to \$88,000.

Recommendation:

The County Commission require all township collectors to file bonds in amounts necessary for compliance with state law.

Status:

Not implemented. See MAR No 6.

8. Tri-County Health Center Controls and Procedures

The members of the Health Center Board met three or four times a year. The funds of the health center were handled by Gentry County, and similar weaknesses in the handling of health center funds were noted as with other county operations.

Recommendation:

The Tri-County Health Board meet on a more periodic basis, strengthen internal controls, and ensure compliance with laws and regulations.

Status:

The board met monthly during the current audit period. Effective March 1998, the Tri-County Health Center assumed control over its own bookkeeping. While some improvements were noted, additional improvements are needed. See MAR No. 7.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

GENTRY COUNTY, MISSOURI  
HISTORY, ORGANIZATION,  
AND STATISTICAL INFORMATION

Organized in 1845, the county of Gentry was named after Richard Gentry, Seminole War general. Gentry is a township-organized, third class county and is part of the Fourth Judicial Circuit. The county seat is Albany.

Gentry County's government is composed of a three-member county commission and separate elected officials performing various tasks. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials.

Principal functions of these other officials relate to judicial courts, law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records of importance to the county's citizens.

Counties typically spend a large portion of their receipts to support general county operations and to build and maintain roads and bridges. The following chart shows from where Gentry County received its money in 1999 and 1998 to support the county General Revenue and Special Road and Bridge Funds:

| SOURCE                    | 1999         |               | 1998      |               |
|---------------------------|--------------|---------------|-----------|---------------|
|                           | AMOUNT       | % OF<br>TOTAL | AMOUNT    | % OF<br>TOTAL |
| Property taxes            | \$ 286,949   | 14            | 271,801   | 16            |
| Sales taxes               | 198,523      | 10            | 203,459   | 12            |
| Federal and state aid     | 1,179,085    | 58            | 1,030,862 | 59            |
| Fees, interest, and other | 378,636      | 18            | 225,678   | 13            |
| Total                     | \$ 2,043,193 | 100           | 1,731,800 | 100           |

The following chart shows how Gentry County spent monies in 1999 and 1998 from the General Revenue and Special Road and Bridge Funds:

| USE                       | 1999         |               | 1998      |               |
|---------------------------|--------------|---------------|-----------|---------------|
|                           | AMOUNT       | % OF<br>TOTAL | AMOUNT    | % OF<br>TOTAL |
| General county government | \$ 477,789   | 23            | 408,930   | 23            |
| Public safety             | 270,054      | 13            | 252,779   | 15            |
| Highways and roads        | 1,290,115    | 64            | 1,093,407 | 62            |
| Total                     | \$ 2,037,958 | 100           | 1,755,116 | 100           |

The county maintains approximately 210 county bridges and the townships maintain approximately 590 miles of county roads.

The county's population was 8,060 in 1970 and 6,848 in 1990. The following chart shows the county's change in assessed valuation since 1970:

|                        |    | Year Ended December 31, |      |       |        |        |
|------------------------|----|-------------------------|------|-------|--------|--------|
|                        |    | 1999                    | 1998 | 1985* | 1980** | 1970** |
|                        |    | (in millions)           |      |       |        |        |
| Real estate            | \$ | 34.9                    | 34.3 | 32.1  | 20.1   | 15.8   |
| Personal property      |    | 16.9                    | 16.3 | 7.5   | 5.9    | 5.3    |
| Railroad and utilities |    | 4.6                     | 4.7  | 3.6   | 5.0    | 5.5    |
| Total                  | \$ | 56.4                    | 55.3 | 43.2  | 31.0   | 26.6   |

\* First year of statewide reassessment.

\*\* Prior to 1985, separate assessments were made for merchants' and manufacturers' property. These amounts are included in real estate.

Gentry County's property tax rates per \$100 of assessed valuations were as follows:

|                      |    | Year Ended December 31, |      |
|----------------------|----|-------------------------|------|
|                      |    | 1999                    | 1998 |
| General Revenue Fund | \$ | .50                     | .49  |

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and payable by December 31. Taxes paid after December 31 are subject to penalties. The county and townships bill and collect property taxes for themselves and most other local governments. Taxes collected were distributed as follows:

|                              |    | Year Ended February 28 (29), |           |
|------------------------------|----|------------------------------|-----------|
|                              |    | 2000                         | 1999      |
| State of Missouri            | \$ | 17,021                       | 16,719    |
| General Revenue Fund         |    | 280,860                      | 270,804   |
| Assessment Fund              |    | 35,326                       | 34,321    |
| Townships and Roads          |    | 525,023                      | 514,158   |
| School districts             |    | 2,239,535                    | 2,197,262 |
| Library district             |    | 90,890                       | 90,032    |
| Ambulance district           |    | 100,868                      | 99,022    |
| Fire districts               |    | 161,964                      | 119,625   |
| Watershed district           |    | 9                            | 9         |
| Cities                       |    | 15,359                       | 16,494    |
| County Clerk                 |    | 1,024                        | 1,048     |
| County Employees' Retirement |    | 16,952                       | 14,832    |
| Commissions and fees:        |    |                              |           |
| General Revenue Fund         |    | 23,363                       | 22,587    |
| Township Collectors          |    | 28,843                       | 28,041    |
| Total                        | \$ | 3,537,037                    | 3,424,954 |

Percentages of current taxes collected were as follows:

|                        | Year Ended February 28 (29), |      |
|------------------------|------------------------------|------|
|                        | 2000                         | 1999 |
| Real estate            | 93 %                         | 94 % |
| Personal property      | 91                           | 91   |
| Railroad and utilities | 100                          | 100  |

Gentry County also has the following sales taxes; rates are per \$1 of retail sales:

|   | Rate     | Expiration Date | Required Property Tax Reduction |
|---|----------|-----------------|---------------------------------|
| General                                   | \$ 0.005 | None            | None                            |
| Central dispatching of emergency services | 0.005    | None            | None                            |

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below.

| Officeholder   | 2000   | 1999   | 1998   |
|--|--------|--------|--------|
| County-Paid Officials:   |        |        |        |
| Marshall Pile, Presiding Commissioner  | \$     | 17,000 | 11,200 |
| Ronald Peterson, Associate Commissioner                                      |        | 14,450 | 11,200 |
| Kenneth R. Hensley, Associate Commissioner*                                  |        | 11,439 | 0      |
| Ed Butler, Associate Commissioner  |        | 1,806  | 11,200 |
| Ronnie Mercer, County Clerk  |        | 28,500 | 23,788 |
| Ed Manring, Prosecuting Attorney   |        | 33,000 | 26,225 |
| Eugene Lupfer, Sheriff**   |        | 28,900 | 30,600 |
| Marvin D. Combs, County Coroner  |        | 4,675  | 4,675  |
| Judith Pickering, Public Administrator***                                    |        | 14,670 | 14,570 |
| Sue Hopkins, Treasurer and Ex Officio County Collector, year ended March 31, | 26,328 | 26,328 |        |
| Betty Boulting Dykes, County Assessor, year ended August 31, ****            |        | 26,400 | 26,400 |

\* Appointed March 12, 1999 to replace Ed Butler who passed away February 12, 1999.

\*\* The 1998 salary includes \$1,700 to correct an error made in 1997.

\*\*\* Includes fees received from probate cases.

\*\*\*\* Includes \$900 annual compensation received from the state.

State-Paid Officials:

|   |        |        |
|---|--------|--------|
| John Whitaker, Circuit Clerk and Ex Officio Recorder of Deeds | 44,292 | 42,183 |
| Roger E. Combs, Associate Circuit Judge                       | 87,235 | 85,158 |

A breakdown of employees (excluding the elected officials) by office at December 31, 1999, is as follows:

| Office   | Number of Employees Paid by |          |
|--|-----------------------------|----------|
|  | County                      | State    |

AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

August 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

The following audit report presents our findings and recommendations for certain municipal divisions of the Sixteenth Judicial Circuit. During our audit, we identified accounting records, controls, and certain management practices which we believe could be improved. The municipal divisions in which specific findings and recommendations were noted are listed below:

|                               |                    |
|-------------------------------|--------------------|
| <b>City of Blue Springs</b>   | <i>pages 27-30</i> |
| <b>City of Buckner</b>        | <i>pages 30-32</i> |
| <b>City of Grain Valley</b>   | <i>pages 33-34</i> |
| <b>City of Grandview</b>      | <i>pages 34-36</i> |
| <b>City of Greenwood</b>      | <i>pages 36-38</i> |
| <b>City of Independence</b>   | <i>pages 38-40</i> |
| <b>City of Lake Lotawana</b>  | <i>pages 40-41</i> |
| <b>City of Lake Tapawingo</b> | <i>pages 41-43</i> |
| <b>City of Lee's Summit</b>   | <i>pages 43-44</i> |
| <b>City of Lone Jack</b>      | <i>pages 44-46</i> |
| <b>City of Oak Grove</b>      | <i>pages 46-48</i> |
| <b>City of Raytown</b>        | <i>pages 48-49</i> |
| <b>City of Sugar Creek</b>    | <i>pages 50-52</i> |

The city of Kansas City Municipal Division will be reported on separately.

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON  
THE FINANCIAL STATEMENTS**

Presiding Judge  
and  
Municipal Judges  
Sixteenth Judicial Circuit

We have audited the accompanying special-purpose financial statements of the various municipal divisions of the Sixteenth Judicial Circuit as of and for the years ended October 31, 1999 and 1998, September 30, 1999 and 1998, June 30, 1999 and 1998, December 31, 1998 and 1997, and the period July 1, 1998 to September 30, 1999, as identified by municipality and fiscal period in the table of contents. These special-purpose financial statements are the responsibility of the municipal divisions' management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

Except as discussed in paragraphs four through six, we conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of the municipal divisions of the Sixteenth Judicial Circuit and are not intended to be a complete presentation of the financial position and results of operations of the municipal divisions.

Records of restitution collections and disbursements have not been adequately maintained for the city of Grandview Municipal Division. In addition, restitution payments were held in cash until disbursed. As a result, we were unable to satisfy ourselves by appropriate audit tests or other means

as to restitution receipts and disbursements beyond amounts recorded in the municipal division's records for the years ended September 30, 1999 and 1998.

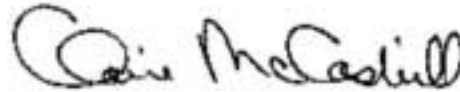

Records accounting for the numerical sequence and ultimate disposition of each traffic ticket and general ordinance summons issued for the city of Lake Tapawingo Municipal Division were not maintained and some of the tickets selected for review could not be located. As a result, we were unable to satisfy ourselves by appropriate audit tests or other means as to receipts and disbursements of fines and court costs beyond amounts recorded in the municipal division's records for the years ended June 30, 1999 and 1998.

Records were insufficient to verify the amounts presented as bond receipts and disbursements by the city of Lake Lotawana Municipal Division. Prior to June 1997, bonds posted by defendants were held in cash and not recorded until each case was disposed. As a result, we were unable to satisfy ourselves by appropriate audit tests or other means as to bond receipts and disbursements beyond amounts recorded in the municipal division's records for the year ended December 31, 1997.

In our opinion, except for the effects, if any, on the financial statements of the matters discussed in the preceding three paragraphs, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of the municipal divisions of the Sixteenth Judicial Circuit as of and for the years ended October 31, 1999 and 1998, September 30, 1999 and 1998, June 30, 1999 and 1998, December 31, 1998 and 1997, and the period July 1, 1998 to September 30, 1999, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated November 10, 1999, on our consideration of the municipal divisions' internal controls over financial reporting and on our tests of their compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the municipal divisions' management and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

Presiding Judge  
and  
Municipal Judges  
Sixteenth Judicial Circuit

We have audited the special-purpose financial statements of the various municipal divisions of the Sixteenth Judicial Circuit as of and for the years ended October 31, 1999 and 1998, September 30, 1999 and 1998, June 30, 1999 and 1998, December 31, 1998 and 1997, and the period July 1, 1998 to September 30, 1999, and have issued our report thereon dated November 10, 1999. That report expressed a qualified opinion on the special-purpose financial statements of the municipal divisions of the cities of Grandview, Lake Tapawingo, and Lake Lotawana for the applicable fiscal periods. Except as discussed in the report on the financial statements of the municipal divisions referred to in the preceding sentence, we conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

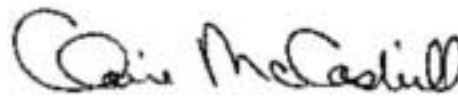

As part of obtaining reasonable assurance about whether the special-purpose financial statements of the various municipal divisions of the Sixteenth Judicial Circuit are free of material misstatement, we performed tests of the municipal divisions' compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no material instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain other instances of noncompliance which are presented in the accompanying Management Advisory Report.

## Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of the various municipal divisions of the Sixteenth Judicial Circuit, we considered the municipal divisions' internal controls over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal controls over financial reporting. However, we noted certain matters involving the internal controls over financial reporting and their operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal controls over financial reporting that, in our judgment, could adversely affect the municipal divisions' ability to record, process, summarize, and report financial data consistent with the assertions of management in the special-purpose financial statements.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal controls over financial reporting would not necessarily disclose all matters in the internal controls that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we noted certain matters involving the internal controls over financial reporting and their operation that we consider to be material weaknesses, and these matters are presented in the accompanying Management Advisory Report.

This report is intended for the information of the management of the various municipal divisions of the Sixteenth Judicial Circuit and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

Claire McCaskill  
State Auditor

November 10, 1999 (fieldwork completion date)

## Notes to the Financial Statements

SIXTEENTH JUDICIAL CIRCUIT  
MUNICIPAL DIVISIONS  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present only selected data for the funds administered by the various municipal divisions of the Sixteenth Judicial Circuit of the state of Missouri, except for the city of Kansas City Municipal Division. The city of Kansas City Municipal Division is reported on separately. Furthermore, the city of Levasy Municipal Division handled no cases during the audit period and, therefore, is not included in this report.

Receipts, disbursements, and changes in cash are presented for each municipal division. The operating costs of each division are paid by the respective municipality and are not included in these financial statements.

The municipal division is responsible for cash bonds posted until case disposition allows appropriate disbursement. Bond monies relating to pending cases, whether in the custody of the city or the municipal division, are included in these financial statements.

B. Basis of Accounting

The Statements of Receipts, Disbursements, and Changes in Cash are prepared on the cash basis of accounting; accordingly, amounts are recognized when they are received or disbursed. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Fiscal Authority and Responsibility

The municipal divisions account for fines and court costs resulting from prosecution of violations of municipal ordinances before the municipal judge or received through the traffic violations bureau, as well as cash bonds posted. Municipal violations could include traffic offenses, both moving and nonmoving; parking meter and overtime parking offenses; and other violations for which amounts are received by the municipal divisions and remitted to the city treasury. The municipal divisions also may account for restitutions received and disbursed through the divisions.

2. Cash

Section 479.080, RSMo 1994, requires municipal divisions to deposit fines and court costs into the city treasury at least monthly. Some divisions maintain bank accounts into which fines and court costs are deposited and later remitted to the city treasury. Other divisions do not maintain bank accounts, transmitting fines and court costs directly to the city treasury. Escrow bank accounts for bond monies received may be maintained by the city or the municipal division.

At the financial statement dates identified in the table of contents for the years ended 1999, 1998, and 1997, all bank account balances reported for the municipal divisions of the Sixteenth Judicial Circuit were entirely covered by federal depository insurance.

3. Disbursements to State

The municipal divisions collect various amounts that must be remitted to the state of Missouri. These amounts include the judgment for the Motorcycle Safety Trust Fund; and the surcharges for the Crime Victims' Compensation and Services to Victims Funds, the Peace Officer Standards and Training Commission Fund, and (until July 1, 1997, when municipal divisions were no longer required to assess the surcharge) the Independent Living Center Fund. The state's portions of these amounts are deposited into the city treasury for all municipal divisions, except the municipal divisions of the city of Grain Valley (starting February 1998) and the city of Lone Jack. Amounts remitted by the cities to the state are not included in the financial statements.

The municipal divisions of the city of Independence and the city of Lake Tapawingo did not assess the Peace Officer Standards and Training Commission fee.

4. City of Buckner

Bonds posted by defendants for the city of Buckner Municipal Division are deposited directly into the city treasury. The amounts held by the city at year-end could not be determined and, therefore, are not included in the financial statements.

In addition, bonds refunded to defendants could not be determined, and these amounts are not included in the financial statements.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Current Recommendations

SIXTEENTH JUDICIAL CIRCUIT  
MUNICIPAL DIVISIONS  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S CURRENT RECOMMENDATIONS

We have audited the special-purpose financial statements of the various municipal divisions of the Sixteenth Judicial Circuit as of and for the years ended October 31, 1999 and 1998, September 30, 1999 and 1998, June 30, 1999 and 1998, December 31, 1998 and 1997, and the period July 1, 1998 to September 30, 1999, and have issued our report thereon dated November 10, 1999. That report expressed a qualified opinion on the special-purpose financial statements of the municipal divisions of the cities of Grandview, Lake Tapawingo, and Lake Lotawana for the applicable fiscal periods.

The following Management Advisory Report presents our findings and recommendations arising from our audit of the municipal divisions' special-purpose financial statements. During our audit, we also identified certain management practices which we believe could be improved. Our audit was not designed or intended to be a detailed study of every system, procedure, and transaction. Accordingly, the findings presented in the following report should not be considered as all-inclusive of areas where improvements may be needed.

|           |  |
|-----------|--|
| <b>1.</b> | <b>City of Blue Springs Municipal Division</b> |
|-----------|--|

- A. The duties of receiving, recording, depositing and transmitting fine, court cost, and bond monies and disbursing bond monies collected by the municipal division are not adequately segregated. Currently, the Court Clerk performs all of these duties. To safeguard against possible loss or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties cannot be achieved, at a minimum, there should be a documented independent comparison of receipt slips issued to amounts transmitted and deposited.
- B. Our review noted the following concerns related to bonds:
  - 1) The Court Clerk indicated monthly listings of open items (liabilities) were prepared; however, documentation is not always maintained. At September 30, 1999, the open items listing totaled \$1,186 more than the balance of bonds in the bond bank account, indicating an apparent shortage. The former Court Clerk had prepared an open items listings as of September 30, 1998, which agreed to the balance in the bond bank account.

Documentation of monthly open-items listings should be retained to ensure proper accountability over open cases and to ensure monies held in trust are sufficient to meet liabilities.

- 2) Bond forms issued by the police department for the receipt of cash bonds are not prenumbered. To adequately account for bonds and to ensure all bonds are turned over to the municipal division, prenumbered bond forms should be issued for cash bonds received by the police department and the numerical sequence should be accounted for properly.
- 3) The September 30, 1999 open items listing included bond receipts totaling \$7,775 which had been held in excess of one year. A review should be made of any bonds posted by persons who failed to make the required court appearance to determine if the bonds should be forfeited and turned over to the city treasury, as provided by Section 479.210, RSMo 1994. Bonds which cannot be forfeited and remain unclaimed should be turned over to the state's Unclaimed Property Section, as required by state law.

C. When monies are received at the Traffic Violations Bureau (TVB) prior to the city attorney turning over the traffic ticket to the municipal division, they are held without being receipted or transmitted to the city until the traffic ticket is also received. To adequately account for and safeguard receipts and reduce the risk of loss, theft, or misuse of funds, prenumbered receipt slips should be issued immediately for all monies received and receipts should be transmitted to the city daily or when accumulated receipts exceed \$100.

D. Procedures established to pursue the collection of delinquent accounts and failure to appear cases include issuing warrants; however, the Court Clerk does not always issue the warrants on a timely basis. A warrant is not automatically issued when a defendant does not pay his fine and court costs and is not granted time to pay by the judge. The timing of the issuance of the warrant is left to the discretion of the Court Clerk.

Proper and timely issuance of warrants for amounts due to the court helps to maximize court revenues along with providing equitable treatment for those citizens who are paying fines and court costs when due.

E. Checks and money orders received for the payment of fines and court costs are not restrictively endorsed until transmittals to the city are prepared. To reduce the risk of loss or misuse of funds, checks and money orders should be restrictively endorsed immediately upon receipt.

- F. Neither the police department nor the municipal division maintains a log to account for general ordinances summons (GOS) assigned and issued and their ultimate disposition. In addition, the police department and Court Clerk issue unnumbered complaint forms.

Without the use of prenumbered forms and a proper accounting for the numerical sequence and disposition of GOS and complaint forms, the police department and the municipal division cannot be assured that all GOS and complaint forms issued were properly submitted to the court. A record of the ultimate disposition of each GOS and complaint form should be maintained to ensure all documents have been accounted for properly.

Conditions similar to A, B.1, B.2, E, and F were also noted in our prior report.

**WE RECOMMEND** the city of Blue Springs Municipal Division:

- A. Adequately segregate the duties of receiving, recording, and transmitting court receipts. At a minimum, there should be a documented supervisory review of the reconciliation between receipts and transmittals to the city.
- B.1. Retain documentation of monthly listings of open items. In addition, the reason for the apparent \$1,186 shortage should be investigated by reviewing all open bonds on the open items listing. In the event cash is determined to be insufficient to meet bond liabilities, the municipal division will need to review this matter with the city to determine the proper resolution.
2. Request the police department issue prenumbered bond forms for all bond monies received and account for the numerical sequence.
3. Forfeit any bonds for persons who failed to make the required court appearance, and attempt to locate those defendants with unclaimed bonds. Any bond monies remaining unclaimed should be remitted to the state in accordance with state law. Procedures should be established to routinely follow-up on cash bonds remaining on hand over a period of time.
- C. Issue prenumbered receipt slips for all monies when received and transmit receipts to the city daily or when accumulated receipts exceed \$100.
- D. Issue warrants in a timely manner to those who fail to comply with the court's orders.
- E. Restrictively endorse all checks and money orders immediately upon receipt.

- F. Work with the police department to ensure adequate records are maintained to account for the numerical sequence and ultimate disposition of all GOS and complaint forms issued.

**AUDITEE'S RESPONSE**

*The Court Clerk provided the following responses:*

- A. *The segregation of duties of receiving, recording, depositing and transmitting fines, court costs and bond monies and disbursing bond monies will be accomplished by October 1, 2000, due to increase in staff to handle these duties.*
- B.1. *We agree that the open items listings need to be reviewed and balanced. We intend for this to be completed by October 31, 2000. The Finance Department of the City of Blue Springs is aware of the differences in this account and that department will assist the court in balancing this account.*
2. *Pre-numbered bond forms have been ordered and will be given to the police department by October 1, 2000.*
3. *Review of cash bonds to be forfeited and remittances to the Unclaimed Property Division will be done by October 1, 2000.*
- C. *Daily deposits of monies received are being made. This procedure was changed in January 2000.*
- D. *Implementation of new procedures is forthcoming with reference to the warrants and handling of cases in which fines and costs are due. The addition of office staff and the new court software will enable the court to track accounts in which monies are due and warrants need to be issued. This should be in full compliance within twelve months.*
- E. *Checks and money orders are now restrictively endorsed immediately upon receipt.*
- F. *The Uniform Complaint and Summons forms (numbers issued by the Missouri State Highway Patrol) will be used for all charges written by the police department and all other departments beginning prior to October 1, 2000.*

|  |
|--|
| <b>2. City of Buckner Municipal Division</b> |
|--|

- A. Bond monies received by the municipal division are deposited into the city's general account. The city of Buckner maintains separate records of the bonds deposited, disbursed, and held in its general account; however, these records are not reconciled to the municipal division's bond ledger. In addition, monthly listings of open items (liabilities) are not prepared. Monthly reconciliations of bonds held in the city's general account to the municipal division's bond ledger and monthly listings of open items are necessary to ensure proper accountability over open cases and to ensure monies held in trust are sufficient to meet liabilities.
- B. Prenumbered receipt slips are issued by the Court Clerk for fines and costs; however, the Court Clerk does not account for the numerical sequence of receipt slips issued. Receipt slips are not bound together but are filed according to court date. Further, no other numerical record of receipts is maintained. To adequately account for all receipts, the numerical sequence of receipt slips issued should be accounted for properly.
- C. The following concerns were noted regarding court costs and fees:
  - 1) Crime Victims Compensation (CVC), Law Enforcement Training (LET), and Peace Officer Standards and Training Commission (POSTC) fees are assessed on dismissed cases and are not assessed on non-moving violations. Sections 595.045.1 and 590.140, RSMo Cumulative Supp. 1999, require these fees be charged on all court cases for violations of municipal ordinances, except for cases dismissed by the court.
  - 2) The court charges a \$10 fine and \$20 in court costs and fees for each seat belt violation. Section 307.178.4, RSMo Cumulative Supp. 1999, states a fine not to exceed \$10 may be imposed and no court costs shall be imposed on any person for a seat belt law violation.
- D. The municipal division allows defendants to pay fines and court costs over a period of time. The Court Clerk maintains the balance due information on a log; however, periodic listings of total amounts due are not prepared. In addition, a control ledger is not maintained showing the total amount due which can be reconciled to the individual account receivable records. Monthly or periodic listings of total accounts receivable are necessary to facilitate the monitoring of amounts due to the court, to provide information to the Municipal Judge, and to help maximize collections. These listings should be reconciled on a periodic basis to the individual accounts receivable records.
- E. Neither the police department nor the municipal division maintains a log to account for GOS assigned and issued and their ultimate disposition. In addition, the Court Clerk issues unnumbered complaint forms.

Without the use of prenumbered forms and a proper accounting for the numerical sequence and disposition of GOS and complaint forms, the police department and the municipal division cannot be assured that all GOS and complaint forms issued were properly submitted to the court. A record of the ultimate disposition of each GOS and complaint form should be maintained to ensure all documents have been accounted for properly.

Conditions similar to A, C, and E were also noted in our prior report.

**WE RECOMMEND** the city of Buckner Municipal Division:

- A. Prepare monthly listings of open items and reconcile these listings to monies held in trust by the city. In addition, the city's records of bonds received, disbursed, and held in the city of Buckner's general account should be periodically reconciled to the municipal division's bond ledger.
- B. Account for the numerical sequence of all receipt slips issued by the court.
- C. Collect court costs and fees in accordance with state law.
- D. Maintain an accounts receivable control ledger and prepare a periodic listing of accounts receivable and reconcile this information to the individual accounts receivable records. A report of cases with delinquent payments and/or significant balances should be provided to the Municipal Judge regularly for review.
- E. Work with the police department to ensure adequate records are maintained to account for the numerical sequence and ultimate disposition of all GOS and complaint forms issued.

### **AUDITEE'S RESPONSE**

*The Municipal Judge and Deputy Court Clerk provided the following responses:*

- A. *Implemented. A separate bank account has been established and an open items listing is being prepared and reconciled to the bank balance.*
- B. *We have ordered and received a supply of bound receipt books. These will be used when the supply of loose receipt slips has been used up which should be by the end of the year, December 31, 2000.*
- C. *We will ensure the proper court costs and fees are assessed.*

D. *We will implement this recommendation by August 31, 2000.*

E. *We will work with the police department to ensure adequate records are maintained. This will be implemented by September 30, 2000.*

|   |
|---|
| <b>3. City of Grain Valley Municipal Division</b> |
|---|

A. During our review of bonds, we noted the following:

- 1) The bond ledger maintained by the municipal division includes only the bond form number, the defendant's name, and amount. When a bond is disbursed, it is simply crossed off. A bond ledger for all cash bonds indicating the date of receipt, the bond receipt number, and date and method of disbursement is necessary to ensure proper accountability over open cases.
- 2) During our reconciliation of the bond receipts ledger to bank deposits, we noted four bonds that had been deposited but were not recorded on the ledger. To adequately account for all receipts, a prenumbered receipt slip should be issued for all bonds received and receipts per the bond receipts ledger should be reconciled to bank deposits.
- 3) The bond forms used by the Grain Valley Police Department are prenumbered; however, for bonds collected for other jurisdictions, the officers use alternate bond forms which are unnumbered. To provide assurance that bond monies are properly recorded, all bond forms should be prenumbered and their numerical sequence accounted for properly.
- 4) The June 28, 1999 open items listing included two bonds totaling \$2,000 which had been held in excess of one year. A review should be made of any bonds posted by persons who failed to make the required court appearance to determine if the bonds should be forfeited and turned over to the city treasury, as provided by Section 479.210, RSMo 1994. Bonds which cannot be forfeited and remain unclaimed should be turned over to the state's Unclaimed Property Section, as required by state law.

B. The Court Clerk maintains logs of traffic tickets and GOS assigned and issued; however, our review of these logs indicated that some tickets were not accounted for properly.

Without a proper accounting of the numerical sequence and disposition of traffic tickets and GOS forms, the police department and the municipal division cannot be assured that

all traffic tickets and GOS forms issued were properly submitted to the court for processing.

- C. CVC fees are not assessed on non-moving violations. Section 595.045.1, RSMo Cumulative Supp. 1999, requires CVC fees be charged on all court cases for violations of municipal ordinances, except for cases dismissed by the court.

Conditions similar to A.2-4, and B were also noted in our prior report.

**WE RECOMMEND** the city of Grain Valley Municipal Division:

- A.1. Include date of receipt, bond receipt number, and date and method of disbursement in the bond ledger.
- 2. Issue prenumbered receipts slips for bond monies received and reconcile to amounts deposited.
- 3. Request the police department to issue prenumbered bond forms for all bonds received.
- 4. Forfeit any bonds for persons who failed to make the required court appearance, and attempt to locate those defendants with unclaimed bonds. Any bond monies remaining unclaimed should be remitted to the state in accordance with state law. Procedures should be established to routinely follow-up on cash bonds remaining on hand over a period of time.
- B. Work with the police department to account for the numerical sequence and ultimate disposition of all traffic tickets and GOS forms issued.
- C. Assess CVC fees in accordance with state law.

### **AUDITEE'S RESPONSE**

*The Court Clerk provided the following responses:*

*A.1. This has been implemented. This has been put on the computer.*

*A.2,A.3*

*&C. Implemented.*

*A.4. Implemented. One bond has been returned to the individual and the other has been turned over to the state's Unclaimed Property section.*

- B. *A form has been developed for the police department to account for voided traffic tickets and GOS forms.*

|  |
|--|
| <b>4. City of Grandview Municipal Division</b> |
|--|

- A. Receipt slips issued for restitution payments received by the division are not prenumbered. Restitution payments are also not deposited into a bank account, but are held by the municipal division until disbursed in cash to the appropriate recipient. In addition, while the restitution payments are recorded on the individual computerized case files, the municipal division does not maintain a control ledger showing amounts collected, disbursed, and on hand. Using a bank account for the deposit of restitution monies would provide better accountability over monies received and disbursed and reduce the risk of loss or misuse of these funds. Maintaining a control ledger of restitution payments received, disbursed, and on hand would provide assurance that restitution payments have been accounted for properly and monies held in trust by the municipal division are sufficient to meet liabilities. Failure to adequately monitor restitution payments increases the chances that monies will be lost or misappropriated.
- B. CVC, LET, and POSTC fees are not assessed on parking tickets. Sections 595.045.1 and 590.140 RSMo Cumulative Supp. 1999, requires these fees be charged on all court cases for violations of municipal ordinances, except for cases dismissed by the court.
- C. The September 30, 1999 open items listing included bond receipts totaling \$1,215 which had been held in excess of one year. A review should be made of any bonds posted by persons who failed to make the required court appearance to determine if the bonds should be forfeited and turned over to the city treasury, as provided by Section 479.210, RSMo 1994. Bonds which cannot be forfeited and remain unclaimed should be turned over to the state's Unclaimed Property Section, as required by state law.
- D. Checks and money orders are not restrictively endorsed until deposits are prepared. To reduce the risk of loss or misuse of funds, checks and money orders should be restrictively endorsed immediately upon receipt.

**WE RECOMMEND** the city of Grandview Municipal Division:

- A. Deposit restitution monies in a bank account and make all disbursements by check. In addition, a record should be maintained of restitution received, disbursed, and on hand.
- B. Assess court costs in accordance with state law.

- C. Forfeit any bonds for persons who failed to make the required court appearance, and attempt to locate those defendants with unclaimed bonds. Any bond monies remaining unclaimed should be remitted to the state in accordance with state law. Procedures should be established to routinely follow-up on cash bonds remaining on hand over a period of time.
- D. Restrictively endorse all checks and money orders immediately upon receipt.

**AUDITEE'S RESPONSE**

*The Municipal Judge and Court Clerk provided the following responses:*

- A. *We concur and are discussing the problem with outside auditors and hope to have adequate procedures and controls in place by December 31, 2000.*
- B. *We concur and this will be implemented effective immediately.*
- C. *This is in process and will be fully implemented by September 30, 2000.*
- D. *Implemented.*

|  |
|--|
| <b>5. City of Greenwood Municipal Division</b> |
|--|

- A. During our review of bonds, we noted the following:
  - 1) The Court Clerk does not maintain a bond ledger. A bond ledger indicating the related case, date and amount of receipt, date and method of disbursement, and ending balances is necessary to ensure proper accountability over open cases and to ensure monies held in trust are sufficient to meet liabilities.
  - 2) We noted three instances where receipt slips were not issued by the Court Clerk for bond monies received and two other instances where the dollar amount was not included on the receipt slips. In addition, receipts per the bond receipt ledger are not reconciled to bank deposits. To adequately account for all receipts, a prenumbered receipt slip should be issued for all bonds received and receipts recorded in the bond receipt ledger should be reconciled to bank deposits.
  - 3) Bond forms are not prenumbered. While the police department issues prenumbered receipt slips for cash bonds, our review of the receipt book indicates that the receipt slips are not being issued in numerical sequence, and we

noted one instance of a receipt slip which was missing from the book. The police department was unable to provide an explanation for the missing receipt slip. To provide assurance that all bond monies are properly recorded, bond forms should be prenumbered and the numerical sequence of bond forms should be accounted for properly.

- B. Neither the police department nor the municipal division maintains a log to account for traffic tickets and GOS forms issued. The Court Clerk prepares a monthly violations report for traffic tickets and GOS; however, the report includes only the tickets and GOS forms that are handled through the municipal division.

Without a proper accounting of the numerical sequence and ultimate disposition of all traffic tickets and GOS forms, the police department and the municipal division cannot be assured that all traffic tickets and GOS forms issued were properly submitted to the court. A record of the ultimate disposition of each traffic ticket and GOS form should be maintained to ensure all documents have been accounted for properly.

- C. The municipal division assesses an additional \$1 in court costs per case for the Eastern Jackson County Youth Court. While the fee is allowed under city ordinance, we could find no statutory authority for this additional fee.
- D. The court does not file with the city a monthly report of all cases heard in court. Section 479.080.3, RSMo 1994, requires the Court Clerk to prepare a monthly listing of all cases heard in court, including all fines and court costs collected, to be verified by the Court Clerk or Municipal Judge, and filed with the City Clerk.

**WE RECOMMEND** the city of Greenwood Municipal Division:

- A.1. Maintain a bond ledger.
  - 2. Issue prenumbered receipts slips for bond monies received and reconcile to amounts deposited.
  - 3. Request the police department to issue prenumbered bond forms for all bonds received and to account for the numerical sequence of receipt slips issued.
- B. Work with the police department to ensure adequate records are maintained to account for the numerical sequence and ultimate disposition of all traffic tickets and GOS forms issued.
- C. Stop assessing the additional \$1 fee for the youth court.

- D. Prepare monthly reports of court actions and file these with the city in accordance with state law.

**AUDITEE'S RESPONSE**

*The Court Clerk provided the following responses:*

A.1,A.2,  
A.3,  
B&C. Implemented.

D. This will be done effective July 31, 2000.

|   |
|---|
| <b>6. City of Independence Municipal Division</b> |
|---|

- A. As of July 1999, the municipal division's receivable listing indicated a total of \$846,179 owed to the municipal division. The municipal division has issued warrants for the cases where the defendant has failed to make payment and has not been granted time to pay. However, procedures to collect monies due the municipal division on delinquent accounts receivable are not adequate.

The municipal division should work with the police department to institute procedures to improve the collection of amounts owed the division, such as requiring the defendant to appear in court to justify reasons for non-payment, the issuance and serving of arrest warrants for those defendants who fail to appear, and writing off those accounts which are deemed to be uncollectible, after review and approval by the Municipal Judge.

- B. The following concerns were noted regarding court costs and fees:
- 1) POSTC fees were not assessed or collected in accordance with state law. Section 590.140.1, RSMo Cumulative Supp. 1999, requires this fee to be charged on all court cases for violations of municipal ordinances, except for cases dismissed by the court.
  - 2) CVC, and LET fees are not assessed on parking and improper registration tickets. Sections 595.045.1 and 590.140 RSMo Cumulative Supp. 1999, requires CVC and LET fees be charged on all court cases for violations of municipal ordinances, except for cases dismissed by the court.

- C. Neither the police department nor the municipal division accounts for the numerical sequence or ultimate disposition of all traffic tickets, GOS, animal control tickets, fire lane tickets or complaints issued. The police department maintains records accounting for tickets and forms assigned and issued; however, the police department does not always record the disposition of voided or lost tickets and forms not returned by officers.

Without a proper accounting of the numerical sequence and ultimate disposition of traffic tickets, GOS forms, animal control tickets, fire lane tickets, and complaints, the police department and the municipal division cannot be assured that all tickets and forms issued were properly submitted to the court. A record of the ultimate disposition of each traffic ticket, GOS form, animal control ticket, fire lane ticket, and complaint should be maintained to ensure all documents have been accounted for properly.

A similar condition was also noted in our prior report.

- D. The municipal division accepts cash, checks, and money orders for the payment of fines and court costs. The municipal division issues computerized cash register receipts slips for all monies collected. This information is downloaded into the court's computer system every night. Payments received are also manually posted to the individual case files. However in both instances, the receipt slip number is not posted, only the date paid and the amount are noted.

In addition, the manual check numbers for bonds applied or refunded are not posted to the individual case files or to the computer system, only the date paid out. The posting of receipt slip and bond check numbers to the individual case files and computer records is necessary to provide adequate supporting documentation and a proper audit trail.

**WE RECOMMEND** the city of Independence Municipal Division:

- A. Establish procedures to maximize the collection of fines and court costs owed the municipal division.
- B. Collect court costs and fees in accordance with state law.
- C. Work with the police department to account for the numerical sequence and ultimate disposition of all traffic tickets, GOS forms, animal control tickets, fire lane tickets, and complaints issued.
- D. Post the receipt slip number and bond check numbers to the individual case files and to the computer system.

**AUDITEE'S RESPONSE**

*The Presiding Municipal Judge and Court Clerk provided the following responses:*

- A. *The number quoted represents outstanding amounts due from 1983-1999. Our actual collection percentage has averaged approximately 90 percent and up.*

*The city manager and police department are currently working on establishing procedures for serving warrants issued for non-payment of fines and court costs owed to the municipal division.*

- B. *We agree and this will be implemented August 1, 2000.*

- C. *The city's Technology Services Department is working on a computer program to generate printouts of missing ticket numbers and the police department will be following up on these to determine the status of these tickets. This will be implemented September 1, 2000.*

- D. *The Technology Services Department is currently rewriting computer programs to allow this information to be input. Implementation is expected by February 1, 2001.*

|  |
|--|
| <b>7. City of Lake Lotawana Municipal Division</b> |
|--|

- A. Receipts are not deposited into the city treasury on a timely basis. The Court Clerk holds monies until after court is held for the month. In addition, monies received are not recorded or deposited if a payment is received at the TVB prior to the city attorney turning over the traffic ticket to the municipal division. To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, all monies should be recorded immediately upon receipt and deposits into the city treasury should be made daily or when accumulated receipts exceed \$100.

- B. Our review noted the following concerns related to bonds:

- 1) Instead of a bond ledger, the Court Clerk prepares reports titled "Listings of Bonds in Trust Paid Out" for cash bonds received. When a bond is disposed of, the Court Clerk marks through it on the listing. However, the clerk does not indicate the related case or the date of disbursement. This information is necessary to ensure proper accountability over open cases and to ensure monies held in trust are sufficient to meet liabilities.
- 2) The police department issues prenumbered bond forms for bonds and the details of these bonds are also recorded on a bond log. However, a scan of this log indicated there were numerous bond form numbers that were not recorded on

the log. In addition, the Court Clerk uses unnumbered bond forms for the bonds received at the court. To adequately account for bond monies and to ensure all bonds are turned over to the municipal division, prenumbered bond forms should be issued for all cash bonds received and the numerical sequence should be accounted for properly.

- C. Neither the police department nor the municipal division maintains a log to account for GOS assigned and issued and their ultimate disposition.

Without a proper accounting of the numerical sequence and ultimate disposition of GOS forms, the police department and the municipal division cannot be assured that all GOS forms were properly submitted to the court. A record of the ultimate disposition of each GOS form should be maintained to ensure all documents have been accounted for properly.

Conditions similar to A and B.2 were also noted in our prior report.

**WE RECOMMEND** the city of Lake Lotawana Municipal Division:

- A. Issue prenumbered receipt slips for all monies when received and deposit receipts in the city treasury intact daily or when accumulated receipts exceed \$100.
- B.1. Include the related case and date of disbursement on the "Listings of Bonds in Trust Paid Out."
- 2. Work with the police department to ensure the numerical sequence of bond forms is accounted for properly. In addition, prenumbered bond forms should be issued for the bonds posted with the Court Clerk.
- C. Work with the police department to ensure adequate records are maintained to account for the numerical sequence and ultimate disposition of all GOS forms assigned and issued.

### **AUDITEE'S RESPONSE**

*The Municipal Judge and Court Clerk provided the following responses:*

A&

B.1. *Implemented.*

B.2. *This will be discussed with the Police Chief by July 31, 2000. Prenumbered bond forms are now being issued by the Court Clerk.*

C. *This will be discussed with the Police Chief by July 31, 2000.*

**8.**

**City of Lake Tapawingo Municipal Division**

- A. The duties of receiving, recording, and depositing fine, court cost, and bond monies and disbursing bond monies collected by the municipal division are not adequately segregated. Currently, the Court Clerk performs all of these duties. To safeguard against possible loss or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. Since this is an office of one employee and proper segregation of duties cannot be achieved, at a minimum, there should be a documented independent comparison of receipt slips issued to amounts deposited.
- B. The following concerns were noted regarding court costs and fees:
  - 1) POSTC fees were not assessed or collected by the municipal division. Section 590.140.1, RSMo Cumulative Supp. 1999, requires this fee be charged on all court cases for violations of municipal ordinances, except for cases dismissed by the court.
  - 2) CVC and LET fees are not assessed on nonmoving violations. Sections 595.045.1 and 590.140 RSMo Cumulative Supp. 1999, require CVC and LET fees be charged on all court cases for violations of municipal ordinances, except for cases dismissed by the court.
- C. Bond monies received by the municipal division are deposited into the city's general account. The city of Lake Tapawingo does not maintain separate records of the bonds deposited, disbursed, and held in its general account. In addition, monthly listings of open items (liabilities) are not prepared. Adequate bond records and monthly listings of open items are necessary to ensure proper accountability over open cases and to ensure monies held in trust are sufficient to meet liabilities.
- D. Neither the police department nor the municipal division accounts for the numerical sequence or ultimate disposition of all traffic tickets and GOS issued. In addition, three of the sixty traffic tickets or GOS forms selected for testing could not be provided by the police department or the municipal division for our review.

Without a proper accounting of the numerical sequence and ultimate disposition of traffic tickets and GOS forms, the police department and the municipal division cannot be assured that all tickets and forms issued are properly submitted to the court. A record

of the ultimate disposition of each traffic ticket and GOS form should be maintained to ensure all documents have been accounted for properly.

- E. The municipal division does not file a monthly report of all cases heard in court with the city. Section 479.080.3, RSMo 1994, requires the Court Clerk to prepare a monthly listing of all cases heard in court, including all fines and court costs collected, to be verified by the Court Clerk or Municipal Judge, and filed with the City Clerk.

Conditions A and D were also noted in our prior report.

**WE RECOMMEND** the city of Lake Tapawingo Municipal Division:

- A. Establish a documented review of municipal division records by an independent person.
- B. Collect court costs and fees in accordance with state law.
- C. Prepare monthly listings of open items and reconcile these listings to monies held in trust by the city. In addition, separate records should be maintained of bonds received, disbursed, and held in the city of Lake Tapawingo's general account.
- D. Work with the police department to account for the numerical sequence and ultimate disposition of all traffic tickets and GOS forms issued.
- E. Prepare monthly reports of court actions and file these with the city in accordance with state law.

**AUDITEE'S RESPONSE**

*The Court Clerk provided the following responses:*

*A,B,  
D&E. Implemented.*

*C. We will discuss with the city the need to maintain records of bonds held by the city.*

|   |
|---|
| <b>9. City of Lee's Summit Municipal Division</b> |
|---|

- A. Monies received are not always receipted or transmitted to the city if a payment is received at the TVB prior to the police department or city attorney turning over the traffic ticket to the municipal division. For example, we noted monies received on August 2,

1999, which were not receipted or transmitted to the city until August 9, 1999. To adequately account for and safeguard receipts and reduce the risk of loss, theft, or misuse of funds, prenumbered receipt slips should be issued for all monies received immediately upon receipt and receipts should be transmitted to the city daily or when accumulated receipts exceed \$100.

- B. Neither the police department nor the municipal division maintains a log to account for general ordinance complaints (GOC) and animal control tickets issued and their ultimate disposition.

Without a proper accounting of the numerical sequence and ultimate disposition of all GOC forms and animal control tickets, the police department and the municipal division cannot be assured that all GOC forms and animal control tickets issued were properly submitted to the court. A record of the ultimate disposition of each GOC form and animal control ticket should be maintained to ensure all documents have been accounted for properly.

A similar condition was also noted in our prior report.

- C. The June 30, 1999 open items listing included bond receipts totaling \$3,750 which had been held in excess of one year. A review should be made of any bonds posted by persons who failed to make the required court appearance to determine if the bonds should be forfeited and turned over to the city treasury, as provided by Section 479.210, RSMo 1994. Bonds which cannot be forfeited and remain unclaimed should be turned over to the state's Unclaimed Property Section, as required by state law.

**WE RECOMMEND** the city of Lee's Summit Municipal Division:

- A. Issue prenumbered receipt slips for all monies when received and transmit receipts to the city daily or when accumulated receipts exceed \$100.
- B. Work with the police department to ensure adequate records are maintained to account for the numerical sequence and ultimate disposition of all GOC forms and animal control tickets issued.
- C. Forfeit any bonds for persons who failed to make the required court appearance, and attempt to locate those defendants with unclaimed bonds. Any bond monies remaining unclaimed should be remitted to the state in accordance with state law. Procedures should be established to routinely follow-up on cash bonds remaining on hand over a period of time.

**AUDITEE'S RESPONSE**

*The Court Administrator provided the following responses:*

- A. *We concur. We will issue manual receipt slips for payments on tickets not yet turned over by the police department or city attorney.*
- B. *Implemented.*
- C. *We concur. A review of the bond open items listing will be done annually between November 1 and November 30 each year.*

**10.**

**City of Lone Jack Municipal Division**

- A. The duties of receiving, recording, and depositing fine, court cost, and bond monies and disbursing bond monies collected by the municipal division are not adequately segregated. Currently, the Court Clerk performs all of these duties. To safeguard against possible loss or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. Since this is an office of one employee and proper segregation of duties cannot be achieved, at a minimum, there should be a documented independent comparison of receipt slips issued to amounts deposited. In addition, there should be a documented review of the bank reconciliations.

- B. Our review noted the following concerns related to bonds:

- 1) Monthly listings of open items (liabilities) are not prepared and reconciled to the available cash balance. The Court Clerk prepared an open items listing as of July 20, 1999. The balance in the municipal division's bond account exceeded the open items listing by \$1,058. An attempt should be made to determine the proper disposition of these excess monies. Monies which remain unclaimed should be turned over to the state's Unclaimed Property Section, as required by state law.

Monthly open items listings should be prepared and reconciled to the available cash balance to ensure proper accountability over open cases and to ensure monies held in trust are sufficient to meet liabilities.

- 2) The Court Clerk maintains a bond ledger only for bonds collected for and distributed to outside agencies. A bond ledger for all cash bonds indicating the related case, date and amount of receipt, date of disbursement, and ending balance is necessary to ensure proper accountability over open cases.

- 3) Bond forms used by the police department are prenumbered; however, the numerical sequence is not accounted for by either the police department or the court. In addition, the Court Clerk does not issue receipt slips to the police department when cash bonds are transmitted to the municipal division.

To ensure all bonds are turned over to the municipal division, the numerical sequence of bond forms should be accounted for properly. Further, to fully account for all monies received, prenumbered receipt slips should be issued for all monies received by the municipal division, including bonds collected and transmitted by the police department.

- C. Neither the police department nor the municipal division maintains a log to account for GOS assigned and issued and their ultimate disposition.

In addition, two separate logs of traffic tickets issued are maintained by the Court Clerk. The first log lists traffic tickets by ticket number and includes date issued, court date, and officer. The second log lists traffic tickets by court date and includes the defendant's name, the offense, and the ultimate disposition of each ticket. However for the fifty-five tickets tested, four were not included in the first log, the ultimate disposition of ten tickets was not included on the second log, and no information could be found on the second log for another four tickets.

Without a proper accounting of the numerical sequence and disposition of GOS forms and traffic tickets, the police department and the municipal division cannot be assured that all GOS forms and traffic tickets issued were properly submitted to the court. A record of the ultimate disposition of each GOS form and traffic ticket should be maintained to ensure all documents have been accounted for properly.

Similar conditions were also noted in our prior report.

**WE AGAIN RECOMMEND** the city of Lone Jack Municipal Division:

- A. Establish a documented review of municipal division records by an independent person.
- B.1. Prepare monthly listings of open items and reconcile the listing to monies held in trust by the court. The municipal division should attempt to identify to whom the \$1,058 belongs and disburse the funds appropriately. If this cannot be determined, the excess monies should be turned over to the state's Unclaimed Property Section in accordance with state law.
2. Maintain a complete bond ledger for all bonds received.

3. Work with the police department to ensure the numerical sequence of bond forms is accounted for properly. In addition, the court should issue prenumbered receipt slips to the police department when bonds are transmitted to the municipal division.
- C. Work with the police department to ensure adequate records are maintained to account for the numerical sequence and ultimate disposition of all GOS forms assigned and issued. In addition, the Court Clerk should maintain one comprehensive traffic ticket log.

**AUDITEE'S RESPONSE**

A,B,

&C. *The Court Clerk indicated that these recommendations will be implemented by December 31, 2000.*

|   |
|---|
| <b>11. City of Oak Grove Municipal Division</b> |
|---|

- A. The duties of receiving, recording, and depositing fine, court cost, and bond monies and disbursing bond monies collected by the municipal division are not adequately segregated. Currently, the Deputy Court Clerk performs all of these duties. To safeguard against possible loss or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties cannot be achieved, at a minimum, there should be a documented independent comparison of receipt slips issued to amounts deposited.
- B. The Jackson County Sheriff's department writes tickets and collects money from defendants for bonds related to municipal ordinance violations for the city of Oak Grove. The Court Clerk does not issue receipt slips to the Sheriff's department when cash bonds are transmitted to the court. To ensure all cash bonds are accounted for properly, prenumbered receipt slips should be issued for all cash bonds received, and the receipt slips issued should be reconciled to bank deposits.
- C. Prenumbered receipts slips are issued by the municipal division for all monies collected for fines and court costs. The issuance of the receipt slip automatically posts the receipt to the receipts, or cash control, ledger. Payments received are also posted to the individual case files. However, the receipt slip number is not posted to the case file, only the date paid and the amount are noted. The posting of the receipt slip number to the individual case file is necessary to provide adequate supporting documentation and to provide a proper audit trail.

- D. Neither the Sheriff's department nor the municipal division accounts for the numerical sequences of traffic tickets and GOS issued. The Sheriff's department maintains records accounting for tickets and forms assigned and issued; however, the Sheriff's department does not always record the disposition of voided or lost tickets and forms not returned by officers.

Without a proper accounting of the numerical sequence and disposition of traffic tickets and GOS forms, the Sheriff's department and the municipal division cannot be assured that all tickets and forms issued were properly submitted to the court. A record of the ultimate disposition of each traffic ticket and GOS form should be maintained to ensure all documents have been accounted for properly.

- E. We noted the following concerns related to the municipal division's TVB:
- 1) Although the municipal division operates a TVB, a court order has not been issued to formally establish the TVB. Supreme Court Rule No. 37.49 requires the municipal judge to establish the TVB by court order.
  - 2) The fine and cost schedule did not reflect amounts currently being assessed and collected. To ensure fines and costs are properly assessed and collected, the municipal division's schedule should be updated each time fines or court costs are changed.

Conditions similar to A, B, D and E.1 were also noted in our prior report.

**WE RECOMMEND** the city of Oak Grove Municipal Division:

- A. Adequately segregate the duties of receiving, recording, and transmitting court monies. At a minimum, there should be a documented supervisory review of the reconciliation between receipts and deposits.
- B. Issue prenumbered receipt slips to the Sheriff's department for all cash bonds received and reconcile receipt slips issued to bank deposits.
- C. Post the receipt slip number to the individual case files.
- D. Work with the Sheriff's department to account for the numerical sequence and ultimate disposition of all traffic tickets and GOS forms issued.
- E.1. Prepare a court order authorizing the establishment of a TVB.
  2. Update the fines and costs schedule in accordance with state law.

## **AUDITEE'S RESPONSE**

*The Municipal Judge and Court Clerk provided the following responses:*

- A. This will be implemented immediately. The city finance director will perform an independent review.*
- B. The city no longer uses the Jackson County Sheriff's department and now has established its own police department. Prenumbered receipt slips are issued for all cash bonds received.*

*C&E. Implemented.*

- D. We have started maintaining a log and will add the necessary information to implement this recommendation by September 30, 2000.*

|   |
|---|
| <b>12. City of Raytown Municipal Division</b> |
|---|

- A. Monies received are not always receipted or transmitted to the city if a payment is received at the TVB prior to the police department or city attorney turning over the traffic ticket to the municipal division. To adequately account for and safeguard receipts and reduce the risk of loss, theft, or misuse of funds, prenumbered receipt slips should be issued for all monies received immediately upon receipt and receipts should be transmitted to the city daily or when accumulated receipts exceed \$100.
- B. Neither the police department nor the municipal division accounts for the numerical sequence or ultimate disposition of all traffic tickets and GOS issued. In addition, the city's prosecuting attorney and the code enforcement department issue unnumbered complaint forms. The code enforcement department also issues unnumbered animal control tickets.

Without the use of prenumbered forms and a proper accounting of the numerical sequence and ultimate disposition of all traffic tickets, GOS forms, complaints, and animal control tickets, the police department, the code enforcement department, the prosecuting attorney, and the municipal division cannot be assured that all documents issued were properly submitted to the court. A record of the ultimate disposition of each traffic ticket, GOS form, complaint form, and animal control ticket should be maintained to ensure all documents have been accounted for properly.

- C. The Prosecuting Attorney does not initial or sign tickets to document his approval of an amendment or non-prosecution. To ensure proper disposition, the Prosecuting Attorney should initial or sign all tickets.

Conditions similar to A and B were also noted in our prior report.

**WE RECOMMEND** the city of Raytown Municipal Division:

- A. Issue prenumbered receipt slips for all monies when received and transmit receipts to the city daily or when accumulated receipts exceed \$100.
- B. Work with the police department and code enforcement department to ensure adequate records are maintained to account for the numerical sequence and ultimate disposition of all traffic tickets, GOS forms, animal control tickets, and complaint forms issued.
- C. Require the Prosecuting Attorney's initial or signature on all tickets.

**AUDITEE'S RESPONSE**

*The Municipal Judge and Court Clerk provided the following responses:*

- A. *If payments cannot be immediately entered on the computer system, the monies will be recorded on a log. This procedure will be effective immediately.*
- B. *This will be discussed immediately with the City Administrator and the police chief.*
- C. *This will be discussed immediately with the City Administrator.*

|            |   |
|------------|---|
| <b>13.</b> | <b>City of Sugar Creek Municipal Division</b> |
|------------|---|

- A. During our review of receipts, we noted the following:
  - 1) We noted numerous instances where receipt slips were not issued for fines, court costs, and bonds received at times other than during court. In addition, receipts according to the receipts ledger are not reconciled to the transmittals to the city and bank deposits. To adequately account for all receipts, a prenumbered receipt slip should be issued for all monies received and receipts according to the receipts ledger should be reconciled to transmittals to the city and bank deposits.

- 2) The court allows partial payments for fines and court costs. Partial payments are not transmitted until the case's scheduled court date. To adequately safeguard receipts and reduce the risk of loss or misuse of funds, partial payments should be transmitted to the city when received.
  - 3) Checks and money orders received for the payment of fines and court costs are not restrictively endorsed until after they are transmitted to the city. To reduce the risk of loss or misuse of funds, checks and money orders should be restrictively endorsed immediately upon receipt.
  - 4) Prenumbered receipts slips are issued by the municipal division for all monies collected. The issuance of the receipt slip automatically posts the receipt to the receipts, or cash control, ledger. Payments received are also posted to the individual case files. However, the receipt slip number is not posted to the case file, only the date paid and the amount are noted. The posting of the receipt slip number to the individual case file is necessary to provide adequate supporting documentation and to provide a proper audit trail.
- B. The police officers collect fines, court costs, and bonds for the municipal division when the Court Clerk is not on duty. The police officers are not bonded. Failure to properly bond all persons with access to assets exposes the municipal division and the city to risk of loss.
- C. The following concerns were noted regarding court costs and fees:
- 1) CVC, LET, and POSTC fees are assessed on dismissed cases and are not assessed on non-moving violations. Sections 595.045.1 and 590.140, RSMo Cumulative Supp. 1999, require these fees be charged on all court cases for violations of municipal ordinances, except for cases dismissed by the court.
  - 2) When CVC, LET, and POSTC fees are assessed on moving violations, court costs excluding CVC, LET, and POSTC fees are assessed at \$10. For nonmoving violations when CVC, LET, and POSTC fees are not assessed, court costs are assessed at \$12. Thus, court costs have not been applied consistently. Section 479.260, RSMo requires court cost to be established at an amount not to exceed \$12 per case to be charged on all municipal ordinance violations.
- D. Complaint forms received by the court for processing are not numbered until the Court Clerk assigns a number and enters them on her log of complaint forms received. Without the use of prenumbered forms and a proper accounting of the numerical sequence and ultimate disposition of all complaint forms, the police department and the municipal

division cannot be assured that all complaint forms issued are properly submitted to the court for processing.

Conditions similar to A.2, A.3, and C.1 were also noted in our prior report.

**WE RECOMMEND** the city of Sugar Creek Municipal Division:

- A.1. Issue prenumbered receipts slips for monies received and reconcile to amounts transmitted and deposited.
- 2. Transmit partial payment receipts to the city when received.
- 3. Restrictively endorse all checks and money orders immediately upon receipt.
- 4. Post the receipt slip number to the individual case files.
- B. Request the city obtain bond coverage for all persons handling municipal division monies.
- C. Collect court costs and fees in accordance with state law.
- D. Issue prenumbered complaint forms.

**AUDITEE'S RESPONSE**

*The Municipal Judge and Court Clerk provided the following responses:*

*A.1-4,*

*C&D. Implemented.*

*B. We will discuss with the city the obtaining of a blanket bond for all persons handling monies. This should be implemented September 1, 2000.*

This report is intended for the information of the management of the various municipal divisions of the Sixteenth Judicial Circuit and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on State Auditor's Prior Recommendations

SIXTEENTH JUDICIAL CIRCUIT  
MUNICIPAL DIVISIONS  
FOLLOW-UP ON STATE AUDITOR'S PRIOR RECOMMENDATIONS

This section reports follow-up action taken by the municipal divisions of the Sixteenth Judicial Circuit on recommendations made in the Management Advisory Report (MAR) of our report issued for the two years ended 1994 and 1993. The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR. Although the remaining unimplemented recommendations have not been repeated, the municipal divisions should consider implementing these recommendations.

1. City of Blue Springs Municipal Division

- A. The duties of receiving and depositing monies were not adequately segregated from the recording of transactions.
- B.
  - 1) The Court Clerk did not issue prenumbered receipt slips for restitution monies.
  - 2) Checks received for the payment of fines and court costs were not restrictively endorsed until after they were transmitted to the city.
- C.
  - 1) Bond forms issued by the police department for the receipt of cash bonds were not prenumbered.
  - 2) Bond dispositions were not always recorded in the bond ledger on a timely basis.
- D. Unclaimed bonds were not turned over to the state's Unclaimed Property Section. The court did not have adequate follow-up procedures for old outstanding checks.
- E. Neither the police department nor the court accounted for the numerical sequence or ultimate disposition of general ordinance summonses issued.
- F. The TVB accepted payments for offenses which were not on the list of offenses approved by the Municipal Judge for the TVB to accept payment.

Recommendations:

The city of Blue Springs Municipal Division:

- A. Adequately segregate the duties of receiving, recording, and transmitting court receipts. At a minimum, there should be a documented supervisory review of the reconciliation between receipts and transmittals to the city.

- B.1. Issue prenumbered receipt slips for all monies received and account for the numerical sequence.
- 2. Restrictively endorse all checks immediately upon receipt.
- C.1. Request the police department issue prenumbered bond forms for all bond monies received and account for the numerical sequence.
- 2. Record all bond activity in the bond ledger on a timely basis.
- D. Investigate outstanding bond refund checks and take proper follow-up action. Any bond monies remaining unclaimed should be forwarded to the state's Unclaimed Property Section in accordance with state law. Procedures should also be established to routinely investigate bonds remaining on hand for an extended period of time.
- E. Issue prenumbered complaint forms and work with the police department to ensure records are maintained to account for the numerical sequence and ultimate disposition of each summons and complaint form issued.
- F. Comply with the Municipal Judge's order and accept payment only for offenses listed on the TVB schedule.

Status:

B.1,  
C.2,  
& F. Implemented.

A, B.2,  
C.1, D,  
& E. Not implemented. See MAR No. 1.

2. City of Buckner Municipal Division

- A. Monthly listings of open items were not prepared for bonds held in trust by the city.
- B. Neither the police department nor the court accounted for the numerical sequence or ultimate disposition of summonses issued. In addition, complaint forms issued by the court were not prenumbered.
- C. Several instances were noted where court costs were charged on dismissed cases and on cases involving nonmoving traffic violations.

Recommendations:

The city of Buckner Municipal Division:

- A. Prepare monthly listings of open items and reconcile the listings to monies held in trust by the city.
- B. Issue prenumbered complaint forms and work with the police department to ensure records are maintained to account for the numerical sequence and ultimate disposition of each summons issued.
- C. Collect the \$5 CVC, the \$2 LET, the \$1 POSTC fees in accordance with state law.

Status:

Not implemented. See MAR No. 2.

3. City of Grain Valley Municipal Division

- A. The duties of receiving and depositing monies were not adequately segregated from the recording of transactions.
- B.
  - 1) The composition of receipt slips issued was not reconciled to the composition of bank deposits. Deposit slips were not always itemized and deposits were not indicated on the one-write receipt ledger used by the court clerk.
  - 2) Prenumbered receipt slips were not issued for some court monies received.
- C. Restitution payments received by the division were not always deposited into a bank account.
- D.
  - 1) Bond forms issued by the police department for the receipt of cash bonds were not prenumbered and the Court Clerk did not issue the police department a receipt slip for bond monies turned over to the division.
  - 2) Bond forms were not always issued for bonds received by the division or the police department.
  - 3) A monthly listing of open items was not prepared for cash bonds.
  - 4) The bond ledger maintained by the municipal division was not complete.
  - 5) The court did not have adequate follow-up procedures for old outstanding checks.

- E. The city did not remit the state's portion of CVC fees to the state Department of Revenue on a monthly basis.
- F. Neither the police department nor the court accounted for the numerical sequence or ultimate disposition of all summonses issued.
- G. The division did not charge the Independent Living Center (ILC) Fund fee on drug-related offenses and intoxication-related traffic offenses.
- H. Division personnel were unable to locate the case files for six cases.
- I. Cases were not always recorded on the court docket.

Recommendations:

The city of Grain Valley Municipal Division:

- A. Adequately segregate the duties of receiving, recording, and depositing court receipts. At a minimum, there should be a documented supervisory review of the reconciliations between receipts and deposits.
- B.1. Reconcile total cash, checks and money orders received to bank deposits. In addition, deposit slips should be itemized or the one-write ledger marked to indicate deposits.
  - 2. Issue prenumbered receipt slips for all monies received and properly account for the numerical sequence.
- C. Issue a receipt slip for all restitution payments received. In addition, all restitution payments should be deposited into a bank account. Subsequent disbursement of restitutions should be made by check.
- D.1.
  - & 2. Require prenumbered receipt slips or bond forms be issued for all bond monies received by the police department and the division and account for the numerical sequence.
  - 3. Prepare monthly listings of open items and reconcile the listings to monies held in the bond bank account.
  - 4. Account for all bonds received in the bond ledger.
  - 5. Investigate outstanding bond refund checks and take proper follow-up action. Any bond monies remaining unclaimed should be forwarded to the state's Unclaimed Property

Section in accordance with state law. Procedures should also be established to routinely investigate bonds remaining on hand for an extended period of time.

- E. Request the city pay CVC fees to the state monthly in accordance with state law.
- F. Work with the police department to ensure records are maintained to account for the numerical sequence and ultimate disposition of all summonses issued.
- G. Collect and remit the \$5 ILC fee in accordance with state law.
- H. Retain all case files in accordance with Supreme Court Rule 8.
- I. Ensure all cases are recorded on the court docket.

Status:

A,C,  
D.4,  
E&H. Implemented.

- B.1. Partially implemented. While this is being done for fines and costs, no such reconciliation is done for the bond receipts. See MAR No. 3.

B.2,D.1,  
D.2,D.5,  
& F. Not implemented. See MAR No. 3.

- D.3. Partially implemented. The Court Clerk does not retain her monthly listings. Upon our request, she prepared a listing as of June 28, 1999, which agreed to the division's book balance for that date. Although not repeated in the current MAR, the municipal division should still consider fully implementing this recommendation.
- G. Not implemented. The court started assessing this fee after the prior audit in response to our recommendation and continues to assess this fee. However, the statute was amended effective July 1, 1997, and this fee should no longer be charged on municipal cases.
- I. Not implemented. We noted two instances of cases not being recorded on the court docket during the current audit period. Although not repeated in the current MAR, the municipal division should still consider fully implementing this recommendation.

4. City of Grandview Municipal Division

- A. 1) Checks were not restrictively endorsed until the following day.

- 2) The payment register prepared by the court did not always indicate the correct method of payments received.
- B. 1) Restitution payments received by the division were not deposited into a bank account but held in cash by the Court Clerk until disbursed to the victim.
- 2) The restitution log was not complete or updated on a timely basis or periodically reconciled to amounts on hand.
- C. 1) Bonds were not deposited on a timely basis.
- 2) Blank checks for bond refunds were signed in advance by the Court Clerk before court.
- D. The city did not remit the state's portion of CVC fees to the state Department of Revenue on a monthly basis.

Recommendations:

The city of Grandview Municipal Division:

- A.1. Restrictively endorse all checks immediately upon receipt.
- 2. Correctly indicate the method of payment on the payment register and reconcile total cash, checks, and money orders received to deposit slips prepared for transmittal to the city.
- B.1. Deposit all restitution payments into a bank account. Subsequent disbursement of restitutions should be made by check.
- 2. Update the restitution log in a timely manner and periodically reconcile the log with amounts on hand.
- C.1. Pick up and deposit bonds from the police department daily or when accumulated receipts exceed \$100.
- 2. Prohibit the practice of signing checks in advance.
- D. Request the city pay CVC fees to the state monthly in accordance with state law.

Status:

- A.1 &
- B. Not implemented. See MAR No 4.

A.2,  
C&D. Implemented.

5. City of Greenwood Municipal Division

- A. Receipts were not deposited on a timely basis.
- B. CVC, LET and POSTC fees were not correctly charged.
- C. The division did not charge the ILC Fund fee on drug-related offenses and intoxication-related traffic offenses.
- D. The Court Clerk did not always forward required records of convictions on traffic offenses to the Missouri State Highway Patrol (MSHP).

Recommendations:

The city of Greenwood Municipal Division:

- A. Deposit receipts daily or when accumulated receipts exceed \$100.
- B. Collect the \$5 CVC, the \$2 LET, and the additional \$1 POSTC fees in accordance with state law.
- C. Collect and remit the \$5 ILC fee in accordance with state law.
- D. Forward records of convictions on traffic offenses to the MSHP as required by state law.

Status:

Implemented.

6. City of Independence Municipal Division

- A. Bond refund checks had been outstanding for more than one year.
- B. Neither the police department nor the court accounted for the numerical sequence or ultimate disposition of all traffic tickets or summons issued.

Recommendations:

The city of Independence Municipal Division:

- A. Investigate outstanding bond refund checks and take proper follow-up action. Any bond monies remaining unclaimed should be forwarded to the state's Unclaimed Property Section in accordance with state law. Procedures should also be established to routinely investigate bonds remaining on hand for an extended period of time.
- B. Work with the police department to ensure records are maintained to account for the numerical sequence and ultimate disposition of each traffic ticket and summons form issued.

Status:

- A. Implemented.
- B. Not implemented. See MAR No. 6.

7. City of Lake Lotawana Municipal Division

- A. The duties of receiving and transmitting monies were not adequately segregated from the recording of transactions.
- B.
  - 1) Checks received were not restrictively endorsed until after they were transmitted to the city.
  - 2) Receipts were not transmitted to the city on a timely basis.
- C.
  - 1) Cash bonds were not deposited into a bank account, but were held in cash by the Court Clerk until disposition of the case.
  - 2) The police department did not issue prenumbered receipt slips or bond forms for the receipt of cash bonds.
  - 3) A monthly listing of open items (liabilities) was not prepared for cash bonds.
- D. The division did not forward some required records of convictions on traffic offenses to the MSHP.

Recommendations:

The city of Lake Lotawana Municipal Division:

- A. Adequately segregate the duties of receiving, recording, and depositing court receipts. At a minimum, there should be a documented supervisory review of the reconciliation between receipts and transmittals to the city.

- B.1. Restrictively endorse all checks immediately upon receipt.
- 2. Transmit receipts to the city daily or when accumulated receipts exceed \$100.
- C.1. Open a bank account for the deposit of all cash bonds. Subsequent disbursement of bonds should be made by check.
- 2. Request the police department issue prenumbered receipt slips or bond forms for all bond monies received and account for the numerical sequence. In addition, receipt slips issued to the police department by the court for bond monies received should be reconciled to total receipt slips or bond forms.
- 3. Prepare monthly listings of open items and reconcile the listings to monies held in trust.
- D. Forward all required records of convictions on traffic offenses to the MSHP within ten days as required by state law.

Status:

A,B.1,  
C.1,C.3,  
& D. Implemented.

B.2  
&C.2. Not implemented. See MAR No. 7.

8. City of Lake Tapawingo Municipal Division

- A. The duties of receiving and depositing monies were not adequately segregated from the recording of transactions.
- B. Bond forms issued by the police department for the receipt of cash bonds were not prenumbered and the Court Clerk did not issue receipt slips to the police department when cash bonds were transmitted to the court.
- C. Neither the police department nor the court accounted for the numerical sequence or ultimate disposition of summonses issued.

Recommendations:

The city of Lake Tapawingo Municipal Division:

- A. Adequately segregate the duties of receiving, recording, and transmitting court receipts. At a minimum, there should be a documented supervisory review of the reconciliation between receipts and transmittals to the city.
- B. Request the police department to issue prenumbered bond forms for all bond monies received and account for the numerical sequence. In addition, the court clerk should issue prenumbered receipt slips to the police department for all cash bonds received and reconcile receipt slips issued to bank deposits.
- C. Work with the police department to ensure records are maintained to account for the numerical sequence and ultimate disposition of each summons issued.

Status:

A&C. Not implemented. See MAR No. 8.

- B. Partially implemented. The police department does assign a report number to the bond form, however, this numerical sequence is used for all types of police reports. The Court Clerk does issue receipt slips to the police department for cash bonds received. Although not repeated in the current MAR, the municipal division should still consider fully implementing this recommendation.

9. City of Lee's Summit Municipal Division

- A. The duties of receiving and transmitting monies were not adequately segregated from the recording of transactions.
- B. Receipt slips issued did not indicate the method of payments received.
- C. Adequate records of amounts due the division were not always maintained.
- D. The municipal judges did not sign the dockets after dispositions were recorded.
- E. Neither the police department nor the court accounted for the numerical sequence or ultimate disposition of all general ordinance complaints (GOC), animal control forms, and information/complaint forms issued. The GOC and information/complaint forms were not prenumbered.

Recommendations:

The city of Lee's Summit Municipal Division:

- A. Adequately segregate the duties of receiving, recording, and transmitting court receipts. At a minimum, there should be a documented supervisory review of the reconciliation between receipts and transmittals to the city.
- B. Indicate the method of payment on each receipt slip issued and reconcile total cash, checks, and money orders received to bank deposits.
- C. Maintain accurate records of amounts due. The municipal judges should periodically review these records.
- D. Require the municipal judges' signature on the court docket.
- E. Request the police department to issue prenumbered GOC and information/complaint forms and work with the police department to ensure records are maintained to account for the numerical sequence and ultimate disposition of each GOC, animal control form and information/complaint form issued.

Status:

- A-D. Implemented.
- E. Not implemented. Although the police department no longer issues unnumbered information/complaint forms and GOC forms are now prenumbered, the police department still does not account for each GOC and animal control form issued. See MAR No. 9.

10. City of Lone Jack Municipal Division

- A. The duties of receiving and depositing monies were not adequately segregated from the recording of transactions.
- B.
  - 1) Receipts were not deposited intact on a timely basis.
  - 2) Receipt slips issued did not always indicate the method of payments received.
- C. Neither the police department nor the court accounted for the numerical sequence or ultimate disposition of traffic tickets or summonses issued.
- D.
  - 1) A monthly listing of open items (liabilities) was not prepared for bonds held by the court.
  - 2) The disposition of bonds was not recorded in the bond ledger.

- 3) Prenumbered bond forms were not issued in numerical sequence and no follow-up was done on bond forms which had not been issued. In addition, the Court Clerk did not issue receipt slips to the police department when cash bonds were transmitted to the division.

Recommendations:

The city of Lone Jack Municipal Division:

- A. Adequately segregate the duties of receiving, recording, and depositing court receipts. At a minimum, there should be a documented supervisory review of the reconciliation between receipts and deposits and the bank reconciliations.
- B.1. Deposit receipts intact daily or when accumulated receipts exceed \$100.
  2. Indicate the method of payment on each receipt slip issued and reconcile total cash, checks, and money orders received to bank deposits.
- C. Work with the police department to ensure records are maintained to account for the numerical sequence and ultimate disposition of each traffic ticket and summons form issued.
- D.1. Prepare monthly listings of open items (liabilities) and reconcile the listings to monies held in trust by the court.
  2. Record all bond dispositions in the bond ledger.
  3. Work with the police department to ensure prenumbered bond forms are issued in order and account for their numerical sequence. In addition, the court should issue prenumbered receipt slips to the police department when bonds are transmitted to the municipal division.

Status:

A,C,  
& D. Not implemented. See MAR No. 10.

B. Implemented.

11. City of Oak Grove Municipal Division

- A. 1) Receipts were not deposited to the city treasury on a timely basis.

- 2) Checks received for the payment of fines and court costs were not restrictively endorsed until after they were deposited.
- B. 1) The duties of receiving and depositing bond monies were not adequately segregated from the recording of transactions.
- 2) The Court Clerk did not issue receipt slips to the Jackson County Sheriff's department when cash bonds were transmitted to the court.
- C. 1) Restitution payments received by the court were not deposited into a bank account and the court did not maintain a ledger showing amounts collected, disbursed and on hand.
- 2) Receipt slips issued by the court for restitution payments received were not prenumbered.
- D. Four instances were noted where the CVC fee was collected but was not transmitted to the Department of Revenue (DOR).
- E. Neither the police department nor the court accounted for the numerical sequence or ultimate disposition of summonses issued.
- F. A court order had not been issued to formally establish a TVB.

Recommendations:

The city of Oak Grove Municipal Division:

- A.1. Deposit receipts to the city treasury daily or when accumulated receipts exceed \$100.
- 2. Restrictively endorse all checks immediately upon receipt.
- B.1. Adequately segregate the duties of receiving, recording, and depositing bond monies. At a minimum, there should be a documented supervisory review of the reconciliation between receipts and deposits and the bank reconciliations.
- 2. Issue prenumbered receipt slips to the police department for all cash bonds received and reconcile receipt slips issued to bank deposits.
- C.1. Deposit restitution monies in a bank account and make all disbursements by check. In addition, a record should be maintained to account for restitutions received, disbursed, and on hand.

- 2. Issue prenumbered receipt slips for restitutions.
- D. Collect and remit CVC fees in accordance with state law.
- E. Work with the police department to ensure records are maintained to account for the numerical sequence and ultimate disposition of each summons issued.
- F. Issue a court order to formally establish the TVB.

Status:

A,C,  
& D. Implemented.

B,E,  
& F. Not implemented. See MAR No. 11.

12. City of Raytown Municipal Division

- A.
  - 1) The municipal division occasionally receives payments for fines and court costs prior to receiving the related traffic ticket from the police department but did not write a receipt slip, record, or transmit these payments until the ticket was received.
  - 2) Checks received for the payment of fines and court costs were not always restrictively endorsed until after they were transmitted to the city.
  - 3) Receipt slips issued by the court did not always indicate the correct method of payments received.
- B. Restitution payments received by the division were not deposited into a bank account, but were held by the Court Clerk until disbursed. The court did not maintain a ledger showing amounts collected, disbursed and on hand.
- C. Neither the police department nor the court accounted for the numerical sequence or ultimate disposition of all traffic tickets or summonses issued. Complaint forms issued by the police department were not prenumbered.

Recommendations:

The city of Raytown Municipal Division:

- A.1. Record all monies immediately upon receipt and transmit all receipts daily or when accumulated receipts exceed \$100.
- 2. Restrictively endorse all checks immediately upon receipt.
- 3. Correctly indicate the method of payment on each receipt slip issued and reconcile total cash, checks, and money orders received to transmittals to the city.
- B. Deposit restitution monies in a bank account and make all disbursements by check. In addition, a record should be maintained of restitutions received, disbursed, and on hand.
- C. Request the police department issue prenumbered complaint forms and work with the police department to ensure records are maintained to account for the numerical sequence and ultimate disposition of each traffic ticket, summons, and complaint form issued.

Status:

A.1

& C. Not implemented. See MAR No. 12.

A.2. Partially implemented. The court's cash register is programmed to restrictively endorse checks. However, the court is not currently able to use this feature because the court has switched banks and the cash register has not been programmed with the new bank account information. Although not repeated in the current MAR, the municipal division should still consider fully implementing this recommendation.

A.3

& B. Implemented.

13. City of Sugar Creek Municipal Division

- A. The duties of receiving and transmitting monies were not adequately segregated from the recording of transactions.
- B.
  - 1) Fines and court costs collected by the court on delinquent cases were not transmitted to the city on a timely basis.
  - 2) Checks received for the payment of fines and court costs were not restrictively endorsed until after they were transmitted to the city.
- C. All court costs were not charged on cases involving nonmoving traffic violations.

- D. The division did not charge the ILC Fund fee on drug-related offenses and intoxication-related traffic offenses.

Recommendations:

The city of Sugar Creek Municipal Division:

- A. Adequately segregate the duties of receiving, recording, and transmitting court receipts. At a minimum, there should be a documented supervisory review of the reconciliation between receipts and transmittals to the city.
- B.1. Transmit all receipts to the city daily or when accumulated receipts exceed \$100.
  - 2. Restrictively endorse all checks immediately upon receipt.
- C. Collect the \$5 CVC, the \$2 LET, and the additional \$1 POSTC fees in accordance with state law.
- D. Collect and remit the \$5 ILC fee in accordance with state law.

Status:

A&D. Implemented.

B&C. Not implemented. See MAR No. 13.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

SIXTEENTH JUDICIAL CIRCUIT  
MUNICIPAL DIVISIONS  
HISTORY, ORGANIZATION,  
AND STATISTICAL INFORMATION

Organization

The Sixteenth Judicial Circuit is composed of Jackson County. The Honorable Edith L. Messina serves as Presiding Judge. There are sixteen municipal divisions within the Sixteenth Judicial Circuit. The city of Kansas City Municipal Division is reported on separately. The city of Levasy Municipal Division handled no cases during the audit period and, therefore, is not included in this report. The city of Buckner Municipal Division handled cases for the city of Sibley Municipal Division during the audit period.

The municipal divisions are governed by Chapter 479, RSMo 1994, and by Supreme Court Rule No. 37 titled "Ordinance Violations and Traffic Violations Bureau (TVB)." Section 479.050, RSMo 1994, provides that each municipal division may establish a TVB in which fines and costs are collected at times other than during court and transmitted to the city treasury.

Operating Costs

The operating costs and court salaries of each municipal division are paid by the respective municipality.

Municipal Division Organization, Personnel, and Caseload Information

1. City of Blue Springs

Organization

The Court Clerk is responsible for recording transactions as well as handling collections and disbursements. The municipal division transmits fines and court costs directly to the City Finance Department for deposit in the city treasury daily. Bond monies are received and deposited into a municipal division bank account pending disposition. The municipal division occasionally collects restitution for victims. Court is held four times a month. A TVB has been established to receive payment of fines and court costs at times other than during court.

Personnel

Municipal Judge  
Court Clerk\*

John R. Jack  
Cathy Mann

\*Margaret Pennington served as Court Clerk prior to January 1999. Cathy Mann resigned effective January 7, 2000. Jenelle Fresh was appointed Court Clerk as of January 10, 2000.

### 2. City of Buckner

#### Organization

The City Clerk serves as the Court Clerk and is responsible for recording transactions as well as handling collections and disbursements. Fines, court costs, and bonds are deposited directly into the city treasury. Court is held at least once a month. During the audit period, the city of Buckner Municipal Division also handled the court activity for the city of Sibley, utilizing the same procedures as noted above. A TVB has been established to receive payment of fines and court costs at times other than during court.

GENERAL ASSEMBLY  
AND SUPPORTING FUNCTIONS

COMMITTEE ON LEGISLATIVE RESEARCH  
AND INTERIM COMMITTEES

THREE YEARS ENDED JUNE 30, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-80  
August 28, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

August 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**The following findings were noted as a result of an audit conducted by our office of the General Assembly and Supporting Functions – Committee on Legislative Research and Interim Committees.**

-----  
In response to concerns reported in the prior audit, in March 1994, the Committee on Legislative Research established a uniform personnel policy which, among other things, addressed the leave accruals of employees of both the Research and Oversight Divisions. However, that policy provides sick leave benefits which are more generous than those provided to other state employees. Currently, employees of both the Research and Oversight Divisions earn sick leave at a rate of 14 hours per month, rather than the 10 hours earned by most state employees. As a result of this situation, the committee is certifying accrued sick leave balances to the state retirement system to be counted as creditable service which are in excess of those allowed by law.

State law requires that for the purpose of calculating creditable service, the rate of accrual of sick leave for legislative employees must be the same as that promulgated by the personnel advisory board. Therefore, the 10 hour per month sick leave accrual which applies to other state employees must be used when certifying service of committee employees to the retirement system.

The uniform personnel policy adopted in March 1994, established a standard 35 hour work week (7 hours per day) for its employees. In contrast, employees of most other state agencies are required to work 40 hours per week.

Although an Attorney General's opinion concluded legislative employees are exempt from state requirements regarding hours of work and other personnel matters, it appears unreasonable for employees of this agency to be required to work fewer hours per week than is required of most other state as well as private employees.

During fiscal year 1997, the Committee on Legislative Research approved the purchase of computer equipment for the House of Representatives and the Senate from Statutory Revision Fund appropriations. The related expenditures totaled over \$54,000. The Director of the Research Division indicated that over \$36,000 of these expenditures were intended to offset personal service expenses incurred by the House of Representatives and the Senate for use of their EDP staff in assisting the committee in its computer operations; however, there was no documentation maintained to support the personal service expenses incurred by the legislature on behalf of the committee. In addition, there was no similar explanation for the remaining expenditures (approximately \$18,000) and the benefits to the committee or its operating divisions from these expenditures.

(over)

YELLOW SHEET

The Committee of Legislative Research has distributed significantly more free copies of the revised statutes and annual supplements to the various state agencies, officials and other government offices than the minimum required by law. In addition, the committee has not maintained documentation to support its pricing decisions regarding the statutes and supplements.

To keep costs to a minimum, the committee should review the number of free copies of the statutes and supplements it distributes and consider requesting the various agencies/officials reevaluate their use of the statutes and the number of copies requested. This is particularly true now that statutory information is available on the internet.

Fixed asset records of both the Research and Oversight Divisions are not maintained in a manner that allows balances to be reconciled from period to period. Fixed asset additions are not reconciled to equipment purchases, and the records do not consistently include all information required by state regulations.

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON  
THE FINANCIAL STATEMENTS**

Members of the General Assembly  
Jefferson City, Missouri 65102

We have audited the accompanying special-purpose financial statements of the various funds of the Committee on Legislative Research and Interim Committees as of and for the years ended June 30, 1999, 1998, and 1997, as identified in the table of contents. These special-purpose financial statements are the responsibility of the committee's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

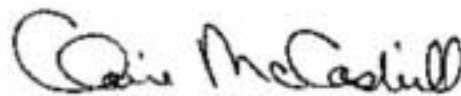

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash and investments of the Statutory Revision Fund; and the appropriations and expenditures of the various funds of the Committee on Legislative Research and Interim Committees and are not intended to be a complete presentation of the financial position and results of operations of the various funds of the committee.

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash and investments of the Statutory Revision Fund; and the appropriations and expenditures of the various funds of the Committee on Legislative Research and Interim Committees as of and for the years ended June 30, 1999, 1998, and 1997, in conformity with the comprehensive bases of accounting discussed in Note 1, which are bases of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated December 23, 1999, on our consideration of the committee's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

Our audit was made for the purpose of forming an opinion on the special-purpose financial statements, taken as a whole, that are referred to in the first paragraph. The accompanying financial information listed as supplementary data in the table of contents is presented for purposes of additional analysis. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated in all material respects in relation to the special-purpose financial statements taken as a whole.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the committee's management and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" being more prominent than the last name "McCaskill".

Claire McCaskill  
State Auditor

December 23, 1999 (fieldwork completion date)

**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

Members of the General Assembly  
Jefferson City, Missouri 65102

We have audited the special-purpose financial statements of the Committee on Legislative Research and Interim Committees as of and for the years ended June 30, 1999, 1998, and 1997, and have issued our report thereon dated December 23, 1999. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the special-purpose financial statements of the Committee on Legislative Research and Interim Committees are free of material misstatement, we performed tests of the committee's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no material instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain other instances of noncompliance which are presented in the accompanying Management Advisory Report.

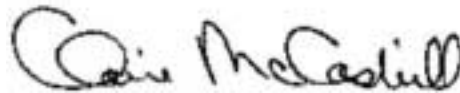

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of the Committee on Legislative Research and Interim Committees, we considered the committee's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the committee's ability to record, process, summarize, and report

financial data consistent with the assertions of management in the special-purpose financial statements.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses, and these matters are presented in the accompanying Management Advisory Report.

This report is intended for the information of the management of the Committee on Legislative Research and Interim Committees and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

December 23, 1999 (fieldwork completion date)

Notes to the Financial Statements  
and Supplementary Data

GENERAL ASSEMBLY AND SUPPORTING FUNCTIONS  
COMMITTEE ON LEGISLATIVE RESEARCH AND INTERIM COMMITTEES  
NOTES TO THE FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Notes to the Financial Statements:

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present only selected data for each fund of the Committee on Legislative Research and Interim Committees.

Receipts, disbursements, and changes in cash and investments are presented in Exhibit A for the Statutory Revision Fund. Appropriations from this fund are expended by or for the committee for restricted purposes.

Appropriations, presented in Exhibit B, are not separate accounting entities. They do not record the assets, liabilities, and equities of the related funds but are used only to account for and control the committee's expenditures from amounts appropriated by the General Assembly.

Expenditures presented for each appropriation may not reflect the total cost of the related activity. Other direct and indirect costs provided by the committee and other state agencies are not allocated to the applicable fund or program.

B. Basis of Accounting

The Statement of Receipts, Disbursements, and Changes in Cash and Investments, Exhibit A, prepared on the cash basis of accounting, presents amounts when they are received or disbursed.

The Statement of Appropriations and Expenditures, Exhibit B, is presented on the state's legal budgetary basis of accounting which recognizes expenditures on the encumbrance method. Expenditures include amounts payable or encumbered at June 30 and paid during the lapse period, which ends August 31 for regular appropriations and December 31 for capital improvement appropriations. The authority to expend appropriations ends with the close of the lapse period. However, the General Assembly may authorize reappropriation of the unexpended balances of capital improvement appropriations for the following year. The General Assembly also may authorize biennial capital improvement appropriations, for which the unexpended balances at June 30 of the first year of the two-year period are reappropriated for expenditure during the second year.

The cash basis of accounting and the budgetary basis of accounting differ from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Fiscal Authority and Responsibility

The committee administers transactions in the funds listed below. The state treasurer as fund custodian and the Office of Administration provide administrative control over fund resources within the authority prescribed by the General Assembly.

Statutory Revision Fund: This fund was established by Section 3.142, RSMo 1994, to receive funds paid for sales of the revised statutes or any supplements thereto, and funds received for any other service for which a fee is charged by the Committee on Legislative Research. Expenditures are authorized by appropriation of the General Assembly for enhancing or producing the revised statutes in a computer readable form, enhancing computerized legislative drafting, and such other purposes authorized by the Committee on Legislative Research. Any unexpended balance at the end of the biennium exceeding twice the cost of providing the annual supplement to the revised statutes shall be transferred to the General Revenue Fund-State.

General Revenue Fund-State: The committee receives appropriations from this fund and does not maintain a proprietary interest in the fund. Appropriations from the fund are used for the basic operation of the committee, including those programs and services that have no other funding source. These appropriations also may be used to initially fund, or to provide matching funds or support for, programs paid wholly or partially from other sources.

D. Employee Fringe Benefits

In addition to the social security system, employees are covered by the Missouri State Employees' Retirement System (MOSERS) (a noncontributory plan) and may participate in the state's health care, optional life insurance, deferred compensation, and cafeteria plans. The optional life insurance and cafeteria plans involve only employee contributions or payroll reductions. Also, the deferred compensation plan involves employee payroll deferrals and a monthly state matching contribution for each participating employee.

The state's required contributions for employee fringe benefits are paid from the same funds as the related payrolls. Those contributions are for MOSERS (retirement, basic life insurance, and long-term disability benefits); social security and medicare taxes; health care premiums; and the deferred compensation plan match.

Transfers related to salaries are not appropriated by agency and thus are not presented in the financial statement at Exhibit B.

2. Cash

The balance of the Statutory Revision Fund is pooled with other state funds and invested by the state treasurer.

3. Reconciliation of Total Disbursements to Appropriated Expenditures

Disbursements on Exhibit A reconcile to appropriated expenditures of the Statutory Revision Fund on Exhibit B as follows:

|                                 |    | Year Ended June 30, |                |                |
|---------------------------------|----|---------------------|----------------|----------------|
|                                 |    | 1999                | 1998           | 1997           |
| DISBURSEMENTS PER EXHIBIT A     | \$ | 232,997             | 322,892        | 207,066        |
| Lapsed period expenditures:     |    |                     |                |                |
| 1999                            |    | 1,169               | -0-            | -0-            |
| 1998                            |    | (2,829)             | 2,829          | -0-            |
| 1997                            |    | -0-                 | (67,390)       | 67,390         |
| 1996                            |    | -0-                 | -0-            | (1,831)        |
| Accounts payable, June 30, 1998 |    | (4,213)             | 4,213          | -0-            |
| Transfers                       |    | (41,858)            | (41,591)       | (9905)         |
| EXPENDITURES PER EXHIBIT B      | \$ | <u>185,266</u>      | <u>220,953</u> | <u>262,720</u> |

4. Transfers to General Revenue Fund-State

The transfer amounts for the years ended June 30, 1999 and 1998, represent the Statutory Revision Fund's proportional share of fiscal year 1997, 1996, and 1995 refunds required by Article X, Section 18 of the Missouri Constitution and personal service benefit transfers. The transfer amount for the year ended June 30, 1997, represents personal service benefit transfers.

Note to the Supplementary Data:

5. General Fixed Assets

General fixed assets, which are recorded as expenditures when acquired, are capitalized at cost in the General Fixed Assets Account Group and are not depreciated.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Current Recommendations

GENERAL ASSEMBLY AND SUPPORTING FUNCTIONS  
COMMITTEE ON LEGISLATIVE RESEARCH AND INTERIM COMMITTEES  
SUMMARY OF FINDINGS

1. Distribution and Sale of Statutes (pages 20-22)

The Committee on Legislative Research has distributed significantly more free copies of the revised statutes and annual supplements to the various state agencies, court officials and other government offices than the minimum required by law. In addition, the committee has not maintained documentation to support its pricing decisions regarding the statutes and supplements.

2. Statutory Revision Fund Expenditures (page 22-24)

The Committee on Legislative Research approved the purchase of computer equipment for the legislature from Statutory Revision Fund appropriations. It was not clear whether these purchases related to the operations and activities of the committee.

3. Inventory Records and Procedures (pages 24-25)

Some inventory items were not recorded on the Research Division's inventory listing, and the Research Division does not perform periodic reconciliations of the perpetual inventory records. In addition, duties related to inventory maintenance and the sale of statutes are not properly segregated.

4. Fixed Asset Records and Procedures (pages 25-27)

Fixed asset records of both the Research and Oversight Divisions are not maintained in a manner that allows balances to be reconciled from period to period. Fixed asset additions are not reconciled to equipment purchases, and the records do not consistently include all information required by state regulations.

5. Personnel Policies and Procedures (pages 27-28)

The committee's leave accrual policy provides sick leave benefits to its employees which are more generous than those provided other state employees, resulting in accrued sick leave being certified to the state retirement system in excess of that allowed by law. The committee's employees work a 35 hour work week, instead of the standard 40 hour work week required of most other state employees. In addition, the Research Division does not appear to be in compliance with its stated performance appraisal policy.

GENERAL ASSEMBLY AND SUPPORTING FUNCTIONS  
COMMITTEE ON LEGISLATIVE RESEARCH AND INTERIM COMMITTEES  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S CURRENT RECOMMENDATIONS

We have audited the special-purpose financial statements of the Committee on Legislative Research and Interim Committees as of and for the years ended June 30, 1999, 1998, and 1997, and have issued our report thereon dated December 23, 1999.

The following Management Advisory Report presents our findings and recommendations arising from our audit of the committee's special-purpose financial statements. During our audit, we also identified certain management practices which we believe could be improved. Our audit was not designed or intended to be a detailed study of every system, procedure, and transaction. Accordingly, the findings presented in the following report should not be considered as all-inclusive of areas where improvements may be needed.

|           |  |
|-----------|--|
| <b>1.</b> | <b>Distribution and Sale of Statutes</b> |
|-----------|--|

- A. Section 3.130, RSMo 1994, states that the Committee on Legislative Research shall provide a specified number of copies of the revised statutes and supplements without charge to each state department/agency, each member of the General Assembly, various court officials, and other government offices. Our review noted that a significantly larger number of free copies were distributed than the minimum required by state law.

We noted the committee has distributed more than 5,000 free copies of the revised statutes and annual supplements to the various government agencies and officials. Section 3.130, RSMo 1994, provides that each state department, and each division and bureau thereof, is to receive one copy at no charge. However, we noted the following number of free copies of the 1999 cumulative supplement were distributed to the following departments/agencies:

| <u>Department/Agency</u>           | <u>Number of Free<br/>Copies Received</u> |
|------------------------------------|---|
| Attorney General                   | 244                                       |
| Department of Corrections          | 266                                       |
| Department of Public Safety        | 265                                       |
| State Public Defender              | 347                                       |
| Department of Economic Development | 200                                       |
| Department of Mental Health        | 136                                       |
| Department of Revenue              | 147                                       |
| Department of Social Services      | 183                                       |

A lesser, but significant, number of free copies were also distributed to various other agencies/officials.

To keep costs to a minimum, the committee should review the number of free copies of the statutes and supplements it distributes and consider requesting the various agencies/officials reevaluate their use of the statutes and the number of copies requested. This is particularly true now that statutory information is available on the internet.

- B. Section 3.140, RSMo 1994, states that the committee may sell such publications at a price to be determined by the committee, taking into account the cost of printing, binding, and delivery. In addition, it was determined in the case, Deaton vs. Kidd, 932 S.W. 2d 804 (Mo. App. W.D. 1996), that the sales price may include a profit.

There was no documentation maintained to support how the committee determined the price for the 1994 Revised Statutes or subsequent supplements. The Research Division currently sells a set of 1994 Revised Statutes for \$250; however, it appears the cost of printing, binding, and delivering a set of statutes to a customer is less than \$40. The differences between the sales prices and comparable costs to produce the subsequent supplements were also substantial. While agency officials indicated other costs were considered in setting the prices, there was no documentation maintained to reflect the costs considered or any profit realized.

The committee should maintain adequate documentation to support the committee's pricing decisions. Those pricing decisions should be based on the approximate costs to produce the publications and a reasonable profit, if any.

**WE RECOMMEND** the Committee on Legislative Research:

- A. Review the number of free copies of the statutes and supplements it distributes and consider requesting the various agencies/officials reevaluate their use of the statutes and the number of copies requested.
- B. Maintain adequate supporting documentation to identify the costs and any profit factor considered in setting the prices of the statutes, supplements, and other items sold.

#### **AUDITEE'S RESPONSE**

- A. *The Research Division acknowledges that a large number of free copies of the revised statutes are distributed to state agencies, but does not necessarily agree that a larger number is distributed than the minimum required by law.*

*Section 3.130, RSMo, provides that copies of the Revised Statutes of Missouri be furnished without charge to "each state department, and each division and bureau thereof" (emphasis added).*

*The Missouri Supreme Court has apparently never defined the word "bureau" directly in any case. In the case of Cohen v. Poelke, 520 S.W. 2d 50 (Mo. 1975), the court discusses the word "bureau" in connection with the application of the "Sunshine Law (chapter 610, RSMo)" and seems to equate that term with any governmental entity at all levels.*

*Black's Law Dictionary defines "bureau" as "an office for the transaction of business. Name given to the several departments of the executive or administrative branch of government, or their division".*

*Without a clear limiting definition of "bureau" in the statutes, it would appear that the legislature intended the statutes be made available to all levels of state government which need them.*

*The committee already requests that departments and agencies evaluate their use of the statutes and the number of copies they request. Each year a letter is sent to all state departments asking that when making requests for free copies of the statutes, the department "limit the number of requested copies to those employees who use the statutes on a regular basis (for example attorneys, paralegals, auditors, etc.)". It has been a long held belief that each state agency has a better knowledge than the revisor of statutes as to which entity under their jurisdiction has a need for the statutes. Agencies with a large number of attorneys such as the offices of the Attorney General or State Public Defender, both cited in your report, would clearly need several copies of the statutes in order to better perform their duties.*

*The Committee on Legislative Research feels that it is fully in compliance with the law in furnishing copies of the statutes to each state "bureau" and that such distribution of the statutes contributes significantly to the efficient operation of state government and the provision of essential state services to the citizens of this state. In compliance with the Auditor's suggestion, the committee will intensify its emphasis to each department that free copies of the statutes should only be requested for those employees that need and use them on a regular basis.*

- B. Section 3.142, RSMo, provides that the committee on legislative research shall determine "...any fees or charges for the statutes...". Documentation for setting the price for the statutes is kept in the meeting minutes of the committee. In the future, the committee will maintain more supportive documentation of pricing decisions as suggested by the Auditor.*

|  |
|--|
| <b>2. Statutory Revision Fund Expenditures</b> |
|--|

During fiscal year 1997, the Committee on Legislative Research approved the purchase of computer equipment for the House of Representatives and the Senate from Statutory

Revision Fund appropriations. The related expenditures totaled over \$54,000. The Director of the Research Division indicated that over \$36,000 of these expenditures were intended to offset personal service expenses incurred by the House of Representatives and the Senate for use of their EDP staff in assisting the committee in its computer operations; however, there was no documentation maintained to support the personal service expenses incurred by the legislature on behalf of the committee. In addition, there was no similar explanation for the remaining expenditures (approximately \$18,000) and the benefits to the committee or its operating divisions from these expenditures.

Section 3.142, RSMo 1994, provides that monies of the Statutory Revision Fund are to be used for enhancing or producing the revised statutes in electronic form, enhancing the electronic processing of computerized legislative drafting, and such other purposes authorized by the Committee on Legislative Research.

Although the committee has some discretion in approving expenditures from the Statutory Revision Fund other than those specifically cited in the statutes, it appears such expenditures should relate directly to its operations and activities.

**WE RECOMMEND** the Committee on Legislative Research ensure expenditures from the Statutory Revision Fund are for the purposes specifically identified in the statutes or for other purposes directly related to its operations and activities.

### **AUDITEE'S RESPONSE**

*Section 3.142, RSMo, provides that the monies in the Statutory Revision Fund may be spent for "enhancing or producing the electronic form of the revised statutes in computer readable form, enhancing the electronic processing of computerized legislative drafting and such other purposes authorized by the committee on legislative research". There are no words of limitation in this clause. Under normal rules of statutory construction, it is assumed that if the legislative body does not specifically limit a grant of power, as by use of such phrases as "such other similar purposes" or "such other purpose of a like or similar nature", then the legislative body intended that no such limitation apply.*

*The expenditures questioned related to assistance by the House and Senate computer staff given to the Joint Committee on Legislative Research to accomplish several computer related goals and objectives. Without the assistance of House and Senate staff, those goals and objectives of the committee would not have been realized. Thus, the expenditures directly related to legislative research operations and activities and were for purposes specifically identified in the statutes.*

*The House computer staff spent many hours and lent the use of their equipment to allow the Joint Committee to produce the revised statutes in electronic form and to be able to provide the proof of the statutes to publishers in "camera-ready" format. The Senate computer staff spent many hours and provided equipment for the development and operation of the legislative information system that the Joint Committee provided for several years.*

*The Auditor's report states that there was no "explanation for expenditures (approximately \$18,000) and the benefits to the committee or its operating division from these expenditures". The minute records for 1996 contain a memo dated September 4, 1996, from the director of the Senate and the director of the House computer operations requesting equipment purchases totaling \$18,275.91. The memo specifies that this equipment would be used to increase the capacity for the House web site, the Senate web site and the General Assembly web site and to update the bill tracking system. Although it may not be clear from the memo, these improvements to the computer operations of the General Assembly directly benefited the Joint Committee. Specific configuration and type of equipment are listed in the memo, along with a listing of vendors, from which bids were received. The minutes of the Joint Committee for September 10, 1996, show that the Joint Committee approved the purchase of this equipment. In the future, the Committee will attempt to show, through supportive documentation, how like expenditures directly benefit the Joint Committee, its operations and activities.*

### **3. Inventory Records and Procedures**

- A. During a review of the Research Division's inventory items (i.e. statutes, supplements, computer disks with statutory data), we noted some 1996 supplements and various disks were not recorded on the inventory listing.

All items maintained at the warehouse as inventory items to be sold should be included on the inventory listing. If the inventory items are obsolete, unusable, or have been overstocked, they should be disposed of properly. By not including all inventoriable items in the inventory records, an undetected loss of such items could easily occur.

- B. The Research Division does not perform periodic reconciliations of the perpetual inventory balances, accounting for all inventory purchases, sales and free copies issued. We attempted to perform such a reconciliation and noted various differences. An explanation for these differences could not be provided. Such reconciliations are necessary to account for all inventory items, statute issuances, and receipts from sales. Undetected and unresolved differences could possibly result in the loss of revenues or misuse of inventory items.

- C. The Research Division is responsible for collecting the receipts for the sale of statutes, supplements, and session laws. We noted that one individual collects the receipts, records the receipts on the receipts log, prepares the documents indicating the receipt of payments, and prepares the revenue transmittals. This individual also tracks and maintains inventory, and prepares inventory for shipment.

To safeguard against possible loss or misuse of assets, the duties related to the sale of statutes should be segregated to the extent practical. Proper segregation could be achieved by designating some duties to an independent employee who does not have any responsibility in regards to statute sales and inventory functions. If proper

segregation of duties cannot be achieved, at a minimum, there should be a documented independent review of the statute sales and inventory records and procedures.

Conditions similar to parts B. and C. were also noted in our prior report.

**WE RECOMMEND** the Research Division:

- A. Include all items that are stored at the warehouse that are intended to be sold on the inventory listing. For those items which are deemed obsolete or unusable, the division should dispose of them properly and retain supporting documentation of the dispositions.
- B. Ensure the inventory balances are reconciled periodically, accounting for all inventory purchases, sales and free copies issued. Any differences noted should be investigated and resolved on a timely basis.
- C. Ensure the duties related to the sale of statutes and maintenance of inventory records are properly segregated to provide reasonable assurance that all transactions are accounted for properly.

**AUDITEE'S RESPONSE**

- A. *The Research Division currently maintains records after disposal of items. Items intended to be sold that are stored at the warehouse are included on the inventory listing. Adjustment entries in inventory listing will be made when items are deemed unsalable. Current records will be updated to comply with the Auditor's recommendation within the next 120 days.*
- B. *The Research Division has initiated plans to modify the computer program that tracks the sale and distribution of statutes. Anticipated completion of the modification is within the next 150 days. Inventory balances will be reconciled within that time period and then reconciled on a periodic basis to comply with the Auditor's recommendation.*
- C. *The duties related to the sale of statutes and maintenance of inventory records have been segregated to comply with the Auditor's recommendation.*

|  |
|--|
| <b>4. Fixed Asset Records and Procedures</b> |
|--|

At June 30, 1999, the Research Division and Oversight Division were responsible for approximately \$454,000 and \$177,000 in general fixed assets, respectively. Our review of the fixed asset records and procedures of these divisions disclosed the following concerns:

- A. The fixed asset records were not maintained in a manner which allows balances to be reconciled from period to period.

1. The Research Division prepared separate listings of fixed asset additions and dispositions for each year; however, none of the listings were totaled. In addition, total fixed asset balances were not calculated and maintained as of each fiscal year end.

We also noted fixed asset dispositions totaling approximately \$56,000 which had never been recorded on the fixed asset listing when purchased. These errors caused the asset listing to be understated prior to disposition and would have been detected if the Research Division had reconciled its fixed asset records from year to year.

2. The Oversight Division did not prepare separate listings of additions and dispositions; rather all entries were recorded directly in their general fixed asset records. In addition, total fixed asset balances were not calculated and maintained as of each fiscal year end.

By not maintaining the fixed asset records in a proper manner, there is an increased possibility for the misappropriation or theft of assets.

- B. Neither division performs reconciliations of fixed asset additions to equipment purchases per the Statewide Accounting for Missouri (SAM) system's expenditure reports. Performing these reconciliations would provide assurance that fixed asset items purchased are properly capitalized and controlled. In addition, any differences should be investigated and resolved on a timely basis.
- C. The fixed asset records for both divisions did not consistently indicate the purchase costs and/or acquisition dates for all fixed assets. Such information is necessary to better account for property and to provide complete and accurate fixed asset records.

**WE RECOMMEND:**

The Research Division and Oversight Division:

- A. Maintain fixed asset records in a manner that allows balances to be reconciled from period to period (ie. beginning balance, plus additions, less dispositions, equals the ending balance). In addition, each division should prepare a statement of changes in fixed assets annually.
- B. Perform reconciliations of fixed asset additions to equipment purchases per the Statewide Accounting for Missouri (SAM) system reports.
- C. Ensure the fixed asset records include all information required by state regulations.

## **AUDITEE'S RESPONSE**

*The Committee believes its records related to fixed assets are sufficient and provide the necessary information to locate and account for all assets. In fact, the State Auditor found no instances of missing or misappropriated assets during the course of the audit. However, recommendations of the Auditor will be implemented within 120 days. In doing so, acquisition costs will be estimated for some assets, most of which are at least ten years old.*

|   |
|---|
| <b>5. Personnel Policies and Procedures</b> |
|---|

- A. In response to concerns reported in the prior audit, in March 1994, the Committee on Legislative Research established a uniform personnel policy which, among other things, addressed the leave accruals of employees of both the Research and Oversight Divisions. However, that policy provides sick leave benefits which are more generous than those provided to other state employees. Currently, employees of both the Research and Oversight Divisions earn sick leave at a rate of 14 hours per month, rather than the 10 hours earned by most state employees. As a result of this situation, the committee is certifying accrued sick leave balances to the state retirement system to be counted as creditable service which are in excess of those allowed by law.

Section 104.601, RSMo 1994, states that for the purpose of calculating creditable service, the rate of accrual of sick leave for legislative employees must be the same as that promulgated by the personnel advisory board. Therefore, the 10 hour per month sick leave accrual which applies to other state employees must be used when certifying service of committee employees to the retirement system.

- B. The uniform personnel policy adopted in March 1994, established a standard 35 hour work week (7 hours per day) for its employees. In contrast, employees of most other state agencies are required to work 40 hours per week.

Attorney General's Opinion No. 46, 1980 to Bradford, concluded legislative employees are exempt from the requirements of Section 36.350, RSMo 1994, regarding hours of work and other personnel matters. However, it appears unreasonable for employees of this agency to be required to work fewer hours per week than is required of most other state as well as private employees.

- C. The Research Division has an informal policy requiring supervisors to prepare annual employee performance appraisals prior to determining raises. We noted 3 out of 8 personnel files reviewed did not contain any employee appraisals. As a result, it appears the Research Division is not in compliance with its informal policy regarding the preparation of annual appraisals.

Periodic performance appraisals can lead to improvement in employee performance and are useful in evaluating employees for salary increases, promotions, and other

personnel actions. Performance appraisals may also be used as documentation and support in the decision to terminate an employee.

Conditions A. and B. were also noted in our prior report.

**WE RECOMMEND:**

The Committee on Legislative Research:

- A. Amend its leave policy so employees earn 10 hours of sick leave per month, like other state employees. In addition, the committee should ensure hours of accumulated sick leave certified to the retirement system are consistent with state law.
- B. Require its employees work 40 hours per week as is required of most other state employees.

The Research Division:

- C. The Research Division ensure employee performance appraisals are prepared annually in accordance with stated policy. In addition, the division should consider establishing a written performance appraisal policy to be included in the personnel manual.

**AUDITEE'S RESPONSE**

*The Committee on Legislative Research has historically adopted personnel policies for its employees that take into account the conditions and nature of legislative work. While the legislature is in session, employees are required to be "on call" at all times and work as many hours as necessary to keep pace with legislative demands. These expectations frequently create interference with personal responsibilities. The work environment of the legislature should not be compared to that of other state agencies simply because time constraints often place extraordinary pressure on staff. The Attorney General in 1980 clearly recognized the difference as referenced in the State Auditor's finding. However, the Committee appreciates the Auditor's comments and has implemented sick leave benefits that conform to those of other state agencies. Additionally, a standard eight-hour workday policy has been established for employees of the Committee effective August 1, 2000.*

This report is intended for the information of the management of the Committee on Legislative Research and Interim Committees and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on State Auditor's Prior Recommendations

GENERAL ASSEMBLY AND SUPPORTING FUNCTIONS  
COMMITTEE ON LEGISLATIVE RESEARCH AND INTERIM COMMITTEES  
FOLLOW-UP ON STATE AUDITOR'S PRIOR RECOMMENDATIONS

This section reports follow-up action taken by the Committee on Legislative Research and Interim Committees on recommendations made in the Management Advisory Report (MAR) of our report issued for the three years ended June 30, 1993. The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR. Although the remaining unimplemented recommendations have not been repeated, the committee should consider implementing these recommendations.

1. Leave Policies and Payroll Documentation

The Research Division's written policy covering monthly leave accruals was not consistently followed and had not been updated to reflect current practices. The Oversight Division had no written policy, but sometimes used parts of the policy adopted by the House of Representatives. The leave accrual practices varied between the two divisions and were different from those used by other state agencies.

Recommendation:

The Committee on Legislative Research establish a uniform written leave accrual policy for the two divisions. The committee should consider the leave accruals granted other state employees when establishing such a policy. In addition, the committee should consider requiring of their employees the same 40 hour work week which is required of other state employees. Finally, hours of accumulated sick leave certified to the retirement system should be consistent with state law.

Status:

Partially implemented. The Committee on Legislative Research established a uniform leave policy in March 1994; however, the committee still does not follow the leave accrual policies used by other state agencies in some respects and the committee's employees earn more generous sick leave benefits than those provided to other state employees. This has resulted in the committee certifying accrued sick leave balances to the state retirement system which exceed that authorized by law. In addition, the committee's employees continue to work a 35 hour week. See MAR No. 5.

2. Oversight Division Personnel Policies and Procedures

- A. The former Oversight Division Director allowed employees to take administrative leave with pay each year during the March session break. This leave was not charged against the employees' annual leave or compensatory time balances.

- B. Oversight Division employees were granted "retroactive" annual and sick leave in apparent violation of Article III, Section 39 of the Missouri Constitution.
- C. The Oversight Division did not have a formal written policy covering leave accruals and other payroll procedures and allowed employees to accumulate excess annual leave indefinitely.
- D. Some Oversight Division employee time records were not reviewed by a supervisor and some employees failed to sign their time records.
- E. The Oversight Division's normal working week is 35 hours; however, the time records prepared by the division's employees reflect a 40 hour week.

Recommendation:

The Oversight Division:

- A. Discontinue granting additional administrative leave.
- B. Refrain from granting retroactive leave accruals.
- C. Establish a written payroll and leave policy and ensure all employees adhere to the policy without exception.
- D. Require all time records be signed by employees and reviewed and approved by a supervisor.
- E. Require all employee time records to reflect actual hours worked.

Status:

A-E. Implemented.

3. Former Oversight Division Director's Use of State Resources

- A. Some phone calls the former Oversight Division Director charged to the state appeared to be personal in nature. The division did not maintain a log of calling card calls and had no policy regarding the use of telephone calling cards.
- B. The former Oversight Division Director prepared and approved her own expense accounts. The expense accounts were not reviewed by a member of the Subcommittee on Legislative Oversight.
- C. The former Oversight Division Director took one or more framed pictures with her to her new place of employment with state government. No documentation could be

located indicating this action was approved by the Committee on Legislative Research.

- D. The former Oversight Division Director had in her office two antique tables and two stacking tables, which were repaired at state expense. The former director apparently took the tables with her upon termination.

Recommendation:

The Oversight Division:

- A. Request reimbursement from the former Division Director for any personal calls charged to the state. The division should also require the use of phone call logs. The logs should be reviewed by a member of the Oversight Subcommittee for propriety.
- B. Require a member of the Oversight Subcommittee to review and approve the Division Director's expense accounts.
- C. Discontinue the practice of allowing employees to take state property for personal use. The former director should return the pictures to the Oversight Division offices.
- D. Request reimbursement of \$370 from the former Division Director for repairs made to personal property at state expense.

Status:

A, C,  
&D. Partially implemented. We noted no additional property items being taken for personal use during the current audit period; however, it does not appear the past problems noted were resolved or corrected. The current Director of the Oversight Division indicated these issues were to be handled by the former chairman, who is now deceased. We were unable to determine how these matters were resolved, and there was no documentation indicating any reimbursements or property items were received from the former director. In addition, the division still does not require the use of phone logs. Although not repeated in the current MAR, our recommendations remain as stated above.

B. Implemented.

4. Oversight Division Expenditures and Procurement Procedures

- A. The Oversight Division did not always solicit bids nor retain documentation of bids obtained. The division did not have a written policy concerning bid requirements.

- B. The Oversight Division purchased a telecopier costing \$8,633 in fiscal year 1992. Besides not being bid, this appeared to be an unnecessary purchase since only the equipment's fax capability was being used.
- C. The Oversight Division maintained a supply of postage stamps for use in its daily operations.
  - 1) In September 1993, \$4,709 in postage stamps was on hand, far more than what appeared necessary.
  - 2) Employees were allowed to purchase stamps from the supply on hand.
- D. The Oversight Division adopted the Office of Administration educational reimbursement policy; however, the policy was not followed. Reimbursements for books and reimbursements to temporary employees were noted, contrary to that policy.
- E. Various expenditures were noted which were charged to the wrong object code.

Recommendation:

The Oversight Division:

- A. Establish a written purchasing policy. The division should obtain bids for all large purchases, retain documentation of bids, and utilize state contracts when possible.
- B. Ensure equipment is needed before it is purchased.
- C.1. Investigate the feasibility of using the Research Division postage meter and discontinue purchasing and holding large quantities of stamps.
  - 2. Discontinue the practice of selling stamps to employees.
- D. Adhere to the educational reimbursement policy and refrain from reimbursing employees for textbooks. In addition, the division should discontinue providing educational reimbursements to temporary employees.
- E. Ensure the correct object codes are used when recording expenditures.

Status:

A-E. Implemented.

5. Oversight Division Compliance

- A. Three of four audits conducted were not completed within one year as required. No evidence of time extensions or monthly progress reports were noted.
- B. The division had not performed follow-up reviews related to agency audits as required by Section 23.190, RSMo.

Recommendation:

The Oversight Division:

- A. Complete audit reports within one year after the date of the resolution, or obtain extensions as required by statute. In addition, the Oversight Division should prepare monthly progress reports for review by the Oversight Subcommittee.
- B. Perform follow up reviews as required by Section 23.190, RSMo.

Status:

These recommendations were substantially implemented during the current audit period; however, in October 1997, the Missouri Supreme Court, in State Auditor v. Joint Committee on Legislative Research, 956 S.W. 2<sup>nd</sup> 228 (Mo. banc), concluded that the Oversight Division did not have the authority to conduct audits and the related statutes were unconstitutional. As a result, these recommendations are no longer applicable.

6. Research Division Personnel Policies and Procedures

- A. Research Division employees were allowed to accumulate annual leave in excess of the limits established by the personnel policy.
- B. Employees were allowed to accumulate compensatory time in excess of the limit established by the personnel policy. In addition, one employee was paid for his accumulated compensatory time, contrary to the policy.
- C. When terminating employees were paid for their accumulated leave, the leave record was adjusted upward to compensate for the shortened work week.
- D. Research Division employee time records were not always signed by the employees.

Recommendation:

The Research Division:

- A. Amend the leave policy to indicate when excess annual leave will lapse, and then adhere to the policy.
- B. Follow established policies on the accrual and payment of compensatory time.
- C. Pay terminating employees only for accrued leave actually earned per the leave records.
- D. Require all employee time records to be signed by the employee.

Status:

A-D. Implemented.

7. Research Division Inventory Records and Statute Sales

- A. The Research Division did not reconcile the records of statute sales and free copies issued with the perpetual inventory record.
- B. Free copies of the statutes were provided to private entities, resulting in the cost of the statutes not being recouped as required by Section 3.140, RSMo.
- C. The record of free statutes was incomplete and inaccurate.
- D. One of the private carriers that delivered statutes was also employed as the division's warehouse worker, maintaining the inventory records and serving as custodian of the statute inventory. The invoices from the carriers were not complete and could not be reconciled to the inventory records. In addition, the duties of accounting for statutes and contracting for their delivery were incompatible.

Recommendation:

The Research Division:

- A. Reconcile records of sales and free copies with issuances recorded in the perpetual inventory records.
- B. Comply with Section 3.140, RSMo, and discontinue providing free copies of the statutes to private entities.
- C. Ensure all invoices are properly accounted for and are recorded in the appropriate

inventory ledger. In addition, the division should ensure that all inventory records are complete and accurate.

- D. Improve inventory records and delivery invoices or discontinue the practice of allowing division employees to also contract with the division to deliver copies of the statutes.

Status:

- A. Not implemented. Proper inventory reconciliations are still not performed. See MAR No. 3.
- B. Implemented.
- C&D. Partially implemented. Invoices appear to have been properly accounted for and an independent, commercial carrier is used to deliver statutes; however, we again noted problems with the inventory records and procedures. See MAR No. 3.

8. Computerized Statute Sales

In October 1992, the Committee on Legislative Research entered into a contract with a company to provide statutes in an electronic format. The company marketed the statutes for profit and then paid a share of the profit to the legislature.

- A. The Research Division did not perform a formal cost/benefit study to determine if this service should be provided by the state rather than through a contractual arrangement.
- B. Sales reports indicated all sales were made at a discounted price, resulting in lost revenue to the state. The Research Division did not review the sale reports to determine if the proper amount was charged and the state's share was appropriate.

Recommendation:

The Research Division:

- A. Perform detailed cost/benefit studies as necessary to maximize efficiency and state revenues.
- B. Ensure sales of and royalties from computerized statute sales are proper and comply with the contract.

Status:

In 1996, in a lawsuit related to this contract, the Missouri Court of Appeals, Western District, upheld a lower court ruling which determined that the committee's practice of awarding a contract without competitive bids to a private company to market the statutes in an electronic format violated the Sunshine Law. Because of this decision, this practice and the related contract were subsequently terminated. Therefore, these recommendations are no longer applicable.

9. Research Division Expenditure and Procurement Procedures

- A. The Research Division did not establish formal written policies regarding the use of statewide contracts and other standard purchasing procedures.
- B. The Research Division did not always solicit bids nor retain documentation of bids obtained.
- C. The Research Division was not able to locate related expenditure documentation for some fixed asset additions.

Recommendation:

The Research Division:

- A. Establish a formal written policy regarding purchasing procedures.
- B. Obtain bids for all large purchases and retain documentation of bids.
- C. Maintain adequate supporting documentation for all purchases.

Status:

A-C. Implemented.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

GENERAL ASSEMBLY AND SUPPORTING FUNCTIONS  
COMMITTEE ON LEGISLATIVE RESEARCH AND INTERIM COMMITTEES  
HISTORY, ORGANIZATION, AND STATISTICAL INFORMATION

The Committee on Legislative Research of the Missouri General Assembly was created as a permanent standing committee by an act of the Sixty-Second General Assembly.

The 1945 Constitution gave the research committee constitutional standing and provided in Article III, Section 35, that the committee shall be a constitutional body of the General Assembly.

The committee is composed of twenty members of the General Assembly, ten appointed by the speaker of the House of Representatives and ten appointed by the president pro tem of the Senate. No major party may have more than six members appointed as members from either house.

The Research Division is directed by statute to maintain a legislative reference library; provide a research staff to make studies at the request of members of the General Assembly; and, upon written request of assembly members, to draft or to aid in drafting bills, resolutions, memorials, and amendments. The division is also responsible for revising and publishing the statutes at least every ten years and for publication of statutory supplements in years between revisions.

In 1984, House Bill No. 1087 was passed which required the committee to organize an Oversight Division to prepare fiscal notes and to conduct management and program audits of state agencies as directed by the General Assembly or the Committee on Legislative Research. Senate Bill No. 354, passed in 1985, provided for the employment of a director of research to assume administration of the necessary activities of the committee and a director to supervise the operation of the Oversight Division. In 1989, House Bill 493 was passed which gave the Oversight Division the responsibility to issue an annual report of state bonds or other evidences of indebtedness of state agencies and of entities of the state given authority by law to incur indebtedness.

The Oversight Division performed the duties as described until 1997, when the Supreme Court determined that it was unconstitutional for the Oversight Division to perform audits. Since that time, the division has discontinued performing audits and now conducts program reviews.

The overall and primary purpose of the committee and its staff is to aid the individual legislator by furnishing technical assistance and factual information. The committee is not a policy-making group and it formulates no legislative program. Its staff renders only such technical and professional assistance as may be requested by the General Assembly or any of its members.

The Joint Committee on Correctional Institutions and Problems is authorized by provisions of Chapter 21, RSMo 1994, and is comprised of six members of the Senate

and six members of the House of Representatives. The Senate members are appointed by the president pro tem and the House members are appointed by the speaker. Its powers and duties are prescribed in Sections 21.455 through 21.465, RSMo.

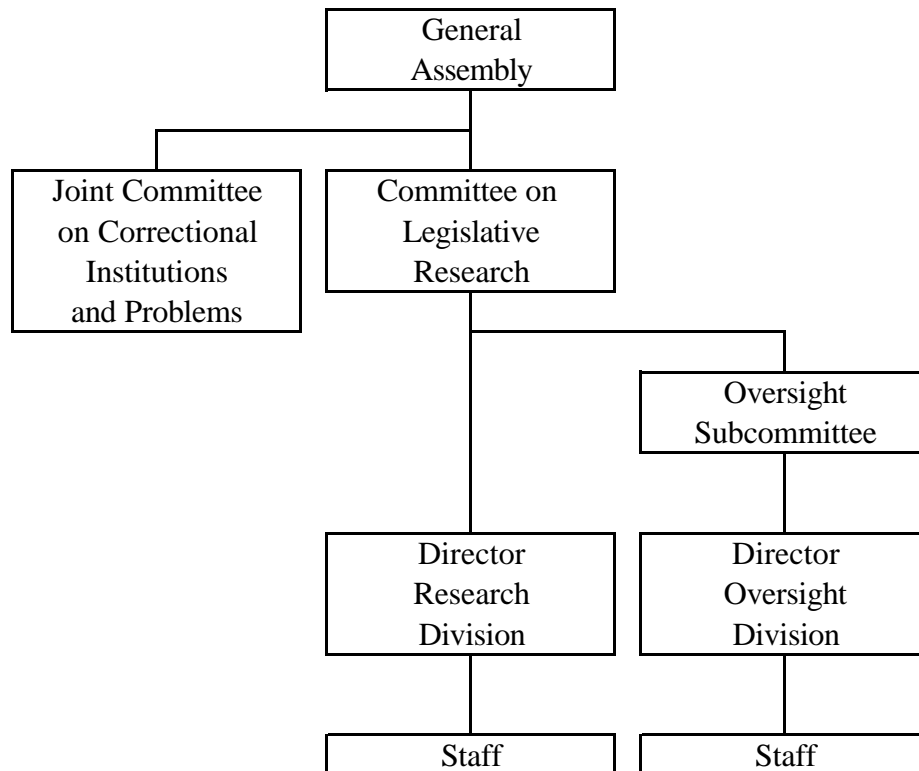

The Missouri Commission on Local Government was authorized by provisions of Chapter 17, RSMo 1994; however, this entire chapter was repealed in 1995. The committee continued to receive appropriations for this commission during the current audit period, but did not expend any funds from these appropriations. The committee has since requested the appropriations be discontinued.

The staff of the Research Division prepares and maintains accounting records for the three interim committees with approval of expenditures by the committees' chairman.

At June 30, 1999, the staff of the Committee on Legislative Research consisted of forty-seven employees, thirty employed in the Research Division and seventeen employed in the Oversight Division. Donald Prost and Jeanne Jarrett served as directors of the Research and Oversight Divisions, respectively, during the audit period and they continue in those positions.

An organization chart for the Committee on Legislative Research and Interim Committees follows.

GENERAL ASSEMBLY AND SUPPORTING FUNCTIONS  
COMMITTEE ON LEGISLATIVE RESEARCH AND INTERIM COMMITTEES  
ORGANIZATION CHART  
JUNE 30, 1999

\* \* \* \* \*

MACON COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-79  
August 23, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

August 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Macon, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of Macon County included additional areas of county operations, as well as the elected county officials. The following concerns were noted as part of the audit:

- The majority of Senate Bill 40 Board Fund expenditures are to not-for-profit corporations to provide various services to the handicapped. One not-for-profit corporation was assigned the administrative responsibility of monitoring other purchase of service providers; however, there was little indication that information provided by the other not-for-profit corporations was reviewed by this not-for-profit corporation or relayed to the Senate Bill 40 Board. In addition, the Senate Bill 40 Board is not monitoring the administrative or client services contract requirements of this not-for-profit corporation.
- The Senate Bill 40 Board may be incurring unnecessary expenses to a not-for-profit corporation. The 1999 administrative services contract provided for a monthly payment of \$833 (\$10,000 annually) to the not-for-profit corporation. However, the Senate Bill 40 Board paid additional office expenditures totaling approximately \$6,880. The office is used on a full-time basis by the administrative services not-for-profit corporation.
- Bid documentation was not always retained for various equipment purchases made by the county during the audit period. The County Commission indicated they solicit bids for equipment, but do not always maintain the bid documentation. Examples of items purchased, for which bid documentation could not be found included playground surfacing costing \$4,999, a trailer costing \$22,584, and two used dump trucks costing \$20,000 and \$27,000, respectively.

(over)

YELLOW SHEET

- The county prepared a schedule of expenditures of federal awards (SEFA) for the years ended December 31, 1999 and 1998; however, the information presented for some of the programs did not agree with the county's expenditure records. Without an accurate schedule, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.

Also included in the audit are recommendations to the Circuit Clerk to investigate the status of cases for which monies are being held and distribute those monies for those accounts for which the balance due appears unlikely to be collected in the future. The audit also questioned some expenses of the Law Library Fund and the handling of reimbursements to the Circuit Clerk Interest Fund.

**Copies of the audit are available upon request.**

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Macon County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Macon County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Macon County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Macon County.

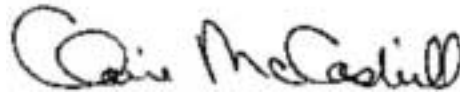

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Macon County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated May 2, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the management of Macon County, Missouri, and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

Claire McCaskill  
State Auditor

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Macon County, Missouri

We have audited the special-purpose financial statements of various funds of Macon County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 2, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

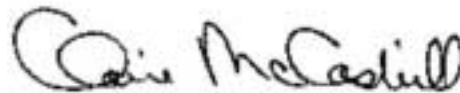

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Macon County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance which are described in the accompanying Management Advisory Report.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Macon County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material

weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting which are described in the accompanying Management Advisory Report.

This report is intended for the information of the management of Macon County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

## Notes to the Financial Statements

MACON COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Macon County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, the Health Center Board, Senate Bill 40 Board, or the Enhanced 911 Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt a formal budget for the Parent Education Fund for the year ended December 31, 1999.

Warrants issued were in excess of budgeted amounts for the Circuit Clerk Interest Fund and the Associate Circuit Interest Fund in 1998. Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show

receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statement for the year ended December 31, 1999, did not include the Parents Education Program Fund.

## 2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has adopted such a policy.

The investment policy provides that only legal investments will be purchased from financial institutions approved by the Missouri Division of Finance. Macon County's investment preferences are U.S. Treasuries and Securities and collateralized time and demand deposits.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The county's, Enhanced 911's and Senate Bill 40's deposits at December 31, 1999 and 1998, were entirely covered by federal depository insurance or by collateral securities held by the county's holding bank in the county's and respective board's name.

The health center's deposits at December 31, 1999, were entirely covered by federal depository insurance or by collateral securities held by the county's holding bank in the health center's name.

Of the health center's bank balance at December 31, 1998, \$262,700 was covered by federal depository insurance or by collateral securities held by the health center's holding bank in the health center's name, and \$5,800 was uninsured and uncollateralized.

To protect the safety of county deposits, Section 110.020, RSMo 1994, requires depositories to pledge collateral securities to secure county deposits not insured by the Federal Deposit Insurance Corporation.

N/A - Not applicable

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

MACON COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Macon County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Amounts for the Donation of Federal Surplus Personal Property (CFDA number 39.003) represent the estimated fair market value of property at the time of receipt.

The direct program amounts for Immunization Grants (CFDA number 93.268) represent the original acquisition cost of varicella (chicken pox) vaccine provided to the Health Center through the Centers for Disease Control of the U.S. Department of Health and Human Services. Of the pass-through amounts for that program, \$30,213 and \$17,473 represent the original acquisition cost of other vaccines purchased by the Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), \$360 and \$454 represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$1,798 and \$1,588 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants, the Preventive Health and Health Services Block Grant, and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

2. Subrecipients

Of the federal expenditures presented in the schedule, the county provided \$970 to a subrecipient under the Child Care and Development Block Grant (CFDA number 93.575) during the year ended December 31, 1999.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Macon County, Missouri

Compliance

We have audited the compliance of Macon County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the years ended December 31, 1999 and 1998. The county's major federal program is identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal program is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

In our opinion, Macon County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the years ended December 31, 1999 and 1998. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance with

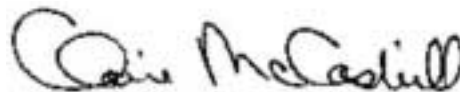

OMB Circular A-133 and which is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

#### Internal Control Over Compliance

The management of Macon County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information of the management of Macon County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

May 2, 2000 (fieldwork completion date)

## **Section II - Financial Statement Findings**

This section includes no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

## **Section III - Federal Award Findings and Questioned Costs**

This section includes the audit finding that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

**99-1**

### **Schedule of Expenditures of Federal Awards**

|                        |  |
|------------------------|--|
| Federal Grantor:       | U.S. Department of Transportation                      |
| Pass- Through Grantor: | State Highway and Transportation Commission            |
| Federal CFDA Number:   | 20.205   |
| Program Title:         | Highway Planning and Construction                      |
| Pass-Through Entity    |  |
| Identifying Number:    | BRO-061(15), BRO-061(17), BRO-061(18) &<br>BRO-061(21) |
| Award Years:           | 1999 and 1998  |
| Questioned Costs:      | Not Applicable   |

Section .310(b) of Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, requires the auditee to prepare a schedule of expenditures of federal awards (SEFA) for the period covered by the auditee's financial statements. The county is required to submit the SEFA to the State Auditor's Office as part of the annual budget.

The county prepared a SEFA for the years ended December 31, 1999 and 1998; however, the information presented for some of the programs did not agree with the county's expenditure records.

Without an accurate SEFA, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.

**WE RECOMMEND** the County Commission prepare a complete and accurate schedule of expenditures of federal awards to submit to the State Auditor's Office as part of the annual budget.

### **AUDITEE'S RESPONSE**

*The County Commission indicated they will make every attempt to implement the recommendation with the schedule submitted for calendar year 2000. Most of the programs were accurately presented; however, there were timing differences associated with some of the amounts reported.*

*The County Commission stated they will talk to health center personnel about the information submitted for health programs; however, they have no way to verify that information.*

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

MACON COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

MACON COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Findings

MACON COUNTY, MISSOURI  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S FINDINGS

We have audited the special-purpose financial statements of various funds of Macon County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 2, 2000. We also have audited the compliance of Macon County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 2, 2000.

We also have reviewed the operations of elected officials with funds other than those presented in the special-purpose financial statements. As applicable, the objectives of this review were to:

1. Determine the internal controls established over the transactions of the various county officials.
2. Review and evaluate certain other management practices for efficiency and effectiveness.
3. Review certain management practices and financial information for compliance with applicable constitutional, statutory, or contractual provisions.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed accounting and bank records and other pertinent documents and interviewed various personnel of the county officials.

As part of our review, we assessed the controls of the various county officials to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Because the Macon County Samaritan Memorial Board of Trustees is audited and separately reported on by other independent auditors, the related fund is not presented in the special-purpose financial statements. However, we reviewed that audit report and the substantiating working papers for the year ended December 31, 1999.

Our review was limited to the specific matters described in the preceding paragraphs and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our findings arising from our review of the elected county officials and the county board referred to above. In addition, this report includes findings other than those, if any, reported in the accompanying Schedule of Findings and Questioned

Costs. These findings resulted from our audit of the special-purpose financial statements of Macon County but do not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*.

|                                |
|--------------------------------|
| <b>1. Senate Bill 40 Board</b> |
|--------------------------------|

The majority of Senate Bill 40 (SB 40) Board Fund expenditures are to not-for-profit (NFP) corporations for purchase of service (POS) contracts. The NFP corporations provide various services to the handicapped residents of Macon County. In addition, the SB 40 Board contracts for administrative services with one of these NFP corporations. During our review of Senate Bill 40 Board contracts and related expenditures and procedures we noted the following:

- A. As part of the administrative services contract, the NFP corporation was assigned the responsibility of monitoring other POS providers. We noted financial information and audit reports were received for all but one of the POS providers as provided by the contracts; however, we saw little indication that the information provided had been reviewed by the administrative services NFP corporation or relayed to the SB 40 Board. In addition, there is no evidence the SB 40 Board is monitoring the administrative or client services contract requirements of the NFP corporation providing oversight. There were several instances in which the SB 40 Board was unable to answer our questions and had to rely upon the NFP administrative liaison.

Without adequate monitoring, the SB 40 Board cannot ensure the reasonableness and propriety of expenditures or compliance with contract terms and statutory provisions.

- B. The 1999 administrative services contract provided for a monthly payment of \$833 (\$10,000 annually) to the NFP corporation. During 1999 we noted additional expenditures of approximately \$1,500 for rent, \$980 for utilities, \$1,000 for telephone, \$1,100 for a copier, and \$2,300 for office supplies.

The office is utilized on a full-time basis by the administrative services NFP corporation which also lists this location as a satellite office in its 1999 annual report. Office space and related expenditures are not provided for in the contract with the NFP corporation. The percentage of office expenditures has not been allocated between the NFP corporation and the SB 40 Board. The NFP corporation has not reimbursed the SB 40 Board for any office expenses, although they did pay the telephone bill from September through December.

By providing office space and utilities to the NFP which are not required by the contract, the SB 40 Board may be incurring unnecessary expenses.

- C. The 1999 rental agreement binding the SB 40 Board to pay monthly rent of \$125 and half of office utilities was signed by the administrative services liaison (an employee

of the NFP corporation) rather than a SB 40 Board member. There does not appear to be any provision in the contract with the NFP corporation which allows the NFP corporation to enter into contracts which bind the SB 40 Board.

**WE RECOMMEND** the Senate Bill 40 Board:

- A. Ensure that adequate documentation is received from all service providers and monitored for compliance with statutory and contract provisions.
- B. Determine whether incurring the cost of office space and related expenditures for the NFP corporation in addition to the monthly fee is a reasonable and prudent use of funds. If the SB 40 Board decides to continue this practice, the contract should be amended to specify the office expenditures each party is responsible for.
- C. Approve and sign all contracts.

**AUDITEE'S RESPONSE** the Senate Bill 40 Board President indicated:

- A. *The SB40 Board will monitor the contracts and document the monitoring in the minutes.*
- B. *The SB 40 Board will discuss this situation at the next monthly meeting.*
- C. *The recommendation will be implemented immediately.*

|---|
| <b>2. Procurement Policies and Procedures</b> |
|---|

Bid documentation was not always retained for various equipment purchases made by the county during the audit period. The County Commission indicated they solicit bids for equipment, but do not always maintain the bid documentation. Examples of items purchased, for which bid documentation could not be found are as follows:

|                      |          |
|----------------------|----------|
| Playground Surfacing | \$ 4,999 |
| Used Dump Truck      | 20,000   |
| Used Dump Truck      | 27,000   |
| Trailer              | 22,584   |

Section 50.660, RSMo 1999, requires the advertisement for bids for all purchases of \$4,500 or more from any one person, firm or corporation during any period of ninety days.

Bidding procedures for major purchases provide a framework for economical management of county resources and help assure the county that it receives fair value by contracting with the lowest and best bidder. In addition, competitive bidding assures all parties are given an equal opportunity to participate in county business.

Documentation of bids should include, at a minimum, a listing of vendors from whom bids were requested, a copy of the request proposal, newspaper, publication notices, bids received,

the basis of justification for awarding bids, and documentation of all discussions with vendors.

**WE RECOMMEND** the County Commission solicit bids for all items in accordance with state law. Documentation of bids solicited and justification for bid awards should be maintained by the County Clerk. If bids cannot be obtained and sole source procurement is necessary, the County Commission minutes should reflect the circumstances.

### **AUDITEE'S RESPONSE**

*The County Commission indicated they will document the solicitation of bids on used equipment. They stated the trailer had been bid although the bid file could not be located. The County Commission will talk with the County Park Board and inform them that they are required to solicit bids. This recommendation will be implemented immediately.*

**3.**

### **Circuit Clerk**

The Circuit Clerk's office collects court costs for each case filed. Additionally, amounts may be collected for court ordered restitution, bonds, prisoner board bills, and other items. These amounts are held on deposit by the clerk in the fee account until the full amount is received. The monies are then distributed to the applicable parties. Many of the funds on deposit are for old cases which contain amounts insufficient to cover all costs charged in the case.

The Circuit Clerk's December 31, 1999, open items listing included approximately 390 entries totaling \$118,000. Approximately \$49,000 of this balance is related to cases originating prior to 1997 with some cases dating as far back as 1983. If it appears unlikely the remaining amounts owed will be collected, a court order should be obtained to allow the balance to be prorated among the applicable recipients. Attorney General's Opinion No. 26, 1973 to Osborne, concluded that "If, when liability has been established, accrued costs cannot be collected in full, charges not having any statutory priority or not allocated under court rule should be prorated."

Old inactive case balances increase the volume of cases which must be monitored and controlled, putting a greater burden on limited personnel resources. In addition, failure to prorate available monies when it is unlikely the balance will be collected deprives the state, county, and other parties of the use of those monies.

**WE RECOMMEND** the Circuit Clerk investigate the status of cases for which monies are being held in the fee account and distribute those monies for those accounts which appear unlikely to be collected in the future.

## **AUDITEE'S RESPONSE**

*The Circuit Clerk is implementing this recommendation. As of July 1, 2000, there was a balance of approximately \$28,800 related to cases originating prior to 1997. A bond in the amount of \$10,500 is included in this balance which cannot be distributed because the case has yet to be determined.*

|                                |
|--------------------------------|
| <b>4. Restricted Use Funds</b> |
|--------------------------------|

- A. In 1998, carpeting was purchased from the Law Library Fund and installed in the law library, jury room, and the Circuit Judge's office at a total cost of approximately \$950.

Sections 514.440 - 450, RSMo 1994, allows the collection of a law library fee to be used for the maintenance and upkeep of the law library.

As a result, the costs related to the jury room and the Circuit Judge's do not appear to be a reasonable and prudent use of the Law Library Fund.

- B. During 1998 an entity began paying the Circuit Clerk/Ex Officio Recorder of Deeds' office \$100 per month to perform record searches. During our review of this arrangement we noted the following:

- 1) From January through October 1998, a total of \$1,000 was received for these services and deposited into the Circuit Clerk Interest Fund. We could find no authority for the Circuit Clerk/Ex Officio Recorder of Deeds to retain these monies. As a result, \$1,000 is due to the General Revenue Fund from the Circuit Clerk Interest Fund.
- 2) The Ex Officio Recorder of Deeds indicated that beginning in November 1998, the monies were no longer paid to the office, but were paid directly to the employee performing the records search. She further indicated the employee reimbursed the office for copies related to the records search. However, there has been no determination of whether other costs were incurred by the county for which there was no reimbursement. Effective June 2000, the payment for the record search is made to the Ex Officio Recorder of Deeds' office and turned over to the General Revenue Fund.

### **WE RECOMMEND:**

- A. The Circuit Judge ensure expenditures from the Law Library Fund are reasonable and prudent.
- B. The Circuit Clerk/Ex Officio Recorder of Deeds pay \$1,000 to the General Revenue Fund from the Circuit Clerk Interest Fund. In addition, the Circuit Clerk/Ex Officio

Recorder of Deeds and County Commission should review this situation and determine whether any monies are due for the use of county resources.

**AUDITEE'S RESPONSE**

- A. *The Circuit Judge indicated he uses his office for most of his research. There are some library books in his chambers, there is restricted space in the law library, and there is not a telephone in the law library. In past years the General Revenue Fund has provided funding of \$5,000 to \$6,000 for the law library. This year there is only \$100 budgeted in the General Revenue Fund for the law library. The Circuit Judge stated he believes the carpeting was a legitimate expense.*
- B. *The Circuit Clerk paid \$1,000 to the General Revenue from the Circuit Clerk Interest Fund on August 7, 2000. The Circuit Clerk indicated that she was in the office after hours when the deputy was performing this work; therefore, no additional costs were incurred.*

*The County Commission indicated it would be impossible to identify additional costs to the county beyond the cost of copies which had already been reimbursed. Since the situation has been rectified, the County Commission will not take any further action regarding this matter.*

This report is intended for the information of the management of Macon County, Missouri, and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on Prior Audit Findings

## MACON COUNTY, MISSOURI FOLLOW-UP ON PRIOR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Macon County, Missouri, on findings in the Management Advisory Report (MAR) of our prior audit report issued for the two years ended December 31, 1997. The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR. Although the remaining unimplemented recommendations have not been repeated, the county should consider implementing these recommendations.

### 1. Purchase of Used Equipment

Bid documentation was not always retained for various purchases of used equipment made by the county. The County Commission indicated they solicited bids for used equipment, but did not always maintain documentation of such.

#### Recommendation:

The County Commission solicit bids for all items in accordance with state law. Documentation of bids solicited and justification for bid awards should be maintained by the County Clerk. If bids cannot be obtained and sole source procurement is necessary, the County Commission minutes should reflect the circumstances.

#### Status:

Not implemented. See MAR No. 2.

### 2. Federal Financial Assistance

The officer working on the D.A.R.E. program did not spend 100 percent of his time on D.A.R.E. activities. However, 100 percent of his salary was claimed for reimbursement.

#### Recommendation:

The County Commission consult with the grantor agency to resolve the questioned costs. In addition, the County Commission should ensure salary reimbursements are allocated equitably between work being performed for federal programs and other projects.

#### Status:

Implemented. The Department of Public Safety indicated it will not pursue reimbursement of funds.

3. Prosecuting Attorney's Accounting Controls and Procedures

- A. Accounting duties were not adequately segregated.
- B. An open items listing was not prepared. Consequently, open items were not reconciled with bank and book balances.

Recommendation:

The Prosecuting Attorney:

- A. Adequately segregate accounting and bookkeeping duties to the extent possible. At a minimum, the Prosecuting Attorney should perform documented reviews of the work performed.
- B. Prepare a listing of open items on a monthly basis and reconcile the listing to bank and book balances.

Status:

- A. Partially implemented. The Prosecuting Attorney does review bank reconciliations. Although not repeated in the current report, our recommendation remains as stated above.
- B. Partially implemented. The Prosecuting Attorney's office currently prepares an open items listing; however, the reconciled bank balance at December 31, 1999, exceeded the open items listing by approximately \$700. The Prosecuting Attorney's office is currently trying to identify the difference and at June 30, 2000, the reconciled bank balance exceeded the open items listing by approximately \$600. Although not repeated in the current report, our recommendation remains as stated above.

4. Health Center

The Board of Trustees approved expenditures in excess of budgeted amounts for the years ended December 31, 1997 and 1996.

Recommendation:

The Health Center Board of Trustees refrain from incurring expenditures in excess of budget amounts. If the county receives additional funds which could not be anticipated when the budget was adopted, the Board of Trustees should amend its budget by following procedures required by state law.

Status:

Implemented.

5. Senate Bill 40 Board

The Senate Bill 40 Board approved expenditures in excess of budgeted amounts for the years ended December 31, 1997 and 1996.

Recommendation:

The Senate Bill 40 Board refrain from incurring expenditures in excess of budget amounts. If additional are received which could not be anticipated when the budget was adopted, the Senate Bill 40 Board should amend its budget by following procedures required by state law.

Status:

Implemented.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

MACON COUNTY, MISSOURI  
HISTORY, ORGANIZATION,  
AND STATISTICAL INFORMATION

Organized in 1837, the county of Macon was named after Nathaniel Macon, a U.S. Congressman and Senator. Macon County is a county-organized, third-class county and is part of the Forty-First Judicial Circuit. The county seat is Macon.

Macon County's government is composed of a three-member county commission and separate elected officials performing various tasks. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials.

Principal functions of these other officials relate to judicial courts, law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records of importance to the county's citizens.

Counties typically spend a large portion of their receipts to support general county operations and to build and maintain roads and bridges. The following chart shows from where Macon County received its money in 1999 and 1998 to support the county General Revenue and Special Road and Bridge Funds:

| SOURCE                    | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| Property taxes            | \$ 658,772   | 23         | 637,909   | 25         |
| Sales taxes               | 500,995      | 18         | 491,136   | 19         |
| Federal and state aid     | 1,173,015    | 42         | 1,044,305 | 41         |
| Fees, interest, and other | 469,127      | 17         | 399,957   | 15         |
| Total                     | \$ 2,801,909 | 100        | 2,573,307 | 100        |

The following chart shows how Macon County spent monies in 1999 and 1998 from the General Revenue and Special Road and Bridge Funds:

| USE                       | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| General county government | \$ 730,187   | 26         | 752,252   | 28         |
| Public safety             | 591,805      | 21         | 622,759   | 24         |
| Highways and roads        | 1,493,977    | 53         | 1,279,248 | 48         |
| Total                     | \$ 2,815,969 | 100        | 2,654,259 | 100        |

In addition, significant sales tax and intergovernmental receipts and capital improvement expenses are accounted for in the Capital Improvement Sales Tax Fund. Receipts of the Capital Improvements Sales Tax Fund were \$872,556 and \$693,073 and disbursements were \$828,431 and \$810,961 for the years ended December 31, 1999 and 1998, respectively.

The county maintains approximately 259 county bridges and 919 miles of county roads.

The county's population was 15,432 in 1970 and 15,345 in 1990. The following chart shows the county's change in assessed valuation since 1970:

|                        |    | Year Ended December 31, |       |       |        |        |
|------------------------|----|-------------------------|-------|-------|--------|--------|
|                        |    | 1999                    | 1998  | 1985* | 1980** | 1970** |
|                        |    | (in millions)           |       |       |        |        |
| Real estate            | \$ | 69.6                    | 62.4  | 56.3  | 32.6   | 19.7   |
| Personal property      |    | 36.0                    | 34.7  | 14.8  | 10.7   | 6.1    |
| Railroad and utilities |    | 18.1                    | 17.1  | 18.3  | 10.2   | 9.4    |
| Total                  | \$ | 123.7                   | 114.2 | 89.4  | 53.5   | 35.2   |

\* First year of statewide reassessment.

\*\* Prior to 1985, separate assessments were made for merchants' and manufacturers' property. These amounts are included in real estate.

Macon County's property tax rates per \$100 of assessed valuations were as follows:

|                               |    | Year Ended December 31, |      |
|-------------------------------|----|-------------------------|------|
|                               |    | 1999                    | 1998 |
| General Revenue Fund          | \$ | .22                     | .22  |
| Special Road and Bridge Fund* |    | .67                     | .67  |
| Health Center Fund            |    | .15                     | .15  |
| Senate Bill 40 Board Fund     |    | .10                     | .10  |
| County Park Fund              |    | .03                     | .03  |

\* The county retains all tax proceeds from areas not within road districts. The county has two road districts that receive four-fifths of the tax collections from property within these districts, and the Special Road and Bridge Fund retains one-fifth.

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and payable by December 31. Taxes paid after December 31 are subject to penalties. The county bills and collects property taxes for itself and most other local governments. Taxes collected were distributed as follows:

| Year Ended February 28,                |              |           |
|--|--------------|-----------|
|  | 2000         | 1999      |
| State of Missouri                      | \$ 38,164    | 34,452    |
| General Revenue Fund                   | 274,675      | 247,193   |
| Road Funds                             | 733,008      | 666,225   |
| Assessment Fund                        | 75,729       | 69,387    |
| Health Center Fund                     | 185,434      | 167,388   |
| Senate Bill 40 Board Fund              | 123,861      | 111,810   |
| School districts                       | 4,244,320    | 3,908,254 |
| Hospital Fund                          | 247,815      | 223,553   |
| Ambulance district                     | 185,909      | 167,829   |
| County Park Fund                       | 37,183       | 33,566    |
| Nursing home districts                 | 185,756      | 167,702   |
| Cities                                 | 100,690      | 95,521    |
| County Clerk fees, licenses, and other | 14,635       | 11,146    |
| County Employees' Retirement           | 24,307       | 20,102    |
| Commissions and fees:                  |              |           |
| General Revenue Fund                   | 113,722      | 103,385   |
| Total                                  | \$ 6,585,208 | 6,027,513 |

Percentages of current taxes collected were as follows:

| Year Ended February 28, |        |        |
|-------------------------|--------|--------|
|                         | 2000   | 1999   |
| Real estate             | 95.4 % | 94.5 % |
| Personal property       | 89.4   | 90.0   |
| Railroad and utilities  | 100.0  | 91.6   |

Macon County also has the following sales taxes; rates are per \$1 of retail sales:

|                                      | Rate       | Expiration Date | Required Property Tax Reduction |
|--------------------------------------|------------|-----------------|---------------------------------|
| General                              | \$ 0.00500 | None            | 50 %                            |
| Road and Bridge Capital Improvements | 0.00500    | April, 2001     | None                            |
| Enhanced 911                         | 0.00375    | None            | None                            |

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below.

| Officeholder                                     | 2000   | 1999   | 1998   |
|--|--------|--------|--------|

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

August 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**The following problems were discovered as a result of a review conducted by our office of the Department of Corrections, Crossroads Correctional Center.**

---

*The Crossroads Correctional Center, which opened in March 1997, is located one-half mile north of Cameron, Missouri and is a maximum security facility. This facility has a maximum capacity of 1,500 inmates which are housed in six housing units. The facility is situated on 60 acres, of which, approximately 40 acres lie within the perimeter of the facility.*

The Crossroads Correctional Center (CRCC) maintains an armory of firearms and ammunitions which are accessed via the armory sergeant or shift supervisor at the control center. To account for the issuance of these firearms and ammunitions, the armory sergeant maintains an armory log which is a written record of routine and emergency distributions of firearms. A review of the armory log for the periods of January, November, and December 1999 revealed several instances in which issuance information was not properly documented. Instances of improper documentation included: indicating the area rather than the individual the firearm was issued to; not indicating the date and time the firearm was checked out and back in; and, not always documenting the individual who issued the firearm.

In addition, firearm certification cards are not checked prior to issuing firearms to staff. This is in direct violation of department procedures which state that, prior to being issued a firearm, staff must present a firearms certification card for the firearm being issued.

To properly account for all firearms and ammunitions at any given time, a properly completed armory issuance log should be maintained. In addition, to enhance the safety and security of all staff and inmates, current firearm certification cards should be requested and reviewed prior to issuing firearms.

In July 1997, the Department of Corrections, Division of Offender Rehabilitative Services entered into a contract with Missouri Western State College to provide adult basic education to CRCC inmates. Contract expenditures totaled approximately \$740,000 and \$616,000 for the fiscal years ended June 30, 1999, and 1998, respectively.

(over)

YELLOW SHEET

Each month the CRCC receives an invoice accompanied by an itemized listing of all program expenses and a payroll report. Supporting documentation is not routinely provided for the non-payroll expense entries, such as travel costs, educational and data processing supplies, telephone, etc. As a result, significant payments (now exceeding \$60,000/month) are being approved without obtaining supporting documentation.

A careful review of supporting documentation is necessary, at least on a periodic basis, to substantiate the validity, propriety, and reasonableness of amounts billed by the college. Because CRCC personnel are more familiar with the college personnel and services being provided, it appears essential that these detailed comparisons of billings to supporting documentation be performed at the correctional center prior to transmitting the billing to the Department of Corrections – Central Office for payment.

Our review of the CRCC's fire safety plan found that it did not outline procedures for conducting monthly fire safety inspections, quarterly evacuation drills, or weekly inspections of detection and warning systems, which are required by department guidelines. Also, we found that monthly fire safety inspections were not performed from September 1999 through February 2000, and there was no documentation to indicate the CRCC was performing any quarterly evacuation drills.

A comprehensive fire safety plan would help provide CRCC staff with specific guidance on how to better protect employees, inmates, visitors, and prison property in the event of a fire emergency. In addition, the CRCC needs to immediately implement the performance of monthly fire safety inspections and quarterly evacuation drills as required by department policy.

Other items noted in the report included:

- Inventories for some food items were overstocked. No one independent of the food service section verifies the month-end physical inventory counts. Invoices are not stamped with the conditional acceptance stamp at the time the goods are delivered.
- Month-end physical inventory counts of canteen food and personal items are not compared to any records and no one independent of the canteen verifies the inventory counts.
- Vending machine commissions paid to the facility did not comply with the written agreement, resulting in an approximate underpayment of over \$1,600 from March 1997 through February 2000.
- Cell searches within the administrative segregation housing units were not completed as frequently as required by CRCC policy. In addition, cell search documentation was unclear, making it difficult to determine which cells had or had not been searched.
- Duties related to the purchasing and receiving of raw materials and tools for the furniture factory are not adequately segregated.

## STATE AUDITOR'S REPORT

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

Honorable Mel Carnahan, Governor  
and  
Dora Schriro, Director  
Department of Corrections  
and  
Mike L. Kemna, Superintendent  
Crossroads Correctional Center

We have conducted a review of the Department of Corrections, Crossroads Correctional Center. The scope of our review included, but was not necessarily limited to, the years ended June 30, 1999 and 1998. The objectives of this review were to:

1. Review certain management practices and financial information for compliance with applicable constitutional provisions, statutes, regulations and administrative rules.
2. Review the efficiency and effectiveness of certain management practices.
3. Review certain revenues received and certain expenditures made by the correctional center.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed the correctional center's revenues, expenditures, contracts, applicable legal provisions, rules and regulations, and other pertinent procedures and documents, and interviewed correctional center and other state personnel.

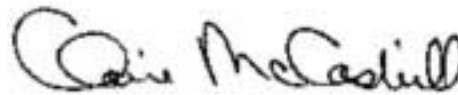

As a part of our review, we assessed the correctional center's management controls to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to management controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Our review was limited to the specific matters described above and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed

additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the correctional center's management and the Statewide Accounting for Missouri (SAM) system and was not subjected to the procedures applied in the review of the Department of Corrections, Crossroads Correctional Center.

The accompanying Management Advisory Report presents our findings and recommendations arising from our review of the Department of Corrections, Crossroads Correctional Center.

A handwritten signature in black ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

March 16, 2000 (fieldwork completion date)

## MANAGEMENT ADVISORY REPORT SECTION

REVIEW OF THE  
DEPARTMENT OF CORRECTIONS  
CROSSROADS CORRECTIONAL CENTER  
SUMMARY OF FINDINGS

1. Food Inventories (pages 7-9)

Inventories for some food items were overstocked. No one independent of the food service section verifies the month end physical inventory counts. Invoices are not stamped with the conditional acceptance stamp at the time the goods are delivered.

2. Canteen Procedures (pages 9-10)

Month-end physical inventory counts of food and personal items are not compared to any records and no one independent of the canteen verifies the month end physical inventory counts.

3. Vending Machine Commissions (pages 10-12)

Commissions paid to the facility by the vending machine company did not comply with their agreement and resulted in an approximate underpayment of \$1,606 from March 1997 through February 2000.

4. Fire Safety Policies and Procedures (pages 12-13)

Monthly fire inspections have not been performed for the period of September 1999 through February 2000. In addition, there was no documentation indicating quarterly evacuation drills were performed.

5. Firearm Issuance Procedures (pages 13-14)

Armory issuance logs do not properly document all firearm issuances. In addition, firearm certification cards are not reviewed prior to issuing staff firearms.

6. Administrative Segregation Cell Searches (pages 14-15)

Administrative segregation cells are to be searched on a bi-weekly basis. Our review noted some cells were not being searched as policy requires. These cell searches are not documented in a manner to allow easy identification of cells which have or have not been searched.

7. Education Contract with Missouri Western State College (pages 15-16)

The Crossroads Correctional Center approves monthly invoices submitted by the college for payment without obtaining or reviewing sufficient supporting documentation.

8. Furniture Factory (pages 16-17)

Duties related to the purchasing and receiving of raw materials and tools are not adequately segregated.

REVIEW OF THE  
DEPARTMENT OF CORRECTIONS  
CROSSROADS CORRECTIONAL CENTER  
MANAGEMENT ADVISORY REPORT –  
STATE AUDITOR’S RECOMMENDATIONS

|           |                         |
|-----------|-------------------------|
| <b>1.</b> | <b>Food Inventories</b> |
|-----------|-------------------------|

During the year ended June 30, 1999, the Crossroads Correctional Center (CRCC) served over 1,580,000 meals to inmates at a cost of approximately \$1,211,900. Our review of internal controls and inventory methods and procedures over food inventories indicated the following areas where improvements are needed:

- A. The CRCC orders canned and dry foods every three months. Department policy also allows each institution a six week emergency supply of grocery items. Thus, institutions should stock a supply of canned and dry foods to meet its needs for approximately three months, in addition to the six week emergency supply.

Considering the abovementioned ordering timeframes and recommended emergency supply to be maintained, a comparison of fiscal year 1999 food usage to February 2000 inventory on hand identified several items which appear to be overstocked:

| <u>Food Item</u>   | <u>Quantity<br/>On Hand<br/>February 2000</u> | <u>Quantity<br/>Used During<br/>Fiscal Year 1999</u> | <u>Number of<br/>Months<br/>Supply<br/>On Hand</u> |
|--------------------|---|--|--|
| Juice - Grapefruit | 75 cases                                      | 2 cases  | 450  |
| Juice - Grape      | 56 cases                                      | 2 cases  | 336  |
| Juice - Cranberry  | 111 cases                                     | 1 case   | 1332   |
| Baking Powder      | 43 cases                                      | 21 cases   | 25   |
| Cranberry Sauce    | 68 cases                                      | 40 cases   | 20   |
| Garlic Powder      | 351 cases                                     | 97 cases   | 43   |
| Cocoa              | 5 cases                                       | 3 cases  | 20   |
| Coconut            | 13 cases                                      | 1 case   | 156  |
| Cornstarch         | 60 cases                                      | 76 cases   | 9  |
| Dressing French    | 186 cases                                     | 101 cases  | 22   |
| Farina – Cereal    | 77 cases                                      | 16 cases   | 58   |
| Flavoring Vanilla  | 9 cases                                       | 11 cases   | 10   |
| Food Color - Egg   | 4 cases                                       | 2 cases  | 24   |
| Liquid Smoke       | 14 cases                                      | 8 cases  | 21   |

Maintaining food inventories at levels of expected usage, given the reorder time frames, is necessary to reduce the potential for spoilage, misuse, or loss. In addition, carrying excessive inventories may result in increased costs.

- B. The CRCC food service employees perform the monthly food physical inventory counts. These employees also have custody of the inventory.

This practice is not in accordance with Department of Corrections (DOC) Procedure No. IS10-1.15, Section III.B.1, which requires an employee, who is not assigned to the food service section, to verify the physical inventory counts by comparing them against the perpetual inventory record.

An independent verification enhances controls over the institution's food inventories. Since this control is not in place, food inventories could more easily be misappropriated without detection.

- C. During our review of food service invoices, we found that the food service storekeeper does not stamp the invoices with the conditional acceptance stamp as food items are delivered. An internal audit conducted by DOC in July 1999 found that the stamp was only being used for invoices relating to meat purchases. Since this DOC audit, there has been turnover in the storekeeper position and currently no invoices are being stamped.

The food service storekeeper should stamp all invoices with the conditional acceptance stamp, as required by DOC Procedure No. IS10-1.14.

**WE RECOMMEND** the CRCC:

- A. Order food items based on expected usage and attempt to reduce excessive food inventories. The institutions should transfer appropriate excessive stock of food items to the DOC central warehouse for redistribution.
- B. Assign an employee independent of the food service section to verify physical inventory counts performed by the food service section.
- C. Stamp all invoices with the conditional acceptance stamp as the items are delivered.

**AUDITEE'S RESPONSE**

- A. *We concur with the auditor's findings that several food items were overstocked. Corrective action has been taken.*
  - ◆ *Beginning in November 1999, the Food Service Storekeeper utilizes inventory records to determine monthly usage of each food item. Current inventory levels and pending orders are considered when determining quantities to order.*

- ◆ *Beginning in December 1999, CRCC has been reducing excessive food inventories to appropriate levels specified by policy through normal food usage at CRCC and by transferring food items to other facilities.*
- B. *We concur with the auditor's findings that no one independent of the food service section verifies the month end inventory counts. Beginning with the July 2000 inventory, the Assistant Superintendent of Operations will assign a Business Office staff person each month to verify the monthly food service inventory counts.*
- C. *We concur with the auditor's finding that all food service invoices were not stamped with the conditional acceptance stamp upon delivery of the goods. Beginning March 16, 2000, the Food Service Storekeeper stamps all invoices with the conditional acceptance stamp as the items are delivered.*

|                              |
|------------------------------|
| <b>2. Canteen Procedures</b> |
|------------------------------|

The CRCC operates a canteen for the inmates' benefit. Perpetual inventory records are not maintained for all canteen items. Perpetual inventory records are maintained for expensive or high-risk items, such as radios, tape players, televisions, and cigarettes; however, perpetual records are not maintained for food and personal use items.

As required by department policy, the canteen employees perform physical inventories of all canteen items held for resale at each month-end. Because no perpetual inventory records are maintained for food and personal use items, the results of these counts are not compared to any records. It was also noted that the employees performing the month-end counts also have custody of the inventory and no verification by someone independent of canteen responsibilities is performed. As a result of these various concerns, there is limited monitoring of changes in canteen inventory and the benefit of month-end physical inventory procedures is lessened without comparison to perpetual inventory records and independent verification.

Deficiencies with the current automated canteen system, such as the improper handling of voided sales and problems with the entry of some item codes, have contributed to the inventory monitoring problems. Discussions with Department of Corrections personnel indicate they are aware of the limitations of the current canteen inventory system and are working toward implementation of a new inventory system which will provide perpetual inventory records. This new system had been installed in one facility as of May 2000. Once the new inventory system is in place, monthly inventory counts of all items held for resale should be compared to the perpetual inventory record to lessen the possibility that instances of loss, misuse, or theft of canteen inventory will not go undetected. In the meantime, the CRCC should consider utilizing data available from the various canteen reports to verify the month-end balances of selected canteen items and ensure that month-end counts are verified by an institutional employee not assigned to the canteen.

**WE RECOMMEND** the CRCC reconcile month-end physical inventory counts to the new perpetual inventory records once this system is implemented. Until this time, however, records currently available should be utilized to verify month-end counts for some canteen items (at least on a test basis). In either case, any discrepancies should be investigated in a timely manner. Also, assign an employee independent of the canteen to verify physical inventory counts performed by the canteen.

### **AUDITEE'S RESPONSE**

*We concur with the auditor's findings that month-end physical inventory counts of food and personal items are not compared to any records and no one independent of the canteen verifies the month-end physical inventory counts. As part of a comprehensive upgrade to our canteen operations, a new automated canteen system has been developed over the past six months which corrects these deficiencies. Implementation at all DOC institutions is currently underway. As an interim corrective step, beginning in July 2000, the Daily Canteen Item Movement reports are being utilized to conduct spot checks on inventory and to verify month-end item counts. Also, beginning with the June 2000 inventory, an employee independent of the canteen operation is assigned on a rotating basis to verify physical inventory counts performed by the canteen. Any discrepancies will be investigated.*

|                                       |
|---------------------------------------|
| <b>3. Vending Machine Commissions</b> |
|---------------------------------------|

Since opening in March 1997, the CRCC has utilized the same private vendor to provide and service vending machines at the facility. Each month the vendor provides a commission statement and remits two checks (one payable to the facility's personnel club account and one payable to the inmate canteen fund) to the CRCC. The October 1996 contract indicates the vendor is to remit commissions as a percentage of total gross sales. Vending machine commissions paid to the CRCC from March 1997 through February 2000 totaled approximately \$96,725. The DOC Procedure No. D4-4.4, Section III.C. establishes the guidelines for the income from vending machines to be allocated between the inmate canteen fund and an authorized employee organization or activity.

Our review of the vending arrangement noted that the abovementioned contract indicates that the CRCC will receive commissions monthly with commission rates being based on the type of vending item sold. Both the CRCC and vendor personnel indicated that commission percentages have been the same since March 1997. Our review of the commission statements for the period of March 1997 through February 2000 noted that the vendor was using incorrect commission rates for some items when calculating the CRCC's monthly commission revenue. The following schedule shows the commission rate discrepancies determined:

| <u>Vending Item</u>                | <u>Commission Rate<br/>Per Contract</u> | <u>Commission Rate<br/>Actually Received<br/>March 1997 through<br/>September 1998</u> | <u>Commission Rate<br/>Actually Received<br/>October 1998 through<br/>March 2000</u> |
|------------------------------------|---|--|--|
| Candy, chips,<br>popcorn, pastries | 29.0%                                   | 29.0%  | 28.5%  |
| Soup and Sandwiches                | 20.0%                                   | 28.0%  | 20.0%  |
| Beverages                          | 32.0%                                   | 28.0%  | 32.0%  |
| Cigarettes                         | 32.0%                                   | 28.0%  | 32.0%  |

It was also noted that commissions on one cigarette machine during the period October 1998 to January 1999 were calculated on net sales (gross sales after sales taxes had been withheld) rather than total gross sales as required by the contract terms.

Incorrect commission rates used by the vendor along with the incorrect computations of total gross cigarette sales resulted in the vendor owing the staff personnel club approximately \$170 and the inmate canteen fund approximately \$1,436.

After we brought this matter to CRCC's attention, institution staff contacted the vendor. The vendor indicated that all commission payments since March 1997 would be recalculated and any underpayment of commissions would be forwarded to the CRCC. As of May 2000, the CRCC has yet to receive recalculation information and payment for past commission errors.

Although monthly commission statements had been provided by the vendor, none of the errors noted above had been detected by the CRCC business office. In addition to not adequately reviewing the vendor's monthly commission statements, the CRCC also has no procedures in place to verify reported sales on which commissions are based. Thorough reviews are necessary to ensure the propriety of commissions received and compliance with contract terms.

**WE RECOMMEND** the CRCC establish procedures to verify the reported sales, implement a review procedure that will ensure compliance with contract terms, check the accuracy of commission statements and amounts remitted, and continue to pursue payment for past commission errors from the vendor.

#### **AUDITEE'S RESPONSE**

*We concur with the auditor's findings that commissions paid to the facility by the vending machine company did not comply with their contractual agreement which resulted in an approximate underpayment of \$1,606 from March 1997 through February 2000.*

- ◆ *To correct this item, the vending contract was rebid with more specific commission rate language. Beginning June 1, 2000, a flat commission rate for all vended items was established and meter readings are provided for all vending machines.*
- ◆ *Beginning in July 2000 staff compare sales with commissions on a minimum of three items each month. Different items will be selected monthly.*
- ◆ *The institution is developing a payment plan with the vendor to collect the past due commission payment within the next 90 days.*

|   |
|---|
| <b>4. Fire Safety Policies and Procedures</b> |
|---|

The DOC Procedure No. D4-2.1, Section III.C. provides that all facilities shall develop and maintain a fire safety plan. The components to be addressed in this plan shall strictly follow the guidelines listed in the DOC Fire Safety Plan Guidelines for Institutions. These guidelines state that the fire safety plan shall address monthly fire safety inspections. Our review of the CRCC's fire safety plan found that it did not address procedures for conducting monthly fire safety inspections. For the period of September 1999 through February 2000, monthly fire safety inspections were not performed. CRCC indicated that the facility's fire and safety specialist is responsible for performing monthly fire safety inspections; however, this individual resigned in September 1999 and his duties were not reassigned.

In addition to monthly fire safety inspections, the DOC Fire Safety Plan Guidelines state that evacuation procedures are to be tested quarterly and detection and warning systems checked weekly. Our review of the CRCC's fire safety plan found that it did not outline procedures for conducting quarterly evacuation drills or weekly inspections of detection and warning systems. Also, we found no documentation that would indicate the CRCC was performing any quarterly tests.

A comprehensive and detailed fire safety plan, which addresses procedures for conducting fire safety inspections, evacuation drills, and inspections of detection and warning systems, would help provide CRCC staff with specific guidance on how to better protect employees, inmates, visitors, and prison property in the event of a fire emergency. In addition, the CRCC needs to immediately implement the performance of monthly fire safety inspections and quarterly evacuation drills as required by department policy. To facilitate policy and performance improvements in this area, the fire and safety specialist position needs to be filled or the required duties reassigned.

**WE RECOMMEND** the CRCC review their fire safety plan to ensure compliance with departmental guidelines. In addition, the CRCC needs to begin performing the various

inspections and drills immediately with the results documented. Also, the CRCC needs to fill the fire and safety specialist position or reassign the position's required tasks.

### **AUDITEE'S RESPONSE**

*We concur with the auditor's findings that inadequate documentation was maintained indicating quarterly evacuation drills.*

- ◆ *Beginning May 2, 2000, quarterly evacuation drills and monthly fire safety inspections are being conducted and documented.*
- ◆ *Fire detection and alarm devices are integrated into the institution's Central Alarm Control System. This allows for continuous, rather than weekly, operational status monitoring of detection and alarm devices. Departmental procedures are in the process of being revised to reflect current technology and practice in the area of detection and alarm devices.*

|                                       |
|---------------------------------------|
| <b>5. Firearm Issuance Procedures</b> |
|---------------------------------------|

The CRCC maintains an armory of firearms and ammunitions which are accessed via the armory sergeant or shift supervisor at the control center. To account for the issuance of these firearms and ammunitions, the armory sergeant maintains an armory log which is a written record of routine and emergency distribution of firearms. We reviewed the armory log for the periods of January, November, and December 1999 and found several instances in which issuance information was not properly documented. Instances of improper documentation included: indicating the area rather than the individual the firearm was issued to; making general rather than specific references regarding the location of the firearm, such as, "CRCC"; not indicating the date and time the firearm was checked out, as well as, the date and time the firearm was checked in; and not always documenting the individual who issued the firearm. DOC Procedure No. IS20-2.1, Section III.E.2. states that each institution shall maintain an armory log providing written records of routine and emergency distribution of firearms.

In addition, the armory sergeant indicated that firearm certification cards are not checked prior to issuing staff firearms. This is in direct violation of DOC Procedure No. IS20-2.1, Section III.D.4. which states that, prior to being issued a firearm, staff must present a firearms certification card for the firearm being issued.

To properly account for all firearms and ammunitions at any given time, a properly documented armory issuance log should be maintained which includes the issuer's name, the name of the person being issued a weapon, the location of the weapon, and the date and time of check out and check in of the weapon. In addition, to ensure the safety and security of all staff and inmates, a current firearm certification card should be requested and reviewed prior to issuing staff a firearm.

**WE RECOMMEND** the CRCC maintain a complete and properly documented armory issuance log. In addition, firearm certification cards should be requested and reviewed prior to issuing staff a firearm.

### **AUDITEE'S RESPONSE**

*We concur with the auditor's findings that armory issuance logs do not properly document all firearm issuances and firearm certification cards are not always reviewed prior to issuing staff firearms.*

- ◆ *In April 2000, the institution implemented procedures requiring that each time a firearm is issued, the issuing officer must ensure that the receiving officer has a valid firearm certification card and the armory log is completed in detail each time a firearm is issued or returned.*
- ◆ *In addition, effective July 2000, CRCC established a requirement that firearm certification for officers assigned to a patrol vehicle be verified during each shift.*

|  |
|--|
| <b>6. Administrative Segregation Cell Searches</b> |
|--|

The Chief of Custody at the CRCC has developed a set of policies and procedures referred to as "Post Orders." These Post Orders were developed to provide the security staff at the CRCC with a set of security and reporting guidelines to be followed in the performance of their duties. We reviewed Post Order 21.04, which addresses procedures for security measures within the administrative segregation housing units. Post Order 21.04 II. D. states that cell searches are to be completed for every cell in the administrative segregation unit on a bi-weekly basis. We reviewed cell search documentation for administrative segregation housing unit one for the month of January 2000. The results of our review found that out of 60 cells in housing unit one, only 24 cells were searched on a bi-weekly basis. Examples of items that were confiscated included, but were not limited to, a lighter, expired medications, sugar, string, ink pens, wicks, extra clothes, soap, and food trays.

Cell searches are documented on a DOC institutional search report. During our review of housing unit one cell searches, we also found that the CRCC staff was not documenting cells searched in any particular order, making it very difficult for staff to determine which cells had and had not been searched. Not documenting cells searched in any systematic order on the DOC institutional search report may have contributed to only 24 out of 60 administrative segregation cells being searched bi-weekly during January 2000.

Bi-weekly searches of administrative segregation units allows staff to identify and confiscate illegal contraband in the inmates possession, thus creating a safe environment for all staff and inmates.

**WE RECOMMEND** the CRCC perform administrative segregation cell searches in accordance with facility policy and develop an institutional search report that will readily document that the required searches have been performed and/or clearly identify cells not searched and the reasons searches were not performed.

**AUDITEE'S RESPONSE**

*We concur with the auditor's findings that some administrative segregation cells were not always being searched bi-weekly as policy requires and the cell searches are not documented in a manner to allow easy identification of cells that have been searched.*

- ◆ *The post orders will be revised during July 2000 to comply with the Standard Operating Procedure 20-1.3-Searches, which requires "Unannounced, random searches of all occupied inmate cells in each housing unit to include a tunnel search should be performed at least once each month by officers on each shift."*
- ◆ *Cell search reports are now formatted in numerical order by cell.*

**7.**

**Education Contract with  
Missouri Western State College**

In July 1997, the DOC, Division of Offender Rehabilitative Services entered into a contract with Missouri Western State College to provide adult basic education to CRCC inmates. Contract expenditures totaled approximately \$740,000 and \$616,000 for the fiscal years ended June 30, 1999, and 1998, respectively. There are several individuals employed full-time by the college to provide the adult basic education services and costs associated with the program are accumulated by the college's business office throughout the month. These individuals work out of office space maintained at the CRCC. We reviewed the contract terms, monthly billings, and supporting documentation, and noted some concerns.

Each month the CRCC receives an invoice accompanied by an itemized listing of all program expenses and a payroll report. Supporting documentation is not routinely provided for the non-payroll expense entries such as travel costs (motel, mileage, meals), educational and data processing supplies, postage, telephone, furniture/equipment, publications/books, etc. The CRCC Superintendent of Inmate Management receives the college's invoice and reviews for unusual or questionable items prior to forwarding to the department for approval, processing, and payment. The CRCC does not obtain supporting documentation to assist in its review and approval process. We obtained the college's invoices and reviewed the itemized listings of program expenses and payroll reports for the months of June 1999 and 1998. A comparison of this information to supporting documentation (ie; invoices, expense reimbursement claims, etc.) on file at the college revealed no discrepancies.

Significant payments (now exceeding \$60,000/month) are being approved without obtaining supporting documentation. A careful review of supporting documentation (invoices, expense reimbursement claims, etc.) is necessary, at least on a periodic basis, to substantiate the validity, propriety, and reasonableness of amounts billed by the college for monthly program expenses. Because CRCC personnel are more familiar with the college personnel and services being provided, it appears essential that these detailed comparisons of billings to supporting documentation be performed at the correctional center prior to transmitting the billing to the DOC – Central Office for payment. Without such procedures in place, inappropriate billings and/or errors could occur and go undetected.

**WE RECOMMEND** the CRCC work with the college to obtain and/or review, at least on a periodic basis, all supporting documentation for charges billed and resolve any questions or discrepancies prior to approving the college invoices for payment.

### **AUDITEE'S RESPONSE**

*We concur with the auditor's findings that monthly invoices submitted by the college were not accompanied by supporting documentation. As a result of the auditor's findings, procedures were amended to comply with the auditor's recommendation starting with the February 2000 invoice.*

- ◆ *Staff at the Department's institutions reviewed invoices submitted by Missouri Western State College and then submitted them to the Department's Central Office with documentation available to them attached to the invoice.*
- ◆ *All interagency agreement invoices for education services between the Department and contractors were forwarded to the Coordinator for Education Interagency Agreements in the Division of Offender Rehabilitative Services, Missouri Department of Corrections. The coordinator reviewed each invoice and ensured that sufficient documentation was present prior to processing accordingly. The coordinator also requested any documentation needed to resolve concerns and made adjustments as deemed necessary prior to submitting the invoices for payment.*
- ◆ *Effective immediately this process will be amended and all documentation and billings will accompany the invoices when submitted from the education contractor to the Department's institution. The institutional staff will ensure that all documentation is verified at the local level. The process described in this paragraph will ensure that there is double checking of the invoices, and that each institution as well as the Department's Central Office has a full set of documentation for each invoice.*

**8.**

**Furniture Factory**

The Missouri Vocational Enterprises operates a furniture factory at CRCC. The furniture factory employs approximately 80-100 inmates which produce wood and laminate office furniture. A review of the furniture factory revealed there is a lack of segregation of duties related to the purchasing and receiving of raw materials and tools. Both these duties are performed by the factory manager.

To safeguard against possible loss or misuse of raw material and tool inventories, internal controls should provide reasonable assurance that all assets are adequately safeguarded. Proper segregation of duties helps to provide this assurance.

**WE RECOMMEND** the CRCC properly segregate the purchasing and receiving duties regarding the raw material and tool inventories.

### **AUDITEE'S RESPONSE**

*We concur with the auditor's findings that duties related to the purchasing and receiving of raw materials and tools are not adequately segregated. Effective immediately the person responsible for signing purchase orders will be different from the person responsible for signing receiving reports.*

This report is intended for the information of the management of the Crossroads Correctional Center and other applicable governmental officials. However, this report is a matter of public record and its distribution is not limited.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

DEPARTMENT OF CORRECTIONS  
CROSSROADS CORRECTIONAL CENTER  
HISTORY, ORGANIZATION, AND STATISTICAL INFORMATION

The Crossroads Correctional Center (CRCC), which opened in March 1997, is located one-half mile north of Cameron, Missouri and is a maximum security facility. This facility has a maximum capacity of 1,500 inmates which are housed in six housing units. The facility is situated on 60 acres, of which, approximately 40 acres lie within the perimeter of the facility. The perimeter consists of a three fence system, an electric motion detection system on the interior chain link fence, a lethal electric fence, and a razor wire covered outer chain link fence. In addition to the perimeter fencing, an armed vehicular patrol provides additional perimeter security on a 24-hour basis.

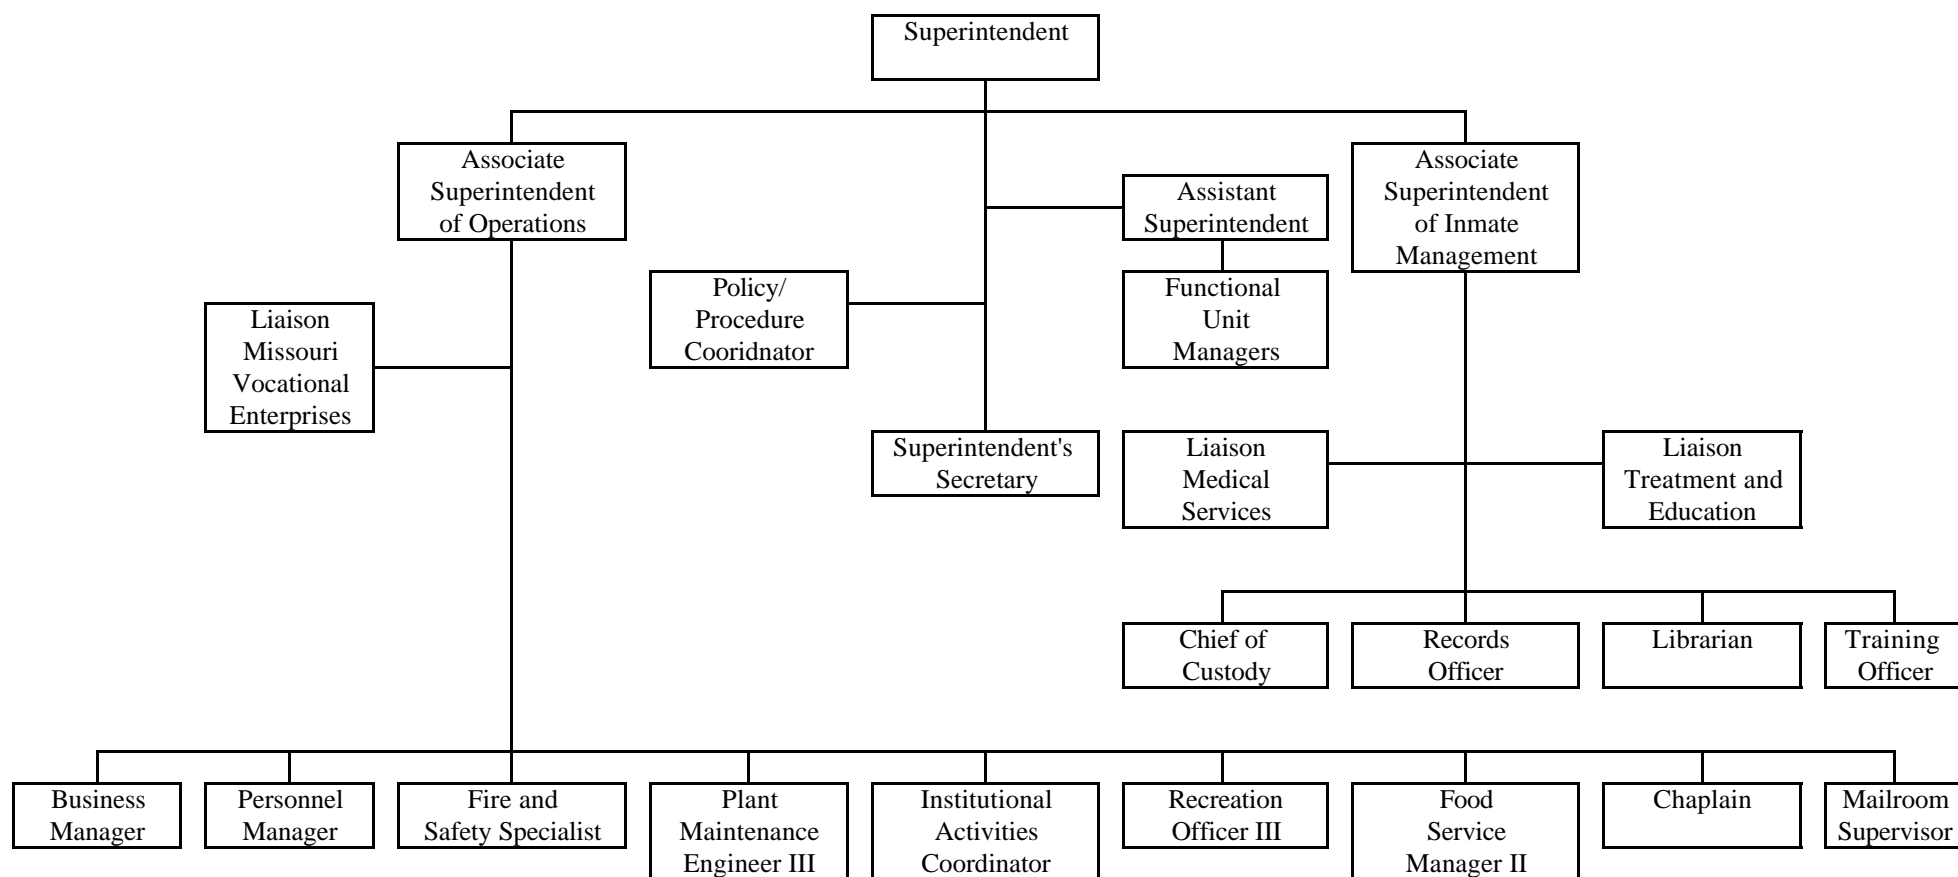

The administration of the CRCC consists of one superintendent, two associate superintendents, and one assistant superintendent. The associate superintendent of operations is responsible for inmate food services, recreation, institutional activities, facilities maintenance, and fire and safety, as well as the operations of the business office, mailroom, and personnel office. The associate superintendent of operations also acts as a liaison between the Department of Corrections and the Missouri Vocational Enterprises personnel working at the facility. The associate superintendent of inmate management is responsible for inmate custody, inmate records, officer training, and acts as a liaison between the Department of Corrections and Missouri Western State College personnel working at the facility. The assistant superintendent is responsible for inmate classification and supervision of the housing unit functional unit managers.

The Department of Corrections has entered into an inter-agency agreement with Missouri Western State College. Through this agreement the college provides adult basic education to the facility's inmates. At June 30, 1999, approximately 364 inmates participated in the adult basic education program. The adult basic education program is overseen by the continuing education department at Missouri Western State College and is certified by the Department of Elementary and Secondary Education.

Sentences of CRCC inmates range from two years to life without parole, and are for all types of crimes. The average commitment age is approximately twenty-eight years, and average current age is approximately thirty-five years. The average sentence length is approximately 275 months. Nearly two-thirds of the inmates at the Crossroads Correctional Center were sentenced in the St. Louis and Kansas City areas.

Mike Kemna has served as the facility superintendent since its opening in March 1997. The CRCC employed approximately 408 employees assigned to various administrative, service, and security functions as of June 30, 1999. Missouri Western State College had approximately 27 employees assigned to the adult basic education program at the facility as of June 30, 1999. An organization chart follows.

|                                    |    |                     |              | Lapsed   |                |              | Lapsed   |
|                                    |    | Appropriations      | Expenditures | Balances | Appropriations | Expenditures | Balances |
| GENERAL REVENUE FUND - STATE       |    |                     |              |          |                |              |          |
| Personal Service                   | \$ | 5,187,571           | 5,164,805    | 22,766   | 7,714,008      | 7,596,486    | 117,522  |
| Expense and Equipment              |    | 91,308              | 87,105       | 4,203    | 1,108,672      | 1,025,567    | 83,105   |
| Total General Revenue Fund - State | \$ | 5,278,879           | 5,251,910    | 26,969   | 8,822,680      | 8,622,053    | 200,627  |

Note: The appropriations presented above are used to account for and control the facility's expenditures from amounts appropriated to the facility by the General Assembly. The facility administers transactions from the appropriations presented above. However, the state treasurer as fund custodian and the Office of Administration provide administrative control over the fund resources within the authority prescribed by the General Assembly. This does not represent all expenditures of the facility. Some expenditures relating to individual facilities are charged to department-wide appropriations and are not identified by facility (including some purchases of food inventory, computer equipment, and paper products). Expenditures charged to department-wide appropriations that are identified to the facility are noted in Appendix B.

REVIEW OF THE  
DEPARTMENT OF CORRECTIONS  
WESTERN RECEPTION AND DIAGNOSTIC  
CORRECTIONAL CENTER

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-77  
August 23, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

August 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**The following problems were discovered as a result of a review conducted by our office of the Department of Corrections, Western Reception and Diagnostic Correctional Center.**

-----  
*The Western Reception and Diagnostic Correctional Center was originally established as a satellite facility of the Western Missouri Correctional Center in 1993 and occupied one building on the grounds of the St. Joseph State Hospital. The intent of the satellite facility was for the inmates to help the community with the massive devastation to the local area from the 1993 floods. In 1994, the Park Building Treatment Center became operational and the decision was made by the Department of Corrections to take over the old hospital facilities once the hospital had moved to its new site. The final phase of construction was completed in September 1999. The newly named Western Reception and Diagnostic Correctional Center is the Department of Corrections' reception center for the western region of the state. Newly convicted offenders or those returned from probation and parole supervision, will be housed there while they undergo evaluation and classification to determine their permanent institutional assignments. The Western Reception and Diagnostic Correctional Center will continue to house general population offenders and offenders participating in substance abuse prevention programs. The total capacity for all classifications of offenders is 1,880.*

The Western Reception and Diagnostic Correctional Center (WRDCC) maintains an armory for firearms, ammunition, chemical agents, restraints, and miscellaneous items which are accessed through the armory sergeant, armory officer, or shift supervisor at the control center.

- To account for the issuance of these firearms and ammunitions, an armory log is maintained which is a written record of routine and emergency distributions of firearms. A review of the armory log for June 1999 revealed that firearms were recorded as being issued to a particular post rather than to an individual. In addition, the individual actually issued the firearm was not required to sign the log. The armory log should provide a record of who has responsibility for each weapon issued.
- Monthly physical inventories of the armory are performed by the same armory officer that has custody of inventory. This practice is in violation of department procedures which state that the physical inventory must be verified by an institutional employee whose duties do not include the maintenance of that particular inventory.

(over)

YELLOW SHEET

- The armory's perpetual inventory records have not been updated since June 1999. As a result, a comparison of physical inventory counts to balances recorded in the perpetual records is not possible, and the effectiveness of the periodic physical inventory procedures is minimized. Department procedures require the armory to maintain a perpetual inventory of stock.

In January 1999, the Department of Corrections, Division of Offender Rehabilitative Services entered into a contract with Missouri Western State College to provide adult basic education and diagnostic services to WRDCC. Contract expenditures totaled \$229,331 for the fiscal year ended June 30, 1999.

Each month the WRDCC receives an invoice accompanied by an itemized listing of all program expenses with a payroll report attached. Supporting documentation is not routinely provided for the non-payroll expense entries, such as travel costs, educational and data processing supplies, telephone, etc. As a result, significant payments are being approved without obtaining supporting documentation.

A careful review of supporting documentation is necessary, at least on a periodic basis, to substantiate the validity, propriety, and reasonableness of amounts billed by the college. Because WRDCC personnel are more familiar with the college personnel and services being provided, it appears essential that these detailed comparisons of billings to supporting documentation be performed at the correctional center prior to transmitting the billing to the Department of Corrections – Central Office for payment.

Other items noted in the report included:

- Vending machine commissions paid to the facility did not comply with the written agreement resulting in an approximate underpayment of \$774 from October 1998 to December 1999.
- There is no independent verification of physical counts of food inventory items. Food requisitions are not being properly signed by the food service manager. U.S. Department of Agriculture foods are not being properly reported.
- Perpetual inventory records are not maintained for all canteen items. Month-end physical inventory counts of canteen food and personal items are not compared to any records and no one independent of the canteen verifies the inventory counts.
- Some inmate monies found during the intake process are not being recorded on the reception center receipts log.

## STATE AUDITOR'S REPORT

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

Honorable Mel Carnahan, Governor  
and  
Dora Schriro, Director  
Department of Corrections  
and  
Ronald Schmitz, Superintendent  
Western Reception and Diagnostic Correctional Center

We have conducted a review of the Department of Corrections, Western Reception and Diagnostic Correctional Center. The scope of our review included, but was not necessarily limited to, the years ended June 30, 1999 and 1998. The objectives of this review were to:

1. Review certain management practices and financial information for compliance with applicable constitutional provisions, statutes, regulations and administrative rules.
2. Review the efficiency and effectiveness of certain management practices.
3. Review certain revenues received and certain expenditures made by the correctional center.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed the correctional center's revenues, expenditures, contracts, applicable legal provisions, rules and regulations, and other pertinent procedures and documents, and interviewed correctional center and other state personnel.

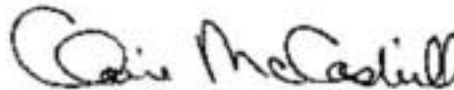

As a part of our review, we assessed the correctional center's management controls to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to management controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Our review was limited to the specific matters described above and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the correctional center's management and the Statewide Accounting for Missouri (SAM) system and was not subjected to the procedures applied in the review of the Department of Corrections, Western Reception and Diagnostic Correctional Center.

The accompanying Management Advisory Report presents our findings and recommendations arising from our review of the Department of Corrections, Western Reception and Diagnostic Correctional Center.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

March 2, 2000 (fieldwork completion date)

## MANAGEMENT ADVISORY REPORT SECTION

REVIEW OF THE  
DEPARTMENT OF CORRECTIONS  
WESTERN RECEPTION AND DIAGNOSTIC  
CORRECTIONAL CENTER  
SUMMARY OF FINDINGS

1. Education and Diagnostic Contracts with Missouri Western State College (pages 6-7)

Monthly invoices submitted by the college are not accompanied by supporting documentation.

2. Vending Machine Commissions (pages 7-8)

Commissions paid to the facility by the vending company did not comply with contract terms and resulted in an approximate underpayment of \$774 from October 1998 to December 1999.

3. Food Inventories (pages 8-10)

There is no independent verification of physical inventory counts. Food requisitions are not being properly signed by the food service manager. U.S. Department of Agriculture foods are not being properly reported.

4. Canteen Procedures (pages 10-12)

Perpetual inventory records are not maintained for all canteen items. Month-end physical inventory counts are not compared to any records and there is no independent verification of physical inventory counts. Periodic calculations of canteen sales are not being performed and compared to reported sales.

5. Reception Center Inmate Receipts (pages 12-13)

Some inmate monies found during the intake process are not recorded on the reception center receipts log.

6. Armory Procedures (pages 13-14)

The armory log does not include adequate documentation regarding the issuance of firearms. There is no independent verification of physical inventory counts for the armory. The armory's perpetual inventory records are no longer being maintained.

REVIEW OF THE  
DEPARTMENT OF CORRECTIONS  
WESTERN RECEPTION AND DIAGNOSTIC  
CORRECTIONAL CENTER  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S RECOMMENDATIONS

|  |
|--|
| <b>1. Education and Diagnostic Contracts with<br/>Missouri Western State College</b> |
|--|

In January 1999, the Department of Corrections (DOC), Division of Offender Rehabilitative Services entered into a contract with Missouri Western State College to provide adult basic education and diagnostic services to Western Reception and Diagnostic Correctional Center (WRDCC) inmates. Contract expenditures totaled \$229,331 for the fiscal year ended June 30, 1999. There are several individuals employed full-time by the college to provide the services. These individuals work out of office space maintained at WRDCC. The college treats the program as if it were another department of the college and accumulates the related costs throughout the month. We reviewed the contract terms, monthly billings, and supporting documentation, and noted some concerns.

Each month the WRDCC receives an invoice accompanied by an itemized listing of all program expenses with a payroll report attached. Supporting documentation is not routinely provided for the non-payroll expense entries, such as travel costs (motel, mileage, meals), educational and data processing supplies, postage, telephone, furniture/equipment, publications/books, etc. Although the WRDCC business office receives the college's invoice, no review of the invoice details is performed. Rather, the invoice is forwarded to the DOC – Central Office for approval, processing, and payment. According to college personnel, no supporting documentation has been requested by the DOC – Central Office. We obtained the college's invoice for June 1999 and reviewed the itemized listing of program expenses and payroll report. A comparison of this information to supporting documentation (ie; invoices, expense reimbursement claims, etc.) on file at the college revealed no discrepancies.

Significant payments are being approved without obtaining supporting documentation. A careful review of supporting documentation (invoices, expense reimbursement claims, etc) is necessary, at least on a periodic basis, to substantiate the validity, propriety, and reasonableness of amounts billed by the college for monthly program expenses. Because WRDCC personnel are more familiar with the college personnel and services being provided, it appears essential that these detailed comparisons of billings to supporting documentation be performed at the correctional center prior to transmitting the billing to the DOC – Central Office for payment. Without such procedures in place, inappropriate billings and/or errors could occur and go undetected.

**WE RECOMMEND** the WRDCC work with the college to obtain and/or review, at least on a periodic basis, all supporting documentation for charges billed and resolve any questions or discrepancies prior to approving the college invoices for payment.

## **AUDITEE'S RESPONSE**

*We concur with the auditor's findings that monthly invoices submitted by the college were not accompanied by supporting documentation. As a result of the auditor's findings, procedures were amended to comply with the auditor's recommendation starting with the February 2000 invoice.*

- ◆ *Staff at the department's institutions reviewed invoices submitted by Missouri Western State College and then submitted them to the Department's Central Office with documentation available to them attached to the invoice.*
- ◆ *All interagency agreement invoices for education services between the department and contractors were forwarded to the Coordinator for Education Interagency Agreements in the Division of Offender Rehabilitative Services, Missouri Department of Corrections. The coordinator reviewed each invoice and ensured that sufficient documentation was present prior to processing accordingly. The coordinator also requested any documentation needed to resolve concerns and made adjustments as deemed necessary prior to submitting the invoices for payment.*
- ◆ *Effective immediately this process will be amended and all documentation and billings will accompany the invoices when submitted from the education contractor to the department's institution. The institutional staff will ensure that all documentation is verified at the local level. The process described in this paragraph will ensure that there is double checking of the invoices, and that each institution as well as the Department's Central Office has a full set of documentation for each invoice.*

|                                       |
|---------------------------------------|
| <b>2. Vending Machine Commissions</b> |
|---------------------------------------|

The WRDCC utilizes a private vendor to provide and service vending machines at the facility. The vendor periodically provides a commissions statement and remits two checks (one payable to the facility's personnel club and one payable to the inmate canteen fund). The contract on file at the WRDCC indicates the vendor is to remit commissions to be computed as a percentage of total gross sales. Vending machine commissions totaled over \$55,000 during the two years ended June 30, 1999. Department of Corrections Procedure No. D4-4.4, Section III.C. provides that in all institutions the income from vending machines located in areas accessible to both staff and offenders or the public are to be allocated 40 percent to an authorized employee organization or activity and 60 percent to the inmate canteen fund, while all income from vending machines located in institutional areas accessible to employees only may be retained by the authorized employee organization or for an authorized activity. Our review of the vending arrangement at the WRDCC noted areas where improvements are needed.

During October 1998, the WRDCC determined the vendor had not been paying commissions on several machines from July 1997 to August 1998. The WRDCC contacted the vendor and subsequently received \$5,020 in commissions in November 1998.

We reviewed commissions statements for the period October 1998 to December 1999 and noted that commissions on two cigarette machines were calculated on net sales (gross sales after sales taxes had been withheld) rather than gross sales as required by the terms of the contract. As a result, the vendor underpaid commissions on these machines by \$463. It was also noted that commissions were not paid on three new machines during September, October, and November 1999, resulting in the vendor owing an additional \$281 in commissions. Once these errors were brought to the WRDCC's attention, the WRDCC contacted the vendor and subsequently received \$774 in commissions in February 2000.

Despite periodic contact with the vendor, commission payments are frequently not received by the WRDCC until approximately two months or more after the end of the month applicable to the commission statement. The vending company's contract stipulates that sales figures will be computed on a monthly basis, a report generated, and check issued.

While the WRDCC did review monthly commission statements, the errors occurring since October 1998 as noted above had not been detected. It appears changes in the WRDCC's business office personnel since late 1998 have resulted in less effective reviews of vending commission receipts. The WRDCC also has no procedures in place to verify reported sales on which commissions are based. Thorough reviews are necessary to ensure the propriety of commissions received and compliance with contract terms.

**WE RECOMMEND** the WRDCC establish procedures to verify the reported sales, improve its review procedure to ensure compliance with contract terms, check the accuracy of commission statements and amounts remitted, and continue its efforts to have the vendor remit monies timely.

### **AUDITEE'S RESPONSE**

*We concur with the auditor's findings that the vendor did not comply with the contract terms which resulted in an underpayment of approximately \$774 for October 1998 to December 1999.*

- ◆ *During February 2000, the \$774 outstanding commission was collected from the vendor.*
- ◆ *Beginning in July 2000, sales are compared with commission on a minimum of three items each month. Different items will be selected monthly.*

|           |                         |
|-----------|-------------------------|
| <b>3.</b> | <b>Food Inventories</b> |
|-----------|-------------------------|

During the year ended June 30, 1999, the WRDCC served 812,926 meals to inmates with food costs of approximately \$564,000. The institution maintains perpetual inventory records for all food items except for bread and milk products and fresh produce.

- A. Generally, the food service employees perform the monthly physical counts of food inventories. These employees also have custody of the inventory. We scanned the computer generated inventory summaries for the period July 1998 to

December 1999. The reports for only three of the 18 months had the signature of an employee not regularly assigned to the food service section.

This practice is in violation of the Department of Corrections (DOC)'s policy IS10-1.15, Section III.B., which states that the physical inventory count must be verified by an institutional employee who is not assigned to the food service section. An independent verification enhances the controls over the food inventories.

- B. The food services manager prepares the daily menus for the cooks and the cooks prepare a food requisition form listing the food needed for each day's meals. The cooks send the completed requisition to the food storage area. The food services storekeeper then fills the order. We noted that the food service manager did not sign the requisition form as required by the DOC policy IS10-1.17.

To maintain adequate control and accountability over food inventories, food should only be removed from storage with an authorized requisition form. Failure to enforce proper controls and procedures over the food inventory subjects the facility to an increased risk of theft.

- C. WRDCC receives commodity food items through the U. S. Department of Agriculture (USDA) Food Distribution Program. These commodities are inventoried and accounted for separately from other food items used by the facility. Each month the food service storekeeper performs physical inventory counts and prepares an expendable inventory summary report, documenting the beginning and ending commodity food inventory balances as well as the quantity of commodity food items received and used. The WRDCC also maintains perpetual inventory records for all USDA food items.

DOC Procedure No. IS10-1.17, Section III.B.3. requires USDA foods used to be included on the daily food services reports (DFSR) along with other food items. WRDCC began recording USDA foods on the DFSRs in January 1999. However, the USDA food usage on these daily reports is not reconciled to the expendable inventory summary report.

Our comparison of the DFSRs and the expendable inventory summary reports for the calendar year 1999 indicated that for all but three months, there were differences in the quantities of the various USDA foods usage presented on the two reports. Our review of this information for the year ended December 31, 1999, indicated that the total value of the usage reported on the expendable inventory summary reports was \$3,669 more than what was reported on the DFSRs and the majority of this relates to one item, dry milk. Based upon discussions with food service employees, procedures were not in place to ensure that USDA foods were included on the DFSRs and the amounts used on the expendable inventory summary reports were calculated based upon the actual physical counts at the beginning and ending of the month, taking into account any items received during the month.

To maintain adequate control and accountability over USDA food inventories, the WRDCC must require reconciliations between amounts reported as used per the

DFSRs, perpetual inventory records, and the monthly expendable inventory summary. Otherwise, improprieties may occur without detection.

**WE RECOMMEND** the WRDCC:

- A. Segregate the duties of inventory taking from the custody of food inventories. An employee who is not assigned to the Food Service Section should observe the inventory and perform test counts.
- B. Require the food service manager to sign completed requisitions.
- C. Reconcile the USDA Food Distribution Program usage reported on the daily food service report to the expendable inventory summary report and perpetual inventory records on a periodic basis to ensure the inventories are accounted for properly.

**AUDITEE'S RESPONSE**

- A. *We concur with the auditor's findings that there was no independent verification of inventory counts. Beginning April 2000, the Associate Superintendent of Operations assigned a Correctional Classification Assistant and other non-food service staff to verify the monthly food service physical inventory.*
- B. *We concur with the auditor's findings that food requisitions were not properly signed for by the food service manager. Effective July 11, 2000, the Food Service Manager (or in his absence a designated Cook III) signs all completed food requisitions.*
- C. *We concur that the U.S. Department of Agriculture foods were not properly reported. Effective July 11, 2000, for all USDA foods issued, their costs are recorded on the Daily Food Services Report for that day. A running total of USDA food costs for the month is also entered on each Daily Food Service Report.*

|                              |
|------------------------------|
| <b>4. Canteen Procedures</b> |
|------------------------------|

The WRDCC operates a canteen for the inmates' benefit. We reviewed the canteen's inventory controls and reporting and noted some concerns.

- A. Perpetual inventory records are not maintained for all canteen items. Perpetual inventory records are maintained for expensive or high-risk items, such as radios, tape players, and televisions, however, perpetual records are not maintained for food, cigarettes, and personal use items. As required by department policy, the canteen employees perform physical inventories of all canteen items held for resale at each month-end. Because no perpetual inventory records are maintained for food, cigarettes, and personal use items, the results of these counts are not compared to any records. It was also noted that the employees performing the month-end counts also have custody of the inventory and no verification by someone independent of canteen responsibilities is performed. As a result of these various concerns, there is limited monitoring of changes in canteen

inventory and the benefit of month-end physical inventory procedures is lessened without comparison to perpetual inventory records and independent verification.

Deficiencies with the current automated canteen system's handling of certain transactions and problems with the entry of item code and price data for some products have contributed to the inventory monitoring problems. Discussions with Department of Corrections personnel indicate they are aware of the limitations of the current canteen inventory system and are working toward implementation of a new inventory system which will provide perpetual inventory records. This new system had been installed in one facility as of May 2000. Once the new inventory system is in place, monthly inventory counts of all items held for resale should be compared to the perpetual inventory record to lessen the possibility that instances of loss, misuse, or theft of canteen inventory will go undetected. In the meantime, the WRDCC should consider utilizing data available from the various canteen reports to verify the month-end balances of selected canteen items and ensure that month-end counts are verified by an institutional employee not assigned to the canteen.

- B. We performed calculations to estimate canteen sales for October 1999 and November 1999 based on purchases and the beginning and ending inventory levels from the month-end report of inventory on hand. The estimated sales were \$769 less than and \$114 more than actual reported sales per the daily close reports for October and November 1999, respectively.

Differences between calculated sales and reported sales may occur for various reasons, such as inaccurate physical inventory counts; recording sales incorrectly in the cash register; goods returned to vendor; and, theft, loss, or misappropriation of canteen resalable goods.

The WRDCC's management should periodically perform similar calculations to determine if irregularities are occurring. Significant variances should be investigated.

**WE RECOMMEND** the WRDCC:

- A. Reconcile month-end physical inventory counts to the new perpetual inventory records once this system is implemented. Until this time, however, records currently available should be utilized to verify month-end counts for some canteen items (at least on a test basis). In either case, any discrepancies should be investigated in a timely manner. Also, assign an employee independent of the canteen to verify physical inventory counts performed by the canteen.
- B. Periodically estimate canteen sales and compare the estimated sales to reported sales. Management should investigate and account for all significant variances.

**AUDITEE'S RESPONSE**

- A. *We concur with the auditor's findings that perpetual inventory records were not maintained for all canteen items and there is no independent verification of physical inventory counts.*

- ◆ *Beginning in March 2000, perpetual inventories were established and are maintained for all canteen warehouse items.*
- ◆ *Beginning in June 2000, all inventory counts are verified by an employee independent of the canteen.*

*B. We concur with the auditor's findings that periodic calculations of canteen sales were not being performed and compared to reported sales. As part of a comprehensive upgrade to our canteen operation, a new automated canteen system has been developed over the past six months which corrects these deficiencies. Implementation at all DOC institutions is currently underway. As an interim corrective step, beginning in July 2000, the Daily Canteen Item Movement reports are being utilized to conduct spot checks on inventory and to verify month-end item counts.*

|           |   |
|-----------|---|
| <b>5.</b> | <b>Reception Center Inmate Receipts</b> |
|-----------|---|

The WRDCC receives newly convicted offenders and those returned from probation and parole supervision at the reception center. The offenders bring with them personal property, including cash. If monies are received at the initial intake point, the monies are posted to the reception center receipts log; however, if monies are found on the offender at a later step in the intake process, it is recorded on the inmate's personal property inventory form but not included on the log.

All monies regardless of when found are put into a locked box to be picked up by the facility's business office along with the log. Currency is placed in sealed envelopes indicating the name of the offender, amount, and date. The offender, the receiving officer, and a witness are required to sign the envelope to attest to the amount placed in the envelope. These envelopes are not numbered. The business office prepares revenue transmittals to send collections to the DOC – Inmate Finance Section for deposit into the individual inmate's account.

To ensure all inmate receipts are properly accounted for and transmitted, all monies should be placed in prenumbered envelopes and recorded on the reception center log. The envelope number should be posted to the log and the numerical sequence accounted for properly. The logs should be reconciled to revenue transmittals. In addition, the log should be modified to indicate whether monies were found at initial intake point or later in the process.

**WE RECOMMEND** the WRDCC maintain a log of all inmate receipts and reconcile the log to revenue transmittals. In addition, prenumbered envelopes should be used for all inmate receipts and the numerical sequence of the envelopes should be accounted for properly.

**AUDITEE'S RESPONSE**

*We concur in part with the auditor's findings that receipts of specific inmate monies at the reception center were not all recorded on the reception center log. This finding primarily*

*concerns monies that were concealed by the inmate at admission to the institution. Beginning January 2000, all monies received from inmates, including concealed monies that are found after the inmate's initial reception processing, are placed in a sealed envelope and logged. Numbered envelopes are not desirable as there are numerous locations where monies may be discovered. Maintaining envelopes in sequence is not practical due to the number of these areas.*

|                             |
|-----------------------------|
| <b>6. Armory Procedures</b> |
|-----------------------------|

The WRDCC maintains an armory for firearms, ammunition, chemical agents, restraints, and miscellaneous items which are accessed through the armory sergeant, armory officer, or shift supervisor at the control center.

- A. To account for the issuance of these firearms and ammunitions, an armory log is maintained which is a written record of routine and emergency distribution of firearms. We reviewed the armory log for June 1999 and found that items were recorded as being issued to a particular post rather than to an individual. In addition, the individual actually issued the firearm is not required to sign the log. While DOC policy IS20-2 indicates that the institution head may authorize routine assignment of firearms to personnel in certain posts when considered essential to maintain the security of the institution, the armory log should provide a record of who has responsibility for each weapon issued.
- B. Monthly physical inventories of the armory are performed by the same armory officer that has custody of inventory. This practice is in violation of the Department of Corrections Procedure No. D4-5.1, Section III.B.1., which states that the physical inventory must be verified by an institutional employee whose duties are not the maintenance of that particular inventory. An independent verification enhances controls of armory inventories.
- C. The armory's perpetual records of inventory items have not been updated since June 1999. As a result, a comparison of physical inventory counts to balances recorded in the perpetual records is not possible, and the effectiveness of the periodic physical inventory procedure is minimized. Department of Corrections Procedure No. D4-5.1, Section III.A., requires the armory to maintain a perpetual inventory of stock.

Effective internal controls over inventories require perpetual records be maintained on all inventory items in accordance with departmental policy. In addition, a comparison of the balances obtained during the physical inventory count with the balances recorded on the perpetual inventory records must be required. Furthermore, adequate controls over inventories are necessary to ensure errors and other irregularities are prevented or detected in a timely manner.

**WE RECOMMEND** the WRDCC:

- A. Maintain a complete and properly documented armory issuance log. In addition, the individual being issued a firearm should be required to sign the log.
- B. Require the armory to have the physical inventories verified by an employee independent of custodial and record-keeping duties.
- C. Update and continuously maintain perpetual inventory records for items held in the armory, compare the balances to the monthly physical inventory counts and document this comparison on the perpetual inventory records, and follow up on discrepancies noted.

**AUDITEE'S RESPONSE**

- A. *We concur with the auditor's findings that the armory log did not include adequate documentation regarding the issuance of firearms. In January 2000, the institution implemented procedures that require completion of the armory issuance log for all firearm and ammunition issuance.*
- B. *We concur with the auditor's findings that monthly physical inventories were performed by the armory officer. Effective January 2000, the monthly physical inventories are conducted by an employee independent from the armory.*
- C. *We concur with the auditor's findings that perpetual inventory records of the armory were no longer being maintained. Effective January 2000, WRDCC began updating the perpetual inventory records for all armory items and resumed monthly maintenance of those records.*

This report is intended for the information of the management of the Western Reception and Diagnostic Correctional Center and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

DEPARTMENT OF CORRECTIONS  
WESTERN RECEPTION AND DIAGNOSTIC  
CORRECTIONAL CENTER  
HISTORY, ORGANIZATION, AND STATISTICAL INFORMATION

The Western Reception and Diagnostic Correctional Center was originally established as a satellite facility of the Western Missouri Correctional Center in 1993 and occupied one building on the grounds of the St. Joseph State Hospital. The intent of the satellite facility was for the inmates to help the community with the massive devastation to the local area from the 1993 floods. In 1994, the Park Building Treatment Center became operational and the decision was made by the Department of Corrections to take over the old hospital facilities once the hospital had moved to its new site. The final phase of construction was completed in September 1999. The newly named Western Reception and Diagnostic Correctional Center is the Department of Corrections' reception center for the western region of the state. Newly convicted offenders, or those returned from probation and parole supervision, will be housed there while they undergo evaluation and classification to determine their permanent institutional assignments. The Western Reception and Diagnostic Correctional Center will continue to house general population offenders and offenders participating in substance abuse prevention programs. The total capacity for all classifications of offenders is 1,880.

The administration of Western Reception and Diagnostic Correctional Center consists of one superintendent and two associate superintendents. The associate superintendent of operations is responsible for inmate food service, recreation, institutional activities, facilities maintenance, fire and safety, and laundry. The associate superintendent of inmate management is responsible for inmate custody and classification.

The Department of Corrections has entered into an inter-agency agreement with Missouri Western State College. Starting in September 1999, through this agreement the university provides adult basic education for the general inmate population and educational diagnostic services for reception center's inmates.

The Western Reception and Diagnostic Correctional Center was selected to be the pilot site to implement the Parallel Universe Program which began in October 1999. The concept is for the DOC to move away from making every decision for inmates. Under this program, the inmates will be placed in different levels. Each level can only be obtained with good adjustment and each level will give the inmate more privileges and additional responsibilities.

The Western Reception and Diagnostic Correctional Center employed approximately 590 assigned to various administrative, service and security functions as of June 30, 1999. Ronald Schmitz serves as the facility superintendent. An organization chart follows:

| Costs associated with increased inmate population department-wide, including, but not limited to funding for personal services, expense and equipment, contractual services, repairs, renovations, capital improvements and the Western Reception and Diagnostic Correctional Center | \$ 0         | 0               | 0              | 11,888,063   | 11,499,319      | 388,744 |
| Personal Service   | 1,311,438    | 1,040,624       | 270,814        | 1,246,794    | 1,229,070       | 17,724  |
| Installation of fencing, exterior lighting, and other work necessary for the St. Joseph Buchanan Building to function as a correctional facility   | 17,547       | 13,112          | 4,435          | 294,955      | 277,408         | 17,547  |
| Total General Revenue Fund - State   | \$ 1,328,985 | 1,053,736       | 275,249        | 13,429,812   | 13,005,796      | 424,016 |

Note: The appropriations presented above are used to account for and control the facility's expenditures from amounts appropriated to the facility by the General Assembly. The facility administers transactions from the appropriations presented above. However, the state treasurer as fund custodian and the Office of Administration provide administrative control over the fund resources withing the authority prescribed by the General Assembly. This does not represent all expenditures of the facility. Some expenditures relating to individual facilities are charged to department-wide appropriations and are not identified by facility (including some purchases of food inventory, computer equipment, and paper products). Expenditures charged to department-wide appropriations that are identified to the facility are noted in Appendix B.

OZARK COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-76  
August 22, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

August 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Ozark, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

---

This audit of Ozark County was a financial and compliance audit of various county operating funds.

The audit includes some matters upon which the county should consider and take appropriate corrective action.

**Copies of the audit are available upon request.**

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Ozark County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Ozark County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

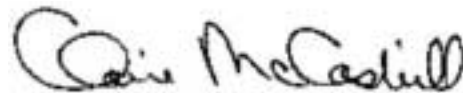

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Ozark County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Ozark County.

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Ozark County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated April 6, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

A handwritten signature in black ink, appearing to read "Claire McCaskill".

Claire McCaskill  
State Auditor

April 6, 2000 (fieldwork completion date)

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Ozark County, Missouri

We have audited the special-purpose financial statements of various funds of Ozark County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated April 6, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

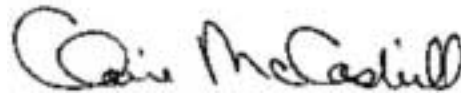

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Ozark County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted an immaterial instance of noncompliance, which we have reported to the management of the county in the accompanying Letter on Other Matters.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Ozark County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not

necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted another matter involving the internal control over financial reporting which we have reported to the management of the county in the accompanying Letter on Other Matters.

This report is intended for the information of the management of Ozark County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, appearing to read "Claire McCaskill". The signature is cursive and somewhat stylized, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

The accompanying Notes to the Financial Statements are an integral part of this statement.

## Notes to the Financial Statements

## OZARK COUNTY, MISSOURI

### NOTES TO THE FINANCIAL STATEMENTS

#### 1. Summary of Significant Accounting Policies

##### A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Ozark County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, or the Health Center Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

##### B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

##### C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>                           | <u>Years Ended December 31,</u> |
|---------------------------------------|---------------------------------|
| Sheriff's Equipment Fund              | 1999 and 1998                   |
| Children of Domestic Violence Fund    | 1999 and 1998                   |
| War Memorial Fund                     | 1999 and 1998                   |
| Associate Circuit Court Interest Fund | 1998                            |
| Circuit Clerk Interest Fund           | 1998                            |
| Law Library Fund                      | 1998                            |
| Recorder User Fee Fund                | 1998                            |

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>                           | <u>Years Ended December 31,</u> |
|---------------------------------------|---------------------------------|
| Associate Circuit Court Interest Fund | 1999                            |
| Recorder User Fee Fund                | 1999                            |
| Special Road and Bridge Fund          | 1998                            |
| Prosecuting Attorney Training Fund    | 1998                            |
| Capital Improvements Sales Tax Fund   | 1998                            |
| Health Center Fund                    | 1998                            |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

Deficit budget balances are presented for the General Revenue Fund for the years ended December 31, 1999 and 1998. However, the budgets of that fund also included other resources available to finance current or future year disbursements. Generally, other available net resources represented current year property taxes not received before December 31. Such resources were sufficient to offset the deficit budget balances presented.

#### D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statements for the years ended December 31, 1999 and 1998, did not include the Health Center Fund.

## 2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S.

Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has adopted such a policy. The policy permits investment in securities having principal and interest guaranteed by the United States government and collateralized time and demand deposits.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The county's and the Health Center Board's deposits at December 31, 1999 and 1998, were entirely covered by federal depository insurance or by collateral securities held by the county's or board's custodial bank in the county's or board's name.

N/A - Not applicable

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

OZARK COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Ozark County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Amounts for the Donation of Federal Surplus Personal Property (CFDA number 39.003) represent the estimated fair market value of property at the time of receipt.

The direct program amounts for Immunization Grants (CFDA number 93.268) represent the original acquisition cost of varicella (chicken pox) vaccine provided to the Health Center through the Centers for Disease Control of the U.S. Department of Health and Human Services. Of the pass-through amounts for that program, \$9,442 and \$8,744 represent the original acquisition cost of other vaccines purchased by the Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), \$113 and \$227 represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$562 and \$795 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants, the Preventive Health and Health Services Block Grant, and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

2. Subrecipients

Of the federal expenditures presented in the schedule, the county provided federal awards to subrecipients as follows:

| <u>Federal<br/>CFDA Number</u> | <u>Program Title</u>   | <u>Amount Provided</u>                        |             |
|--------------------------------|--|---|-------------|
|                                |  | <u>Year Ended December 31,</u><br><u>1999</u> | <u>1998</u> |

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Ozark County, Missouri

Compliance

We have audited the compliance of Ozark County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. The county's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

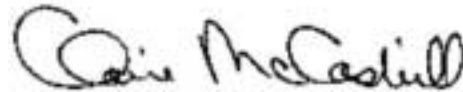

In our opinion, Ozark County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998.

## Internal Control Over Compliance

The management of Ozark County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information of the management of Ozark County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

and Type B programs:

\$300,000

Auditee qualified as a low-risk auditee?

\_\_\_\_\_ yes        x   no

## **Section II - Financial Statement Findings**

This section includes no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

## **Section III - Federal Award Findings and Questioned Costs**

This section includes no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

OZARK COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior audit report issued for the three years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

OZARK COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

Our prior audit report issued for the three years ended December 31, 1997, included no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

## SECTION ON OTHER MATTERS

## OZARK COUNTY, MISSOURI LETTER ON OTHER MATTERS

We have audited the special-purpose financial statements of various funds of Ozark County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated April 6, 2000. We also have audited the compliance of Ozark County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998, and have issued our report thereon dated April 6, 2000.

We did not review the operations of elected officials with funds other than those presented in the special-purpose financial statements. The operations of such officials will be reviewed and reported on during the state auditor's next scheduled audit of the county.

This Letter on Other Matters presents matters other than the findings, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These matters resulted from our audits of the special-purpose financial statements of Ozark County and of its compliance with the types of compliance requirements applicable to each of its major federal programs but do not meet the criteria for inclusion in the written reports on compliance and on internal control over financial reporting or compliance that are required for audits performed in accordance with *Government Auditing Standards* and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Nevertheless, the county should consider these matters and take appropriate corrective action.

### 1. Budgets

Budgets were not prepared for various county funds and actual expenditures exceeded approved budget amounts in some funds for the two years ended December 31, 1999. Budgets should be prepared for all county funds. In addition, if there are valid reasons which necessitate excess disbursements, amendments should be made following the same process by which the annual budget is approved, including holding public hearings and filing the amended budget with the State Auditor's Office.

### 2. Schedule of Expenditures of Federal Awards

The county is required by OMB Circular A-133 to prepare a schedule of expenditures of federal awards (SEFA). The SEFA schedule is used to determine the single audit requirements of the county. The county's SEFA contained numerous errors and omissions for the two years ended December 31, 1999. The SEFA should be accurately prepared to ensure all federal awards are properly reported.

### 3. Capital Improvement Transfers

The county is making transfers from the Capital Improvement Fund to repay the General Revenue and other funds for a 1996 elevator project. The county needs to review all costs

associated with the project and determine the total amounts due these funds. Documentation supporting the costs and amounts already reimbursed should be maintained and any amounts still due should be identified and properly budgeted each year until the entire costs are repaid.

This Letter on Other Matters is intended for the information of the management of Ozark County, Missouri, and other applicable government officials. However, this letter is a matter of public record and its distribution is not limited.

BARTON COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-75  
August 14, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

August 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Barton, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of Barton County included additional areas of county operations, as well as the elected county officials. The following concerns were noted as part of the audit:

- The county did not reconcile total amounts claimed for reimbursement to the Department of Transportation to their actual expenditures for the project. Consequently, the county submitted claims for reimbursement exceeding actual costs incurred by \$28,082 due to an error in preparing one of the reimbursement claims.
- The county has a written agreement with the Prosecuting Attorney outlining the portion of the Prosecuting Attorney's office expenses to be paid by the county, however, the agreement does not address the secretaries' salaries paid by the county.
- Several instances were noted where leave amounts reported on the employee's time sheets did not agree to the amounts recorded on the employee's leave record. In addition, some annual leave and compensatory time balances were not carried forward in the subsequent year. Instances were noted where employee time sheets were not signed by the employee's supervisor.
- Similarly noted in two previous audits, the Circuit Clerk had been unable to reconcile the open items (liabilities) and cash balance for the traffic account. The unreconciled difference between the total open items balance and cash balance often fluctuated monthly.

**Copies of the audit are available upon request.**

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Barton County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Barton County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Barton County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Barton County.

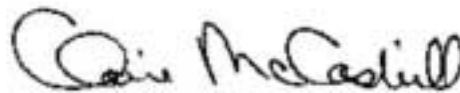

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Barton County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31, 1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated April 6, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the management of Barton County, Missouri, and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

Claire McCaskill  
State Auditor

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Barton County, Missouri

We have audited the special-purpose financial statements of various funds of Barton County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated April 6, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

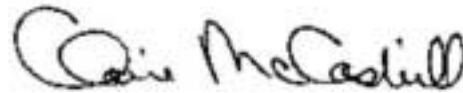

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Barton County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance which are described in the accompanying Management Advisory Report.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Barton County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material

weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting which are described in the accompanying Management Advisory Report.

This report is intended for the information of the management of Barton County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" and last name "McCaskill" clearly distinguishable.

The accompanying Notes to the Financial Statements are an integral part of this statement.

## Notes to the Financial Statements

BARTON COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Barton County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, or the Health Center Board of Trustees. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>                       | <u>Years Ended December 31,</u> |
|-----------------------------------|---------------------------------|
| Special Law Enforcement Drug Fund | 1999 and 1998                   |
| Associate and Circuit Division    |                                 |
| Interest Fund                     | 1999 and 1998                   |
| Law Library Fund                  | 1999 and 1998                   |

D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statements did not include the following funds:

| <u>Fund</u>                       | <u>Years Ended December 31,</u> |
|-----------------------------------|---------------------------------|
| Health Center Fund                | 1999 and 1998                   |
| Special Law Enforcement Drug Fund | 1999 and 1998                   |
| Associate and Circuit Division    |                                 |
| Interest Fund                     | 1999 and 1998                   |
| Law Library Fund                  | 1999 and 1998                   |

2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

Cash includes both deposits and investments. In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of deposits and investments. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions. Investments are securities and other assets acquired primarily for the purpose of obtaining income or profit.

Deposits

The county's deposits at December 31, 1999 and 1998, were entirely covered by federal depository insurance or by collateral securities held by the county's custodial bank in the county's name.

The health center's deposits at December 31, 1999 and 1998, were entirely covered by federal depositary insurance or by collateral securities held by the health center's custodial bank in the health center's name.

### Investments

The only investment of the various funds at December 31, 1999 and 1998, was a U.S. Treasury bill with a reported amount of \$20,000 (which approximated market).

This investment was held by the Health Center Board of Trustees in the Board's name.

N/A - Not applicable

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

BARTON COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Barton County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

The direct program amounts for Immunization Grants (CFDA number 93.268) represent the original acquisition cost of varicella (chicken pox) vaccine provided to the Health Center through the Centers for Disease Control of the U.S. Department of Health and Human Services. Of the pass-through amounts for that program, \$26,509

and \$20,002 represent the original acquisition cost of other vaccines purchased by the Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), \$316 and \$520 represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$1,578 and \$1,818 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

2. Subrecipients

Of the federal expenditures presented in the schedule, the county provided \$220,926 to subrecipients under the Public Assistance Grants (CFDA number 83.544) during the year ended December 31, 1999.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Barton County, Missouri

Compliance

We have audited the compliance of Barton County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. The county's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

In our opinion, Barton County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the years

ended December 31, 1999 and 1998. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

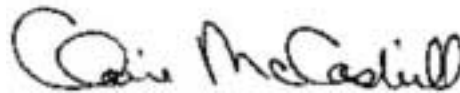

#### Internal Control Over Compliance

The management of Barton County Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted a certain matter involving the internal control over compliance and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment could adversely affect the county's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. The reportable condition is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we do not believe that the reportable condition described above is a material weakness.

This report is intended for the information of the management of Barton County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

Claire McCaskill  
State Auditor

April 6, 2000 (fieldwork completion date)

Schedule

BARTON COUNTY, MISSOURI  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
(INCLUDING MANAGEMENT'S PLAN FOR CORRECTIVE ACTION)  
YEARS ENDED DECEMBER 31, 1999 AND 1998

**Section I - Summary of Auditor's Results**

Financial Statements

Type of auditor's report issued: Unqualified

Internal control over financial reporting:

Material weaknesses identified? \_\_\_\_\_ yes      x   no

Reportable conditions identified that are  
not considered to be material weaknesses? \_\_\_\_\_ yes      x   none reported

Noncompliance material to the financial statements  
noted? \_\_\_\_\_ yes      x   no

Federal Awards

Internal control over major programs:

Material weaknesses identified? \_\_\_\_\_ yes      x   no

Reportable conditions identified that are  
not considered to be material weaknesses? \_\_\_\_\_ yes      x   none reported

Type of auditor's report issued on compliance for  
major programs: Unqualified

Any audit findings disclosed that are required to be  
reported in accordance with Section .510(a) of OMB  
Circular A-133?   x   yes    \_\_\_\_\_ no

Identification of major program(s):

| <u>CFDA or<br/>Other Identifying<br/>Number</u> | <u>Program Title</u>              |
|---|-----------------------------------|
| 20.205  | Highway Planning and Construction |
| 83.544  | Public Assistance Grant           |

Dollar threshold used to distinguish between Type A and Type B programs:

\$300,000

Auditee qualified as a low-risk auditee?

\_\_\_\_\_ yes        x   no

## **Section II - Financial Statement Findings**

This section includes no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

## **Section III - Federal Award Findings and Questioned Costs**

This section includes the audit finding that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

|             |  |
|-------------|--|
| <b>99-1</b> | <b>Amounts Claimed for Reimbursement</b> |
|-------------|--|

|                       |                                       |
|-----------------------|---------------------------------------|
| Federal Grantor:      | U.S. Department of Transportation     |
| Pass-Through Grantor: | Highway and Transportation Commission |
| Federal CFDA Number:  | 20.205                                |
| Program Title:        | Highway Planning and Construction     |
| Pass-Through Entity   |                                       |
| Identifying Number:   | BRO-006(12)                           |
| Award Year:           | 1999                                  |
| Questioned Costs:     | \$28,083                              |

The county did not reconcile total amounts claimed for reimbursement to the Department of Transportation to their actual expenditures for the project. Consequently, the county submitted claims for reimbursement exceeding actual costs incurred by \$28,083 due to an error in preparing one of the reimbursement claims. The grant agreement prohibits claims for reimbursements that exceed actual costs. As a result, \$28,083 is due the federal grantor agency.

**WE RECOMMEND** the County Commission resolve the questioned costs with the federal grantor agency. In addition, the county should reconcile amounts claimed for reimbursement to actual expenditures to ensure errors are detected in a timely manner.

### **AUDITEES RESPONSE:**

*The county has already contacted the Department of Transportation and is awaiting instructions on how to refund the remaining overpayment. We will keep a separate ledger of amounts claimed for reimbursement and expenditures incurred on future projects.*

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

BARTON COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior audit report issued for the three years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

BARTON COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

Our prior audit report issued for the three years ended December 31, 1997, included no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Findings

BARTON COUNTY, MISSOURI  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S FINDINGS

We have audited the special-purpose financial statements of various funds of Barton County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated April 6, 2000. We also have audited the compliance of Barton County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998, and have issued our report thereon dated April 6, 2000.

We also have reviewed the operations of elected officials with funds other than those presented in the special-purpose financial statements. As applicable, the objectives of this review were to:

1. Determine the internal controls established over the transactions of the various county officials.
2. Review and evaluate certain other management practices for efficiency and effectiveness.
3. Review certain management practices and financial information for compliance with applicable constitutional, statutory, or contractual provisions.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed accounting and bank records and other pertinent documents and interviewed various personnel of the county officials.

As part of our review, we assessed the controls of the various county officials to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Because the Barton County Memorial Hospital is audited and separately reported on by other independent auditors, the related fund is not presented in the special-purpose financial statements. However, we reviewed that audit report and the substantiating working papers.

Our review was limited to the specific matters described in the preceding paragraphs and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our findings arising from our review of the elected county officials referred to above. In addition, this report includes findings other than those, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These

findings resulted from our audit of the special-purpose financial statements of Barton County but do not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*.

|  |
|--|
| <b>1. Cost Sharing Agreement with the Prosecuting Attorney</b> |
|--|

The Prosecuting Attorney does not have an office in the courthouse; he performs his county duties from an office building used in the operation of his private law practice. The county does have a written agreement with the Prosecuting Attorney outlining the portion of the Prosecuting Attorney's office expenses to be paid by the county, however, secretaries' salaries are not addressed in the agreement. The county pays the two secretaries' salaries, one full-time and one part-time. These secretaries are the only clerical employees of the Prosecuting Attorney's private office and appear to also provide services to the private practice as well as the county. Salaries paid by the county to the clerical employees were \$30,070 and \$25,890 for the years ended December 31, 1999 and 1998, respectively. Time sheets are prepared by the secretaries, but do not reflect time worked on county business versus private practice business.

Since county resources should be used only for county business, the county should enter into a written agreement with the Prosecuting Attorney outlining what portion of the secretaries' salaries will be provided by the county and what will be provided by the private practice. The basis for the arrangements should be documented and retained. To ensure the Prosecuting Attorney is not personally benefiting from this arrangement, it is important to document the adequacy of the financial arrangement and the basis for the allocation of resources between county and private use. There needs to be a clear distinction made between county and private practice resources and work efforts to avoid the appearance of impropriety and alleviate questions regarding possible inappropriate use of public resources. Additionally, time sheets prepared by the Prosecuting Attorney's secretaries should reflect time worked on county business. The Prosecuting Attorney indicated a supplemental written agreement would be drawn up in response to the prior audit; however, no changes have occurred.

The condition was noted in our prior report.

**WE AGAIN RECOMMEND** the County Commission enter into a written agreement with the Prosecuting Attorney outlining the specific arrangements regarding payment of the Prosecuting Attorney's secretaries' salaries. The basis for the arrangements should be documented and retained. In addition, the Prosecuting Attorney's secretaries should prepare time sheets to reflect time worked on county business.

## **AUDITEE'S RESPONSE**

*The Barton County Commission is in the process of entering into an agreement with the Barton County Prosecuting Attorney regarding the secretaries salaries to assure the county is getting full service for the salary paid for work done on county business.*

|   |
|---|
| <b>2. Personnel Policies and Procedures</b> |
|---|

Time sheets prepared monthly by all employees, are reviewed and approved by the employee's supervisor, and submitted to the County Clerk for filing. Employees occasionally work overtime and receive compensatory time off for overtime hours worked. Employees earn annual leave which can accumulate to a specified maximum. Employees are responsible for recording and accumulating their leave balances on the leave accrual records. The leave records are reviewed and approved by the employee's supervisor and maintained by the officeholders. Annually, the leave records are submitted to the County Clerk for filing. We reviewed the time sheets and leave records for several employees and noted the following concerns.

- A. Several instances were noted where leave amounts reported on the employee's time sheets did not agree to the amounts recorded on the employee's leave record. In addition, some annual leave and compensatory balances were not carried forward in the subsequent year.

The County Clerk should maintain centralized leave records and reconcile the employees time sheets to leave records monthly. Additionally, leave balances should be carried forward to subsequent years in accordance with the county's policy and the Fair Labor Standards Act.

- B. We noted instances where employee time sheets were not signed by the employee's supervisor. Properly completed time sheets prepared and signed by the employee and approved by the employee's supervisor provide supporting documentation for payroll expenditures.

### **WE RECOMMEND** the County Commission:

- A. Require the County Clerk to maintain centralized leave records and ensure those records reconcile to the employees' time sheets and ensure the leave balances are properly carried forward to subsequent years.
- B. Ensure time sheets are signed by the employee's supervisor.

### **AUDITEE'S RESPONSE**

*The Barton County Commission has recently met with all of the elected officials and have agreed that each supervisor is responsible for each of their employee's time sheet for accuracy of accumulation of compensatory time, vacation time, and sick leave and they will review, check for accuracy, sign, and turn them in each pay period to the County Clerk's office.*

|                                       |
|---------------------------------------|
| <b>3. Circuit Clerk's Liabilities</b> |
|---------------------------------------|

The Circuit Clerk had been unable to reconcile the open items (liabilities) and cash balance for the traffic account. The unreconciled difference between the total open items balance and cash balance often fluctuated monthly. Some of the unreconciled differences appear to be due to errors in the open items report. In April 1999, the Circuit Clerk tried to identify the unreconciled differences; however, we noted approximately \$1,100 in old case balances that the Circuit Clerk had identified and distributed but had not deducted from the open items report. In October 1999, the Circuit Clerk stopped preparing open items reports and sought assistance from the Office of State Court's Administrator (OSCA). The Circuit Clerk has still not identified the cause for the difference between the cash balance and open items. The reconciled bank balance of the traffic account was \$11,495 at December 31, 1999.

Monthly reports of open items should be properly prepared and reconciled to the cash balance to ensure records are in balance and sufficient funds are available for payment of all liabilities.

A similar condition was noted in our two previous reports.

**WE AGAIN RECOMMEND** the Circuit Clerk ensure open-items reports are prepared monthly and reconciled to the bank balances for the traffic account.

### **AUDITEE'S RESPONSE**

*The Circuit Clerk provided the following response:*

*Since the completion of the audit, the majority of the unreconciled difference has been identified and the account is balanced to our open items listing.*

This report is intended for the information of the management of Barton County, Missouri, and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on Prior Audit Findings

## BARTON COUNTY, MISSOURI FOLLOW-UP ON PRIOR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Barton County, Missouri, on findings in the Management Advisory Report (MAR) of our prior audit report issued for the three years ended December 31, 1997. The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR. Although the remaining unimplemented recommendations have not been repeated, the county should consider implementing these recommendations.

### 1. County Expenditures

- A. The County did not require an outside contractor to pay prevailing wages on road and bridge projects performed in 1993. As a result, the County incurred \$14,820 in legal and other fees in 1995 to resolve the results of a Department of Labor audit. In addition, the County was required to pay various employees of the contractor the differences between wages originally paid and the prevailing wage totaling \$55,518.
- B. The County's written agreement with the Prosecuting Attorney did not address the arrangements for dividing the salaries of the secretaries between the County and the private law practice of the Prosecuting Attorney. Additionally, the time sheets of the secretaries did not reflect time worked on county business versus private practice business.
- C. The County purchased a building and lot for \$70,000 without obtaining an appraisal on the property. The Assessor's office had this commercial property appraised at \$44,690.

### Recommendation:

The County Commission:

- A. Ensure prevailing wage is paid on all public works projects.
- B. Enter into a written agreement with the Prosecuting Attorney outlining the specific arrangements regarding payment of the Prosecuting Attorney's secretaries' salaries. The basis for the arrangements should be documented and retained. In addition, the Prosecuting Attorney's secretaries should prepare time sheets to reflect time worked on county business.
- C. Ensure justification of the selection process is thoroughly documented when an asset's cost exceeds market value.

Status:

A&C. Implemented.

B. Not implemented. See MAR No. 1.

2. Budgets and Published Financial Statements

A. Formal budgets were not prepared for various county funds.

B. The annual published financial statements of the county did not include the financial activity of some county funds as required.

Recommendation:

The County Commission:

A. Ensure budgets are prepared or obtained for all county funds.

B. Ensure financial information for all county funds is properly reported in the annual published financial statements.

Status:

A. Partially implemented. The county prepared budgets for all county funds except the Special Law Enforcement Drug, Associate and Circuit Division Interest, and Law Library Funds. Although budgets were not prepared for these funds, the county commission obtained information about the receipts, disbursements, and available balances of these funds from the County Treasurer and Circuit Clerk. Although not repeated in the current MAR, the county should prepare budgets for these funds.

B. Not implemented. Although not repeated in the current MAR, our recommendation remains as stated above.

3. County Clerk's Procedures

Copies of property tax additions initiated by the Assessor were not forwarded to the County Clerk. Property tax additions were not always charged to the Ex Officio and Township Collectors.

Recommendation:

The County Clerk request a copy of the tax book additions initiated by the County Assessor and ensure all additions are added to the tax books and that the Ex Officio Collector and Township Collectors are properly charged.

Status:

Implemented.

4. County Treasurer and Ex Officio County Collector's Procedures

- A. Surtax collections were improperly allocated and distributed to the various political subdivisions.
- B. The collateral securities pledged by the county's depository banks were sometimes insufficient to cover deposits of the County Treasurer and Ex Officio County Collector. The County Treasurer and Ex Officio County Collector did not monitor collateral securities pledged.

Recommendation:

The County Treasurer and Ex Officio County Collector:

- A. Calculate the percentages which should have been used for each of the two years ended February 28 (29), 1997 and 1996, and apply these percentages to the respective surtax collections. The newly calculated distributions should be compared to the actual distributions and adjustments made to future distributions.
- B. Ensure the county's depository banks pledge adequate securities.

Status:

Implemented.

5. Circuit Clerk's Procedures

- A. Monthly listings of open items were not prepared for the traffic account.
- B. The general civil probate bank reconciliation of December 31, 1997, was inaccurate. Several checks written on the general civil probate and child support accounts had been outstanding more than one year.

Recommendation:

The Circuit Clerk:

- A. Ensure open-items listings are prepared monthly and reconciled to bank balances for the traffic account.

- B. Ensure accurate bank reconciliations are performed, and adopt procedures to routinely follow up and reissue old outstanding checks. If the payees cannot be located, the monies should be distributed in accordance with state law.

Status:

- A. Not implemented. See MAR No. 3.
- B. Partially implemented. The bank reconciliations for the general civil probate were prepared. However, the Circuit Clerk did not follow-up and reissue the old outstanding checks. Although not repeated in the current MAR, the Circuit Clerk should adopt procedures to routinely follow up and reissue old outstanding checks and, if the payees cannot be located, distribute the monies in accordance with state law.

6. Prosecuting Attorney's Procedures and Controls

- A. Accounting duties were not adequately segregated.
- B. Receipt slips were not issued unless requested by the payee.
- C. Receipts were deposited once a week and were kept in an unsecured location until the time of deposit.
- D. A log of bad check complaints was not maintained.

Recommendation:

The Prosecuting Attorney:

- A. Adequately segregate accounting duties to the extent possible or ensure periodic supervisory reviews are performed and documented.
- B. Ensure prenumbered receipt slips are issued for all monies received.
- C. Deposit all monies intact daily or when receipts exceed \$100 and keep receipts in a secure location until deposited.
- D. Maintain a log of all bad check complaints filed with his office.

Status:

- A-C. Implemented.

- D. Partially implemented. The Prosecuting Attorney now assigns a sequential number to each complaint form received but does not maintain a log of bad check complaints. Although not repeated in the current MAR, our recommendation remains as stated above.

7. Health Center's Procedures and Controls

- A. A facsimile stamp of the Health Center Board's President was sometimes used by the Health Center's Administrator to sign checks. Additionally, a report of expenditures was reviewed by the board, but checks and invoices were not compared by the board to the expenditure report.
- B.1. The Health Center authorized expenditures for employees and board members for flowers, T-shirts, and a plaque.
- 2. The Health Center paid bonuses to its employees.
- 3. The Health Center made payments for lawn work and maintenance for which a written contract and IRS Form 1099-MISC was not prepared.
- C. The collateral securities pledged by the Health Center's depository banks to cover deposits were sometimes insufficient.

Recommendation:

The Health Center Board:

- A. Discontinue the practice of allowing the Health Center Administrator to use the facsimile signature stamp and require another board member to sign all checks. In addition, the board should compare checks issued to invoices and expenditure reports.
- B.1. Ensure expenditures are limited to those necessary to properly administer and maintain the Health Center.
- 2. Discontinue the practice of paying employee bonuses.
- 3. Ensure such agreements are evidenced by a written contract and issue IRS Forms 1099-MISC for all applicable expenditures, as required.
- C. Monitor the bank balance and ensure adequate securities are pledged for all funds on deposit in excess of FDIC coverage.

Status:

Implemented.

8. Hospital Procedures

- A. The Hospital overspent the amounts budgeted.
- B. The Hospital paid bonuses to several of its employees.

Recommendation:

The Barton County Memorial Hospital Board of Trustees:

- A. Keep expenditures within budgetary limits. Budgets should be properly amended if necessary.
- B. Discontinue the practice of paying employee bonuses.

Status:

- A. Partially implemented. The hospital overspent amounts budgeted for the year ended December 31, 1998, by \$162,383. However, actual expenditures for 1999 did not exceed the amounts budgeted. Although not repeated in the current MAR, our recommendation remains as stated above.
- B. Implemented.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

BARTON COUNTY, MISSOURI  
HISTORY, ORGANIZATION,  
AND STATISTICAL INFORMATION

Organized in 1855, the county of Barton was named after David Barton, a U.S. Senator. Barton County is a township-organized, third-class county and is part of the Twenty-Eighth Judicial Circuit. The county seat is Lamar.

Barton County's government is composed of a three-member county commission and separate elected officials performing various tasks. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials.

Principal functions of these other officials relate to judicial courts, law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records of importance to the county's citizens.

Counties typically spend a large portion of their receipts to support general county operations and to build and maintain roads and bridges. The following chart shows from where Barton County received its money in 1999 and 1998 to support the county General Revenue and Special Road and Bridge Funds:

| SOURCE                    | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| Property taxes            | \$ 59,857    | 4          | 56,588    | 4          |
| Sales taxes               | 399,616      | 25         | 377,575   | 27         |
| Federal and state aid     | 698,617      | 44         | 681,837   | 50         |
| Fees, interest, and other | 431,604      | 27         | 259,335   | 19         |
| Total                     | \$ 1,589,694 | 100        | 1,375,335 | 100        |

The following chart shows how Barton County spent monies in 1999 and 1998 from the General Revenue and Special Road and Bridge Funds:

| USE                       | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| General county government | \$ 625,004   | 37         | 657,293   | 52         |
| Public safety             | 115,760      | 7          | 93,777    | 7          |
| Health and Welfare        | 8,468        | 1          | 7,555     | 1          |
| Highways and roads        | 930,367      | 55         | 499,932   | 40         |
| Total                     | \$ 1,679,599 | 100        | 1,258,557 | 100        |

::

In addition, Barton County received \$530,267 and \$475,639 of revenues in the Law Enforcement Sales Tax Fund and expended \$469,617 and \$532,385 for the purpose of law enforcement in the years 1999 and 1998 respectively.

The county maintains approximately 123 county bridges and 723 miles of county roads.

The county's population was 10,431 in 1970 and 11,312 in 1990. The following chart shows the county's change in assessed valuation since 1970:

|                        |    | Year Ended December 31, |       |       |        |        |
|------------------------|----|-------------------------|-------|-------|--------|--------|

\* First year of statewide reassessment.

\*\* Prior to 1985, separate assessments were made for merchants' and manufacturers' property. These amounts are included in real estate.

Barton County's property tax rates per \$100 of assessed valuations were as follows:

|                      |    | Year Ended December 31, |      |
|----------------------|----|-------------------------|------|
|                      |    | 1999                    | 1998 |
| General Revenue Fund | \$ | .05                     | .05  |
| Health Center Fund   |    | .08                     | .08  |

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and payable by December 31. Taxes paid after December 31 are subject to penalties. The county and townships bill and collect property taxes for itself and most other local governments. Taxes collected were distributed as follows:

|                              |    | Year Ended February 28 (29), |           |
|------------------------------|----|------------------------------|-----------|
|                              |    | 2000                         | 1999      |
| State of Missouri            | \$ | 37,226                       | 33,293    |
| General Revenue Fund         |    | 73,488                       | 61,765    |
| Assessment Fund              |    | 58,989                       | 50,799    |
| Health Center Fund           |    | 98,179                       | 87,247    |
| Hospital Fund                |    | 110,791                      | 98,712    |
| School districts             |    | 4,069,134                    | 3,621,335 |

VERNON COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-74  
August 11, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

August 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Vernon, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of Vernon County included additional areas of county operations, as well as the elected county officials. The following concerns were noted as part of the audit:

- The budgets of the Special Road and Bridge Fund did not present a reasonable estimate of the fund's expenditures, and as such, did not reflect realistic estimates or goals of what the county intended to accomplish during the budget year. State law allows the County Commission to impose a 3% administrative service fee on the Special Road and Bridge Fund. Based on the fund's budgeted expenditures, the county transferred approximately \$117,000 to the General Revenue Fund during the audit period. Had more reasonable budget estimates or actual disbursements been used the transfer amounts to the General Revenue Fund would have been \$40,000 less. The County Commission needs to review its budgeting procedures for the Special Road and Bridge Fund as well as reevaluate the amounts being transferred annually for the administrative service fee.
- The county and health center do not have procedures in place to track federal monies for the preparation of the schedule of expenditures of federal awards. The county's schedule of expenditures of federal awards contained numerous errors and omissions. An accurate schedule of expenditures of federal awards is necessary to ensure federal financial activity is audited and reported in accordance with federal requirements.

Also, included in the audit are recommendations to improve the accounting controls and procedures for the Health Center, Prosecuting Attorney, Assessor, Circuit Clerk and Sheriff. Several of the accounting control and procedure issues applicable to the Sheriff, Prosecuting Attorney and Circuit Clerk have been noted similarly in prior audits. The audit also suggested improvements be made in the county's computer controls, such as changing passwords periodically and developing a formal contingency plan.

**Copies of the audit are available upon request.**

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Vernon County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Vernon County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Vernon County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Vernon County.

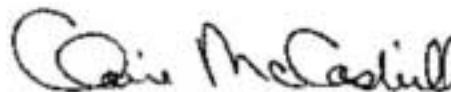

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Vernon County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated March 30, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the management of Vernon County, Missouri, and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" and last name "McCaskill" clearly distinguishable.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Vernon County, Missouri

We have audited the special-purpose financial statements of various funds of Vernon County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated March 30, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Vernon County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

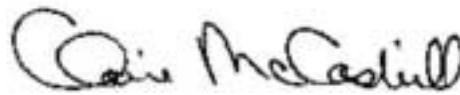

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Vernon County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of

the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting, which we have reported to the management of the county in the accompanying Management Advisory Report.

This report is intended for the information of the management of Vernon County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

## Notes to the Financial Statements

VERNON COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Vernon County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, or the Health Center Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>               | <u>Years Ended December 31,</u> |
|---------------------------|---------------------------------|
| Victim Impact Panel Fund  | 1999 and 1998                   |
| Sheriff Drug Fund         | 1999 and 1998                   |
| Commissioners Escrow Fund | 1999                            |

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>                                   | <u>Years Ended December 31,</u> |
|---|---------------------------------|
| Shelter for Victims of Domestic Violence Fund | 1999 and 1998                   |
| Law Library Fund                              | 1999 and 1998                   |
| Sheriff Discretionary Fund                    | 1999                            |
| Multa Flora Rose Fund                         | 1999                            |
| Sheriff K-9 Fund                              | 1998                            |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statements did not include the following funds:

| <u>Fund</u>       | <u>Years Ended December 31,</u> |
|-------------------|---------------------------------|
| Sheriff Drug Fund | 1999 and 1998                   |
| Sheriff K-9 Fund  | 1998                            |

2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial

institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The county's and Health Center Board's deposits at December 31, 1999, and the county's deposits at December 31, 1998, were entirely covered by federal depositary insurance or by collateral securities held by the county's or the Health Center Board's custodial bank in the county's or Health Center Board's name.

Of the Health Center Board's bank balance at December 31, 1998, \$167,821 was covered by federal depositary insurance and \$74,642 was uninsured and uncollateralized.

Furthermore, because of significantly higher bank balances at certain times during the year, the amounts of uninsured and uncollateralized balances for the Health Center Board were substantially higher at those times than such amounts at year-end.

To protect the safety of county deposits, Section 110.020, RSMo 1994, requires depositaries to pledge collateral securities to secure county deposits not insured by the Federal Deposit Insurance Corporation.

N/A - Not applicable

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

VERNON COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Vernon County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Amounts for the Food Distribution Program (CFDA number 10.550) represent the dollar value assigned to commodities based on prices provided by the state Department of Social Services. Amounts for the Donation of Federal Surplus Personal Property (CFDA number 39.003) represent the estimated fair market value of property at the time of receipt.

Of the pass-through amounts for Immunization Grants (CFDA number 93.268) \$37,057 and \$32,124 represent the original acquisition cost of vaccines purchased by the Centers for Disease Control of the U.S. Department of Health and Human Services but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), \$441 and \$834 represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$2,206 and \$2,920 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

2. Subrecipients

The county provided no federal awards to subrecipients during the years ended December 31, 1999 and 1998.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Vernon County, Missouri

Compliance

We have audited the compliance of Vernon County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the years ended December 31, 1999 and 1998. The county's major federal program is identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal program is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

In our opinion, Vernon County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the years ended December 31, 1999 and 1998. However, the results of our auditing procedures disclosed an instance

of noncompliance with those requirements, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

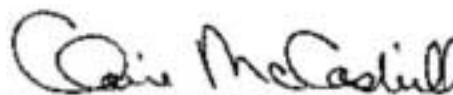

#### Internal Control Over Compliance

The management of Vernon County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted a certain matter involving the internal control over compliance and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the county's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. The reportable condition is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we do not believe that the reportable condition described above is a material weakness.

This report is intended for the information of the management of Vernon County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

| Questioned Costs:     | Not applicable                    |

Section .310(b) of Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, requires the auditee to prepare a schedule of expenditures of federal awards (SEFA) for the period covered by the auditee's financial statements. The county is required to submit the SEFA to the State Auditor's office as part of the annual budget. For the SEFA to adequately reflect the county's federal expenditures, it is necessary that all federal expenditures be properly reported.

The County Clerk prepares the SEFA as part of the annual county budget process. The Health Center Administrator submits information related to grants administered by the health center to the County Clerk for inclusion in the schedule.

The county and health center do not have procedures in place to track federal awards for the preparation of the SEFA. For the years ended December 31, 1999 and 1998, the county's SEFA contained numerous errors and omissions. For example, expenditures related to several federal grants were not included on the schedule or included at the wrong amounts. In addition, some expenditures shown were not even related to federal grant programs.

Without an accurate SEFA, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.

**WE RECOMMEND** the County Clerk, with the assistance of the Health Center, prepare a complete and accurate schedule of expenditures of federal awards.

**AUDITEE'S RESPONSE**

*The County Clerk indicated she would prepare a complete and accurate schedule. This recommendation will be implemented for the 2000 SEFA to be submitted with the budget due in January 2001.*

*The Health Center Administrator indicated she will work with the County Clerk to ensure the expenditures for all federal grant programs the Health Center participates in are reported on the 2000 SEFA.*

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

VERNON COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

VERNON COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Findings

VERNON COUNTY, MISSOURI  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S FINDINGS

We have audited the special-purpose financial statements of various funds of Vernon County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated March 30, 2000. We also have audited the compliance of Vernon County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the years ended December 31, 1999 and 1998, and have issued our report thereon dated March 30, 2000.

We also have reviewed the operations of elected officials with funds other than those presented in the special-purpose financial statements. As applicable, the objectives of this review were to:

1. Determine the internal controls established over the transactions of the various county officials.
2. Review and evaluate certain other management practices for efficiency and effectiveness.
3. Review certain management practices and financial information for compliance with applicable constitutional, statutory, or contractual provisions.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed accounting and bank records and other pertinent documents and interviewed various personnel of the county officials.

As part of our review, we assessed the controls of the various county officials to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Our review was limited to the specific matters described in the preceding paragraphs and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our findings arising from our review of the elected county officials referred to above. In addition, this report includes findings other than those, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These findings resulted from our audit of the special-purpose financial statements of Vernon County but do not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*.

**1.****Computer Controls**

The offices of the County Clerk, County Assessor, and County Treasurer and Ex-Officio County Collector have access to a computer system that is networked together to maintain records of the county's financial transactions, property tax information, and other computerized information. Our review of the computer system controls and procedures indicated the following concerns:

- A. Passwords are used, but are not changed on a periodic basis to ensure confidentiality. As a result, there is less assurance that passwords effectively limit access to the data files and programs to only those individuals who need access for completion of job responsibilities. Passwords should be unique, changed periodically to reduce the possibility of unauthorized users, and utilized to restrict individuals' access to only those data files and programs they need to accomplish their jobs.
- B. The county does not have a formal emergency contingency plan for its computer system. As a result, the county has not made a formal arrangement for the use of backup facilities in the event of a disaster.

Contingency plans should include plans for a variety of situations, such as short- and long-term plans for backup hardware, software, facilities, personnel, and power usage. Involvement of users in contingency planning is important since users will likely be responsible for maintaining at least a portion of the backup under various contingencies. The major benefit of a thorough disaster recovery plan is the ability of the county to recover rapidly from disaster of extraordinary situations that might cause considerable loss or disruption to the county. Because of the county's degree of reliance on data processing, the need for contingency planning is evident.

**WE RECOMMEND** the County Commission:

- A. Ensure passwords are periodically changed and remain confidential.
- B. Develop a formal contingency plan for the county's computer systems.

**AUDITEE'S RESPONSE**

- A. *The County's programmer will be contacted to evaluate the changes necessary to implement this recommendation. We anticipate implementation by December 31, 2000.*
- B. *We are reviewing this issue with the State Emergency Management Agency and anticipate a plan in place by December 31, 2000.*

The Sheriff's department is responsible for collecting civil and criminal process fees, gun permit fees and cash bonds and billing for incarceration costs. Civil, criminal, and gun permit fees are deposited to the Sheriff's main account and remitted to the County Treasurer monthly.

- A. Accounting duties are not adequately segregated. One individual is responsible for receiving, depositing and disbursing monies, preparing bank reconciliations and maintaining the accounting records. There is no documentation that an independent review of deposits and accounting records is performed.

Proper segregation of duties helps ensure that all transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating duties of depositing receipts from reconciling receipts. If proper segregation of duties cannot be achieved, at a minimum, a periodic supervisory review of the records should be performed and documented.

- B. Our review of cash receipting and depositing procedures for the main account indicated the following concerns:

- 1) Receipts are not deposited on a timely basis. Deposits are made approximately six times per month and average approximately \$1,500. To safeguard receipts and reduce the risk of loss, theft, or misuse of funds, receipts should be deposited intact daily or when accumulated receipts exceed \$100.
- 2) Monies received are not always receipted or recorded in a timely manner. During a cash count conducted February 2, 2000, we noted that receipt slips had not been issued for checks and cash on hand totaling \$115 and these monies had not been recorded in the cash control ledger.

Receipt slips should be promptly prepared for all monies received and data posted to the cash control ledger timely. An immediate record of receipt is necessary to properly document and account for all monies received.

- 3) Although the method of payment is noted on receipt slips, it is not reconciled to the composition of bank deposits. To ensure all monies are deposited intact, and to reduce the potential for loss, theft, or misuse of funds, the composition of receipt slips should be reconciled to the composition of bank deposits.
- 4) Check and money orders received are not restrictively endorsed immediately upon receipt. Endorsements are applied at the time deposits are prepared. To

adequately safeguard receipts, all check and money orders to be deposited should be restrictively endorsed immediately upon receipt.

C. The Sheriff's department houses prisoners for other entities (primarily counties) in the county jail and bills the various entities for these services. Generally, the only prisoners held for other entities have been arrested by the sheriff's department on an outstanding warrant and are only held until picked up by the jurisdiction that issued the warrant. Payments are made directly to the County Treasurer. Our review of these billings indicated the following areas where improvements are needed:

- 1) An employee in the Sheriff's department reviews the prisoner log periodically and bills incarceration costs to the applicable entity. Some entities are not billed based on mutual agreement or if the prisoner is held only a limited time. The prisoner log indicates the name of the prisoner, date of incarceration, date of release, the reason the individual is being held, and the entity to bill if necessary. A billing log is maintained to track billings which are sent out. Review of the billing log indicated only one billing was sent out in 1999 and fourteen were sent out in 1998. However, our review of the January and February 1999 prisoner log indicated the county failed to bill other entities for at least four prisoners (total estimated billing \$1,395) for this period.
- 2) The Sheriff has not established a formal policy for follow up collection efforts for unpaid incarceration billings. There appeared to be no follow up on bills that were not paid after the first billing. This may have resulted from incomplete documentation being included on the billing log. The Sheriff is notified by the County Treasurer when a prisoner billing payment is made. The payments are to be reported on the billing log; however, it did not appear that payments were always recorded on it. In addition, bills written off because the other entity refused to pay or that will remain uncollected for other reasons were not clearly indicated on the log. The documentation problems may have limited the billing follow up performed by the department since it may have been difficult to determine the true payment status of each billing.

To adequately account for all incarceration billings due and to maximize county revenues, adequate summary records of amounts due should be maintained. In addition, the Sheriff should establish written procedures for collecting delinquent incarceration billings. Such procedures should consist of periodically identifying billings with past due balances and follow up on the payment status of these billings.

Conditions similar to A, B and C.2 were also noted in our prior report.

**WE RECOMMEND** the Sheriff:

A. Adequately segregate accounting duties or ensure periodic supervisory reviews are

performed and documented.

- B.1. Deposit all monies intact daily or when accumulated receipts exceed \$100.
- 2. Issue prenumbered receipt slips immediately upon receipt for all monies received and post the receipts to the cash control ledger on a timely basis.
- 3. Reconcile the composition of receipt slips to the composition of bank deposits.
- 4. Restrictively endorse checks and money orders immediately upon receipt.
- C. Establish procedures to ensure the cost of boarding prisoners for other entities is properly billed and the log maintained on these billings is accurate and complete. Written procedures should also be established and implemented for pursuing collections of delinquent amounts.

### **AUDITEE'S RESPONSE**

- A. *A new employee has been hired and duties are now going to be segregated.*
- B.1. *Deposits will now be made more timely with the assistance of the new employee.*
  - 2. *This recommendation has been implemented.*
  - 3. *This recommendation will be immediately implemented.*
  - 4. *Checks and money orders are now restrictively endorsed upon receipt.*
- C. *Each jurisdiction is now billed for prisoners held in the county jail. Delinquent billings notices will be sent every six months for up to one year after the original billing until the amount is collected or the decision is made to write off the receivable.*

|   |
|---|
| <b>3. Jail Commissary Controls and Procedures</b> |
|---|

The Sheriff's department maintains a separate checking account to account for personal monies of inmates. These monies are used by inmates to purchase candy, soda, stamps, and various other products from the commissary. Each inmate's money upon incarceration, as well as amounts received from family members and friends during the inmate's incarceration are deposited with the Sheriff for the inmate's use. A record is maintained for each inmate which reflects monies received on the inmate's behalf, purchases made from the commissary and the available cash balance. When an inmate purchases items from the commissary, the purchase amount is deducted from the balance on the inmate's record. Invoices for the replenishment of commissary inventory are paid from the county's General Revenue Fund and proceeds from commissary sales are paid to the County Treasurer monthly for credit to

the General Revenue Fund. During our review of this account, the related controls, and procedures surrounding it, we noted the following concerns:

- A. Receipt slips are not issued for some monies received. To adequately account for all receipts, prenumbered receipt slips should be issued for all receipts and the numerical sequence accounted for properly.
- B. Receipts are not deposited on a timely basis. Deposits are made approximately four times a month and average approximately \$220. To safeguard receipts and reduce the risk of loss, theft, or misuse of funds, receipts should be deposited intact daily or when accumulated receipts exceed \$100.
- C. Although the method of payment is noted on receipt slips, it is not reconciled to the composition of bank deposits. To ensure all monies are deposited intact, and to reduce the potential for loss, theft, or misuse of funds, the composition of receipt slips should be reconciled to the composition of bank deposits.
- D. Follow up on outstanding checks is not done timely. At December 31, 1999, the commissary account included twenty-two checks totaling \$103 that had been outstanding more than one year. These old outstanding checks create additional and unnecessary record keeping responsibilities.

The Sheriff should adopt procedures to routinely follow up on checks outstanding for a considerable time and reissue checks if the payee can be located. If payees cannot be located, the Sheriff should dispose of the monies in accordance with state law. Various statutory provisions including Sections 50.470 through 50.490, RSMo 1994, and Sections 447.500 through 447.995, RSMo 1994, provide for the disposition of unclaimed monies.

- E. Commissary order forms filled out by prisoners are not consistently signed by them. A review of one prisoner's account noted four of five order forms were not signed. The prisoner's signature provides support that items were actually ordered and received. To ensure the accuracy of commissary account balances procedures should be developed to ensure that order forms are signed.
- F. Each month the ending balances on the prisoner account cards are totaled and that amount is deducted from the reconciled bank balance of the commissary account to determine the amount of money to transmit to the General Revenue Fund. This method provides no assurances that all monies have been appropriately accounted for since reconciliation of prisoner commissary purchases to the amount turned over to the County Treasurer is not also done. Our attempts to reconcile the turnover amount to prisoner purchases for two months during the audit period were unsuccessful. To ensure the money turned over to the County Treasurer is accurate, the projected turnover amount should be agreed to the total purchases noted on commissary order

forms used during the month; with any differences identified and resolved prior to the turnover being made.

**WE RECOMMEND** the Sheriff:

- A. Issue prenumbered receipt slips immediately upon receipt for all monies received.
- B. Deposit all monies intact daily or when accumulated receipts exceed \$100.
- C. Reconcile the composition of receipt slips to the composition of bank deposits.
- D. Establish procedures to investigate checks outstanding for a considerable time. Any remaining unclaimed monies should be disposed of in accordance with state law.
- E. Ensure prisoners sign all commissary order forms.
- F. Ensure the amount turned over to the County Treasurer monthly for the commissary account agrees to total purchases noted on commissary order forms used for that month. Any differences identified should be reviewed and resolved prior to the turnover being made.

**AUDITEE'S RESPONSE**

- A. *Staff turnover has resulted in some weaknesses in receipt slip procedures. If turnover is reduced this problem should be eliminated or immensely reduced.*
- B. *Monies will continue to be deposited every Monday. Current procedures appear sufficient for the limited monies handled.*
- C. *This recommendation will be immediately implemented.*
- D. *We will evaluate turning these monies over to the state Unclaimed Property Fund and anticipate completion of this review prior to December 31, 2000.*
- E. *The department's office manager and chief jailer will discuss this issue and ensure forms are appropriately signed in the future.*
- F. *We will start a reconciliation process for the July turnover in August 2000.*

#### **4. Prosecuting Attorney's Accounting Controls and Procedures**

The Prosecuting Attorney collects fees and restitution on bad checks, delinquent sales tax payments, and receives fees from the courts for prosecution services. The Prosecutor's office requests that bad check offenders remit two money orders, one payable to the merchant for restitution and one payable to the Prosecuting Attorney for the administrative fee. If the offender submits only one money order for the bad check restitution and fees, the monies are deposited to and disbursed from the Prosecuting Attorney's bank account. The bank account is maintained to account for those money orders and all other bad check fee money orders.

- A. Accounting duties are not adequately segregated. One individual is responsible for receiving, depositing and disbursing monies, preparing bank reconciliations and maintaining the accounting records. There is no documentation that an independent review of deposits and accounting records is performed.

Proper segregation of duties helps to ensure that all transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating duties of receiving, depositing and disbursing receipts. If proper segregation of duties cannot be achieved, at a minimum, a periodic supervisory review of the records should be performed and documented.

- B. Check and money orders received made payable to the Prosecuting Attorney are not restrictively endorsed immediately upon receipt. Endorsements are applied at the time deposits are prepared. To adequately safeguard receipts, all checks and money orders should be restrictively endorsed immediately upon receipt.
- C. Receipts are not deposited on a timely basis. Deposits are made weekly and average approximately \$450. To safeguard receipts and reduce the risk of loss, theft, or misuse of funds, receipts should be deposited intact daily or when accumulated receipts exceed \$100.
- D. Monthly bank reconciliations were not performed from August 1998 to December 1999. The reconciliations were brought up to date in January 2000. Accurate and complete bank reconciliations are necessary to ensure that all monies are properly deposited, accounting records are in agreement with the bank, and errors or discrepancies are detected on a timely basis.
- E. An adequate system to account for all bad checks received by the Prosecuting Attorney's office as well as the subsequent disposition of these bad checks has not been established. Currently, Vernon County merchants complete an unnumbered complaint form at the time the bad check is turned over to the Prosecuting Attorney for collection. The Prosecuting Attorney's office enters the information from the complaint form into a computer file. The bad check data file is not maintained in a manner that bad check complaint forms can be accounted for. In addition,

procedures have not been established to ensure all bad check complaint forms are accounted for properly and that all bad check complaints are entered on the computer system.

To ensure all bad checks turned over to the Prosecuting Attorney are handled and accounted for properly, a sequential number should be assigned to each bad check complaint form received and a log should be maintained showing each bad check and its disposition. The log should contain information such as the assigned complaint number, the merchant, the issuer of the check, the amount of the check, the amount of the bad check fee, and the disposition of the bad check, including the date payment was received and transmitted to the merchant and County Treasurer or the criminal case number in which charges were filed or other disposition.

- F. Backup of computerized bad check information is not performed. The computerized records are at risk of loss due to equipment failure or other electronic disaster. A backup disk should be periodically prepared to provide a means of recreating destroyed master disks. Backup disks should be stored off-site to provide increased assurance that any lost data can be recreated.

Conditions similar to A, D and E were also noted in our prior report.

**WE RECOMMEND** the Prosecuting Attorney:

- A. Adequately segregate accounting and bookkeeping duties to the extent possible or ensure periodic supervisory reviews are performed and documented.
- B. Restrictively endorse checks and money orders made payable to the Prosecuting Attorney immediately upon receipt.
- C. Deposit all monies intact daily or when accumulated receipts exceed \$100.
- D. Prepare complete and accurate bank reconciliations.
- E. Implement procedures to adequately account for bad checks received as well as the ultimate disposition through the use of sequential numbers assigned to each bad check complaint form and a log to account for the numerical sequence and ultimate disposition of each bad check.
- F. Ensure computerized bad check records are backed up on disk and these disks are stored in a secure, off-site location.

### **AUDITEE'S RESPONSE**

- A. *Segregation of duties will be improved where practical and supervisory review of records will be done at least monthly.*
- B. *This recommendation has been implemented.*
- C. *This recommendation has been implemented.*
- D. *Reconciliations are now done monthly.*
- E. *Improvements in the tracking and accounting for bad checks will be evaluated between now and the end of the year and changes made if a cost effective system can be obtained or developed.*
- F. *Computerized bad check information will now be backed up weekly with the disks stored off-site.*

|  |
|--|
| <b>5. Circuit Clerk's Accounting Controls and Procedures</b> |
|--|

The associate and probate divisions are consolidated with the circuit division. During our review of the Circuit Clerk's accounting procedures the following concerns were noted:

- A. Accounting duties are not adequately segregated in the probate division. One individual is responsible for receiving, depositing and disbursing monies, preparing bank reconciliations and maintaining the accounting records. There is no documentation that an independent review of deposits and accounting records is performed.

Proper segregation of duties helps ensure that all transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating duties of depositing receipts from reconciling receipts. If proper segregation of duties cannot be achieved, at a minimum, a periodic supervisory review of the records should be performed and documented.

- B. Although the method of payment is noted on receipt slips, it is not reconciled to the composition of bank deposits. To ensure all monies are deposited intact, and to reduce the potential for loss, theft, or misuse of funds, the composition of receipt slips should be reconciled to the composition of bank deposits.
- C. At December 31, 1999 nine checks totaling \$603 had been outstanding on the child support account for more than one year. These old checks create additional and unnecessary record keeping responsibilities.

The Circuit Clerk should adopt procedures to routinely follow up on checks outstanding for a considerable time and reissue checks if the payee can be located. If payees cannot be located, the Circuit Clerk should dispose of the monies in accordance with state law. Various statutory provisions including Sections 50.470 through 50.490, RSMo 1994, and Sections 447.500 through 447.995, RSMo 1994, provide for the disposition of unclaimed monies.

- D. The December 31, 1999 open items listing for the general account included items totaling \$14,700 for cases which date back to 1997 and prior. In addition, the Circuit Clerk has held in a separate checking account approximately \$2,400 since January 1992. The address of the payee is unknown.

The status of old open items should be routinely reviewed to determine if any disbursement is necessary. If disbursement is possible, but proper payees cannot be located the monies should be disposed of in accordance with state law. Various statutory provisions including Sections 50.470 through 50.490, RSMo 1994, and Sections 447.500 through 447.995, RSMo 1994, provide for the disposition of unclaimed monies.

Conditions similar to A, C and D were also noted in our prior report.

**WE RECOMMEND** the Circuit Clerk:

- A. Adequately segregate accounting duties or ensure periodic reviews are performed and documented.
- B. Reconcile the composition of receipt slips to the composition of bank deposits.
- C. Establish procedures to investigate checks outstanding for a considerable time. Any remaining unclaimed monies should be disposed of in accordance with state law.
- D. Establish procedures to routinely review the status of old open items. Any unclaimed monies should be disposed of in accordance with state law.

**AUDITEE'S RESPONSE**

- A. *Duties will be segregated beginning September 2000.*
- B. *We will immediately implement this recommendation.*
- C. *Old outstanding checks will now periodically be evaluated and appropriate action taken.*
- D. *As part of automation conversion to the state's banner system we have recently evaluated the status of these cases. The \$2,400 will be turned over to the state Unclaimed Property Fund.*

|   |
|---|
| <b>6. Assessor's Accounting Controls and Procedures</b> |
|---|

The Assessor's office sells maps, public record information and copies to the public. Receipts are transmitted monthly to the County Treasurer. Our review noted the following concerns:

- A. Receipt slips are not prenumbered or issued for all monies received. During a February 3, 2000 cash count conducted one check dated January 24, 2000 had not been receipted. To adequately account for all receipts, prenumbered receipt slips should be issued for all monies and the numerical sequence accounted for properly.
- B. Although the method of payment is noted on receipt slips, it is not reconciled to the composition of transmittals. To ensure all monies are transmitted intact, and to reduce the potential for loss, theft, or misuse of funds, the composition of receipt slips should be reconciled to the composition of transmittals.

**WE RECOMMEND** the Assessor:

- A. Issue prenumbered receipt slips for all monies received.
- B. Reconcile the composition of receipt slips to the composition of transmittals.

**AUDITEE'S RESPONSE**

- A. *We will begin to use a prenumbered receipt book immediately.*
- B. *This procedure was implemented in March 2000.*

|  |
|--|
| <b>7. Health Center's Accounting Controls and Procedures</b> |
|--|

- A. Receipt slips are not issued, unless requested. Monies received are recorded on a ledger which is to indicate the method of payment received (cash or check); however, the method of payment is not consistently indicated on it and the method indicated is not always correct based on test work performed. To help ensure that all monies are properly accounted for, prenumbered receipt slips indicating the method of payment should be issued for all monies received. The numerical sequence of receipt slips should be accounted for and the composition of receipt slips issued should be reconciled to the composition of bank deposits.
- B. Monies received are not deposited intact. Personal checks are cashed for Health Center employees from the daily receipts. To ensure receipts are accounted for properly and deposited intact, personal checks should not be cashed from Health Center receipts.

**WE RECOMMEND** the Health Center:

- A. Issue prenumbered receipt slips for all monies received, account for the numerical sequence of those receipt slips, ensure the method of payment is consistently and correctly recorded on the receipt slips issued and reconcile the composition of receipt slips to the composition of the bank deposits.
- B. Deposit all receipts intact and discontinue the practice of cashing personal checks.

**AUDITEE'S RESPONSE**

- A. *Receipt slips are now issued for all monies received and the composition of receipt slips is reconciled to the composition of deposits.*
- B. *Effective April 3, 2000, this practice was eliminated. Receipts will now be deposited intact.*

|  |
|--|
| <b>8. Special Road and Bridge Fund Budgets</b> |
|--|

The budgets for the Special Road and Bridge Fund did not present a reasonable estimate of the fund's expenditures, particularly so for the year ended December 31, 1999. As Exhibit C illustrates, budgeted expenditures exceeded actual expenditures of the Special Road and Bridge Fund during the years ended December 31, 1999 and 1998, by \$1,047,638 and \$295,870, respectively. Additionally, the county budgeted expenditures in excess of revenues by over \$200,000 in each year. Part of the reason for the significant difference between budgeted and actual expenditures appears to be due to delays in the start or completion of anticipated bridge projects; however, part of the problem also appears to be due to bridge projects being started in a year being budgeted in full even if only a portion of the project will be completed in the budget year. The uncompleted portion of projects will be budgeted again in the subsequent year.

Such budgeting procedures do not allow for proper monitoring and use of the budget as a management tool. The Special Road and Bridge Fund budgets do not reflect realistic estimates or goals of what the county intends to accomplish during the budget year. Additionally, having a larger budget has allowed the county to transfer \$65,693 and \$51,732 during the years ended December 31, 1999 and 1998, respectively to the General Revenue Fund. Section 50.515, RSMo 1994, allows the County Commission to impose an administrative service fee on the Special Road and Bridge Fund. The fee is statutorily limited to a maximum of 3 percent of the Special Road and Bridge Fund budget. For the years ended December 31, 1999 and 1998, Vernon County computed the amount of the annual administrative service fee to be 3 percent of the total Special Road and Bridge Fund budget (not including the amount of the administrative service fee). However, by budgeting the same portion of some bridge projects over more than one year, the 3 percent transfer amount appears to be inflated. Had a more reasonable budget estimate been used or actual

disbursements, the transfer amounts to the General Revenue Fund would have been about \$40,000 less over the audit period.

Budgets that do not reasonably estimate the actual activity of the Special Road and Bridge Fund do not present an accurate financial position of the fund and result in more monies being transferred to the General Revenue Fund than would otherwise occur. The County Commission needs to review its budgeting procedures for the Special Road and Bridge Fund as well as reevaluate the amounts being transferred annually for the administrative service fee.

**WE RECOMMEND** the County Commission review procedures used to establish the annual Special Road and Bridge Fund budget and prepare more reasonable budgets. The County Commission should also limit the administrative service fee to 3 percent of actual or reasonable budgeted expenditures of that fund.

### **AUDITEE'S RESPONSE**

*The County Commission stated that attempts will be made for future Special Road and Bridge Fund budgets to only budget the portion of bridge projects anticipated to be completed during the budget year. The County Commission stated the overbudgeting that occurred in 1999 was caused when federal bridge projects did not proceed as quickly as planned. Even though the dollars were not spent, the commission expended significant time on the projects. The transfers made did not exceed 3 percent of the budget and therefore, are in compliance with the law.*

This report is intended for the information of the management of Vernon County, Missouri, and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on Prior Audit Findings

## VERNON COUNTY, MISSOURI FOLLOW-UP ON PRIOR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Vernon County, Missouri, on findings in the Management Advisory Report (MAR) of our prior audit report issued for the two years ended December 31, 1997. The prior recommendations which have not been implemented have been repeated in the current MAR.

### 1. Federal Financial Assistance

The county did not advertise or solicit bids for a computer costing \$3,656 of which \$2,742 was claimed as a grant expenditure.

#### Recommendation:

The County Commission consult with the grantor agency to resolve the questioned costs and obtain bids in compliance with state law.

#### Status:

The grantor agency reviewed the expenditure and determined no repayment of funds would be necessary.

### 2. Sheriff's Accounting Procedures and Controls

- A. An open-items (liabilities) listing was not prepared for the commissary account and reconciled to the cash balance on a monthly basis.
- B.1. Receipts were not deposited on a timely basis. In addition, checks and money orders were not restrictively endorsed immediately upon receipt.
  - 2. An open-items (liabilities) listing was not prepared for the fee account and reconciled with cash balances on a monthly basis.
  - 3. Fees collected were not remitted to the County Treasurer on a timely basis.
- C.1. Donations received to purchase and care for a K-9 unit were deposited into a separate K-9 account and not turned over to the County Treasurer.
  - 2. Receipt slips were not always issued for these donations.
- D. Accounting duties were not adequately segregated.
- E. Adequate logs of amounts billed to other entities for boarding prisoners were not maintained and follow up procedures on amounts billed were not adequate.

Recommendation:

The Sheriff:

- A. Prepare an open items listing on a monthly basis and reconcile it to the cash balance.
- B.1. Deposit receipts daily or when accumulated receipts exceed \$100, and ensure all checks and money orders are restrictively endorsed immediately upon receipt.
  - 2. Prepare an open items listing on a monthly basis and reconcile it to the cash balance.
  - 3. Remit all fees to the County Treasurer on a timely basis.
- C.1. Close the K-9 bank account and turn over all K-9 monies to the County Treasurer.
  - 2. Issue receipt slips for all K-9 monies received.
- D. Adequately segregate accounting duties to the extent possible and ensure periodic supervisory reviews are performed and documented.
- E. Adequately maintain the log of amounts billed to other entities for board of prisoners, follow up on any unpaid bills on a timely basis, and instruct the other entities to send their payments directly to the Vernon County Treasurer. In addition, an independent reconciliation of the Sheriff's billing records and the payments received by the County Treasurer should be performed.

Status:

- A. Partially implemented. An open-items listing is prepared for the commissary account; however, procedures used do not ensure all monies are appropriately being accounted for. The Sheriff's department uses the open-items listing to determine the amount of cash to retain in the commissary account with all remaining monies turned over to the County Treasurer. See MAR No. 3.
- B.3,  
&C.1. Implemented
- B.1&  
D. Not implemented. See MAR No. 2 and 3.
- B.2. Each month's accountable fees are generally distributed from the account monthly, as a result, an open items list does not appear necessary.
- C.2. The Sheriff closed the K-9 account in 1998 and all monies were turned over to the County Treasurer. Donations are no longer received by the county for the K-9 Fund.

- E. Partially implemented. Board of prisoner payments are now sent directly to the County Treasurer; however, an adequate log of amounts billed is not maintained and follow up on unpaid bills is not performed. See MAR No. 2.

3. Circuit Clerk's Procedures

- A. Accounting duties were not adequately segregated.
- B.1. Formal bank reconciliations for the General account were not prepared on a timely basis.
  - 2. The open items listing for this account included items totaling \$11,776 for cases, which dated back to 1995, and prior years.
- C.1. The bank reconciliation for the Child Support account contained numerous reconciling items that were not resolved as of March 1998.
  - 2. The account had twenty-six checks totaling \$2,704 which have been outstanding for more than one year.

Recommendation:

The Circuit Clerk:

- A. Segregate accounting duties to the extent possible and ensure periodic supervisory reviews are performed and documented.
- B.1. Ensure formal bank reconciliation are prepared on a monthly basis.
  - 2. Establish procedures to routinely follow up on older open items and dispose of them in accordance with state law.
- C.1. Attempt to resolve these reconciling items.
  - 2. Attempt to locate the payees of the old outstanding checks and reissue the checks, if possible. Any remaining unclaimed amounts should be disbursed in accordance with state law.

Status:

- A. Partially implemented. Duties are now adequately segregated or appropriate supervisory review is now performed in each division of the court except the probate division. See MAR No.5.

B.1.&

C.1. Implemented.

B.2.&

C.2. Not implemented. See MAR No. 5.

4. Prosecuting Attorney's Procedures and Controls

A. Accounting duties were not adequately segregated.

B. Bank reconciliations were not properly performed and documented.

C. An adequate system to account for all bad checks received and their ultimate disposition had not been established.

D. Monthly reports of fees were not filed with the County Commission.

Recommendation:

The Prosecuting Attorney:

A. Segregate accounting duties to the extent possible and ensure periodic supervisory reviews are performed and documented.

B. Ensure bank reconciliations are properly performed and documented.

C. Implement procedures to adequately account for bad checks received, as well as the ultimate disposition through the use of sequential numbers assigned to each bad check complaint form or bad check received and a log to account for the numerical sequence and disposition of each bad check.

D. File monthly reports of fees with the County Commission as required by state law.

Status:

A-C. Not implemented. See MAR No. 4.

D. Implemented.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

VERNON COUNTY, MISSOURI  
HISTORY, ORGANIZATION,  
AND STATISTICAL INFORMATION

Organized in 1855, the county of Vernon was named after Miles Vernon, a state senator. Vernon County is a township-organized, third-class county and is part of the Twenty-Eighth Judicial Circuit. The county seat is Nevada.

Vernon County's government is composed of a three-member county commission and separate elected officials performing various tasks. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials.

Principal functions of these other officials relate to judicial courts, law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records of importance to the county's citizens.

Counties typically spend a large portion of their receipts to support general county operations and to build and maintain roads and bridges. The following chart shows from where Vernon County received its money in 1999 and 1998 to support the county General Revenue and Special Road and Bridge Funds:

| SOURCE                    | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| Property taxes            | \$ 324,758   | 10         | 275,160   | 10         |
| Sales taxes               | 746,881      | 24         | 697,279   | 25         |

The following chart shows how Vernon County spent monies in 1999 and 1998 from the General Revenue and Special Road and Bridge Funds:

| USE                       | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| General county government | \$ 833,349   | 29         | 803,858   | 26         |
| Public safety             | 805,319      | 28         | 864,720   | 27         |
| Highways and roads        | 1,207,826    | 43         | 1,480,123 | 47         |
| Total                     | \$ 2,846,494 | 100        | 3,148,701 | 100        |

The county maintains approximately 246 county bridges and 997 miles of county roads.

The county's population was 19,065 in 1970 and 19,041 in 1990. The following chart shows the county's change in assessed valuation since 1970:

|                        | Year Ended December 31, |       |       |        |        |
|------------------------|-------------------------|-------|-------|--------|--------|
|                        | 1999                    | 1998  | 1985* | 1980** | 1970** |
|                        | (in millions)           |       |       |        |        |
| Real estate            | \$ 102.5                | 96.5  | 68.1  | 36.3   | 23.2   |
| Personal property      | 71.3                    | 62.7  | 20.6  | 14.9   | 8.4    |
| Railroad and utilities | 23.4                    | 19.0  | 14.5  | 13.2   | 10.2   |
| Total                  | \$ 197.2                | 178.2 | 103.2 | 64.4   | 41.8   |

\* First year of statewide reassessment.

\*\* Prior to 1985, separate assessments were made for merchants' and manufacturers' property. These amounts are included in real estate.

Vernon County's property tax rates per \$100 of assessed valuations were as follows:

|                      | Year Ended December 31, |      |
|----------------------|-------------------------|------|
|                      | 1999                    | 1998 |
| General Revenue Fund | \$ 0.15                 | 0.12 |
| Health Center Fund   | 0.08                    | 0.08 |

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and payable by December 31. Taxes paid after December 31 are subject to penalties. The county bills and collects property taxes for itself and most other local governments. Taxes collected were distributed as follows:

|                              | Year Ended February 28 (29), |           |
|------------------------------|------------------------------|-----------|
|                              | 2000                         | 1999      |
| State of Missouri            | \$ 60,619                    | 54,136    |
| General Revenue Fund         | 303,115                      | 218,496   |
| Special Road and Bridge Fund | 98,618                       | 87,099    |
| Assessment Fund              | 87,173                       | 75,419    |
| Health Center Fund           | 161,237                      | 143,815   |
| Ambulance Fund               | 280,911                      | 250,572   |
| Sewer Fund                   | 4,152                        | 3,861     |
| Schools                      | 6,628,312                    | 5,484,363 |
| Townships                    | 209,858                      | 186,971   |
| Township Road                | 479,922                      | 429,109   |
| Township Special Road        | 224,738                      | 211,869   |
| Cities                       | 108,543                      | 99,775    |
| County Clerk                 | 369                          | 369       |
| County Employees' Retirement | 39,750                       | 30,522    |
| Commissions and fees:        |                              |           |
| General Revenue Fund         | 70,453                       | 59,782    |
| Township Collectors          | 67,545                       | 60,864    |
| Total                        | \$ 8,825,315                 | 7,397,022 |

Percentages of current taxes collected were as follows:

|                        | Year Ended February 28 (29), |        |
|------------------------|------------------------------|--------|
|                        | 2000                         | 1999   |
| Real estate            | 91.6 %                       | 91.0 % |
| Personal property      | 92.8                         | 92.7   |
| Railroad and utilities | 99.7                         | 100.0  |

Vernon County also has the following sales taxes; rates are per \$1 of retail sales:

|         | Rate    | Expiration Date | Required Property Tax Reduction |
|---------|---------|-----------------|---------------------------------|
| General | \$ .005 | None            | 50 %                            |

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below.

| Officeholder  | 2000   | 1999   | 1998   |
|---|--------|--------|--------|
| County-Paid Officials:  |        |        |        |
| Charles Johnson, Presiding Commissioner                                     |        | 29,060 |        |
| Jime Earnest, Presiding Commissioner  |        |        | 19,000 |
| Neal Gerster, Associate Commissioner *                                      |        | 19,000 | 19,000 |
| Bonnie McCord, Associate Commissioner *                                     |        | 19,000 | 19,000 |
| Doug Shupe, Recorder of Deeds   |        | 41,000 | 29,000 |
| Wava Halcomb, County Clerk  |        | 41,000 | 31,500 |
| Lynn M. Ewing III, Prosecuting Attorney                                     |        | 49,000 |        |
| Neal Quitno, Prosecuting Attorney   |        |        | 36,000 |
| Mickey Mason, Sheriff   |        | 38,000 | 38,000 |
| David Ferry, County Coroner   |        | 6,500  | 6,500  |
| Virginia Habjan, Public Administrator **                                    |        | 40,063 | 34,708 |
| Phil Couch, Treasurer and Ex Officio County Collector, year ended March 31, | 41,047 | 41,047 |        |
| Jeannie M. Reed, County Assessor, year ended August 31, ***                 |        | 41,900 | 41,900 |
| John C. Douglas, County Surveyor ****                                       |        |        |        |

\* For 1999, \$8,060 in additional salary for each associate commissioner is being held pending resolution of a lawsuit filed in Laclede County regarding associate commissioner compensation.

\*\* Includes fees received from probate cases and salary of \$10,000 in 1998. The 1999 salary will be determined by the Salary Commission at the November 2001 meeting based on the Commission's interpretation of an appellant court ruling on a lawsuit filed by the the Public Administrator against the county.

\*\*\* Includes \$900 annual compensation received from the state.

\*\*\*\* Compensation on a fee basis. In addition, the County Surveyor resigned December 31, 1998 and has not been replaced.

State-Paid Officials:

|  |        |        |
|--|--------|--------|
| Vickie Erwin, Circuit Clerk            | 44,292 | 42,183 |
| Gerald McBeth, Associate Circuit Judge | 87,235 | 85,158 |

A breakdown of employees (excluding the elected officials) by office at December 31, 1999, is as follows:

| Office                                    | Number of Employees Paid by |           |
|---|-----------------------------|-----------|
|   | County                      | State     |
| Circuit Clerk (1)                         | 0                           | 9         |
| Recorder of Deeds                         | 1                           | 0         |
| County Clerk                              | 5                           | 0         |
| Prosecuting Attorney (1)                  | 4                           | 0         |
| Sheriff (2)                               | 38                          | 0         |
| County Coroner (1)                        | 1                           | 0         |
| Public Administrator (1)                  | 1                           | 0         |

| County Assessor (1)                       | 5                           | 0         |
| County Surveyor                           | 1                           | 0         |
| Associate Division                        | 0                           | 2         |
| Probate Division (1)                      | 0                           | 2         |
| Road and Bridge                           | 7                           | 0         |
| Health Center (3)                         | 11                          | 0         |
| Janitor                                   | 1                           | 0         |
| Juvenile                                  | 0                           | 5         |
| Total                                     | <u>76</u>                   | <u>18</u> |

(1) Includes one part-time employee.

(2) Includes nineteen part-time employees.

(3) Includes five part-time employee.

In addition, the county pays a proportionate share of the salaries of other circuit court-appointed employees. Vernon County's share of the Twenty-Eighth Judicial Circuit's expenses is 38.16 percent.

REVIEW OF THE  
MISSOURI DEVELOPMENT FINANCE BOARD

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-73  
August 8, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

July 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**The following problems were discovered as a result of a review conducted by our office of the Missouri Development Finance Board.**

---

In 1982, the legislature established the Industrial Development Board and the Industrial Development and Reserve Fund. This board was authorized to issue loans, bonds and notes to help fund economic development projects. They also established the Industrial Development Guarantee Fund and the Export Finance Fund for use by the Economic Development Commission. This board was to issue guarantees for loans, bonds and notes arising from economic development projects. The Export Finance Fund was established to accept contributions from businesses for the purpose of funding export activities of other Missouri based companies and the contributions would earn a tax credit of 50 percent of the contribution. In 1985, these two entities were combined.

- The Industrial Development Guarantee Fund authorized by state statute has not had any activity since 1985. It appears the Industrial Development Guarantee Fund is no longer necessary. The Missouri Development Finance Board continues to use the Industrial Development and Reserve Fund and the activity of the loan guarantee program is accounted for in this fund. The board should consider requesting the legislature to rescind the authority for the Industrial Development Guarantee Fund.
- It appears there is no meaningful incentive for potential contributors to make donations to the Export Finance Fund. Therefore, no contributions have been received and no export finance tax credits have been issued. The board should consider requesting the legislature rescind the authority for the export finance tax credit program and the attendant Export Finance Fund.

The Missouri Development Finance Board granted retroactive pay increases totaling \$3,838 to several employees. In August and October of 1997, the board granted salary increases to four employees and made the increases retroactive to July 1, 1997. Those four employees received retroactive payments totaling \$1,429. In September 1998, the board granted four employees salary increases and made the increases retroactive to July 1, 1998. Those four employees received retroactive payments totaling \$1,299. In August 1999, the board again granted retroactive increases back to July 1, 1999, to three employees and those employees received \$1,110 in retroactive payments.

Article III, Section 39 of the Missouri Constitution prohibits political subdivisions from granting additional compensation for services already rendered. Although the amounts of the individual retroactive raises were not significant, the practice is prohibited.

## STATE AUDITOR'S REPORT

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

Honorable Mel Carnahan, Governor  
and  
Members of the Board of Directors  
and  
Robert V. Miserez, Executive Director  
Missouri Development Finance Board  
Jefferson City, Missouri 65102

We have conducted a review of the Missouri Development Finance Board (MDFB). The scope of our review included, but was not necessarily limited to, the two fiscal years ended June 30, 1999. The objectives of this review were to:

1. Review certain management practices and financial information for compliance with constitutional provisions, statutes, attorney general's opinions, and board policies.
2. Review the efficiency and effectiveness of certain management practices.
3. Follow-up on the status of recommendations made in our previous report.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. The MDFB had engaged KPMG LLP, Certified Public Accountants, to perform annual audits of the board for the years ended June 30, 1999 and 1998. To minimize any duplication of effort, we reviewed the reports and substantiating workpapers of the CPA firm. We also reviewed the MDFB records, made inquiries of MDFB employees, and examined other papers and documents as deemed appropriate for the review.

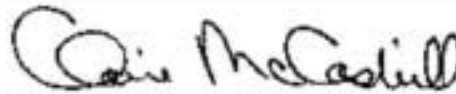

As part of our review, we assessed the MDFB's management controls to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to management controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Our review was limited to the specific matters described above and was based on selected tests and procedures considered appropriate in the circumstances. Had we performed additional

procedures, other information might have come to our attention that would have been included in this report.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the MDFB's management and was not subjected to the procedures applied in our review of the MDFB.

The accompanying Management Advisory Report presents our findings and recommendations arising from our review of the MDFB.

A handwritten signature in black ink, appearing to read "Claire McCaskill".

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Current Recommendations

REVIEW OF THE  
MISSOURI DEVELOPMENT FINANCE BOARD  
SUMMARY OF FINDINGS

1. Retroactive Pay Increases (page 7-8)

The board granted retroactive raises to most employees totaling \$3,838.

2. Elimination of Unused Funds and Programs (page 8-9)

The Industrial Development Guarantee Fund has not had any activity since 1985. The Export Finance Fund has never had any activity. The export finance tax credit program does not contain any meaningful incentives.

STATE AUDITOR'S CURRENT RECOMMENDATIONS

|                                     |
|-------------------------------------|
| <b>1. Retroactive Pay Increases</b> |
|-------------------------------------|

The Missouri Development Finance Board (MDFB) granted retroactive pay increases totaling \$3,838 to several employees. In August and October of 1997, the board granted salary increases to four employees and made the increases retroactive to July 1, 1997. Those four employees received retroactive payments totaling \$1,429. In September 1998, the board granted four employees salary increases and made the increases retroactive to July 1, 1998. Those four employees received retroactive payments totaling \$1,299. In August 1999, the board again granted retroactive increases back to July 1, 1999, to three employees and those employees received \$1,110 in retroactive payments.

Article III, Section 39 of the Missouri Constitution prohibits political subdivisions from granting additional compensation for services already rendered. Attorney General's Opinion No. 72, 1955 to Pray, indicates Section 39 also applies to state agencies. Although the amounts of the individual retroactive raises were not significant, this practice is prohibited.

**WE RECOMMEND** the MDFB discontinue granting retroactive raises.

**AUDITEE'S RESPONSE**

*Effective immediately, the Board will no longer implement retroactive pay increases.*

*Board membership is comprised of nine private volunteer members appointed by the Governor with the advice and consent of the Senate, the Directors of the Department of Economic Development and Department of Agriculture, and the Lieutenant Governor. The members serve without compensation. Seven members constitute a quorum.*

*The Board has the power to employ and fix the compensation of an executive director and such other agents or employees as it considers necessary (Section 100.270 (16) RSMo Cumulative Supp. 1999). Compensation for Board staff, along with all other Board operating costs, are funded by fee income generated from Board project financings. Compensation is not funded from state appropriations.*

*The reasons for authorizing retroactive pay raises were due to various unforeseen circumstances. These circumstances included the necessity of holding telephone conference call meetings in lieu of meetings en masse to obtain a quorum - the Board does not discuss personnel except in closed meetings. Circumstances also required meeting cancellations for lack of a quorum or lack of sufficient business agenda items to bring the members together for a meeting, and member decisions to table this action to future meetings based upon time constraints*

*resulting from the then current volume of project presentations, all with the express understanding that these increases would be implemented retroactively when time allowed to formally approve them. And, that had time or circumstances allowed to have formally considered these actions at the June or July meetings immediately preceding the end of the fiscal year, these same annual increases would have been formally approved.*

*Notwithstanding any of the above, the Board will no longer implement retroactive pay increases. Instead, the Board will strive to begin addressing these issues earlier in the year to mitigate the future uncertainty of whether a more timely meeting will be held.*

|  |
|--|
| <b>2. Elimination of Unused Funds and Programs</b> |
|--|

In 1982, the legislature established the Industrial Development Board and the Industrial Development and Reserve Fund. This board was authorized to issue loans, bonds, and notes to help fund economic development projects. The legislature also established the Industrial Development Guarantee Fund and the Export Finance Fund for use by the Economic Development Commission. This board was to issue guarantees for loans, bonds, and notes arising from economic development projects. The Export Finance Fund was established to accept contributions from businesses for the purpose of funding export activities of other Missouri based companies, and the contributions would earn a tax credit of 50 percent of the contribution. In 1985, these two entities were combined.

- A. The Industrial Development Guarantee Fund authorized under Section 100.260, RSMo, has not had any activity since 1985. It appears the Industrial Development Guarantee Fund is no longer necessary. The MDFB continues to use the Industrial Development and Reserve Fund and the activity of the loan guarantee program is accounted for in this fund. The MDFB should consider requesting the legislature to rescind the authority for the Industrial Development Guarantee Fund.
- B. It appears there is no meaningful incentive for potential contributors to make donations to the Export Finance Fund. Therefore, no contributions have been received and no export finance tax credits have been issued. The MDFB should consider requesting the legislature rescind the authority for the export finance tax credit program and the attendant Export Finance Fund.

**WE RECOMMEND** the MDFB request the legislature to eliminate the Industrial Development Guarantee Fund. In addition, the MDFB should request the legislature to rescind the authority for the export finance tax credit program and the attendant Export Finance Fund.

**AUDITEE'S RESPONSE**

*The Missouri Development Finance Board does not set legislative economic development agendas or attempt to have legislation introduced on its behalf. The Board administers*

*programs authorized under statute's enacted. The Board does work closely with the Department of Economic Development (DED) on legislative matters that impact or enhance the Board's authority. These matters are included in DED sponsored legislation. During the just concluded legislative session, Senate Bill 1048, the DED economic development bill, attempted to repeal the Board's authority to grant tax credits for contributions given to the Development and Reserve Fund and the Export Finance Fund. S.B. 1048 did not pass.*

This report is intended for the information of the management of the Missouri Development Finance Board and other governmental officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on State Auditor's Prior Recommendations

REVIEW OF THE  
MISSOURI DEVELOPMENT FINANCE BOARD  
FOLLOW-UP ON STATE AUDITOR'S PRIOR RECOMMENDATIONS

This section reports follow-up action taken by the Missouri Development Finance Board (MDFB), formerly known as the Missouri Economic Development, Export and Infrastructure Board (MEDEIB), on recommendations made in the Management Advisory Report (MAR) on our prior report issued for the two years ended June 30, 1993. Although the remaining unimplemented recommendations have not been repeated, the MDFB should consider implementing these recommendations.

1. Purchase of State Office Buildings

The board issued \$14,305,000 of state revenue bonds to finance the purchase of three state office buildings. The board did not require appraisals or mechanical inspections to be submitted for review prior to the completion of the purchases.

Recommendation:

The MEDEIB obtain appraisals and mechanical inspections before purchasing properties. In addition, detailed cost studies should be prepared to ensure that the transaction is clearly cost beneficial to the state.

Status:

The MDFB has not purchased any properties since the prior audit. The Executive Director of the MDFB states that the board would require, as a standard business practice, appraisals and inspections before making any future purchases.

2. Banking Services

Board deposits of \$1,068,000 and \$1,164,020 were not adequately collateralized as of June 30, 1993 and 1992, respectively. In addition, the board does not bid banking services or obtain collateral security agreements for all of its deposited funds.

Recommendation:

The MEDEIB ensure that sufficient collateral securities are pledged at all times. In addition, the MEDEIB should competitively procure banking services for board deposits.

Status:

Partially implemented. While the board receives bids for all investments, the MDFB does not solicit bids for depositary accounts. The Independent Auditor's Report indicated deposits at June 30, 1999 and 1998 were fully collateralized. Although not repeated in the current MAR, the MDFB should consider fully implementing this recommendation.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

## MISSOURI DEVELOPMENT FINANCE BOARD HISTORY, ORGANIZATION, AND STATISTICAL INFORMATION

The Missouri Industrial Development Board was created with the enactment of the Industrial Development Funding Act by the General Assembly in 1982. Initially this board consisted of seven members appointed by the Governor with the advice and consent of the Senate. The members were appointed for four year terms.

Along with the adoption of this act, the Economic Development Act was enacted. This act also created the Economic Development Commission. The commission consisted of nine members. Terms were for six years. The commission was authorized to guarantee up to 90 percent of privately obtained loans up to \$1 million and up to 100 percent of revenue bonds issued by eligible local agencies. The commission was also authorized to grant 50 percent tax credits to taxpayers making contributions to its reserve fund.

In 1985, legislation was enacted which merged the commission into the board. Membership for the board was also expanded to nine. Subsequent legislation broadened the board's powers into the areas of export financing and public infrastructure financing with a resultant name change of the board to the Missouri Economic Development, Export and Infrastructure Board.

In 1993, the legislature authorized the board's third name change to the Missouri Development Finance Board. The Directors of the Department of Economic Development and the Department of Agriculture along with the Lieutenant Governor were designated as voting members of the board. The addition of these three officials increased the board's membership to twelve.

The board was created to promote the economic development of the state of Missouri. This is accomplished primarily by the issuance of revenue bonds, direct loans, and tax credits for projects which will benefit the economy or infrastructure of the state and its political subdivisions. The authority and activities of the board are set forth in Sections 100.250 to 100.297, RSMo 1994, and RSMo Cumulative Supp. 1999, the Missouri Development Finance Board Act, and Sections 100.700 to 100.850, RSMo Cumulative Supp. 1999, the Missouri Business Use Incentives for Large-Scale Development Act.

The following were board members as of June 30, 1999:

|  | <u>Term Expires<br/>September 14,</u> |
|--|---------------------------------------|
| Thomas P. Rackers, Chairman                                      | 2000                                  |
| Martin E. Harrington, Vice Chairman                              | 2000                                  |
| John Morrissey, Secretary *                                      | 1996                                  |
| John Starr, Treasurer  | 2003                                  |
| Bill Burch   | 2003                                  |
| Susan Lauman Constance *   | 1999                                  |
| Darwin A. Hindman Jr. **   | 1999                                  |
| William V. Turner  | 2002                                  |
| Lynne Nikolaisen ***   | 1998                                  |
| Joseph L. Driskill, Director, Department of Economic Development |                                       |
| John L. Saunders, Director, Department of Agriculture            |                                       |
| Roger B. Wilson, Lieutenant Governor                             |                                       |

\* Members continue to serve until a replacement is named.

\*\* Term expired on March 21, 1999 and continues to serve until a replacement is named.

\*\*\* Member resigned and position is still vacant

At June 30, 1999, the board had 6 employees.

NEW MADRID COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-72  
August 1, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

August 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like New Madrid, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of New Madrid County was a financial and compliance audit of various county operating funds. The following concerns were noted as part of the audit:

- The Health Center did not bid the purchase of food and supplies during 1998. Therefore the audit questioned costs of \$183,600 which is the federal share of the food and supplies purchased for the Summer Food program during 1998.
- As similarly noted in a prior audit, the county procured bridge replacement engineering services during the audit period without documentation of consideration of other firms. The County Clerk indicated this firm was chosen because of the county's prior experience with the firm on other projects. As a result, the audit report questioned costs of \$37,759 which is the federal share of engineering costs paid during 1999.

The audit also includes some other matters upon which the county should consider and take appropriate corrective action.

**Copies of the audit are available upon request.**

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of New Madrid County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of New Madrid County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

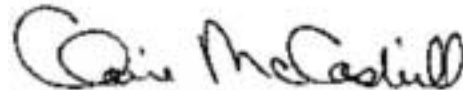

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of New Madrid county, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of New Madrid County.

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of New Madrid County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended

December 31, 1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated February 24, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of New Madrid County, Missouri

We have audited the special-purpose financial statements of various funds of New Madrid County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated February 24, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

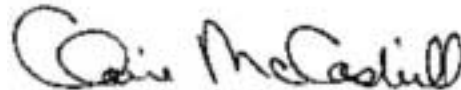

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of New Madrid County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance, which we have reported to the management of the county in the accompanying Letter on Other Matters.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of New Madrid County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not

necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting, which we have reported to the management of the county in the accompanying Letter on Other Matters.

This report is intended for the information of the management of New Madrid County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

## Notes to the Financial Statements

NEW MADRID COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of New Madrid County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, the Health Center Board or the Senate Bill 40 Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt a formal budget for the Jail Bond Fund for the year ended December 31, 1999.

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>                           | <u>Years Ended December 31,</u> |
|---------------------------------------|---------------------------------|
| Domestic Violence Fund                | 1999 and 1998                   |
| 911 Emergency Fund                    | 1999                            |
| Peace Officer Standards Training Fund | 1999 and 1998                   |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

#### D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statements for the years ended December 31, 1999 and 1998, did not include the Health Center Fund.

#### 2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

Cash includes both deposits and investments. In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of deposits and investments. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions. Investments are securities and other assets acquired primarily for the purpose of obtaining income or profit.

#### Deposits

The financial statements do not include the cash balances of the County Collector, who collects and distributes property taxes as an agent for various local governments. However, for the purpose of these risk disclosures, the County Collector's cash balances are included since collateral securities to cover amounts not covered by federal depository insurance are pledged to the county rather than to specific county officials.

At December 31, 1999, the reported amount of the county's deposits was \$4,549,871 and the bank balance was \$4,712,562. The bank balance was entirely covered by federal depository insurance, collateral securities held by the county's custodial bank in the county's name, or by commercial insurance provided through a surety bond.

At December 31, 1998, the reported amount of the county's deposits was \$8,164,188 and the bank balance was \$8,321,439. The bank balance was entirely covered by federal depositary insurance or collateral securities held by the county's custodial bank in the county's name.

The Health Center Board's deposits at December 31, 1999 and 1998, were entirely covered by federal depositary insurance or collateral securities held by the health center's custodial bank in the health center's name.

### Investments

The only investments of the various funds at December 31, 1999 and 1998, were U.S. Treasury bills with a reported amount of \$3,600,000 and \$2,100,000, respectively (which approximated fair value).

These investments were held by the Federal Reserve Bank in the county's name.

N/A - Not applicable

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

NEW MADRID COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by New Madrid County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Amounts for Food Distribution (CFDA number 10.550) represent the dollar value assigned to commodities based on prices provided by the state Department of Social Services. Amounts for the Donation of Federal Surplus Personal Property (CFDA number 39.003) represent the estimated fair market value of property at the time of

receipt. The amount for Surplus Property (CFDA number 12.unknown) represents the military acquisition costs provided by the state Department of Public Safety.

The direct program amounts for Immunization Grants (CFDA number 93.268) represent the original acquisition cost of varicella (chicken pox) vaccine provided to the Health Center through the Centers for Disease Control of the U.S. Department of Health and Human Services. Of the pass-through amounts for that program, \$21,233 and \$14,665 represent the original acquisition cost of other vaccines purchased by the Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), \$236 and \$363 represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$1,180 and \$1,271 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants, the Preventive Health and Health Services Block Grant, and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

2. Subrecipients

Of the federal expenditures presented in the schedule, the county provided \$12,045 to a subrecipient under the Community Development Block Grant/State's Program (CFDA number 14.228) during the year ended December 31, 1998.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of New Madrid County, Missouri

Compliance

We have audited the compliance of New Madrid County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. The county's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

In our opinion, New Madrid County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. However, the results of our auditing procedures disclosed

instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 99-1 and 99-2.

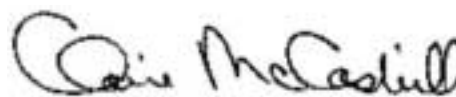

### Internal Control Over Compliance

The management of New Madrid County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted certain matters involving the internal control over compliance and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the county's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. Reportable conditions are described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 99-1 and 99-2.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe that none of the reportable conditions described above are material weaknesses.

This report is intended for the information of the management of New Madrid County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

**99-1.**

### **Summer Food Program**

|                       |  |
|-----------------------|--|
| Federal Grantor:      | U.S. Department of Agriculture           |
| Pass-Through Grantor: | Department of Health                     |
| Federal CFDA Number:  | 10.559                                   |
| Program Title:        | Summer Food Service Program for Children |
| Pass-Through Entity   |  |
| Identifying Number:   | ERO046-92059                             |
| Award Year:           | 1998                                     |
| Questioned Costs:     | \$183,600                                |

The county contracts with the State Department of Health to provide a summer food service program for children. The Health Center did not bid the purchase of food and supplies during 1998. Therefore, we have questioned costs of \$183,600 which is the federal share of the food and supplies purchased for the Summer Food program during 1998. Bids were solicited for food and supplies during 1999.

Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, Part I of the Compliance Supplement, requires that states, and government subrecipients of states, use the same policies and procedures used for procurements from non-federal funds. As a result, the procurement of food and supplies should comply with section 50.660, RSMo Cum. Supp. 1999, which requires bids for all purchases of \$4,500 or more from any one person, firm, or corporation during any period of ninety days. Bidding procedures for major purchases provide a framework for economical management of county resources and help ensure the county receives fair value by contracting with the lowest and best bidders. Competitive bidding ensures all parties are given equal opportunity to participate in county business.

**WE RECOMMEND** the Health Center solicit bids for purchases in accordance with state law.

**AUDITEE'S RESPONSE AND PLAN FOR CORRECTIVE ACTION**

*During the year ended December 31, 1998, purchases were made by comparison shopping and questioned costs from the prior audit have been resolved with the Department of Health. Since 1999, bids have been obtained for all food and supplies, and we will continue to solicit bids for these items in the future.*

**99-2.**

**Highway Planning and Construction**

|                       |                                       |
|-----------------------|---------------------------------------|
| Federal Grantor:      | U.S. Department of Transportation     |
| Pass-Through Grantor: | Highway and Transportation Commission |
| Federal CFDA Number:  | 20.205                                |
| Program Title:        | Highway Planning and Construction     |
| Pass-Through Entity   |                                       |
| Identifying Number:   | BRO-072(33)                           |
| Award Year:           | 1999                                  |
| Questioned Costs:     | \$37,759                              |

The county contracts with the State Highway and Transportation Commission for bridge replacement and rehabilitation under the Off-System Bridge Replacement and Rehabilitation Program. These projects are 80 percent federally funded.

During our review, we noted the county procured bridge replacement engineering services during the audit period without documentation of consideration of other firms. The County Clerk indicated this firm was chosen because of the county's prior experience with the firm on other projects. As a result, we have questioned costs of \$37,759 which is the federal share of engineering costs paid during 1999.

Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, in Part I of the Compliance Supplement, requires that states, and government subrecipients of states, use the same policies and procedures used for procurements of non-federal funds. As a result, the procurement of services should comply with Sections 8.289 and 8.291, RSMo 1994, which provide that when obtaining engineering services for any capital improvement project, at least three highly qualified firms should be considered. The firms should be evaluated based on specific criteria including experience and technical competence, capacity and capability of the firm to perform the work in question, past record of performance, and the firm's proximity to and familiarity with the area in which the project is located.

**WE RECOMMEND** the County Commission obtain information as required by law when contracting for professional services.

**AUDITEE'S RESPONSE AND PLAN FOR CORRECTIVE ACTION**

*The County Clerk will implement this recommendation on our next BRO project.*

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

NEW MADRID COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

NEW MADRID COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

This section represents the Summary Schedule of Prior Audit Findings, which was prepared by the county's management.

1. County Expenditures

|                       |  |
|-----------------------|--|
| Federal Grantor:      | U.S. Department of Transportation                        |
| Pass-Through Grantor: | Highway and Transportation Commission                    |
| Federal CFDA Number:  | 20.205   |
| Program Title:        | Off-System Bridge Replacement and Rehabilitation Program |
| Pass-Through Entity   |  |
| Identifying Number:   | BRO-072(30)(31)(32)                                      |
| Award Year:           | 1997 and 1996  |
| Questioned Costs:     | \$64,385   |

The county procured bridge replacement engineering services without documentation of consideration of other firms.

Recommendation:

Obtain information as required by law when contracting for professional services.

Status:

Not implemented. See finding number 99-2.

11. Summer Food Program

Federal Grantor: U.S. Department of Agriculture  
Pass-Through Grantor: Department of Health  
Federal CFDA Number: 10.559  
Program Title: Summer Food Service Program for Children  
Pass-Through Entity  
Identifying Number: ERO046-72046  
Award Year: 1997 and 1996  
Questioned Costs: \$421,012

- A. The New Madrid County Health Center (NMCHC) over billed the Summer Food program and received excess reimbursement.
- B. The NMCHC failed to document bids for the purchase of groceries and non-food supplies for the Summer Food program.

Recommendation:

- A. Ensure future reimbursement requests represent actual costs incurred to operate the Summer Food program.
- B. Solicit bids for purchase in accordance with Section 50.660, RSMo. Cum. Supp. 1999 as allowed by federal regulations. Documentation of bids solicited and justification for bid awards should be retained by the NMCHC. If it is not practical to obtain bids in a specific instance, or if sole procurement is necessary, the circumstances should be thoroughly documented.

Status:

- A. Implemented.
- B. Partially implemented. The NMCHC bid the purchase of food and supplies during 1999; however, no bids were solicited during 1998. The Health Center resolved questioned costs with the Department of Health. See finding number 99-1.

## SECTION ON OTHER MATTERS

NEW MADRID COUNTY, MISSOURI  
LETTER ON OTHER MATTERS

We have audited the special-purpose financial statements of various funds of New Madrid County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated February 24, 2000. We also have audited the compliance of New Madrid County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998, and have issued our report thereon dated February 24, 2000.

We did not review the operations of elected officials with funds other than those presented in the special-purpose financial statements. The operations of such officials will be reviewed and reported on during the state auditor's next scheduled audit of the county.

This Letter on Other Matters presents matters other than the findings, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These matters resulted from our audit of the special-purpose financial statements of New Madrid County, and of its compliance with the types of compliance requirements applicable to each of its major federal programs but do not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting or compliance that are required for audits performed in accordance with *Government Auditing Standards and OMB A-133, Audits of States, Local Governments, and Non-Profit Organizations*. Nevertheless, the county should consider these matters and take appropriate corrective action.

1. Personnel Policies and Procedures

The county does not have a personnel policies and procedures manual.

2. Schedule of Federal Financial Assistance

The Schedule of Federal Awards prepared by the County Clerk contained various errors and omissions.

3. Computer Consultation

The county awarded a consulting contract to an employee of a business owned by the County Clerk without conducting a formal selection process.

4. County Disbursement Procedures

Prenumbered checks are not issued.

5. Health Center Procedures

The health center board did not require their contractor to submit change orders before additional work was performed on the construction of their building. As a result, the health center paid the contractor approximately \$16,000 in excess of the original contract for additional work performed.

This Letter on Other Matters is intended for the information of the management of New Madrid County, Missouri, and other applicable government officials. However, this letter is a matter of public record and its distribution is not limited.

DEPARTMENT OF AGRICULTURE

STATE MILK BOARD

TWO YEARS ENDED JUNE 30, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-65  
July 31, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

July 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**The following problems were discovered as a result of an audit conducted by our office of the Department of Agriculture, State Milk Board.**

---

The State Milk Board is responsible for conducting the state's Grade A and manufacturing grade milk inspection programs.

The State Milk Board requires water test samples to be taken every six months for manufacturing grade plants and receiving stations and every three years for farms. During our review, we noted seven of twelve water tests for which the board had no record on file. Of the seven tests, two were from plants, one from a receiving station, and four from farms. Without the actual water test or a report regarding each entity's water test results, the board has no assurance that the tests were conducted and any violations were resolved.

The State Milk Board requires manufacturing grade farms to be inspected at least annually. Because of funding limitations, the board has arranged for manufacturing milk plant fieldmen to perform the required inspections of the producers at not cost to the state. However, the duties of the milk plant fieldmen conflict with the regulatory responsibilities imposed by the board.

Our review of the February 2000 delinquent farm inspection report indicated twenty farm inspections which were delinquent and five of the farms were delinquent more than thirteen months. According to State Milk Board management, a stop sell order is to be issued if the farm inspection is not received within thirteen months. As of March 17, 2000, four of the five farms delinquent more than thirteen months had not been issued a stop sell order.

As pointed out in previous audits, the board has not established a program which requires regular pesticide testing of raw manufacturing milk and milk products. Federal requirements include a provision which states milk containing pesticides or other chemical residues in excess of the established limits shall not be sold or offered for sale for human food.

State law requires the State Milk Board, at a minimum, to ensure compliance with the Grade A Pasteurized Milk Ordinance of the United States Public Health Services. Such regulations shall be enforced by the State Milk Board through either contractual agreements with political subdivisions of the state or employees of the board.

(over)

YELLOW SHEET

The contract between the board and the local health departments (contractors) requires the contractors to make inspection and regulatory records available. The contract does not require the contractors to submit the actual inspections or other compliance monitoring tests to the board; however, some of the inspections and other compliance monitoring tests are forwarded to the board. The State Milk Board does require contractors to submit a monthly report. These reports provide summary data of the total number of: inspections performed, on-site visits, water tests conducted and unsatisfactory results, pesticide testing and unsatisfactory results, raw milk samples and unsatisfactory results, finished product samples and unsatisfactory results. The monthly reports lack detailed information on individual plants, farms, receiving and transfer stations, and haulers. Without detailed information by entity, the State Milk Board has no assurance that inspection and compliance monitoring is being properly performed by the contractors and that adequate follow up is being performed in those cases where violations are detected.

**Note:** Milk inspection fees collected from producers are no longer sufficient to cover costs of payments to contractors who perform inspections. In addition, the local health departments received payments in excess of the amount allowed by statute. The State Milk Board could save approximately \$143,000 per year by assuming the management responsibilities of the Springfield area.

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
Missouri State Auditor

**INDEPENDENT AUDITOR'S REPORT ON  
THE FINANCIAL STATEMENTS**

Honorable Mel Carnahan, Governor  
and  
John Saunders, Director  
Department of Agriculture  
and  
Terry S. Long, Executive Secretary  
State Milk Board  
Jefferson City, Missouri 65102

We have audited the accompanying special-purpose financial statements of the various funds of the State Milk Board as of and for the years ended June 30, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the board's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash and investments of the Milk Inspection Fees Fund; receipts of the General Revenue Fund-State; and the appropriations and expenditures of the various funds of the State Milk Board and are not intended to be a complete presentation of the financial position and results of operations of the various funds of the board.

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash and investments of the Milk Inspection Fees Fund; receipts of the General Revenue Fund-State; and the appropriations and expenditures of the various funds of the State Milk Board as of and for the years ended June 30, 1999 and 1998, in conformity with the comprehensive bases of accounting discussed in Note 1, which are bases of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated February 7, 2000, on our consideration of the board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

Our audit was made for the purpose of forming an opinion on the special-purpose financial statements, taken as a whole, that are referred to in the first paragraph. The accompanying financial information listed as supplementary data in the table of contents is presented for purposes of additional analysis. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated in all material respects in relation to the special-purpose financial statements taken as a whole.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the board's management and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

Claire McCaskill  
State Auditor

February 7, 2000 (fieldwork completion date)

The following auditors participated in the preparation of this report:

| Audit Staff:        | Gabriel Rackers        |

**CLAIRE C. McCASKILL**  
Missouri State Auditor

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

Honorable Mel Carnahan, Governor  
and  
John Saunders, Director  
Department of Agriculture  
and  
Terry S. Long, Executive Secretary  
State Milk Board  
Jefferson City, Missouri 65102

We have audited the special-purpose financial statements of the State Milk Board as of and for the years ended June 30, 1999 and 1998, and have issued our report thereon dated February 7, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the special-purpose financial statements of the State Milk Board are free of material misstatement, we performed tests of the board's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no material instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain other instances of noncompliance which are presented in the accompanying Management Advisory Report.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of the State Milk Board, we considered the board's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial

statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended for the information of the management of the State Milk Board and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, reading "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" and last name "McCaskill" clearly distinguishable.

Claire McCaskill  
State Auditor

## Notes to the Financial Statements and Supplementary Data

DEPARTMENT OF AGRICULTURE  
STATE MILK BOARD  
NOTES TO THE FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Notes to the Financial Statements:

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present only selected data for each fund of the Department of Agriculture, State Milk Board.

Receipts, disbursements, and changes in cash and investments are presented in Exhibit A for the Milk Inspection Fees Fund. Appropriations from this fund are expended by or for the board for restricted purposes.

Receipts are presented in Exhibit B for the General Revenue Fund-State. Receipts include monies the board collects during its normal activities and remits to the fund. These amounts are not necessarily related to appropriations.

Appropriations, presented in Exhibit C, are not separate accounting entities. They do not record the assets, liabilities, and equities of the related funds but are used only to account for and control the board's expenditures from amounts appropriated by the General Assembly.

Expenditures presented for each appropriation may not reflect the total cost of the related activity. Other direct and indirect costs provided by the board and other state agencies are not allocated to the applicable fund or program.

B. Basis of Accounting

The Statement of Receipts, Disbursements, and Changes in Cash and Investments, Exhibit A, prepared on the cash basis of accounting, presents amounts when they are received or disbursed.

The Statement of Receipts, Exhibit B, also prepared on the cash basis of accounting, presents amounts when received.

The Statements of Appropriations and Expenditures, Exhibit C, is presented on the state's legal budgetary basis of accounting which recognizes expenditures on the encumbrance method. Expenditures include amounts payable or encumbered at June 30 and paid during the lapse period, which ends August 31 for regular appropriations and December 31 for capital improvement appropriations. The authority to expend appropriations ends with the close of the lapse period. However, the General

Assembly may authorize reappropriation of the unexpended balances of capital improvement appropriations for the following year. The General Assembly also may authorize biennial capital improvement appropriations, for which the unexpended balances at June 30 of the first year of the two-year period are reappropriated for expenditure during the second year.

The cash basis of accounting and the budgetary basis of accounting differ from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Fiscal Authority and Responsibility

The board administers transactions in the funds listed below. The state treasurer as fund custodian and the Office of Administration provide administrative control over fund resources within the authority prescribed by the General Assembly.

Milk Inspection Fees Fund: This fund is authorized by Section 196.947, RSMo 1994, to receive all monies paid to the state for milk inspection. Expenditures, authorized by appropriations, are to be used exclusively for the purpose of defraying the costs of the state milk inspection program, which may include payments to other agencies for services provided related to the program. Any unexpended balances in this fund are perpetually maintained for the purposes of the fund.

General Revenue Fund - State: The board receives appropriations from this fund and does not maintain a proprietary interest in the fund. Appropriations from the fund are used for basic operation of the board, including those programs and services that have no other funding source. These appropriations also may be used to initially fund or to provide matching funds or support for programs paid wholly or partially from other sources.

State Contracted Manufacturing Dairy Plant Inspection and Grading Fee Fund: This fund is authorized by Section 196.614, RSMo 1994, to receive all monies paid to the state by the United States Department of Agriculture for contracted manufacturing dairy plant inspection and grading. Expenditures, authorized by appropriations, are to be used exclusively for the purpose of defraying the costs of the contracted manufacturing dairy plant inspection and grading program. Any unexpended balances in this fund are perpetually maintained for the purposes of the fund. Through fiscal year 1999, no monies have yet been received by or expended from this fund.

D. Employee Fringe Benefits

In addition to the social security system, employees are covered by the Missouri State Employees' Retirement System (MOSERS) (a noncontributory plan) and may participate in the state's health care, optional life insurance, deferred compensation, and cafeteria plans. The optional life insurance and cafeteria plans involve only employee contributions or payroll reductions. Also, the deferred compensation plan involves employee payroll deferrals and, beginning January 1, 1996, a monthly state matching contribution for each participating employee.

The state's required contributions for employee fringe benefits are paid from the same funds as the related payrolls. Those contributions are for MOSERS (retirement, basic life insurance, and long-term disability benefits); social security and medicare taxes; health care premiums; and the deferred compensation plan match.

Employee fringe benefits in the financial statements at Exhibit A are the transfers from the Milk Inspection Fees Fund for costs related to salaries paid from that fund. Transfers related to salaries are not appropriated by agency and thus are not presented in the financial statement at Exhibit C.

The Governmental Accounting Standards Board's *Codification of Governmental Accounting and Financial Reporting Standards* requires certain disclosures regarding public employee retirement systems and postemployment benefits such as health care and life insurance benefits provided to retired employees. Required disclosures for the state financial reporting entity are included in the State of Missouri Comprehensive Annual Financial Report issued by the Office of Administration.

2. Cash and Investments

The balance of the Milk Inspection Fees Fund is pooled with other state funds and invested by the state treasurer.

3. Inspection Contract Costs

During the year ended June 30, 1998, the State Milk Board contracted with the county of St. Louis and the cities of Kansas City and Springfield to inspect Grade A milk supplies. During the year ended June 30, 1999, the State Milk Board contracted with the county of St. Louis and the city of Springfield and the State Milk Board assumed management responsibility from the city of Kansas City. This expenditure category represents the cost associated with these contracts paid from the Milk Inspection Fees Fund. During the fiscal years 1999 and 1998, an additional \$242,266 and \$246,067, respectively, was paid to these agencies from an appropriation from the General Revenue Fund-State.

4. Reconciliation of Total Disbursements to Appropriated Expenditures

Disbursements on Exhibit A reconcile to appropriated expenditures on Exhibit C as follows:

|                             |    | Milk Inspection Fees Fund |                  |
|-----------------------------|----|---------------------------|------------------|
|                             |    | Year Ended June 30,       |                  |
|                             |    | 1999                      | 1998             |
| DISBURSEMENTS PER EXHIBIT A | \$ | 1,355,413                 | 1,398,957        |
| Employee fringe benefits    |    | (25,284)                  | (25,374)         |
| Lapse period expenditures:  |    |                           |                  |
| 1999                        |    | 145,951                   | 119,046          |
| 1998                        |    | (119,046)                 | (36,663)         |
| EXPENDITURES PER EXHIBIT C  | \$ | <u>1,357,034</u>          | <u>1,455,966</u> |

Note to the Supplementary Data:

5. General Fixed Assets

General fixed assets, which are recorded as expenditures when acquired, are capitalized at cost in the General Fixed Assets Account Group and are not depreciated.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Current Recommendations

DEPARTMENT OF AGRICULTURE  
STATE MILK BOARD  
SUMMARY OF FINDINGS

1. Milk Inspection Program (pages 22-25)

Milk inspection fees collected from producers are no longer sufficient to cover costs of payments to contractors who perform inspections. In addition, the local health departments received payments in excess of the amount allowed by statute. The State Milk Board (SMB) could save approximately \$143,000 per year by assuming the management responsibilities of the Springfield area.

2. Revenue Maximization (page 25)

The SMB has no formal policies or procedures for ensuring that reported volume and fees are correct, and that all inspection fee revenues are remitted to the SMB as required by statute.

3. Grade A Compliance Monitoring (page 26)

The local health departments are not required to submit to the SMB the actual inspection details or other compliance monitoring results.

4. Manufacturing Grade Compliance Issues (pages 27-29)

The SMB had no record of some water sample tests and inspections of manufacturing grade producers and processors. Manufacturing milk plant fieldmen perform conflicting duties by regularly inspecting producers and the SMB does not adequately follow-up with the fieldmen to ensure manufacturing grade producers are inspected annually as required by SMB regulations. Some bulk milk haulers are not regularly inspected for compliance with sanitary and other requirements. The SMB has not established regular pesticide testing of raw manufacturing milk or manufacturing milk products.

5. Rating Surveys (pages 29-30)

The state Department of Health (DOH), as the designated rating agency for the SMB, does not make annual rating surveys as required by law. In addition, documentation was not available to support some rating survey results.

STATE MILK BOARD  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S CURRENT RECOMMENDATIONS

We have audited the special-purpose financial statements of the State Milk Board as of and for the years ended June 30, 1999 and 1998, and have issued our report thereon dated February 7, 2000.

The following Management Advisory Report presents our findings and recommendations arising from our audit of the board's special-purpose financial statements. During our audit, we also identified certain management practices which we believe could be improved. Our audit was not designed or intended to be a detailed study of every system, procedure, and transaction. Accordingly, the findings presented in the following report should not be considered as all-inclusive of areas where improvements may be needed.

|           |                                |
|-----------|--------------------------------|
| <b>1.</b> | <b>Milk Inspection Program</b> |
|-----------|--------------------------------|

The Milk Inspection Fees Fund (MIF) was established to receive fees collected from milk producers. Section 196.945, RSMo 1994, allows the SMB to set fees not exceeding five cents per one hundred pounds of milk produced. The monies collected are used for inspection and compliance monitoring expenses, including payments to local health departments which contract with the SMB to perform these services. Effective for fiscal year 1999, the SMB assumed management of the Kansas City area and contracted with the Springfield and St. Louis health departments to provide these services in their specified areas. In fiscal years 1997, 1998, and 1999, approximately \$250,000 was appropriated each year from the General Revenue Fund-State to help cover payments made to contractors.

Amounts paid to local health department contractors for the past five years are shown below:

| <u>Fiscal Year</u> | <u>Payments<br/>To<br/>Contractors</u> | <u>Number<br/>Of Milk<br/>Producers</u> |
|--------------------|--|---|
| 1999*              | \$1,462,926                            | 1,724                                   |
| 1998               | 1,562,992                              | 2,017                                   |
| 1997               | 1,542,905                              | 2,161                                   |
| 1996               | 1,625,527                              | 2,337                                   |
| 1995               | 1,666,660                              | 2,487                                   |

\* Payments to contractors are for St. Louis and Springfield only.

- A. Payments made to contractors are based on the pounds of milk produced in each contractor's area. The SMB receives annual budget estimates from each of the health

department milk inspection programs; however, actual cost data is not obtained from the contractors.

The payments to the health department contractors represent the most significant expenditure outlay for the SMB. In addition, it appears the fees collected from producers are not adequate to cover inspection and compliance monitoring costs as appropriations from General Revenue Fund-State were requested in fiscal years 1995, 1996, 1997, 1998, and 1999 to help cover payments to contractors. As a result, it is important the SMB carefully analyze budget and cost data from the contractors to ensure payments are appropriate and reasonable.

The SMB's records indicate costs incurred by the SMB for assuming management responsibility of the Kansas City area for fiscal year 1999 totaled approximately \$129,000, whereas payments to the Kansas City Health Department for fiscal year 1998 totaled \$254,681. Therefore, the SMB saved approximately \$126,000 in fiscal year 1999 by assuming management of the Kansas City area. Similar savings could possibly be realized by assuming management responsibility of the St. Louis or Springfield area. According to the SMB management, these possibilities have been considered because of the potential cost savings. Discussions with the SMB management indicate it would cost approximately \$311,000 to assume management of the Springfield area, while fiscal year 1999 contract payments were approximately \$454,000. This represents an approximate \$143,000 cost savings to the SMB. An analysis for the St. Louis area was not performed.

A comprehensive review of the fee structure should be performed to determine if a statutory fee increase is necessary to cover costs of inspections and compliance monitoring or if alternatives such as the SMB providing these services itself should be given further consideration.

- B. As noted above, the SMB contracts with local health departments to perform inspections and compliance monitoring of milk producers. The contracts state the SMB will pay each agency 4.75 cents per one hundred pounds of instate milk and 3.75 cents per one hundred pounds of imported milk inspected by the agency. Starting in fiscal year 1995, the contracts provided for additional payments to be made from a General Revenue Fund-State appropriation. Contract payments, including the amounts received from the General Revenue Fund-State, totaled \$1,462,926 and \$1,562,992 for the health departments for fiscal year 1999 and 1998, respectively.

Section 196.947, RSMo 1994, limits the total payment to each health department to five cents per one hundred pounds of milk or milk products. Based on the SMB's records of milk produced in fiscal years 1999 and 1998, it appears the Springfield and St. Louis Health Departments were paid approximately \$62,446 and \$7,909, respectively, more than the limit set by statute.

Similar conditions were also noted in several prior reports.

**WE AGAIN RECOMMEND** the SMB:

- A. Develop an estimated cost for the inspection and compliance monitoring program for each contractors area and then compare these costs to MIF revenues for that area. Once this analysis is completed, the SMB should consider any justified changes in management responsibilities of the Springfield or St. Louis area, or determine whether legislation increasing fees should be pursued to ensure sufficient monies are collected to cover costs of inspection and compliance monitoring.
- B. Ensure payments to the local health departments for the inspection of milk and milk products do not exceed limits established by state law or pursue legislation to amend state law to allow such payments.

**AUDITEE'S RESPONSE**

- A. *The State Milk Board feels that involvement of local health departments in milk inspection gives Missouri consumers assurance that their health is foremost in the minds of those responsible for the safety of dairy products presented for their consumption. The milk contracts provide a means of establishing not only inspection systems but local laboratories capable of testing and just as importantly, assuring consumers of safe products in their area by investigating complaints individually and locally. The board, however, has taken a position that as future contracts may be given up by local health departments it will attempt to assume enforcement authority as it did with Kansas City.*
- B. *The State Milk Board was prompted to seek appropriations from general revenue to add to the available fee payment appropriate for contract defrayment after a study conducted by its long range management committee and after study of contract agency costs, along with a university study about inspection fees and their effect on the dairy industry in Missouri during the 1994-1995 fiscal years. The costs of inspections and fee collections have increased and compounded by all accounts since the studies were conducted.*

*The State Milk Board respectfully disagrees with the auditors findings regarding the interpretation of Section 196.947, RSMo 1994. Specifically, the auditor has found that Section 196.947, RSMo 1994, limits the total payment to each health department to five cents per 100 lbs. of milk or milk products. The board considers that Section 196.947, RSMo 1994, is limited in its application to those funds which are collected and placed in the milk inspection fee fund. The statute does not have any application to those amounts appropriated for contract defrayment from other funds. The board has never interpreted Section 196.947, RSMo 1994, as restricting the board from utilizing appropriated funds in order to subsidize the cost of milk inspection. The board utilizes funds from general revenue when the local jurisdictions have documented that their costs exceeded those which are provided for under the milk inspection fee fund. Accordingly the board does not agree with the auditor's interpretation of Section 196.947, RSMo 1994, and submits that according to*

*its appropriations and contract payments for fiscal years 1999 and 1998, no overpayments to any of the contract agencies exist.*

**2.**

## **Revenue Maximization**

Section 196.945, RSMo 1994, requires an inspection fee not to exceed five cents per one hundred pounds of all Grade A raw milk produced to be assessed and remitted to the SMB. These fees are to be paid by all milk plants, milk dealers, processors, or distributors selling graded fluid milk and fluid milk products in the state. To comply with this statute, the SMB requires the entities to prepare a monthly volume and fee report which details the volume of milk received or shipped and applicable fees. This record is checked for mathematical accuracy; however, the SMB has no formal procedures in place to ensure that the reported volume and applicable fees are correct. According to the SMB's Executive Secretary, SMB personnel will occasionally review on-site records to ensure that all fees have been properly remitted.

Information provided in the SMB's minutes for May 15, 1998, and April 16, 1999, indicated unremitted inspection fees totaling \$32,230 from a milk plant and distributor were determined. The SMB Executive Secretary determined the unremitted fees by more closely evaluating volume and fee report information provided by one entity and as a result of an on-site review of records at the other entity. These fees were subsequently remitted to the SMB.

Antibiotic testing logs and product distribution records which detail all shipments received and the source of each shipment are maintained by the various entities paying these statutory fees. These records contain enough information to allow the SMB to ensure that all fees are paid on applicable milk and milk products. According to SMB management, these records are not routinely checked due to insufficient personnel and because the current staff does not possess the expertise necessary to audit the product distribution records. Increased review of on-site records may result in additional determinations of unremitted fees. The SMB needs to give consideration to developing a procedure to expand (at least on a test or sample basis) its verification of volume and fee report information submitted along with statutory fees.

**WE RECOMMEND** the SMB develop procedures to ensure that all inspection fee revenues are properly remitted.

### **AUDITEE'S RESPONSE**

*The State Milk Board has never established a procedure or a formal process to audit incoming milk or products subject to fee assessments. The board is now trying to acquire personnel to accomplish routine auditing of receipt records at plants and distributors throughout Missouri to assure fees are properly submitted on export products.*

**3.****Grade A Compliance Monitoring**

Section 196.939, RSMo 1994, requires the SMB, at a minimum, to ensure compliance with the Grade A Pasteurized Milk Ordinance (PMO) of the United States Public Health Services. Such regulations shall be enforced by the SMB through either contractual agreements with political subdivisions of the state or employees of the SMB. As previously noted, these services are provided by either local health departments, or the SMB.

The contract between SMB and the local health departments (contractors) requires the contractors to make inspection and regulatory records available to the SMB. The contract does not require the contractors to submit the actual inspections or other compliance monitoring tests to the SMB. However, some of the inspections and other compliance monitoring tests are forwarded to the SMB. The SMB does require the contractors to submit a monthly report. These reports provide summary data of the total number of: inspections performed, on-site visits, water tests conducted and unsatisfactory results, pesticide testing and unsatisfactory results, raw milk samples and unsatisfactory results, finished product samples and unsatisfactory results. The monthly reports lack detailed information on individual plants, farms, receiving and transfer stations, and haulers. Without detailed information by entity the SMB has no assurance that inspection and compliance monitoring is being properly performed by the contractors or that adequate follow up is being performed in those cases where violations are detected.

The SMB's Executive Secretary indicated that the SMB is considering developing a computerized system which would link the contractors data to the SMB, so that inspection records and test results for each entity could be electronically transferred to the SMB. A review of the board's meeting minutes and discussions with the SMB Executive Secretary provided no specific information or time frames for when and how this automated process will be implemented. As a result, the SMB needs to consider timely and alternative procedures to gain increased assurance that its contractors are satisfying their inspection and compliance monitoring responsibilities.

**WE RECOMMEND** the SMB require that all inspection forms and compliance monitoring tests be forwarded to the SMB or, at a minimum, require that the monthly contractors' reports provide sufficient detail by entity so that the SMB can better ensure that each producer, processor, and hauler is being properly monitored and that any violations of the PMO or state statute are being properly handled.

**AUDITEE'S RESPONSE**

*The State Milk Board will again consider the possibility of linking contractee databases to its own. The development of equipment and programs has greatly enhanced the electronic capabilities of both the state and its contract agencies. The current staff size of the board along with the volume of data make this an extremely cumbersome system without the electronic transfer of the reports the auditor is referring to.*

**4.****Manufacturing Grade Compliance Issues**

Manufacturing grade milk laws and regulations are promulgated by the SMB. The SMB is responsible for inspecting all manufacturing grade plants, receiving stations, and haulers. Manufacturing grade farms are inspected and tested by manufacturing milk plant fieldmen. Farm inspections and water tests are forwarded to the SMB. For fiscal year 1998, raw milk samples from the farms were retained by the cooperatives; any violations are reported to the SMB. Beginning in fiscal year 1999, the SMB started receiving a monthly report of all test results along with a report on violations.

- A. The SMB requires water test samples to be taken every six months for plants and receiving stations and every three years for farms. During our review, we noted seven of twelve water tests for which the SMB had no record on file. Of the seven tests, two were from plants, one from a receiving station, and four from farms. Without the actual water test or a report regarding each entity's water test results, the SMB has no assurance that the tests were conducted and any violations were resolved.
- B. The SMB requires manufacturing grade farms to be inspected at least annually. Because of funding limitations, the SMB has arranged for manufacturing milk plant fieldmen to perform the required inspections of the producers at no cost to the state. However, the duties of the milk plant fieldmen conflict with the regulatory responsibilities imposed by the SMB.

Manufacturing grade milk laws and regulations promulgated by the SMB require manufacturing grade farms to be inspected annually to ensure minimum quality standards are met and to determine eligibility for recertification. The SMB maintains a computerized listing of manufacturing grade producers along with the inspection dates. From this information, the SMB prepares a monthly delinquent inspection listing which is distributed to the fieldmen; however, the SMB does not adequately follow-up with the fieldmen to ensure manufacturing grade producers are inspected annually.

Our review of the February 2000 delinquent farm inspection report indicated twenty farm inspections which were delinquent and five of the farms were delinquent more than thirteen months. According to SMB management, a stop sell order is to be issued if the farm inspection is not received within thirteen months. As of March 17, 2000, four of the five farms delinquent more than thirteen months had not been issued a stop sell order. Without adequately following up on delinquent inspections, the SMB has less assurance that minimum quality standards are met. Furthermore, since SMB regulations provide that no milk for manufacturing purposes produced on an uncertified farm shall be bought or sold, it is especially important for the SMB to ensure that inspection procedures for recertification are followed.

It should be noted that the SMB's follow up efforts and use of data available from the delinquent inspection tracking system has improved since the audit for the year ended June 30, 1997.

- C. There are approximately 450 bulk milk haulers (BMH) operating in the state. The majority of the licensed BMH also have a Grade A milk license and are inspected for compliance with Grade A standards every six months. The remaining haulers, which are manufacturing grade haulers, are not inspected on a regular basis. Although the procedures used by both kinds of haulers when transferring milk from the bulk tanks to the trucks are the same, state and federal regulations do not require regular inspections of manufacturing BMH. During our review, we noted three manufacturing grade haulers which were not inspected during the audit period. Regular inspections of all haulers are necessary to ensure proper procedures are followed to guarantee the safety of milk and milk products sold in the state.
- D. The SMB has not established a program which requires regular pesticide testing of raw manufacturing milk and milk products. Federal requirements include a provision which states milk containing pesticides or other chemical residues in excess of the established limits shall not be sold or offered for sale for human food.

Some of the above findings have been included in prior reports back to 1985. In each of these areas, we have recommended the SMB continue to address these concerns, including funding and legislative requests. The SMB has previously requested funding regarding parts B., C., and D., and these requests were not granted by the General Assembly. Thus, the funding requests have been withdrawn and have not been reintroduced since fiscal year 1997.

**WE RECOMMEND** the SMB:

- A. Ensure that water samples are tested every six months for plants and receiving stations. In addition, water samples should be tested every three years for farms. Finally, the SMB should maintain a record of each water sample tested.
- B. Ensure that manufacturing grade farms are inspected annually. In addition, the SMB should issue stop sell orders on all farms which have not been inspected within a thirteen month period, as established by the SMB. Also, the SMB should continue to seek alternatives to accomplish inspections of manufacturing grade farms with state inspectors rather than milk plant fieldmen.
- C. Require manufacturing grade haulers be inspected at regular intervals.
- D. Establish a manufacturing grade pesticide testing program.

## **AUDITEE'S RESPONSE**

A,B,

&C. *The State Milk Board had a period of time within the two year audit period during which the position responsible for filing and monitoring the records in question was repeatedly refilled and trained. The position was part time during the same period. The position is currently filled by a full time employee. The State Milk Board management feels improvement will be shown in fiscal year 2001. The board management is working directly with the position responsible for accumulating and monitoring data to assure better compliance performance with manufacturing grade records. The board will strive to inspect all manufacturing haulers annually.*

D. *The State Milk Board has not been able to acquire appropriations to cover costs of testing manufacturing milk for pesticides, and by law, Grade A fee fund money cannot be substituted. However, much of the manufacturing milk not tested individually is subject to test when commingled with Grade A milk which is sampled and tested for pesticides. This should be considered when questioning the legislature's reluctance to appropriate general funds. Nevertheless, some milk is not tested on a regular basis so the board will once again request general revenue funding for this purpose.*

|                          |
|--------------------------|
| <b>5. Rating Surveys</b> |
|--------------------------|

Section 196.951, RSMo 1994, requires the Department of Health (DOH), as the official rating agency for the SMB, to make an official rating survey at least annually on all Grade A BTU's (Bulk Tank Unit - a group of dairy farms), plants, and receiving and transfer stations. The rating survey scores are reported to the USFDA (United States Food & Drug Administration) for inclusion in the IMS (Interstate Milk Shipper) report. The FDA also conducts inspections of Grade A producers and processors. The rating surveys contains two scores; one for sanitation and the other is for enforcement of the PMO (Pasteurized Milk Ordinance) and state laws. The SMB Executive Secretary indicated the SMB relies somewhat on the enforcement score determined by DOH's rating surveys to provide evidence that its contractors are complying with the terms of the contract by ensuring compliance with the PMO and state laws.

During the audit period, the rating surveys were conducted on an eighteen to twenty-four month schedule instead of annually as required by state law. DOH uses a standardized form for rating an entity during an on-site visit. This documentation is necessary to provide evidence of the actual on-site visits and to detail any violations noted during the visits. During our review of the official survey ratings, we noted the files pertaining to three of seven plants and two receiving stations did not contain the standardized form. As a result, there is no documentation to support the entities' official survey ratings. Because the rating surveys are not conducted in a timely manner and some of the ratings are not supported with adequate documentation, the SMB should reconsider the extent of its reliance on the DOH rating surveys as a measure of its contractors' performance.

A similar condition was noted in our prior report.

**WE AGAIN RECOMMEND** the SMB, through the DOH, ensure annual rating surveys are conducted as required by state law. In addition, all rating surveys should be supported by adequate documentation. Finally, SMB should find alternative methods for monitoring its contractors' performance.

### **AUDITEE'S RESPONSE**

*The State Milk Board will bring the auditor's findings to the Department of Health's attention. The programs are separated in Missouri by law and the board must leave management decisions pertaining to the surveys to the legal administration of the rating program. The board will try to link its efforts to improve this item to the computer issue discussed in MAR No. 3.*

This report is intended for the information of the management of the State Milk Board and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on State Auditor's Prior Recommendations

DEPARTMENT OF AGRICULTURE  
STATE MILK BOARD  
FOLLOW-UP ON STATE AUDITOR'S PRIOR RECOMMENDATIONS

This section reports follow-up action taken by the Department of Agriculture, State Milk Board on recommendations made in the Management Advisory Report (MAR) of our report issued for the year ended June 30, 1997. The prior recommendations which have not been implemented are repeated in the current MAR.

1. Inspection and Testing Issues

- A. The State Milk Board (SMB) had not established a program requiring regular pesticide testing of raw manufacturing milk or manufacturing milk products.
- B. Because of funding limitations, the SMB had arranged for manufacturing milk plant fieldmen to perform the required inspections of the producers. The SMB requires certified farms to be inspected annually; however, the SMB did not adequately follow-up with the fieldmen to ensure manufacturing grade producers were inspected annually.
- C. Section 196.951, RSMo 1994, requires the Department of Health (DOH), as the official rating agency for the SMB, to make an official rating survey at least annually.
- D. Manufacturing grade bulk milk haulers (BMH) operating in the state were not required to be inspected regularly.

Recommendation:

The SMB continue efforts which would address these areas, including funding and legislative requests.

Status:

- A,B,  
&D. Not implemented. See MAR No. 4.
- C. Not implemented. See MAR No. 5.

2. Milk Inspection Program

- A. The SMB received annual budget estimates from each of the health departments milk inspection programs; however, actual cost data was not regularly obtained. In addition, it appears the fees collected from producers were no longer adequate to cover inspection costs as appropriations from General Revenue Fund - State were requested in fiscal years 1995, 1996, and 1997 to cover payments to contractors. A

comprehensive review of the fee structure was not performed to determine if a statutory fee increase was necessary to cover increased costs of inspection.

- B. Based on the SMB's records of milk produced for fiscal year 1997, it appears the Springfield Health Department was paid approximately \$30,000 more than the limit set by statute.

Recommendation:

The SMB:

- A. Periodically analyze budget and cost data from contractors to ensure payments are appropriate. In addition, the SMB should determine whether legislation increasing fees should be pursued to ensure sufficient monies are collected to cover costs of inspections.
- B. Ensure payments to local health departments for inspection of milk and milk products do not exceed limits established by state law or pursue legislation to amend state law to allow such payments.

Status:

A&B. Not implemented. See MAR No. 1.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

DEPARTMENT OF AGRICULTURE  
STATE MILK BOARD  
HISTORY AND ORGANIZATION

The Missouri State Milk Board was created in 1972 when the General Assembly adopted and the Governor signed into law House Bill No. 1280. In accordance with the Omnibus State Reorganization Act of 1974, the State Milk Board was transferred to the Department of Agriculture under a Type III transfer. Under a Type III transfer, the Director of the Department of Agriculture does not maintain supervision over substantive matters relating to policies and regulative functions of the State Milk Board.

Pursuant to Executive Order No. 82-9, effective August 13, 1982, A . . . All powers, duties, and functions vested in the Division of Animal Health and the Director of the Department of Agriculture with respect to administering and enforcing the provisions of Sections 196.520 through 196.610, RSMo Supp. 1996, (relating to The Missouri Manufacturing Milk and Dairy Market Testing Law) . . .@ were transferred to the State Milk Board.

The State Milk Board consists of twelve members, ten of whom are appointed by the governor. The two remaining members of the board are the director of the Department of Health and the director of the Department of Agriculture or their designated representatives. An executive secretary serves as the administrative officer of the board, which administers the inspection of milk supplies.

The Fluid Milk Inspection Program is funded from milk inspection fees. Beginning in fiscal year 1995, the General Assembly has annually appropriated \$250,000 from the General Revenue Fund-State to help cover inspection costs. Section 196.945, RSMo 1994, limits milk inspection fees to five cents per one hundred pounds of fluid milk. The inspection fee is set by the board after holding a public hearing giving thirty days public notice. The inspection fee for the two fiscal years ended June 30, 1999 was five cents per one hundred pounds for milk produced in Missouri and four cents per one hundred pounds for milk produced in other states and imported into Missouri. Imported milk is charged a lesser rate because the originating state inspects its producers.

During the year ending June 30, 1998, the State Milk Board contracted with the county of St. Louis and the cities of Kansas City and Springfield to perform the actual inspections. On July 1, 1998, the State Milk Board assumed management responsibility for the Kansas City area. The board's enforcement of statutes and regulations ensures that fluid milk and milk products are uniformly inspected, regulated, and graded throughout the state. The board's operation of the Fluid Milk Inspection Program is funded by the difference between the inspection fee collected and the contract payments to the other governmental units.

The Manufacturing Milk and Dairy Market Testing Law Program is funded by appropriations from the state's General Revenue Fund. The State Milk Board is responsible for the enforcement of laws relating to the sanitation and quality standards of milk used for manufacturing dairy products and to market test all milk at first point of sale. Milk producers, manufacturing plants, field superintendents, testers, graders, samplers, and milk truck operators are also licensed under this program.

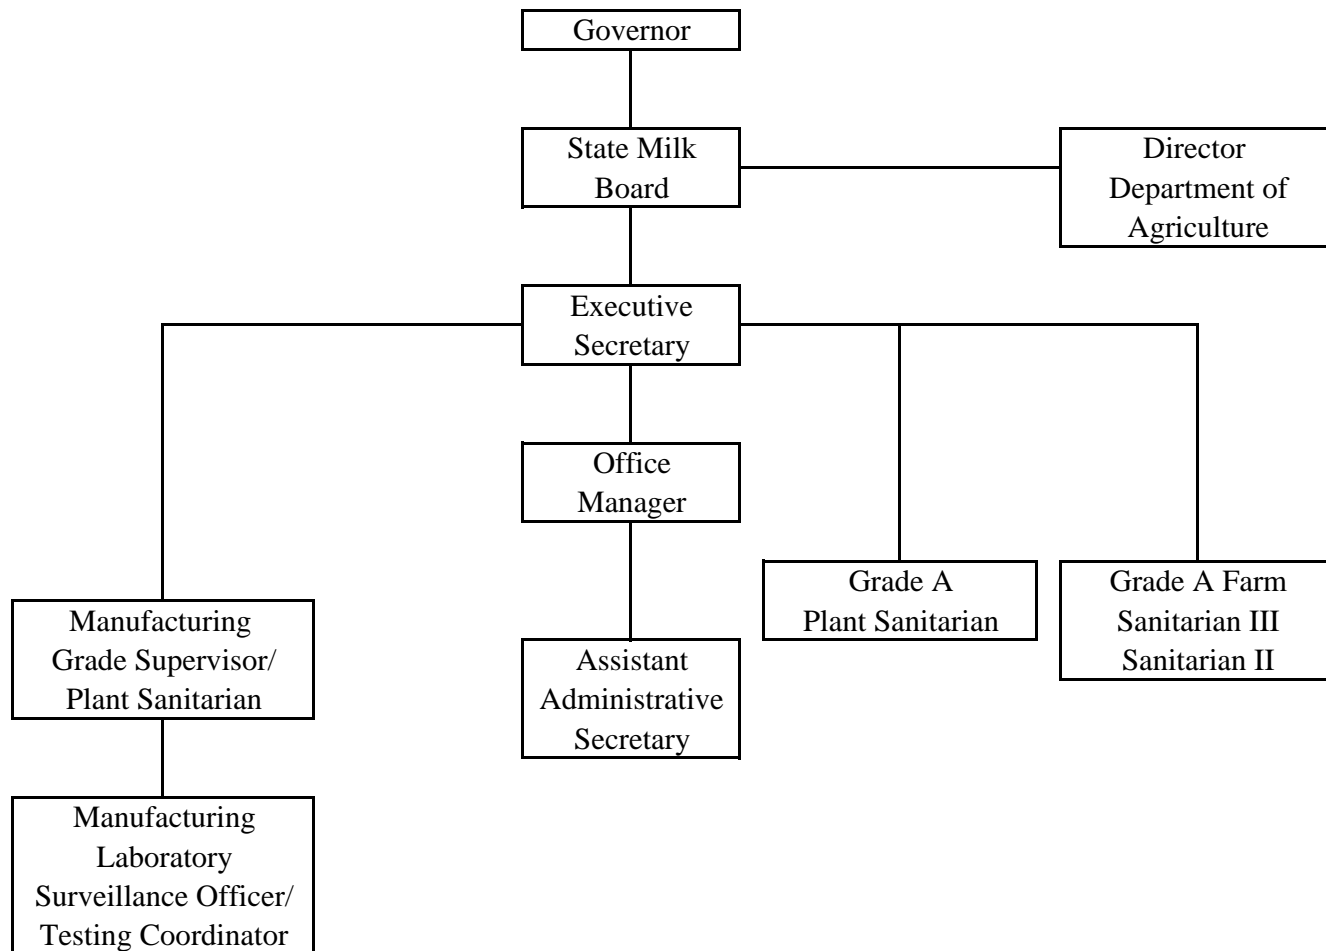

At June 30, 1999, State Milk Board members were as follows:

| <u>Name</u>               | <u>Organization</u>                            | <u>Term Expires</u> |
|---------------------------|--|---------------------|

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

July 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Shelby, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of Shelby County included additional areas of county operations, as well as the elected county officials. The following concerns were noted as part of the audit:

- The county imposed a sales tax under Section 67.547, RSMo 1994, (a general sales tax) for the purpose of establishing an enhanced 911 emergency telephone service; however, the county also has another one-half of one percent sales tax levy imposed under the same section of law. With this additional sales tax, the county is levying one percent under this section of law, which is apparently above the statutory maximum allowed by state law. The county could have submitted this issue to voters under a different section of state law.
- The county does not have a procedure in place to adequately track federal assistance for preparation of the schedule of expenditures of federal awards. Without an accurate schedule, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.
- One case handled by the Public Administrator has a promissory note receivable. Based upon information provided by the Public Administrator's attorney and the terms of the note, the balance reported as due was considerably understated on the annual settlement prepared by the Public Administrator.

(over)

YELLOW SHEET

It was noted that the Public Administrator inconsistently charges fees on various types of transactions and does not provide calculations of his fees to the Probate Court. There is no written policy identifying the types of monies received or transactions which should be considered as income.

Also included in the audit are recommendations to improve the county's federal cash management procedures, purchasing procedures and fixed asset records. Additional recommendations were made to improve controls in the County Collector and Public Administrator records.

**Copies of the audit are available upon request.**

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Shelby County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Shelby County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Shelby County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Shelby County.

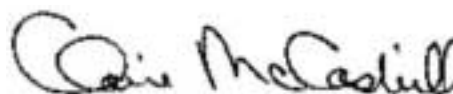

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Shelby County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated March 30, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the management of Shelby County, Missouri, and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" being more prominent than the last name "McCaskill".

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Shelby County, Missouri

We have audited the special-purpose financial statements of various funds of Shelby County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated March 30, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

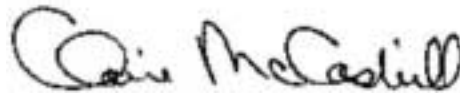

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Shelby County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance that is required to be reported under *Government Auditing Standards* and which is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1. We also noted certain immaterial instances of noncompliance, which we have reported to the management of the county in the accompanying Management Advisory Report.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Shelby County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over

financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses

This report is intended for the information of the management of Shelby County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor
